We have made a careful examination of the premises liable to be benefitted by the construction of said proposed ditch, and have apportioned and set apart to each parcel of land a share of said work in proportion to the benefits to be received thereby also a share to Union Township for public highways benefitted all of which will fully appear in a tabular statement accompanying this report

We find that the proposed work will be of great public benefit and utility afford drainage for public highways & improve the general health in that neighborhood, and that the cost of construction of the same will be less than the benefits to be derived thereby.

We submit a map of the line of the proposed ditch marked "Exhibit A." and a profile showing depth of cut width at top & base & number of cubic yards in each one hundred feet marked "Exhibit B." which are made a part of this report.

All material excavated must be placed at least two (2) feet from the banks of the ditch, and openings to be left through such material not more than 200 feet apart.

All stumps trees & brush must be removed from the line of the ditch

We estimate the cost of construction of the proposed ditch as follows.

Before the Board of Commissioners of Vanderburgh Co.

In the matter of the petition of Thos. E. Wheeler et al for the location of a highway through the lands of Thomas E. Garvin et al.

Thomas E. Garvin shows to the Board that he is the owner of all of the real estate described in the petition through which it is proposed to establish a highway. except the parts occupied by the Evansville Suburban and Newburgh Railway Company. The Louisville Evansville and St Louis Consolidated Railway Co. and the Wabash and Erie Canal. That said proposed highway will take ground of this petitioner to the amount of about two and one half acres of the value of twenty five hundred dollars. That said road will leave a narrow strip of land seperated from the remainder thereof which will be rendered nearly worthless.

In the matter of the Investigation of the Management of the Poor Infirmary } order of Board.

The Board having heard the evidence and argument of Councie, and being sufficiently advised in the premises find that there are many charges made, many of which have not been proven, but in the light of all the evidence we find that the public good would not be subserved by the longer continuance of Herman Weiler in the position of Superintendent of the Poor Infirmary, and that he ought to be removed therefrom

It is therefore considered and adjudged by the Court that Mr. Herman Weiler be and is hereby removed from the position of Superintendent of the Poor Infirmary to take effect as soon as his successor can be appointed.

Having done our duty as public servants as we see it, we desire to make this explanation. There never was a time from the beginning of the investigation until now that the Board had any other intention than to decide the question involved according to the law and evidence, uninfluenced by any outside considerations. We afforded all parties every facility in our power for the production of all the evidence desired from every conceivable kind of witness, and while so doing the Board was confronted by the remarkable proceedings on the part of Mr. Decker and his attorney of taking evidence concerning conversations had by some of the members of the Board, thereby casting the reflection in the public mind that this Board

Spl Sept TERM, 189 4, Monday THE 15th DAY OF October A. D. 189 4

was guilty of the farce of going on with a case which they had already prejudged, we appeal to the record in the case for verification of our statement and enter our earnest protest against such methods in judicial proceedings.

Much has been said by counsel during the investigation concerning the position of Mr. Decker Township Trustee. Upon this subject we desire to say. If anyone charged him with instituting this investigation the Board had nothing to do with it or did not act upon it. The Board summond Mr. Decker as a witness and when he appeared in answer to that subpoena with his counsel and assumed the position of prosecutor (of which we do not complain) he did so voluntarily so far as this Board is concerned. It is to be regretted that Mr. Decker did not as Township Trustee promptly notify the Board of the very ugly charges against the Superintendent some of which the evidence conduces to show he knew long before the beginning of the investigation. Such disclosure would have prevented the longer continuance of such wrongs.

On motion the Board adjourned to meet on Tuesday Morning October 16, 1894. at ten oclock.

Comes now Fredricka Schmute by her Attorney John Brownlee and requests that the order of the Board of Commissioners, opening and establishing the Extension of Franklin Street, be rescinded and set aside, for the reason that her name does not appear on the petition for the establishing of said highway or the notices posted by the the petitioners, as required by law. and that she therefore had no notice of the same. And the Board after carefully examining the matter find that Fredricka Schmute is the owner of certain lands that would be affected by the opening of said highway. and that she has received no notice of the pending of said petition, therefore on motion it is ordered that the order opening and establishing said highway be and the same is now set aside and rescinded, at the same time however the petitioners are granted the right to amend the aforesaid petition.

