Saturday Morning January 7, 1899.

The Board of Commissioners of the County of Vanderburgh met in their room this day pursuant to adjournment when present John G. Paine. William Elliott and Jacob Detrey members composing said Board.

The minutes were read and approved

This being the time set for opening bids for new tin guttering down spouts ect. for the County Hospital. come now various parties and submit their bids for said work. and the Board after carefully examining said bids find that the bid of J. J. Groeninger & Co is the lowest and best. Therefore on motion the Board awarded the contract for said work to J. J. Groeninger & Co. for the sum of $59.00

In the matter of the issue of Refunding Bonds of the County of Vanderburgh in and for the sum of Eighty Thousand Dollars ($80.000.00) and their sale to pay outstanding Bonds of the County of Vanderburgh, dated May 1st 1889, for the sum of One hundred thousand dollars.

Whereas, the principal of certain bonds of the County of Vanderburgh, in and for the sum of one hundred thousand dollars ($100.000.00) dated May 1, 1889. payable to bearer, at the Farmers Loan & Trust Company in the City of New York, State of New York due and payable fifteen (15) years after date. in and for the sum of one thousand dollars ($1000.00) each with interest thereon at the rate of five per cent. per annum, payable semi-annually on the first day of May and the first day of November of each year. can at the option of the County of Vanderburgh be taken up. paid and discharged on the first day of May, 1899.

And the Board of Commissioners of Vanderburgh County after full discussion and consideration of the desirability of paying said bonded indebtedness. finds that it is desirable to take up. pay and discharge on the

first day of May 1899. the above described bonded indebtedness in the amount of one hundred thousand dollars ($100.000.00)

It is therefore ordered by the Board of Commissioners of the County of Vanderburgh, State of Indiana.

Section 1. That the County of Vanderburgh shall take up pay and discharge the principal of its indebtedness upon certain bonds of the County of Vanderburgh, in and for the sum of one hundred thousand dollars ($100.000.00) dated May 1st 1889. payable to bearer at the Farmers' Loan & Trust Company. in the City of New York State of New York. due and payable fifteen (15) years after date in and for the sum of one thousand dollars ($1000.00) each. with interest at the rate of five per cent. per annum. payable semi-annually on the first day of May and the first day of November. of each year. said bonds containing the provision that they are payable at the option of the County of Vanderburgh on or after the first day of May. 1899.

Section 2. Whereas. the County of Vanderburgh will have in its treasury twenty thousand dollars ($20.000.00) that can upon the first day of May 1899. be applied to the payment of the principal of the bonds above described. and. whereas. the revenues afforded by reasonable taxation are insufficient to pay the remainder of the principal of said bonds by the 1st day of May 1899.

Now therefore. in order to take up. discharge. and pay the entire amount of the bonded indebtedness described in Section one. it is hereby ordered by the Board of Commissioners of the County of Vanderburgh that the County of Vanderburgh issue refunding bonds in and for the sum of eighty thousand dollars ($80.000.00) to be called refunding bonds of the County of Vanderburgh. Said bonds shall be numbered from one (1) to eighty (80) inclusive. To each of said bonds shall be attached thirty(30) coupons each for a semi-annual installement of interest on the said bond, the said Bonds to be sold at not less than par for the purpose of raising funds to pay the aforesaid bonded indebtedness:

Now, therefore it is hereby resolved that the said Board of Commissioners of the County of Vanderburgh will, at two o'clock p. m., upon the 16th day of February, 1899, at their room in the court house at Evansville, Indiana, entertain bids for the sale of the bonds described in section two, upon the conditions following:

A communication from the Secretary of the Board of State Charities was read, and on motion the same was received and taken under advisement.

Comes now the Judge of the Circuit Court and presents to the Board the report of the Grand Jury. March Term 1899. which is as follows. towit:

State of Indiana } SS: Circuit Court
Vanderburgh County } March Term. 1899.

Hon. Hamilton A. Mattison,
Judge of the Vanderburgh Circuit Court.

The Grand Jury for the March Term of this Court now make report to the Judge of this Court that all complaints for violations of the law of all Kinds and character of which this Grand Jury has had any Knowledge have been investigated and bills returned where, in the opinion of the Grand Jury, the evidence would warrant the same. We have visited the penal and charitable institutions of the county and upon such institutions report the following:-

Poor Asylum.

We find this institution in good condition and that its inmates are being well and properly cared for under the management of the Superintendent Henry Boeke and Mrs. Boeke, matron. The superintendent of this institution wants a space of ground including probably one-fourth to one half acre, properly fenced for the purpose of reserving the same for insane inmates not dangerous. At present there is no plot of ground where persons of this class can be given such out door exercise

as they should have without coming into contact with the other inmates of the institution and in warm weather it is very essential that there be some place where inmates of the character above described can be kept out of the building in the open air, which at present can not be done. We are of the opinion that this request of the superintendent be granted and that at once.

Orphan Asylum (White)

This institution we report in good condition, inmates well and properly cared for. We recommend the repair of the water closet and sewerage connections. this is a matter which should be promptly attended to; and we also recommend that the matron's room be papered.

Orphan Asylum (Colored)

We report this institution in good condition and that the inmates of the same are well and properly cared for. We have no recommendations to make as to this institution but the road, namely Barker Avenue, in front of the premises of this institution, was at the time we visited the same in a deplorable condition, making it almost a matter of impossibility for delivery wagons to enter the premises, and the same should be given prompt attention and the improvement of such permanent character as will prevent a recurrence of this trouble.

Jail.

