EWSU will host a Public Input Meeting for the Design and Construction of the Effluent Pump Station

EVANSVILLE, Ind. – The Evansville Water and Sewer Utility will host a Public Input Meeting for the Design and Construction of the Effluent Pump Station. The meeting is on Tuesday, May 2nd, at the C.K. Newsome Center from 5:00 p.m. - 7:00 p.m. The intent of the meeting is to gather community input on the amenities to be enjoyed by the public as a result of the restoration work involved with the construction of the pump station. The pump station is proposed to be built within a corridor of existing pipe that includes Sunset Park, Sunrise Park and Kids Kingdom. Due to the proximity of these parks to the effluent pump station, public input is highly sought.