} Petition filed. Viewers appointed

Comes now Louis H. Legler County Auditor and presents to the Board the following petition towit:

Cypress, Indiana Sept. 11. 1894.

To the Honorable Board of Commissioners
of Vanderburgh County.

Gentlemen;

We. the undersigned, freeholders. residing in Union Township. Vanderburgh County. Indiana, would respectfully represent to your honorable body. that the County ditch. known as the Schenck Ditch in Union Township. and for the repairs and cleaning of the same we are assessed, commencing in Fractional Section 15. Town 7. South, Range 11. West and running through parts of Sections 16. 17 and 18. same town, and range; is not deep enough. nor wide enough. to thoroughly and effectually drain the lands contiguous thereto and assessed therefor. and. for the further reason that by reason of the character of the ground in Section 16. it slips in and fills up that part of the ditch to such an extent that it obstructs the flow of the water from above. and will continue to do so. unless drain tile is used through the deep cutting in said section, and also to enable a pond or slough in Sections 15 and 16. known as Cypress Pond. to be drained. We would petition and request your honorable body to have the said ditch improved by having drain tile of suitable dimensions laid therein. from its source to a point in said ditch in Section 16. where the Kahn Slough and a ditch empties into the said Schenck Ditch. a distance of eight thousand - 8000 - feet, more or less. and. that the grade of the ditch be so changed between these points, and further on towards its outlet if necessary, as to better drain the adjoining lands.

We would further petition your honorable body that a branch tile of suitable dimensions, be laid as follows:- Commencing at a point in Section 15. Town 7. South. Range 11. West, on the land of A. J. Sirkle. about fifteen hundred and eighty - 1580 - feet South of East of the North West corner of the South West quarter of said section, and about two hundred - 200 - feet North of the highway dividing the lands of A. Schenck and A. J. Sirkle. running thence in a South westwardly direction through said Section 15. and a part of the

BOARD OF COMMISSIONERS, VANDERBURGH COUNTY,

South East quarter of Section 16. same town and range, and through the lands of A. J. Sikkle. and Philip Freund, a distance of about twenty eight hundred - 2800 - feet, to a point on the Schenck Ditch about two hundred and forty - 240 - feet East of the west line of the North East quarter of the South East quarter of said Section 16. there to connect with the tiling prayed for to be laid in the Schenck Ditch.

We further represent that we are owners of lands which will probably be effected by the improvement of the Schenck Ditch and the construction of the branch ditch petitioned for and we will be assessed for the same.

We believe also that it will be conducive to the public health, convenience and welfare, for the reason that it will drain a tract of land upon which stagnant water stands, there not being an outlet for the same, and will better drain a large tract of land now attempted to be drained by the Schenck Ditch, and will render a large amount of land cultivatable that cannot be used at present.

And your petitioners further aver that they have filed a bond conditioned for the payment of expenses incurred herein in case the proposed ditches and improvements shall not be established; which bond has been approved by the Auditor, and we pray you to appoint viewers to view and report upon the same, and for further proceedings under the law.

And said petitioners also file their Bond to the satisfaction of the County Auditor.

And the Board having duly considered said petition and being satisfied that the same is in conformity with law On motion it was ordered that Henry Bicking. George D. Bowen

and Jesse D. Hubbard Sr. resident householders and freeholders of said County and not of Kin to any of the parties interested therein, and in no way interested in said ditch, be and they are now appointed viewers of said ditch, that they meet at the office of the County Surveyor on Tuesday the 8th day of January 1895. at 9 o clock a.m. and having duly qualified proceed to view said ditch as required by law and make their written report, and file the same in the Auditors office on or before the 1st day of February 1895. and it is further ordered that the Auditor certify a copy of this order to said Viewers.