At the County Jail, we recommend that a screen be placed inside the corridor along the hallway, which will prevent visitors from passing anything to inmates of the Jail. We also recommend that screens for the same purpose be placed in front of the windows, and we further recommend that the skylight be barred from the inside. These improvements we think necessary for the reason that persons so desiring may now pass anything they choose to the prisoners, through the windows, or if the visitors let into the jail corridor may hold such conversations and pass anything they may choose to do. to the

prisoners through the cell work separating the jail from the hallway or entrance

Lewis L. Van Duzen.
Foreman Grand Jury.

On motion the report was received and ordered spread of record.

The Board examined and cancelled orders paid and redeemed by the County Treasurer during the month of March. 1899. which orders have been filed and registered in the office of the County Auditor. And the Board find that Charles F. H. Laval County Treasurer is entitled to a credit of $23.655.56. for County orders redeemed. and to a further credit of $157.80 for Gravel Road Orders redeemed.

The Board. signed the Bonds issued under Resolution of the Commissioners of January 16. 1899.

To the Honorable Board of County
Commissioners of Vanderburgh County;

Gentlemen:

We, the undersigned petitioners, respectfully show that there is a vacancy in the office of Justice of the Peace in Perry Township in said County. That the Town of Howell is situated in said County; that the same is an incorporated town, having a complete town government with all officers necessary to carry on its business, and that it would be greatly to the advantage of the said town and its inhabitants to have the Justice of the Peace for Perry Township living in said town:

They therefore respectfully ask your honorable body to appoint Dawson W. Jones a Justice of the Peace to fill the vacancy in said Township

George H. Grossman
and 6 others.

And it appearing to the Board that there is now a vacancy in the office of Justice of the Peace of Perry Township. On motion it is ordered that Dawson W. Jones be and he is hereby appointed

Justice of the Peace of Perry Township to fill the vacancy now existing in such office, and to hold the same until his successor is duly elected and qualified.

Comes now the Clerk of the Circuit Court and presents to the Board a copy of the final report of the Grand Jury for the June Term of said Court which report is as follows, towit:

Vanderburgh Circuit Court
June Term 1899.

To the Hon. H. A. Mattison Judge.

The Grand Jurors for the June Term respectfully submit this our final report and pray our discharge.

We have inspected the County Infirmary and find this institution in good condition, inmates well cared for and no repairs necessary.

Orphan Asylum - White.

The children are well provided for; neat in appearance and enjoying excellent health.

There should be a new floor placed in the bed rooms as the present floors are splintered, thereby making it a source of annoyance to the children: this institution should have a water closet placed in the house, as the present privy vault is a nuisance that cannot be repaired.

Orphan Asylum - Colored.

This institution is also well taken care of. The inmates are well provided for, and in good health. The institution needs a new outhouse and walk to the same, also a larger chicken house.

Court House

We recommend that the hallway in the basement of this building be renovated and painted.

There should be a room fitted up for future Grand Jurors more pleasant and impressive than the present one.

County Jail.

We recommend better arrangements for bathing facilities also a lattice screen on wall, separating Jail from Richardson Place

July Term, 1899, Saturday the 15th Day of July A. D. 1899.

We recommend a more efficient Work House system, which will enable the County to receive the earnings of the criminals, instead of maintaining them in ease and idleness, as at present

We find the County Jail in a clean and generally good condition, undoubtedly the prisoners are too well cared for, if the object of their confinement be to diminish crime, the practice of allowing prisoners the freedom of the Bull pen makes the jail much more attractive to habitual lawbreakers, than it should be, and we are of the opinion, that a very large majority of the time, of those confined in the jail, should be passed in the cells assigned to each.

We recommend the painting of the Galvanized iron cornice and down pipes of the jail, and that the office be painted some light color.

We earnestly request that the needed repairs at the Orphan Asylum be at once made, not only as a matter of decency, but also as a matter of economy as "a stitch in time saves nine".

We respectfully request that the City Authorities rigidly enforce the ordinance pertaining to junk dealers buying from minors.

We hereby recommend that the City Authorities be requested to instruct the Chief of Police to make report of any negligence on the part of any Saloon Keeper as regards expiration of State and County licenses, or change of ownership of saloon, as the City Schools derive the largest benefit from the liquor revenue.

The Grand Jury, feel it to be their duty to encourage and highly commend the ability and industry of Mr. Edgar Durre, the efficient Deputy Prosecuting Attorney, from the fact that without fear or favor he has aided this jury in ferreting out crime to an extent, that has rendered our unpleasant, though necessary duties, more effective

the thanks of all good and law-abiding citizens of the county should be his.

Feeling that we have faithfully and conscientously performed our arduous duties, as our oath required and thanking this honorable Court for its aid and assistance, we respectfully ask the acceptance of this report.

John C. McPhillips,
William N. Isaacs,
G. B. Bowen
Jesse G. Hubbard.
W. V. Duke.
Eb. Cross.

Respectfully referred to the Board of County Commissioners, with the earnest request that recommendation of the Grand Jury be complied with.

H. A. Mattison Judge.

We have made a careful examination of the premises liable to be benefitted by the construction of said proposed ditch. We also apportioned and set apart to each parcel of land, a share of said work, in proportion to the benefits received, and also of damages sustained, all of which will fully appear by a tabular statement in this report.

November Term, 1894, Monday the 20 Day of November A. D. 1894.

We find that the proposed work will be of great public benefit and utility; afford drainage for public highways, and improve the general health in that neighborhood, and that the cost of construction of same will be less than the benefits to be derived thereby.

We submit a map of the line of the proposed ditch, marked "Exhibit A." and a profile showing depth of cut width at top and base, and number of cubic yards in each one hundred feet marked "Exhibit B." which are made a part of this report.

