To the Honorable Board of Commissioners

We. the undersigned Viewers. who were appointed by your honorable body at your regular May Term 1904. to view a proposed highway, as petitioned for by Theo. J. Munbach et al have discharged the duty assigned us. and submit to you the following report. towit:
We met as directed in the order hereunto attached and made a part hereof. and after being duly qualified as appears therein. proceeded to view such proposed highway in the manner as by law. prescribed. which by route and bounds and course and distance is as follows towit:
The said proposed highway to be 35 feet in width and commences at a point where the section line dividing Sections 16 and 21. Township 5. South, Range 10. West. intersects what is commonly known as the Browning Road. and running thence west along said Section line about 1/2 miles to a point where the

aforesaid section line intersects what is commonly known as the Princeton or State Road. Said proposed Highway will be on the line dividing Center and Scott Townships and will pass along upon and over the lands of the following named persons. to-wit: Joseph W. Titzer Theodore Umbach Christopher Niedhammer, John W. Buettman Evansville & Terre Haute Railway Co. Joseph W. Knowles. Bernhard Umbach Andrew J. Regener. Chas. S. Compton Anton B. Rode Joseph Ruston occupant. Louisa Korff occupant.

We find that said proposed highway be of a great expense to the County to be constructed and to keep in repair for the following reasons.

1st. Several Bridges and several culverts are to be built.

2d A fill with Bridge or culvert on both sides of the Evansville & T. H. R R. track would be necessary to crossing said R.-R. track which Railroad bed is about five to six feet high over & above the surface of the land, along both sides of said R. R. track.

3d Several of the land owners must be paid damages.

Therefore we are of the opinion that said highway would not be of public utility.

Wherefore this Remonstrant respectfully asks this Honorable Board to appoint three disinterested free holders as viewers to review said highway and assess the damages occasioned to this Remonstrant, by reason of the location thereof.

Came now the Board of County Charities and submit to the Board. the following report. towit.:

Evansville Ind. March. 16. 1905.

The Board of County Charities made its quarterly visit to the Vanderburgh County's benevolent institutions March 16. 1905. and beg to submit for your consideration the following report:

County Infirmary:

We found the buildings in good condition. We would recommend that the hospital wards be screened at once. We also think for humane, as well as sanitary reasons all the main buildings should be screened. The water supply is sufficient and pressure fair. We are informed the heating apparatus has given entire satisfaction during the past very severe winter. The superintendent reports as follows. for the first of March: Total number in home 87. males 57 females 30; white males 45. white females 19. Colored males 12. colored females 11. Insane 23; white males 5. White females. 5. colored males 5. Colored females 8. Epileptic 11. White males 3. white females 2. Colored males 3. colored females 3. Died during last quarter 3. Sick at present. 15. General department of the inmates. fair. Hired help 7. males 4; females 3. Horses 2. Mules 4. cows 12. heifers 4. Slaughtered 6. 432 pounds pork. Four patients are at times uncontrollable. Sunday service held every two weeks.

County Jail.

We found 58 prisoners in the county jail. White males 31. Colored males 18. white females 2. colored females 7. We cannot too severely condemn a system that allows so many able bodied men to remain in idleness, and renew our recommendation for a work house. We noticed lack of system about this place that we cannot excuse. The corridors were not as cleane as they should have been, while the cells were slovenly looking and untidy. With 58 healthy looking men and women lounging idly around the place should at

least present a clean and neat appearance.

City Lockup.

We found the city lockup vacant and in good sanitary condition

Children's Guardian's Home.

We found in this home 20 children, ten boys and ten girls. Fourteen attend school. The oldest child is 14 years old. the youngest under 3. No sickness in the home.

Colored Orphans' Home.

In this institution there are at present 20 children, 12 girls. 8 boys. Twelve are in school, one in sick ward. Considerable work should be done at this place. The roof of the main building leaks in several places. Stable generally run down. Water pressure very poor. The furnace is out of order and has been all winter. These needs should have your prompt attention to save the county further expense.