The line as above described passesses through the lands and along the lines of the following persons and corporations. Louisville and Nashville Rail Road Company. Louis Schmadel. Elizabeth Rheinlander. John Schmesler. Hattie Saunders. Mary E. Butler. Wm Bumb. C. A. Herman. A. Herman. Mary H. Fox. Josephine Bettag. P. C. Decker. John Angle. V. C. Read. Mary L. Markell. and John and Sarah Savage.

We have made a careful examination of the premises liable to be benefitted by the construction of said proposed ditch, and have apportioned and set apart to each parcel of land a share of said work in proportion to the benefits to be received therefrom also a share to Perry Township for public highways benefitted and also have allotted a certain amount to Vanderburgh County for the construction of a bridge at Station 109. and would recommend that it be built of iron. All of which will fully appear in a tabular statement accompanying this report.

We find that the proposed work will be of great public benefit and utility, afford drainage for public highways, and improve the general health in that neighborhood, and that the cost of construction of the same will be less than the benefits be derived thereby. We submit a map of the line of the proposed ditch, marked "Exhibit A." and a profile showing depth of cut. width at top and base. & number of cubic yards in each one hundred feet marked "Exhibit. B." which are made a part of this report.

All trees, brush, logs and stumps must be removed from the line of the ditch.

All earth and material excavated must be placed not less than two feet away from the bank of the ditch. and openings must be left in such materials removed on each side not more than two hundred feet apart to allow surface water to drain into said ditch.

All work must be done under the direction of the County surveyor and subject to his approval.

We estimate the cost of the construction of the proposed ditch as follows.

Clearing and grubbing		$318.25

BOARD OF COMMISSIONERS, VANDERBURGH COUNTY,

Sirkle, thence S. 70° 30' W. 1650 feet. Thence S. 62° 50' W. 394 feet. thence S. 70° W. 798 feet to Station 28+42 at a point in the Schenck ditch at Station 35+77 as heretofore described along the line and through the lands of A. L. Sirkle and Phillip Freund.

We herewith submit a plat of the route of said ditch and branch marked Exhibit "A. and a profile marked Exhibit "B". These Exhibits are submitted as a part of this Report.

The tiling used must be first class drain tile subject to the approval of the County Surveyor. It must be laid on a grade given by him and when laid must not be covered until inspected by him and when approved shall be covered with not less than one and one half foot of earth over the tiling.

On the Schenck ditch 6 inch tile will be laid from Sta "0" to Sta. 24. The pipe now under the Hoffee Road will not be moved and a section of the tile will enter said pipe and cement be used to cover the space left between the tile and pipe. Seven inch tile will be laid from the west side of the Hoffee Road to Section 35 +77. The 7 inch tile must enter the pipe under the Hoffee Road and be cemented similar to the 6 inch tile on the east side of said Road. From Station 35+77 to Sta 74. 10 inch tile will be used.

On the branch ditch from Station "0" to Sta 16+50. 5 inch tile will be used and from Sta 16+50 to Sta 28+42. 6 inch tile. and at that point make a connection with the 10 inch tile in the Main Schenck ditch. The section of 10 inch tile where this function is made must have a 6. inch T to connect with the branch tiling. The same specifications as to laying the branch tiling will be observed as in the Schenck ditch. except that all the earth excavated shall be replaced over the tiling.

We are of the opinion that the construction of this proposed tile ditch and branch will be of public utility and benefit. And that the expense thereof will be less than the benefits derived from its construction

We have made a careful estimate of the cost of construction of the said ditch and branch ditch as follows.

Of the Schenck Tile Ditch.

Sta 0 to 24 – 6 inch tile	145.4 Rods	@ 60¢		87.24
Sta 24 to 35+77 7 do	71.3 do	@ 70¢		49.91
Sta 35+77 to 74 10 do	231.7 do	@ 150		347.55
Cost of laying same.				
Sta 0 to Sta 47.	284.8 Rods	@ 30¢		85.44
Sta 47 to 74	160. do	40		64.00

Of the branch tile ditch.