The following apportionment shows who are benefitted, Price thereof per cubic yard and total estimated cost of each share.

Evansville Nov. 27. 1899.

And Whereas: the County Attorney N. J. Peckinpaugh after an investigation of said bonds and the financial condition of said County, reports that the bonds are issued legally and that said County is in a good condition financially; said report being as follows;

Evansville Ind. December 8. 1899.

Board of Commissioners of Vanderburgh County;

Gentlemen:-

I have made investigation of the bonds of the County of Roane, Tennessee of the denomination of $500.00 and aggregating $47,500.00, executed October 7, 1898, and found that the taxable value of said County is $4,500,000.00, as shown by the assessment of 1899. That in order to meet the $3,000.00 bonds due in 1899. and interest on entire issue in amount of $2.375.00. the Board in 1898 made a levy of ten cents on the dollar, which netted them $3,496.61. This levy is not sufficient to pay the interest on the entire issue and to meet the bonds which fell due in October 1899. and the County will therefore default on $2,000.00 of said bonds, but they have now made a levy of ten cents for principal and seven and one half cents for interest to raise funds for 1900. and the taxes are now being collected, which will net them about $7000.00 which will be more than enough to take up the bonds defaulted this year and to pay the bonds which will be due next year and also the interest on the remainder of the issue.

I consider this County in an excellant condition financially, with a taxable valuation of $4,500,000.00. a population of 20,000. they only have an outstanding debt of $96,000.00 and in view of the fact by unanimous vote of the County Court, they

increased the levy sufficient to meet the outstanding obligations as they fall due, convinces me that it is the purpose of these people to fulfill their obligations.

I also found that upon the levy of ten cents, which netted the County $3.49661. they had only a delinquency of $96.00. which is less than three per cent, a better showing, I believe, than is made by many counties in Indiana.

Very Respectfully yours.
H. J. Teckenpaugh
County Atty.

It is therefore ordered that the County of Vanderburgh accept the said proposition of E. G. Geiss to sell the bonds of the County of Roane, Tennessee, and the Auditor of the County of Vanderburgh upon delivery of the bonds as set forth in the proposition of E. G. Geiss, shall issue a warrant upon the Treasurer of the County of Vanderburgh in favor of E. G. Geiss for the sum of Five Thousand Four hundred and Fifty Dollars. $5450.00

On motion it was ordered that Louis N. Legler be allowed the sum of Sixteen hundred twenty five Dollars $1625 for services as County Auditor Quarter ending Nov 30, 1899.

The Board of Commissioners of the County of Vanderburgh met in their room this day pursuant to adjournment when present William Elliott, Jacob Detroy and Mark Grant members composing said Board.

The minutes were read and approved.

Comes now Charles Gorman Walker and presents to the Board the following notice.

To William Elliott, Jacob Detroy and Mark Grant, the Board of Commissioners of Vanderburgh County, and to Louis H. Legler, Auditor of said County:

Please take notice that Charles Gorman Walker tax payer of the County of Vanderburgh, and owner

of real estate which abuts on the highway, hereinafter described, appeals to the Vanderburgh Circuit Court from a decision and order of the Board of Commissioners of the County of Vanderburgh, made on the 7th day of December, 1899. by which decision and order the said Board of Commissioners grants to the Evansville and Southern Railway Company the right to use the roadway or highway, known as the Evansville and Newburgh Pike from the eastern boundary line of the City of Evansville to a point One hundred and fifty (150) feet east of the middle section road that forms the eastern boundary of the property of the Southern Hospital for Insane for a period of fifty years. Said Charles Gorman Walker herewith files his affidavit showing his interest in the matter so decided, and that he is aggrieved by such decision, and he also files herewith his bond, payable to the Commissioners of Vanderburgh County, in the sum of Two hundred and fifty Dollars ($250.-) with condition for the due prosecution of such appeal and the payment of all costs if the same shall be adjudged against said appellant.

Charles Gorman Walker
by Gilchrist & DeBruler
Attorneys.

State of Indiana
Vanderburgh County } ss;

Charles Gorman Walker being duly sworn, says that he has taken and takes herewith an appeal to the Vanderburgh Circuit Court from a decision and order of the Board of Commissioners of Vanderburgh County, in the State of Indiana, made on the 7th day of December 1899. by which decision said Board of Commissioners grants to the Evansville and Southern Railway Company the right to use the roadway or highway, known as the Evansville and Newburgh Pike, from the eastern boundary line of the City of Evansville to a point one hundred and fifty (150) feet east of the middle

section road that forms the eastern boundary of the property of the Southern Hospital for Insane for a period of fifty years.

Affiant further says that he has the following interest in the matter so decided: Affiant is and has been for more than two years last past a resident and a tax payer of the County of Vanderburgh. The portion of said highway known as the Evansville and Newburgh Pike, the use of which has been given by the decision above mentioned to said Evansville and Southern Railway Company, has heretofore been improved by the County of Vanderburgh by grading the same, by graveling and macadamizing the same at an expense of more than ten Thousand Dollars, and said portion of said highway is of the value to said Vanderburgh County and the taxpayers thereof of at least said sum of Ten Thousand Dollars.

By the order above mentioned, the use of the center of said highway has been given to said Railway Company and the center of said highway is the only portion thereof which has been macadamized, and by such action if said center of said highway is so used by the railroad of said Company, said highway, which is a much traveled thoroughfare will be greatly injured and will require large expenditures to put it in as good a condition as it now is.

Affiant further shows that he is the owner in fee simple of sixty eight hundreths acres of land which abuts on said portion of said highway for a distance of one hundred feet.