White Orphan Asylum:

The matron reported thirty seven children here. 20 boys. 17 girls. 33 attend school: one sick. Roof on main building needs repair. Several of the rooms should have old plastering taken off and replaced or patching done. Considerable painting should be done. especially hall floor and porches. The floor covering in front hall should be replaced with a new one or the floor painted. Two of the cisterns are reported in very condition and should have prompt attention.

W. F. Hartig.
George W. Goodge
Wm Warren.

To the Honorable Board of Commissioners.

On motion the report was received and ordered filed.

On motion the Board adjourned sine die

And in case the physician shall prescribe a certain diet for any patient such diet shall be supplied as prescribed.

7

Said party of the third part is to superintend, care for and operate said hospital, the buildings, grounds and appurtenances connected therewith in a diligent and careful manner; to maintain the same in a perfectly sanitary condition, to give strict attention to the wants and needs of the patients confined therein, and otherwise conduct said hospital under the direction of the Board of Health of Vanderburgh County, and the Board of Health of the City of Evansville, Indiana, and in all respects agreeable to the requirements of the State Board of Health of the State of Indiana, now in force or hereafter adopted, and to give his entire time and attention to the discharge of the duties and performances of the obligations in this contract assumed.

8

It is further agreed that said County shall furnish a vehicle to be used for the transportation of patients to such hospital, and that said city shall furnish another vehicle to be used only for the purpose of the transportation of patients from said hospital. And it is specifically understood between all the parties hereto that the vehicle used for the transportation of patients to said hospital, is not to be used for any other purpose whatsoever, except as otherwise herein provided

9.

The vehicle to be used for the transportation of patients to said hospital as provided for in Section 8 of this contract, shall have painted on each side in large letters, the word "Small pox." Said vehicle and no other shall be used by said superintendent for the removal of the bodies of deceased patients to the place of interment, and when on the public highways such vehicle shall at al times be kept closed. In case of death of a patient it shall be the duty of said party of the third part to prepare the body for burial and to convey the same to the cemetery, and to superintend the interment.

10.

Said party of the third part shall keep a full, true and complete record of any and all patients admitted to said hospital, including the name, age, color, sex, and residence of each patient, whether from within the limits of the City of Evansville, or from the Town of Howell, or from the County outside the limits of said city or town; the date when, and from what place

admitted, the date of discharge or death of such patient. And it shall be his duty to render to the secretaries of the Boards of Health of said city and county on the first day of each month, a detailed report or copy of such record (upon blanks prepared and furnished by said secretaries) for the month preceding such report.

11.

Said party of the third part shall keep a full, complete and accurate record of all supplies of every kind whatever received at said hospital, which said record shall contain the articles purchased, the amount or number thereof, when and from whom purchased, and the price at which furnished, and it shall be his duty on the first day of each month to render a copy of said report to said city and county for the preceding month.

12.

It is further agreed that said city and county will supply said hospital with all the necessary and needful disinfectants, coal, groceries and other proper and necessary supplies: provided, however, that all bills for such supplies must be verified by the person, company or corporation furnishing the same, approved by the secretaries of the Board of Health of said city and county and by such superintendent, party of the third part: and provided, further, that said city and county will not pay for such supplies (exclusive of disinfectants, coal and bedding,) an amount to exceed fifty cents per day for each patient and employee of such hospital, and in event such supplies in anyone month exceed such an amount, then the balance of the cost thereof is to be paid by the said party of the third part.

13.

Said county and city agree to pay the party of the third part in full consideration of all his services herein agreed to be performed, the sum of Two Thousand Dollars per annum, payable monthly.

14.

It is further agreed that as part of the consideration for his services, in addition to the salary and pay of the party of the third part, he shall have the use of the land upon which the said hospital is situated without the

payment of any rentals therefor, and that he may cultivate the land for his own use and benefit: provided, that he shall use the property well, and cultivate the same in a husband-like manner, and keep the same in as good condition as it now is, and that he shall do the same at his own expense, and that the parties of the first part and of the second part shall neither of them be liable for any expense connected with the cultivation of said land.