Sta 0 to Sta 16+50. 5 inch tile	100 Rods	@ 40¢		40.00
Sta 16+50 to 28+42 6 do	72.2 do	.60		43.32
Cost of laying same.				
Sta 0. to Sta 20	121.2 Rods	@ 25¢		30.30
Sta 20 to Sta 28+42	51. do	30		15.30
Total cost of viewing, engineering and advertising				125.00
Total cost of Schencks & branch ditches				888.06

The proposed work being a tile ditch we are of the opinion that it is impracticable to allot said ditches for construction in small parcels and to different contractors as the work can be done more speedily, economically & satisfactorily by letting its entire length in one parcel for construction and would therefore recommend in conformity with a provision in the act of March 4th 1893 it be let in one parcel to the best & lowest bidder.

We have carefully examined all the lands that will be effected by the construction of said ditch, and have set apart to each tract of land benefitted, to Union Township for the benefits derived from the drainage of roads, and to the Henderson Bridge Company for the benefits derived from a drainage of its right of way, to each and every one a proportionate share of the total cost of construction, as shown on the tabular statement, accompanying, & which is made a part of this report and which we believe to be fair and just.

Miller et al } Remonstrance.

John L. McCutchan by way of remonstrance says that whereas the County Commissioners of Vanderburgh County have been petitioned to open and establish a highway 40 ft wide commencing at a point on the Hogue Road in Sec. 21. town 6. south. range 11 west. where said road intersects the half section line of said section running north and south and running from said described point due north on said half section line to where said line intersects the Upper Mt. Vernon Road. a distance of about 3/4 of a mile.

That said proposed road will pass over and along the land of John L. McCutchan for the distance of one fourth of a mile. said land being a part of the E 1/2 of the south east quarter of the north west quarter of said section 21.

That said road will be of no utility to him whatever but will be of great damage to said property for the following reasons.

BOARD OF COMMISSIONERS, VANDERBURGH COUNTY,

Said road will take off from said land more than 5/8 of an acre, of the reasonable value of $100. per acre, as said land is used for gardening purposes. the value of the same will increase from year to year as the City of Evansville Grows.

That fences will have to be moved.

That there is a hill on said route which will as a matter of necessity have to be graded down which will by wear and wash, widen and cause an injury to the premises on either side.

Wherefore the said John L. McCutchan files this remonstrance for damages in the sum of $200.

In the Matter of the Petition of Union Twp. for the Remission of Ditch assessment.

To the Honorable Board of County Commissioners of Vanderburgh County

Gentlemen :-

Spl. March TERM, 1895, Wednesday THE 15 DAY OF May A. D. 1895.

Your petitioner shows that he is Trustee of Union Township That there is assessed against said Township for a portion of the cost of construction of Edmonds Ditch, the sum of Forty four and 26/100 Dollars. That your petitioner believes that the Township is not liable for such assessment. That the amount of the assessment is for the construction of a new ditch and not for repairs of an old. That the same is on the County tax duplicates. and the County Treasurer is endeavoring to collect the same from said Township. He asks that the tax be remitted and removed as a charge against said Township and that the Township be released and discharged from the payment thereof.

Respectfully
John A Neale Trustee.

Comes now the petitioner by John A Neale Trustee, and presents his petition in which he shows that there has been assessed against said Township the sum of Forty four & 26/100 Dollars. for the construction of a ditch in said Township known as the "Edmond's Ditch" That said assessment was erroneously assessed against said Township, and should have been assessed against said County of Vanderburgh. and asking that the assessment be remitted.

And the Board having examined the petition and being advised, and having heard evidence upon the facts therein stated, finds that the assessment complained of should have been assessed against Vanderburgh County instead of Union Township.

It is therefore ordered by the Board that the error of record of said assessment be corrected, and that said assessment be removed and cancelled as a charge against Union Township and be charged against the County of Vanderburgh, and that the Auditor and Treasurer of said County be directed to make the proper correction.

To the Hon. Board of Commissioners
of Vanderburgh County

Gentlemen:

We the undersigned Citizens and Tax payers of Vanderburgh County believing that the action of the late Board in placing insurance on the Court House and Jail was a business proposition and in the line of their duty and in view of the fact that the cancellation of the policies at this time at short rate would be a great loss to the County we respectfully suggest that the insurance be not cancelled.

In the matter of the petition of Anton Kluger et al, for the establishment of what is known and called The Proposed Pond Flat Ditch in Scott and Armstrong Townships in Vanderburgh County State of Indiana. } Ditch Established.

It appearing to the Board that at the December Term 1893 a petition was presented to the Board of Commissioners, praying for the establishment of a ditch, which is known and designated by the records as the Pond Flat Ditch in Scott and Armstrong Townships; and said Board, having been fully advised in the premises, found in favor of the same; and Joseph B. Cox Conrad Rose and Harry A. Deming. (a surveyor) were appointed viewers of said Ditch; and whereas afterwards on the 20th day of March 1894. said Viewers made their report in accordance with law, which report is on record fixing and establishing said ditch (See Comrs. Record No. 1. pg. 413) And the Board, after examination of the same, approved the same and ordered said viewers to survey and level the same as required by law, and make profile, plat and schedule of the same, which was done as follows:

To the Honorable Board of Commissioners.
of Vanderburgh County Indiana.

We the undersigned appointed by this Court at its March Term 1894. to view a ditch described in the certified copy of a petition and order of Court for a

Ditch. by Wm Bower and others handed us by the Auditor. would represent that according to said order. we. on the day named therein towit the 28th day of March 1894. in company with G. G. Gerring a civil engineer made an accurate survey of the line of the said proposed Ditch from its source to its outlet. The line of the survey by the Engineer is marked "Exhibit A." and the profile is marked "Exhibit B." We caused stakes to be set along said line. each one hundred feet numbering down stream. We also made a computation of the total number of cubic yards of earth to be removed from said ditch and the amount of clearing and grubbing to be done, and estimate the total cost of its construction to be Three Thousand Nine hundred & forty three $\frac{25}{100}$ Dollars ($3943.\frac{25}{100}$) We also apportioned and set apart to each parcel of land of forty acres or less, a share of said work in porportion to the benefits to be received. all of which will fully appear by a tabular statement in this report. We have also set out by a statement below the names of the owners of lands benefited with a description of each tract of land of forty acres or less and the amount assessed against each tract. The depth of cut. width at bottom & width at top along said ditch is also shown in a tabular statement in this Report.

After a full and careful view and examination, we are of the opinion that the Ditch as located by the Survey will be practical & of public utility, will improve the health in that neighborhood and benefit Public Highways.

The Total length of Pond Flat Ditch is 27330 ft + that of the lateral ditch is 750 ft. being a total length of $5\frac{32}{100}$ miles. The profile showing width at top + bottom Depth of cutting + grade line marked "Exhibit B" is made a part of this report.

All material taken out of this ditch must be placed at least two feet from the banks of the ditch. Openings for side drains must be left in materials excavated not more than 200 feet apart. All obstructions such as trees, brush. logs + stumps must be removed from within the banks of the ditch.

We have extended the line of the Ditch 280 feet beyond the terminus described in our first report on account of an obstruction which it is necessary should be removed. which obstruction was at that time covered by high water + therefore not seen by us.

We have made the side or lateral ditch above described a part of the main Pond Flat Ditch in accordance with the recommendation made in our first report.

We estimate the total cost of the ditch as follows.

Whereas this Board has been advised of the demise of Hon. Cicero Buchanan. County Attorney which occurred on the tenth inst:

It is hereby ordered that the County Auditor place on the record of this Board, our testimonial to his professional ability. and personal merit. As the advisor, of this Board and of the Officers of Vanderburgh County he was accurate learned, and clear in his opinion., vigilant in protecting the interests of the County. and eminently able in conducting its litigations. He was courteous and kindly in manner and his relations with the members of this Board and the various County Officers was so close and intimate that his untimely taking off is to each member and officer a personal bereavement. In the full zenith of his powers with a daily increasing fame. the splendor of his talents added luster to the annals of the County, and pride in his achievement and ability is the only grain of solace for the loss this community has sustained.