That the only highway that can be used by him without great inconvenience in going to the City of Evansville, to which place his business compels him to go almost daily, is the said portion of said highway, the use of which is so given to said Company. The use of the center of said highway by said railroad will greatly injure said highway and will to a large extent make said highway of no use to the citizens of Vanderburgh County and

especially to affiant. For such reasons he has an interest in the matter so decided and he is aggrieved by such decision.

Charles Gorman Walker.

Subscribed and sworn to before me,
this 23" day of December, 1899.

The Board of Commissioners of the County of Vanderburgh met in their room this day pursuant to adjournment when present Wm Elliott, Jacob Detroy and Mark Grant members composing said Board.

The minutes were read and approved.

On motion it was ordered by the Board that The Cumberland Telephone and Telegraph Co. be and they are hereby ordered to remove all lines, poles, wires ect. that have been placed by said company on the public highways of Vanderburgh County, without the consent of the Board of Commissioners, and if the said company do not have said lines, poles, wires ect. removed within thirty days. The Board will instruct the proper road officers to proceed to

remove them, and it is further ordered that a copy of the following notice be sent by mail to James E. Caldwell President and General Mgr. of said Company Nashville Tennessee and to C. A. Hunter Jr. Local Mgr. Evansville Indiana.

Dear Sir:-

When your Company first entered the City of Evansville, they granted to the City a certain number of telephones free of charge in consideration of the use of the streets and alleys of said city. Within the last three years the Cumberland Telephone & Telegraph Company has erected along the public highways of the County of Vanderburgh, outside of the City of Evansville, about forty miles of line, without obtaining from the Board of Commissioners of said County the right to use the highways for that purpose.

For the last few weeks we have been trying to make some arrangement with your agent here to obtain some concessions in the way of free telephone service for the various offices of the County, but have not received any proposition that we considered at all fair, in view of the concessions made to the City of Evansville, and also the amount of line that you have in the County.

As we have been unable to come to any terms with your representative, we hereby notify you to remove all lines, including poles, wire etc. that have been placed by your Company on any public highway in the County of Vanderburgh without the consent of the Board of Commissioners, and unless these lines are removed within thirty days, we will instruct the proper road officers to proceed to remove them. We are

Very Truly Yours.

In the matter of the proposed Extension of the Brandis and Crawford Ditch Knight Twp. } Re Viewers Report; Co portion reduced. Established

Now come J. W. Knowles. John C. Glaser and Joseph M. Ruston heretofore appointed Reviewers of the said Ditch and present their report in said matter in the words and figures following, to-wit:

To the Honorable Board of Commissioners
of Vanderburgh County Indiana:

We. the undersigned, appointed by this Court at its November Term 1899. to review a ditch described in the certified copy of a petition and order of Court for a ditch by George S. Carson and others. handed us by the Auditor, would represent that according to said order, we, on the day named therein, to-wit: the 1st day of Dec, 1899. in company with C. C. Fenning a civil engineer, made an accurate examination of the line of said proposed ditch from its source to its outlet. and have reviewed the action and report of the viewers.

The commencement & terminus of this ditch, and courses distances and location are the same as set forth in the Report of the Viewers made Oct: 16th 1899.

The line as above described. passes through the lands and along the lines of the following persons and corporations Wm Hooker. Joseph Fritsch, Elizabeth Warner. Henry Folz. Kate Koch. Peter Heberer. John Warner Jr. and Christina M. Rheinhardt.

We have made a careful examination of the premises liable to be benefited by the construction of said proposed ditch. We also apportioned and set apart to each parcel of land a share of said work. in proportion to the benefits received. and also of damages sustained. all of which will fully appear by a tabular statement in this report.

We find that the proposed work will be of great public benefit and utility: afford drainage for public highways. and improve the general health in that neighborhood. and that the cost of construction of same will be less than the benefits to be derived thereby.

We submit a map of the line of the proposed ditch. marked "Exhibit A." and a profile showing depth

All material excavated must be placed at least two (2) feet from the Banks of the Ditch, and openings to be left through such material. not more than two hundred (200) feet apart All stumps, trees and brush must be removed at least five (5) feet from the edge of the ditch.
We estimate the cost of construction of the proposed ditch as follows:

Earth Excavation	1879. cu. yds. @ 12¢ per yd.	$225.48.
Clearing and Grubbing		245.11.
Engineering. Advertising and Viewing.		209.56.

The ditch for nearly its entire distance being located in a drain or water course known as Licking Creek. the earth excavated must be deposited two feet outside the banks of said Creek and the entire width of the creek must be cleared, from bank to bank, and logs, brush roots and stumps must be burned if possible but if not burned must be deposited five feet away from the edge of the banks. The ditch is to be five feet in width on the bottom with slopes of one half to one.
We have made no change in the location, grade or work as laid out by the viewers. but have added some land to that previously assessed, and have reduced some of the former assessments to equalize the cost of the work amongst the owners of lands which in our judgement is benefitted by the construction of said ditch The former report of the Viewers with these exceptions we hereby approve.

Respectfully Submitted.

And it is now ordered that the said ditch be and the same is now established as described in the report of the Viewers, as amended by the ReViewers and revised by the County Commissioners. which apportionment as revised is as follows. to-wit:

Came now the Viewers heretofore appointed in the matter herein, and make their report in the words and figures following towit;

To The Honorable Board of Commissioners
of Vanderburgh County Indiana.