15.

The said county and city agree to pay the salary of said party of the third part as follows: The said county shall pay $33-1/3 at the end of each month, and the said city shall pay $133 1/3 at the end of each month.

16.

At the end of each year an accounting shall be had between the said county and city, according to the number of patients at the detention hospital from the county outside the city and incorporated towns, and the number from within the limits of the city of Evansville, and the number of days such patients were cared for at the hospital. If it shall appear that the county or the city shall have paid more than its proportion of the salary of said party of the third part, as shown by the number of patients at the hospital from the city and from the county during said year, then the county or the city shall be reimbursed to that extent and a settlement shall be had between the said county and city accordingly.

In witness whereof, the parties have hereunto set their hands and seals this 1st day of December 1905.

Board of Commissioners, Vanderburgh County, Indiana, Dec. 1. 1905.

comes now Herman C. Frick and with the Board of Commissioners of the County of Vanderburgh and with the Mayor and the City Board of Health of the City of Evansville enters into the following contract towit:

This Contract between Vanderburgh County, Indiana, party of the first part, the City of Evansville, Indiana, party of the second part, and Herman C. Frick, party of the third part, entered into, this the 1st day of December 1905, with the object and purpose of preventing the spread of small pox in the City of Evansville, and in Vanderburgh County, Indiana and to the proper inspection of persons suspected of having been exposed to such contagion and properly quarantining such suspects and the removal of persons so exposed, to the detention hospital hereinafter referred to.

Witnesseth:-

1

It is agreed by and between the said county and city, on the one hand, and the said party of the third part on the other hand, that said party of the third part having been selected and appointed by the Board of Health of said County, shall undertake to do and perform the duties and services as physician of said hospital and other duties and services as physician of said hospital and other duties hereinafter set out, for a period of two years next following the date of this contract under the conditions, specifications, stipulations and considerations hereinafter set forth.

2.

The Secretary of the County Board of Health of said County, upon receipt of notice from any physician in Vanderburgh County of a case of small pox in Vanderburgh County, or the Secretary of the City Board of Health, of the City of Evansville upon the receipt of such notice of a case of small pox in the City of Evansville may at once order the superintendent of the Pest House or detention hospital to remove such person to such Pest House, or such person may be ordered so to be removed by the said party of the third part, after an examination of the person so suspected. If, after such examination said party of the third part reports the person suspected, to be suffering from small pox, and his location is such as to endanger public health, such person shall

at once be removed by said Superintendent to said Pest House. However, if after the examination of the person suspected, the said party of the third part reports such person to be suffering from small pox, but that his location is not such as to endanger public health, and his financial condition is such as to enable him to obtain medical assistance and necessaries of life, neither the Secretary nor said party of the third part shall order such person removed to the Pest House, but shall establish a quarantine.

3.

It is understood that the Secretary of the County Board of Health shall act in cases of suspects within the County of Vanderburgh, but not within the City of Evansville, nor any incorporated town of said county, and that the secretary of the Board of Health of the City of Evansville shall act only in the case of such suspects within the City of Evansville, but that the said party of the third part is to perform the duties herein prescribed and enumerated in all cases in Vanderburgh County, except such as may be found in an incorporated town in Vanderburgh County.

4.

In all cases where there has been an exposure or suspected exposure to smallpox of any person residing either temporarily or permanently in said city of said county and not within the corporate limits of any town therein, it shall be the duty of the said party of the third part, under direction of the proper secretary as hereinabove described, to quarantine for fourteen (14) days such person or persons as may be exposed or suspected of having been exposed to small pox, and to vaccinate all persons who may have been thus exposed.

5.

If the proper secretary or the said party of the third part, upon investigation, find that the location of any person suffering from small pox who resides either temporarily or permanently within the City of Evansville or in Vanderburgh County (and not within the corporate limits of any town therein) is such as not to endanger the public health, and that such person is able financially to obtain medical attention and the necessaries of life, the said party of the third part shall establish and maintain a quarantine of

such person, or persons and of all other persons suspected of having been exposed, for a period of fourteen (14) days after the termination of the contagious stage of said disease.

6

It shall be the duty of the party of the third part to visit all persons quarantined while said quarantine is maintained and as often as is deemed necessary by the secretary of the Board of Health of Vanderburgh County or by the secretary of the Board of Health of Evansville, as the case may be. He shall also report to such secretary any and all new cases of small pox occurring in quarantine, and shall report to the secretary when all persons so quarantined are recovered or clear of small pox. It shall be his further duty to render all necessary and proper medical attention to all persons so quarantined and for that purpose shall make as many and as frequent visits as is necessary and proper for the treatment thereof.

7

Upon the appearance of smallpox and its existance either within the said city or county and the admission of a patient or patients to the pest house, the said party of the third part shall perform all the duties as physician in charge of said pest house, and shall make daily visits to said pest house or oftener if the condition of the patient require it or if either of said secretaries so direct, such visit to be continued until all the patients are discharged.

8

Said party of the third part shall have entire control under the direction of the secretaries of said Boards of Health of the medical treatment of the patients and the general direction and management of the sick wards subject to such rules and regulations as the said Boards of Health may from time to time impose.

9

He shall have control of the nursing of patients and shall promptly report to said secretaries any neglect or ill treatment of patients or any irregularity committed by the superintendent or by anyone else connected with the institution.

10.

He shall record the name of every patient, with the date of admission, place of residence, age, sex, color, nativity, occupation, disease, and the date of discharge or death, and such other matters as he or said secretaries may consider important or necessary. He shall on the first day of each month, render a report to each of said secretaries, stating the number and dates of visits he has made, the number of patients admitted and discharged, or that have died, with the date of such admission, discharge or death: giving the name, sex, color and disease for the month immediately preceding such report. He shall also include in such report such other and further information as he or said secretaries may think necessary or proper. These monthly reports are intended to contain such information as will advise said secretaries, and through them, said city and county as to the smallpox situation in said city and county.

11.

Said County and City shall furnish all medicines and medical supplies for the treatment of patients confined in said pest house or detention hospital in the same manner that other supplies are furnished for said hospital, and pay for the same in proportion to the number of patients for the said city and county.

12.

The city shall furnish all medicine and medical supplies for the treatment of patients quarantined within the city, and the county shall furnish all medicines and medical supplies for patients in quarantine in said County outside the city of Evansville and incorporated towns.

13.

In the event the work of the said party of the third part should, in the judgement of said Boards of Health and of said party of the third part, become too great for the careful and proper attention of the party of the third part alone, then the said party of the third part is to employ at his own expense, one or more reputable physicians of Vanderburgh County to assist him in said work.

14.

As full compensation for all services rendered by the said party of the third part, under the terms of this contract,

the said city and county agree to pay the said party of the third part the sum of One Thousand Five Hundred Dollars. ($1500) per annum. payable monthly.

15.

The party of the first part and the party of the second part shall pay said salary to the party of the third part in the following proportions, to wit: The party of the first part shall pay $25.00 per month and the party of the second part shall pay $100.00 per month.

16.

At the end of each year an accounting shall be had between the party of the first part and the party of the second part according to the number of patients treated by said party of the third part, and the number of visits to each patient, and if it shall appear that either party shall have paid more than its proportion of the salary of said party of the third part it shall be reimbursed to that extent and a settlement shall be had between the said parties accordingly.

17.

The party of the third part agrees to perform all duties of a deputy health officer for said county and city as prescribed by the rules of the State Board of Health. as they now are or as they may be revised or amended at any time during the term of this contract.

In witness whereof, the parties have hereunto set their hands and seals this 1st day of December, 1905.
