Narratives

Areas of Greatest Need:

The City of Evansville analyzed four data sets provided by HUD: risk of foreclosure, subprime loans, foreclosure rates and vacancy rates, by utilizing Geographic Information Systems (GIS) computer mapping software. The eligible census block groups were mapped with each of the data sets. The boundaries of existing focus areas (CDBG Focus Area and Front Door Pride area) were then compared to the block group data, to determine the geographic areas of greatest need within the City. In general, this methodology concluded that the areas of greatest need are the same as the City's already defined focus areas, which includes census tracts 11, 12, 13, 14, 15, 17, 19, 220, 21,25 and 26. The focus areas are identified in the City of Evansville's 2005 – 2009 Consolidated Plan, which details the resources and activities funded with Community Development Block Grants, Emergency Shelter Grants and HOME Investment Partnership funds. It was noted during this analysis that some census tracts appear to have fewer foreclosures, lower risk of foreclosures and fewer subprime mortgages due to the high number of rental units. In addition, a large percentage of the homes in these "high risk" census tracts have elderly homeowners with no mortgages, thus foreclosures and subprime mortgage data may be skewed. This was determined previously by reviewing property tax exemption data (i.e. Over 65 and homestead exemptions). Also, through local Code Enforcement data, evidence of greater vacancy rates exists in these census tracts. Therefore in reality, the neighborhood housing status is in greater decline than the tables reflect. The information above and past analysis of the housing needs within the city of Evansville indicate that the areas of greatest need for NSP will continue within the predetermined focus areas. Although some of the activities may fall in other eligible census tract block groups.

Distribution and and Uses of Funds:

The City of Evansville will address NSP requirements for the distribution and uses of the \$3.6 million allocated to the City through a combination of financing mechanisms for home buyers, acquisition of foreclosed homes, demolition of blighted structures and rehabilitation and new construction programs within the target areas. Financing mechanisms will utilize \$400,000 of NSP funds to aid homebuyers between 80 and 120% AMI by providing funds to "buy down" mortgages for previously foreclosed on and subsequently reduce the need for these borrowers to resort to subprime mortgages for financing homes. The Department of Metropolitan Development already partners with Community Action Program of Evansville (CAPE) and HOPE of Evansville to provide down payment assistance. NSP funds will be used to supplement the \$5,000 maximum down payment currently available to cover the gap between development costs and actual appraised values. This program will not only eliminate subprime mortgages but will also address the foreclosure risk and rates by aiding new homebuyers with lower mortgage payments. Five hundred thousand dollars has been earmarked for demolition of blighted structures in the Evansville NSP expenditure plan. Funds will be used by City Code Enforcement to remove slum and blight throughout the numerous eligible census tract block groups. High vacancy rates and the elevated number of abandoned homes are contributing factors to the decline of neighborhoods, further exacerbating the decline of property values. Prior program evaluations reveal poor construction of homes, older declining housing stock, sub-standard/non-existent maintenance, etc. in the eligible block groups. The elimination of blighted housing will increase the overall value of the housing stock and increase property values in the eligible neighborhoods and decrease the likelihood of abandonment. It is estimated that 75 – 100 blighted homes will be demolished with NSP funds. Acquisition of foreclosed properties will be conducted by the Evansville Redevelopment Commission (ERC) and Evansville Brownfields Corp. (EBC). This component will utilize \$400,000 of NSP funds. Property foreclosures are completed after sheriff sales and typically it is the mortgage holder who buys the foreclosed property at the sheriff sales. Therefore, both the ERC and EBC will use GIS software to map the location of all properties listed for sheriff sales. Those properties within the eligible block groups will be evaluated for potential acquisition from the likely buyer (mortgage holder). Lenders will be contacted regarding their foreclosed properties within the target areas, these properties will be earmarked for potential acquisition. The bulk of the City NSP funding, \$1.9 million, will be for rehabilitation of existing homes and new home construction to improve the overall appeal of the targeted areas and increase marketable housing stock. The result will be increased mixed income neighborhoods, higher housing values, stable homeownership via competitive fixed rate mortgages and reasonable terms, etc. These actions will dilute the

foreclosure rate, minimize subprime mortgages and decrease the foreclosure risk, while actively removing foreclosed properties from the current inventory. A minimum of \$901,301 of these funds will be utilized to provide rental and homeownership opportunities to families at or below 50% AMI. The rehabilitation and new construction will be managed both in-house by DMD staff, as well as with partner entities such as the Affordable Housing Task Force (for low income and special populations) and market rate housing by private entities and non-profit agencies.

| NSP Only - LH - 25% Set-Aside | \$901,301.00 | \$945,076.00 |

Overall Progress Narrative:

Evansville completed the expenditure deadline on time and received the Congratulations letter. We received an updated approval to the action plan in order to expedite the sale of 807 E Chandler a rehab using \$1875 to pay closing costs. There are only two more homes to sell that used NSP money for rehab/reconstruction and both have shown an uptick in interest this month so we anticipate beneficiaries in them soon.

Activity Description:

Funds will be utilized to demolish blighted structures to improve neighborhood appearance. Property resulting from demolition will be maintained by the City to assure they do not become a public nuisance, and will ultimately be utilized for infill housing or green space for adjacent properties.

Location Description:

Front Door Pride target area for demolition is located near downtown Evansville. The area consists of portions of Census Tracts 17, 12 and 11.

Activity Description:

Funds will be used to construct two homes in the jacobsville redevelopment area to be sold to very low income families at 100 and 102 Read Street..

Location Description:

Jacobsville Redevelopment Area

Activity Progress Narrative:

edited to account for missed expenditure from 12/2102 QPR
Both homes have occupants with qualified buyers but due to quiet title issues closing was delayed. ECHO director says closing will take place first week of May.

Activity Description:

Funds will be used to acquire a foreclosed property in the historic Bayard Park area. Property will be rehabilitated and sold to a family at or below 120% AMI.

Location Description:

Bayard Park Historic District

Activity Progress Narrative:

The only change we made to this activity was to move \$1875 from demolition that was left over to accomplish the closing of the sale of 807 E Chandler. The funds will be used to pay closing costs. The bank says it will be closed the first week of May. The buyer is 105% AMI. FHA is the lender through a local bank who has underwritten several subsidized homes.

Activity Description:

Funds will be used to construct one home in the Glenwood Redevelopment area at 1700/1702 S. Elliot to a family at or below 50% AMI.

Location Description:

Glenwood Redevelopment Area

Activity Progress Narrative:

There have been several close calls on sale of this property but the difficulty in obtaining a mortgage at 50% AMI has been a stumbling block. The home may be placed in long term rental. Developer will make that decision shortly.

Activity Description:

Properties to be demolished are blighted structures, located in census tracts 12 and 13, both low mod census tracts and both are immediate dangers to area health and safety. The Swanson Nunn property will have extensive environmental remediation and a lawsuit will soon be settled for over \$1 million dollars with the insurance company for remediation. The Rosencranz is a blighted apartment building that has long been abandoned and in danger of collapse.

Location Description:

Properties are located in census tracts 12 and 13, both low mod income tracts and in our focus area.

Activity Progress Narrative:

demolished the Rosencranz apartment building 801 SE 6th st.