We. the undersigned Viewers, who were appointed by your honorable body at your regular July Term 1900. to view a proposed highway, as petitioned for by John Effinger et al have discharged the duty assigned us, and submit to your the following report, towit:

We met as directed in the order hereunto attached and made a part hereof, and after being duly qualified as appears therein proceeded to view such proposed highway in the manner as by law prescribed, which by routes and bounds, and course and distance is as follows, towit: The said proposed highway to be 30 feet in width and commences at a point at the west side of the Extension of St Joseph Avenue road at the south east corner of Section Eleven (11) Township Six (6) South. Range Eleven (11) west at the north east corner of Section Fourteen (14) Township Six (6) South, Range Eleven (11) West. on the Township line, dividing German and Perry Townships and running thence due west on said line dividing German and Perry Townships, about or near 3/4th of a mile, joining and coming out on the east side of the Little Cynthiana Road running over and upon the lands of John Effinger, Gustav Frantzetter, Rosa Mohr Peter Deitsch John Anderson, Mary Reynolds Allen

Reynolds. Flora Reynolds. William Reynolds Kate Hackner
And we are of the opinion that said highway would be of
public utility.

Respectfully Submitted,

And now comes Peter Deutsch by his attorney Louis O. Rasch
and files his remonstrances against the location of the pro-
posed highway in the words and figures following, towit:

State of Indiana

Before the Board of Commissioners
Vanderburgh County Indiana.

In the matter of the petition
of John Effinger et al
re. Extension of Allen Road.

The undersigned, Peter Deutsch, respectfully represents
to the board, that he is a resident freeholder of Vanderburgh
County Indiana, and resides along the highway herein propo-
sed to be located, which said highway is described as follows:
The said proposed highway to be thirty (30) feet in width and
commences on a point at the West side of the extension of
St. Joseph's Avenue road at the South East corner of
Section Eleven (11) Township Six (6) South, Range Eleven (11)
West at the North East corner of Section Fourteen (14) Town-
ship Six (6) South, Range Eleven West in the Township line
dividing German and Perry Townships, and running
thence due west on said line dividing German and Perry
Townships, about or near three fourths (3/4) of a mile
joining and coming out on the East side of the little
Cynthiana Road, running over and upon the lands
of John Effinger, Gustave Trautvetter, Rosa Mohr,
Peter Deutsch, John Anderson, Mary Reynolds, Allen
Reynolds, Flora Reynolds, William Reynolds and
Kate Hackner.

He avers that said Little Cynthiana road is only
about three quarters of a mile from said extension
of St. Joseph's Avenue Road, and that there is now

March Term, 189~~0~~1900. Thursday the 22 Day of March A. D. 189~~0~~1900.

opened and in constant use by the public, a certain public highway, known as the Buchanan Road, which runs substantially parallel with the proposed extension of Allen Road, and is located a little over one fourth of a mile south of the proposed road; that to open the proposed road in condition for travel, will require the building of a bridge about fifty (50) feet long over and across Locust Creek, which lies in the line of said proposed road, and also will require the building of a trussel or fill about one thousand (1000) feet long and Fifteen (15) to twenty (20) feet high; that said proposed road if opened will accomodate but few persons, and the expense of opening and keeping said highway in repair will far exceed the benefits to be derived from such highway by the public and that said highway will not be of public utility.

Wherefore this remonstrant prays that reviewers be appointed by the board to examine said proposed highway as to whether or not the same will be of public utility

Before the Board of Commissioners of Vanderburgh County Indiana.

In the matter of the petition of John Effinger et al in re Extension Allen Road }

The undersigned, Peter Deutsch, respectfully shows to the Board that he is a resident freeholder of Vanderburgh County and is the owner of land through which said proposed road will pass described as follows. A tract of land lying in German Township on the line dividing Perry and German Townships, abutting on the Little Cynthiana on the west, and being in the South East quarter of the South West quarter of Section Eleven (11) Township Six (6) South Range Eleven (11) West, containing Five (5) acres more or less, also a parcel of land in Perry Township abutting on said Townshipline on the North, and on said Little Cynthiana Road on the West containing Fifty seven (57) acres more or less. part of

said land being in the North West quarter of the North East quarter of Section Fourteen (14) Township Six (6) South Range Eleven (11) West, and part thereof being in North East quarter of the North East quarter of said section

That said proposed highway, as petitioned for and as laid out by the receivers appointed by this Board to-wit: Said proposed highway to be thirty (30) feet in width and commences at a point at the West side of the extension of St. Joseph's Avenue road at the South East corner of Section Eleven (11) Township Six (6) South Range Eleven (11) West, at the North East corner of Section Fourteen (14) Township Six (6) South, Range Eleven (11) west on the Township line dividing German and Perry Townships and running thence due west on said line dividing German and Perry Townships about or near three quarters of a mile joining and coming out on the East side of the Little Leynthiana Road, running over and upon the lands of John Effinger Gustave Trautvetter Rosa Mohr, Peter Deutsch, John Anderson, Mary Reynolds, Allen Reynolds Flora Reynolds, William Reynolds and Kate Hockner, will pass through the above described land of this remonstrant and by reason thereof will take from him a strip of land thirty (30) feet wide by nine hundred (900) feet long from this said tract of land, lying in German Township, leaving a strip of land about three hundred (300) feet wide by nine hundred (900) feet long, divided from the rest of his land by said proposed highway thirty (30) feet wide; that it will also take from him a strip of land Fifteen (15) feet wide by forty (40) acres in length from his parcel of land situate in Perry Township, that said land so taken is all garden land and very valuable for gardening, for which purpose said land is now being cultivated; that said road would seperate his barn and stable from the land upon which he resides, will pass over the place where he has heretofore erected a certain dwelling house, which is now situate in the line of said road; will pass over the place where he has erected a large corn crib which is now situate in the line of said road, and will

destroy and remove twelve (12) valuable fruit trees and a large number of grape vines.

Remonstrant says by the expenditure of a great deal of time, labor and capital, he has heretofore completed a system of tiling on his land, and that the main tile together with about five (5) lines of auxiliary tile runs through the entire length and breadth of his said land at right angles with said proposed road, and that by the opening of said road said tiling will become of little value; that part of said land is flat rendering tiling especially needy, but that by the opening of said road surplus water collecting on said land, its said drainage being interfered with, will force or cut out a creek or ditch through his land in Perry Township, and thereby damage said Fifty seven (57) acres in a large amount of money.

Remonstrant further says he has a valuable spring on his land in German Township, and by the proximity of said road to said spring the same will be destroyed and become valueless to him and his said farm, that by reason of the location of said highway as above laid out, and by reason of the injury to his farm, as herein alleged, he will be damaged in the sum of Two Thousand five hundred ($2500.00) dollars.

Wherefore said Peter Deutsch prays that the Board appoint three disinterested freeholders as reviewers to examine said proposed highway and assess the damages occasioned to this remonstrant by reason of the location thereof.

Louis O. Rasch.
Atty for Peter Deutsch,

And the Board having examined said remonstrances find the same to be in form as required by law It is therefore ordered that Alex Hilliard Joseph Ruston and John Staser all of Scott Township, be and they are now appointed Reviewers of said proposed highway for the purpose of passing upon the public utility of the same and also of assessing the damages if any that would be sustained by

the opening of the same. And it is further ordered that said Reviewers meet at the office of some Justice of the Peace in said County on Tuesday the 17th day of April 1900. at 9 o'clock. and after being duly qualified proceed to make such review and report the result thereof at the next regular term of this Board until which time this cause is continued.

On motion the Board adjourned to meet on Friday Morning March 23. 1900. at ten o'clock.

Also that the basement is not kept in good condition. being dark and the rendesvous of tramps and loafers. We recommend that it be kept in better order. well lighted and tramps excluded.

Jail.-

Second:- We find the County Jail is well kept and in good order and condition. We would respectfully recommend that an iron cage be constructed to the main entrance of the cells for the proper protection of the jailer and safety of the prisoners. We find that the iron doors of the wash house. in rear of Jail. are not securely constructed (two prisoners having lately broken out) and would recommend that they be made more secure.

March Term, 1890. Thursday the 29. Day of March A. D. 1900.

County Poor Asylum.

Third:- We find the general condition of the Asylum to be good clean and well kept, the food supplied being good and the same being satisfactory to the inmates as to quantity and quality.

Fourth:- With regard to the care and condition of the insane and semi-insane, we desire to recommend that suitable wards be furnished for them in the annex, thus enabling the warden to keep them in a more cleanly, healthy and sanitary condition, to which they are entitled. This would not only be a benefit to them but a betterment in the arrangements and general condition of the main building.

Fifth:- We also recommend that the insane patients should be placed in the Southern Hospital for the Insane, where better facilities are furnished for their care.

Sixth:- We further recommend that the Laundry and Bakery be merged together, enlarging the laundry which is necessary, and a new bakery be constructed outside of the main building. The bakery is now connected with the laundry, which should not be continued, being very objectionable for sanitary and other considerations. This change has been before recommended and should be made at once.

Seventh:- We do not consider the help adequate to give proper assistance to the Superintendent and recommend that additional help be hired in the discretion of the County Commissioners and the Superintendent, as the necessities may demand from time to time. We also recommend that the head cook should be an employee and not one of the inmates.

Eighth:- Water Supply. We find that the pump located at the spring is inadequate to supply the Asylum with the necessary amount of water for domestic use and recommend that steps be taken immediately to remedy this defect by replacing the small pump with one of sufficient capacity, as good water in large quantities is very essential to a good sanitary condition as well as for fire protection.

Ninth:- We find the grounds, stables out buildings and stock in good order and condition.

White Orphan Asylum

South: The Grand Jury take pleasure in reporting the condition of the asylum as being of the best. cleanliness and good order prevails and it is a home of which the County may be proud. We find the water supply inadequate to the requirements of the institution. Should the new Water Works, when in operation, fail to supply the demand, we recommend that immediate steps be taken to furnish the necessary supply.

Colored Orphan Asylum.

Eleventh:-We find the building in good order and well kept and a credit to the management. We find that the sleeping rooms of the children are not heated and in the name of humanity, we recommend that stoves be placed in them without delay or before the cold weather sets in. Also that a stove be placed in the chapel, as the grate is of no use for heating purposes. Also that a telephone be placed in the building believing it will be of great service in cases of emergency. The front steps are out of order and new steps should be put in without delay.

by those parties, who have been assessed by the viewers in said extension of said ditch, according to their report and finding.

Second: It is further agreed by all the parties hereto that when said extension shall have been constructed, that there shall be a re-apportionment for repairs and permanent mantainance of the entire ditch, including the original Nurrenbend Ditch and the extension thereof which re-apportionment shall be made by three disinterested freeholders and residents of Vanderburgh County Indiana to be appointed by the Board of Commissioners and who shall be assisted in their work and in making their report, by the surveyor of Vanderburgh County Indiana:

Third: The report of said persons so appointed shall be entered of record according to law and shall be valid and binding against each and all of us, and shall be a lien on the lands owned by each and all of us according to our respective apportionments, and according to law, the same as if proceedings were had in Court, and said apportionments established by legal proceedings.

and now here the County Auditor presents to the Board the report of the Viewers in the matter of the location of the extension of the Nurreubernd Ditch in Knight Township which said report was filed in his office on the 21st day of March 1900. and is in the words and figures following towit:

Viewers' Report of Extension of the Nurreubernd. Ditch,

To the Honorable Board of Commissioners
of Vanderburgh County Indiana:

We, the undersigned, appointed by this Court at its March Term 1900. to view a ditch described in the certified copy of a petition and order of Court for a ditch by M. J. Bray Jr. and others. handed us by the Auditor, would represent that according to said order, we, on the day named therein, towit: the 15th day of March 1900. in company with C. C. Deming a civil engineer, made an accurate survey of the line of said proposed ditch. from its source to its outlet. we caused stakes to be set along said line, each one hundred feet, numbering down stream, The route of the proposed ditch is described as follows:- Commencing on the south side of Lincoln Avenue and fifteen feet east of the west side of the south east quarter of Section 30, Town. 6 South, Range 9. West at Station 0. running thence north along the east side of Aikens Lane and parallel to and fifteen ft distant from the north and south center line of said section 30. to the south end of the Nurreubernd ditch to station 6 + 80. being a distance of 680 feet.

The line as above described, passes through the lands and along the lines of the following persons and corporations: M. J. Bray Jr. Wm J. Fuquay, Jane Agnes Barnett Alfred M. Collins. Robert S. Collins. Clara C Collins and Luna A. Collins and Lida Martin.

We have made a careful examination of the premises liable to be benefitted by the construction of said proposed ditch. We also apportioned and set apart to each parcel of land, a share of said work

in proportion to the benefits received, and also of damages sustained, all of which will fully appear by a tabular statement in this report.

We find that the proposed work will be of great public benefit and utility; afford drainage for public highways, and improve the general health in that neighborhood and that the cost of construction of same will be less than the benefits to be derived thereby.

We submit a map of the line of the proposed ditch marked "Exhibit "A"; and a profile showing depth of cut, width at top and base, and number of cubic yards in each one hundred feet marked "Exhibit B." which are made a part of this report

The following apportionment shows who are benefitted, Price thereof per cubic yard and total estimated cost of each share.

— Specifications —

The brick must all be hard burned paving brick. The invert in excavation must be trimmed to suit the curve of the sewer, which will be 24 inches inside diameter. the brick to be laid on edge with the inner edges of the brick touching each other and breaking end joints The mortar will be made of two parts sharp clean sand to one part best fresh Louisville Cement & only mixed as used. The end walls for Road Culvert & main sewer must be five feet long, one foot thick, five feet high 16 inch footing for 2 courses & covered

with Bedford Stone coping 6"x14"x60". The inside of the sewer to the height of the invert must be well & smoothly flushed with cement mortar made one part cement to one part sand, and the outside of the arch must be flushed in the same manner. The sewer must be covered to the surface of the ground with the dirt excavated. There will be two manholes with top rim & cover of iron, the ring to be 18 inches inside diameter. The culvert under Lincoln Avenue will be covered to a depth of 3, inches with earth and then one foot in thickness of broken rock. The road culvert will be 20 feet in length and the main sewer 420 feet. Grades for excavation & sewer & location of the man holes will be given by the County Surveyor & the work will be done under his direction, and subject to his approval.

The open ditch will be 2 feet wide on the bottom and with a slope of 1 to 1.

All material excavated must be placed at least two (2) feet from the banks of the ditch, and openings to be left through such material, not more than two hundred (200) feet apart.

All stumps trees and brush must be removed at least five (5) feet from the edge of the ditch.

We estimate the cost of construction of the proposed ditch as follows:

Earth excavation open ditch 103 cu yds @13 cts per yd.	$ 13.39
20.075 Brick including excavation & refilling @ 10.25 per M.	$ 205.77
2 iron rings and covers for manholes @ 3.50 each	7.00
2 stone copings 6"x14"x60" @ $4.00	8.00
Road Crossings including Excavation, brick work, copings & broken rock	30.00.
Engineering Advertising and Viewing.	143.00
Total.	$ 407.16

Owing to the depth of excavation as shown on the profile "Exhibit A", and its proximity to the highway it will in our opinion be impracticable to maintain this ditch as an open one through its entire length and we recommend that 420 lineal feet from 0+40 to 4+60 be a circular brick sewer of 24 inches inside diameter with end walls, with

stone coping and 2 man holes with iron rings and covers and also the same size sewer under Lincoln Avenue a width of 20 feet and covered with broken rock, 12 inches thick. We find this cannot be done in seperate allottments, but have estimated the entire cost of all the work, which aside from the engineering viewing and advertising amounts to $264.16. and tax the parties benefitted a percent of the cost in proportion to the benefits derived as shown on the allottment sheet and we do now reccommend that the whole work aside from the engineering, Viewing, and advertising be let for a dump sum to the lowest and best bidder.

We met as directed in the order hereunto attached and made a part hereof, and after being duly qualified as appears therein, proceeded to view such proposed highway in the manner as by law prescribed, which by routes and bounds and course and distance is as follows, towit: The said proposed highway to be 40 feet in width and commences on the north side of Lot 26. Dunhams Subdivision of a part of fractional Section 31. Town. 6. South. Range 10. west at a point in the center of the highway known as the River Road, and running thence in a Southerly direction through said Lot 26, to the north east corner of Lot 27. of the same Subdivision of Sec. 31. thence South on the line dividing Lot 27. from Lots 25 and 24. of the same Subdivision to the South line of Lot. 27. being a distance of about 2000. feet and a width of 40 feet abandoning that part of the present River Road as now located between the points named.

And now comes George Wilkins Louisa M. Wilkins Katie A Esmire John T. James. Annie W. James Jas. D. Saunders. Mary Hallman and Annie M. Ripe. and file their remonstrance against the proposed change on highway in the words and figures following, towit;

To the Hon. Board of Commissioners
of Vanderburgh County Ind.
Gentlemen:

We the undersigned owners of property adjoining the road known as the Green River road respectfully remonstrate against the change petitioned for in said road by Minnie Heck and others. on fractional Section 31. Town. 6. S. Range 10. W. for the following reasons.

1st. That the road as now located has existed for more than forty years. that said road is the boundary between Lot 27 on the west side and Lots 24 and 25. on the east side and that a portion of Lot 26. has been sold and the present road made the boundary. That to change the road as described in the petition will not put it on the line between said lots as the plat of the Denham Tract (see page 747 Order Book L of the Circuit Court Records show the road and not a North and South line to be the boundary and that said road does not run north and south.

2nd. That said change of road will not be of public benefit or utility. but on the contrary will be an injury as it vacates a road upon rock has been placed and puts the road on land that has been in cultivation for more than forty years. that it will take time and expense to make the new road as good as the old one. while the old one will be unfit for cultivation for several years.

3rd. That said change is for the purpose of conforming to a survey that attempt to give said Minnie Heck the owner of Lot 27. title to property on the East side of said road over which she has no right or title as the present road is the East boundary of her land. that the change can only result in useless litigation without being of any public benefit.

4th. That if said change is made our lands will be greatly damaged thereby as it will deprive us of land that we have had in cultivation for many years.

5th. That said petition and report is illegal for the reason that it does not contain the names

July Term, ~~189~~1900 Thursday the 5 Day of July A. D. ~~189~~1900.

of citizens who reside in the immediate vicinity of the road - and that it does not give the correct names of the owners of the lands through which it passes. but instead of so doing names persons who have been dead and buried. for many years (viz: Bernard Bonn and Adolph Holman and does not contain the right names of the owners. For these reasons we respectfully ask that said petition and report be dismissed and that the road be allowed to remain where it is and has been. for so many years recognized as the boundary of the adjoining lands.

of Vanderburgh County Indiana.

We, the undersigned, appointed by this Court at its June Term 1900. to view a ditch described in the certified copy of a petition and order of Court for a ditch by M. J. Bray Jr. et al. handed us by the Auditor, would represent that according to said order we, on the day named therein, towit: the 7th. day of June 1900. in company with B. B. Genung a civil engineer, made an accurate survey of the line of said proposed ditch from its source to its outlet. We caused stakes to be set along said line, each one hundred feet, numbering down stream. The route of the proposed ditch is described as follows, - to-wit: Commencing on the South side of Lincoln Avenue and fifteen feet east of the west side of the Southeast quarter of Section 30. Town 6. South Range 9 West, at Station 0. running thence north along the east side of Aikens Lane parallel to and fifteen feet distant from the North and South Center line of said Section 30 to the South end of the present Nurrenbern Ditch to Station 6+80 a distance of 680 feet.

July Term, 189~~9~~0 Tuesday the 31. Day of July A. D. 189~~9~~0.

The line as above described, passes through the lands and along the lines of the following persons and corporations: M. J. Bray Jr. Wm J. Fuquay Jane Agnes Barnett, Alfred M Collins, Robert S. Collins, Clarie E. Collins. Luna A. Collins. and Lida Martin

We have made a careful examination of the premises liable to be benefitted by the construction of said proposed ditch. We also apportioned and set apart to each parcel of land, a share of said work, in proportion to the benefits received, and also of damages sustained, all of which will fully appear by a tabular statement in this report.

We find that the proposed work will be of great public benefit and utility; afford drainage for public highways, and improve the general health in that neighborhood, and that the cost of construction of same will be less than the benefits to be derived thereby.

We submit a map of the line of the proposed ditch, marked "Exhibit A." and a profile showing depth of cut, width at top and base, and number of cubic yards in each one hundred feet marked "Exhibit B." which are made a part of this report.

The following apportionment shows who are benefitted, Price thereof per cubic yard and total estimated cost of each share.

Name of Owner	Description of Land	Section	Township	Range	Acres in Tract	Acres Benefitted	Cost of Construction	Cost of Engineering	Cost of Engineering	Total Cost	Benefits

	Total						427 31	203 00		630 31	630 31

All material excavated must be placed at least (2) two

feet from the banks of the ditch, and openings to be left through such material, not more than two hundred (200) feet apart.

All stumps, trees and brush must be removed at least five (5) feet from the edge of the ditch.

We estimate the cost of construction of the proposed ditch as follows.

Earth Excavation open ditch 103 cu yds @ 15 cts per yd.	$ 15.45
420 ft. brick sewer excavating & refilling	342.86
2 iron rings and covers.	9.00
4 stone coping	12.00
Road Crossings Brickwork, Excavatin cover & rods.	48.00
Engineering Advertising & Viewing	203.00
Total	630.31

Owing to the depth of excavation as shown on the profile, Exhibit A, and its proximity to the highway, it will in our opinion be impracticable to maintain this ditch as an open one through its entire length, and we recommend that 420 linear feet from station 0+40 to Station 4+60 be a circular brick sewer of 24 inches inside diameter with end walls and stone coping and have two manholes with iron rings & covers, and that the same sized sewer be built under Lincoln Ave. to a length of 20 feet covered with broken rock 12 inches thick, which aside from the Engineering, Viewing and Advertising we have estimated to cost $427.31. and tax the parties benefitted a per cent of the cost in proportion to the benefits derived as shown on the allotment sheet, and we further recommend that the whole work aside from the Engineering, viewing & advertising be let for a lump sum. to the lowest best bidder.
