Nationwide®

An opportunity to maximize your retirement future

If you plan to rely solely on your pension and Social Security benefits for income, you could face a potential gap in your budget.

Your income gap could be nearly 40% at retirement. Here's why:

70% to 90%

Amount of your income at retirement that experts say you may need to maintain your standard of living in retirement¹

51%

Amount of current income a public pension may provide²

59

Age at which most public employees retire³; first responders tend to retire around age 55, well before the age to qualify for Social Security benefits⁴

Potentially making that gap even larger are other factors such as:

- Out-of-pocket medical costs
- Inflation
- Not qualifying for full benefits
- Outliving your resources
- Needing long-term care
- Planning for major trips and other activities

Why you should participate in your 457(b) plan:

• Flexible

Change your investment mix or contribution amount at any time.

• Automatic

Earnings are reinvested, harnessing the power of compounding.

• Accessible

You can withdraw 457(b) assets without penalty when you leave service or retire, regardless of your age.

• Easy

Payroll deduction means your contributions are automatic.

• Low-cost

Through group buying, we negotiate lower fund fees than individuals may be able to get on their own.

• Tax advantaged

Tax-deferred contributions give your account a chance to grow more quickly.⁵

Roth after-tax contributions allow you to plan for tax-free retirement income.⁶

• Portable

If you leave your job, you may be able to roll your assets into another eligible retirement plan or IRA.

Why join now?

The secret ingredient of long-term savings is time.

The more time you give your savings to potentially grow, the easier it is to contribute enough per pay period to potentially meet your future needs.

How much should you save?

While this decision is unique to each employee, we offer two online tools that can help you decide:
