To the honorable board of Commissioners.

Gentlemen:

We the undersigned, citizens of Center Township Vanderburgh County of the State of Indiana. petition you to prohibit the selling of any intoxicating liquors such as wine. whiskey, beer &c. in the saloon opposite the school of district no. 5. (school house) in above said township. The proprietor of saloon by name of Charles Schoenbaechler. who is now selling without license. We below state the following reasons.

First. The place is unfit being opposite a school house and endangering the children in these ways. The wagons stopping many of drivers not tieing their horses, and the place tempting the children to bad habits.

Second. Children going to and from school have been talked to by an intoxicated man. the man using disrespectful or ugly language.

Third. We wish to train the children as good citizens and to form good habits. If said saloon is not closed the Trustee will find it difficult in procuring a good teacher for said School.

Honorable Commissioners we appeal to your honor and power to protect & care for our future welfare in said township. by closing the said saloon. We here below sign our names.

(Signed) C. W. Kratz
and 38 others.

and 93 others.

And the Board after hearing the evidence of Chas Whitead, Theo. Hanning, and Simon J. Laubscher. and being sufficiently advised finds for the applicant, that he is a resident of Center Township, over twenty one years of age: that the notice given by him, and the description of the premises as therein given were sufficient. and that he is in all things fit to be entrusted with the sale of intoxicating liquors that he has given his bond in the penal sum of two thousand dollars: to the approval of the County Auditor, and also paid into the treasury the sum of one hundred dollars as a license fee for one year. It is therefore ordered that license be granted to the said Charles Schoenbachler to sell intoxicating liquors in less quantities than a quart at a time. on the said mentioned premises with permission to allow the same to be drank on the premises. for one year from and after the 7th day of March 1892.

In the matter of the Bray & Pfingston Ditch in Knight Township } Viewers Report. Ditch Established.

This being the time set for the hearing in the matter of the Bray & Pfingston Ditch. in Knight Township. now come Theodore Hartig. John H. Barnes and Leonard Schlagester heretofore appointed viewers of the said proposed Ditch. and present their report in said matter. in the words and figures following. towit:

To the Hon. Board of Commissioners of
Vanderburgh County Indiana.

We the undersigned resident freeholders and householders of Vanderburgh County Ind. having been appointed by your honorable Board to view a ditch described in the certified copy of a petition for a ditch by M. J. Bray Jr. and August Pfingston. most respectfully report as follows. That after having received a certified copy of the order of the Board of Commissioners. we met at the office of the County Surveyor on Monday the 25th day of January 1892. and after being duly qualified. we proceeded with Jas. D. Saunders Deputy County Surveyor and a civil engineer. to the location of said proposed ditch and made a careful survey of the route of said ditch which is described as follows. Commencing at a point on the North side of the County Road extending East and West along the center line of the North half of Section Three (3) & Township (7) South. Range Ten (10) West. at a point two hundred and forty feet East of the center of said Section. and extending thence North 32 3/4 degrees East 100 feet. thence North 42 degrees East 100 feet. thence North 70 1/2 degrees East 700 feet: thence North 83 3/4 degrees East 400 feet. thence East 200 feet thence South 85 1/2 degrees East 100 feet. thence South 78 1/2 degrees East 300 feet. thence South 73 degrees East 500 feet. thence South 67 degrees East 285 feet thence South 41 1/2 degrees

East 715 feet; thence South 50¼ degrees East 1450 feet. said proposed ditch passes through the North West Quarter of the North East Quarter of said Section No. 3. owned by M. J. Bray Jr. the North East Quarter of the North East Quarter of said section owned by Matthew Miller. and through the land of Mary F. Pfingston in the North West Quarter of Section No. Two (2) Township and range aforesaid. said ditch terminates at the Brick culvert on the South line of the North West Quarter of said Section at a point 960 feet west of the South East corner thereof

We are of the opinion that the construction of the proposed ditch will be of great public benefit and utility, and that the expense of such drainage will be less than the benefits derived by its construction.

We herewith submit a plat of the route of said ditch marked Exhibit A. and a profile showing the grade, depth, width, and amount of excavation at each 100 feet. where we have set stakes, marked Exhibit B. these exhibits are submitted as a part of this report.

All earth from the ditch shall be thrown back from the sides not less than two feet, leaving a berm of two feet on each side of the ditch. openings shall be left on each side of the ditch at not less than two hundred feet apart.

We have made a careful estimate of the cost of constructing said ditch as follows.

2211 cubic yards of excavation @ 12¢	$ 265.32
1 Road crossing at Helming Road.	25.00
Engineering and advertising	90.00
Total	$ 380.32

We have carefully examined all the lands that will be effected by the construction of said ditch and we have set apart to each parcel of land benefitted, as share of said work in proportion to the benefits which will result from such improvement, and to Vanderburgh County a share for benefits derived from the drainage of roads, all of which is shown on our apportionment as follows:

And would further report that we have visited and inspected the County Infirmary and find that the inmates are well cared for under the present management and are apparently well satisfied with their condition; And we would recommend that there be a better supply of fresh water, and believe it would be beneficial to the institution to have erected a wind mill for the purpose of pumping water. In the matter of the proposed Kolb Ditch in Knight Township } Viewers Report.

Come now John Miller, Christoph Seibert and Fred Werkman viewers heretofore appointed in the matter herein and file their report. as follows towit:

To the Hon. Board of Commissioners of Vanderburgh County Indiana

We the undersigned resident free holders. and house holders. of Vanderburgh County Ind. having been appointed by your Hon. Board to view a ditch described in the certified copy of A petition for a ditch by John Kolb. most respectfully report as follows. After having received a certified copy of the order of the Board of Commissioners we met at the office of the County Surveyor on Monday Jan. 18th 1892. and after being duly qualified. We postponed the survey of the proposed ditch until Thursday the 21st day of January 1892. on account of the large amount of snow and ice on the ground. On that day we proceeded

with Jas. D. Saunders Deputy County Surveyor and Civil Engineer to the location of said ditch as described in the petition. the distance being 9009 feet. We followed the line of the old ditch. We find that the land along the line of the proposed ditch is very badly in need of drainage and that a good ditch will be of great public benefit and utility. But after taking levels we find that there is very little fall that if the ditch be made two feet deep at its beginning there will be only one foot fall in the ditch in a distance of 9009 feet, and while it would be better than no ditch it would not afford the drainage necessary. We therefore run a line South Eastwardly from the beginning of the ditch on Kolb's East line. through the lands of the Heirs J. M. Garrett. and H. Angel in Section 31. Town 6. South. Range Nine (9) West and through the land of the heirs of Collins and M. Angel in Section Six Township Seven South. Range Nine (9) West and terminates on the land of M. Angel in said Section in a slough or water course the distance being 3980 feet. We find that by extending the ditch to said Slough or Water course that sufficient fall can be obtained. so that by making a summit in the proposed ditch on the center line of the East half of Section 36. Township 6. South Range 10 West. and draining the water west thereof into the Grainger Ditch and East into the Slough on the Angel land a good ditch can be made and the ground will be well drained. A large amount of land will be benefitted that would not be done as the ditch as petitioned for. in addition several roads will be well drained.

We have made a plat of the line of said proposed ditch, marked Exhibit A. also a profile showing the depth, width amount of excavation and grade of said proposed ditch marked Exhibit B. Which are made part of this report.
We therefore recommend that the petition be amended to extend the ditch as shown in this report as we believe that it will be to the best interest of the public and the persons owning lands along the line of said proposed ditch.

firmly bound unto the State of Indiana in the penal sum of One hundred Dollars, for the payment of which we bind ourselves our heirs, executors and administrators jointly and severally, firmly by these presents.

Witness our hands and seals this 22 day of March 1892.

The condition of the above obligation is such. That whereas the above bounden John Kolb, under the provisions of an act, entitled "An Act to enable the owners of wet lands to drain, etc." approved March 9th 1875. did this day file in the office of the Auditor of said County, their petition, to the Board of Commissioners of said County, for the establishment of a Ditch, Drain or Watercourse, on the following route, towit: Commencing at a point eighty three feet North of the South East corner of the South West Quarter of the North East Quarter of Section 36. This portion of the ditch passes through the lands of Peter S. Thompson Web. G. Clark, Anna D. Clark and Samuel R. Fickas in said Section 36. and Nancy J. Schofield and Elizabeth A. Fickas in Sec. 35. Township and Range aforesaid. The eastern portion of said ditch is to extend from the above described point of beginning, and extending South Eastwardly along the course and for the distances given in said petition, through the lands of Fred Litzer in said Section 36. John M. Kolb and Andrew Kolb, and the heirs of James M. Garrett in Section 31. Township Six South, Range Nine West. thence in a South Eastwardly direction along the courses and distances given through the land of Mary E. Conway in Section 6 Township 7. S. Range Nine West. thence in a Southerly direction along the courses given in said petition, and for the distances given in said petition on the land Mathais Angel in said Section 6, and terminating on a slough on the land of said Mathais Angel at a point 1040 feet South of and sixty feet East of the North West corner of said Mathais Angel's land.

Now therefore, if upon final disposition of this matter before the Board of Commissioners of said County, they fail to establish such ditch, drain or water course, then in that case we bind ourselves for the payment of all costs accruing by reason of said petition and failure, otherwise

null and void.

In the matter of the Kolb Ditch in Knight Township. } Report of Viewers. Ditch established.

This being the day set for the hearing in the matter of the Kolb Ditch in Knight Township. now come John Miller. Christ Seibert. and Fred Workman. heretofore appointed viewers of the said ditch. and present their report

in said matter in the words and figures following towit;

To the Hon. Board of Commissioners of
Vanderburgh County Ind.

We the undersigned resident freeholders and householders of Vanderburgh County Ind. having been appointed by your Hon. Board to view a ditch described in the certified copy of a petition for a ditch by John Kolb and Andrew Kolb. most respectfully report as follows. That after having received a certified copy of the order of the Board of Commissioners. we met at the office of the County Surveyor on the 18th day of April 1892. and after being duly qualified. we proceeded with Ira A. Fairchilds County Surveyor. and Geo W. Saunders. a civil engineer and surveyor. to the location of the proposed ditch. and made a careful survey of the route of said proposed ditch. as staked out and reported to the Board in a report made by us on a former petition for this ditch by John Kolb and Andrew Kolb which line is described as follows. towit; Commencing at a point eighty three (83) feet North of the South East corner of the South West quarter of the North East quarter of Section Thirty six (36) Township (6) South. Range Ten (10) West. and extending thence N. 44 degrees W. 509 feet. thence N. 50 1/4 degrees W. 397. feet. thence N. 59 3/4 degrees W. 329. feet. thence N. 66 3/4 degrees W. 370 feet. to the center line. North and South. of said Section. thence N. 87. degrees W. 950 feet, thence N. 87 3/4 degrees W. 858 feet. thence N. 68 3/4 degrees W. 316 feet. thence N. 43 3/4 degrees W. 134 feet. thence N. 32 degrees W. 876 feet to the west line of said section, thence N. 50. degrees W. 885. feet to the Granges ditch on the Washington Ave. Road. where the brick culvert crosses said road. This portion of the proposed ditch passes through the lands of Peter S. Thompson. Web. G. Clark. Anna D. Clark and Samuel R. Fickas in Section Thirty six (36) and Nancy J. Schofield. and Elizabeth A. Fickas. in Section Thirty five (35) Township and Range aforesaid.

The Eastern portion of said ditch as located extends from the above described point of beginning. and extends along the following described route. viz; South 44. degrees West 217 feet. thence South 48 3/4 degrees E. 1510 feet to the east line of said section Thirty six (36) being through the lands of Fred Titzer. thence S. 69 degrees E. 1658 feet through the lands of John and Andrew Kolb in Section Thirty one (31) Township Six (6) South. Range Nine (9) West. thence S. 61 3/4 degrees East

800 feet. thence S. 73¼ degrees E. 800 feet. thence S. 80¼ degrees E. 600 feet. thence S. 66¼ degrees E. 100 feet. thence S. 51¼ degrees E. 125 feet through the lands of the heirs of James M. Garrett. in said Section 31. thence South 51¼ degrees E. 250 feet. thence S. 25 degrees E. 150 feet through the lands of Mary E. Conway. in Section Six (6) Township Seven (7) S. Range nine (9) West. thence S. 25 degrees E. 50 feet. thence S. 3 degrees E. 680 feet. on the lands of Mathais Angel and terminating in a slough on the lands of said Mathais Angel. 1040 feet south of. and 60 feet east of the north west corner of said Angel's land.

We are of the opinion that the construction of the proposed ditch will be of great public benefit and utility and that the expense of such drainage will be less than the benefits derived by its construction.

We herewith submit a plat of the route of said ditch marked exhibit A. and a profile showing the grade, depth, width, and amount of excavation at each 100 feet. marked exhibit B. these exhibits are submitted as a part of this report. All earth excavated from the ditch shall be throwon back from the sides not less than two feet. leaving a berm of two feet on each side of the ditch. openings shall be left on each side of the ditch at not more than 200. feet apart. We have made a careful estimate of the cost of constructing said ditch as follows.

Estimate.

Excavation.	West portion	1538 yards	@ 15¢	230.70
Do	East "	4944 "	@ 12½¢	618.00
Road xings				110.00
Engineering and advertising.				141.30
Total				1100.00

We have carefully examined all the lands that in our opinion will be effected by the construction of said ditch and have set apart to each parcel of land benefitted. a share of said work in proportion to the benefits which will result from such improvement, and to Vanderburgh County a share for benefits derived from the drainage of roads.

All of which is shown in our apportionment.

To the Hon Board of Commissioners

We the undersigned resident freeholders and householders of Vanderburgh County Ind. having been appointed by your honorable Board to view a ditch described in the certified copy of a petition for a ditch by Clinton Stacer. Frank Stacer and John Sipp. (Guard.) most respectfully report as follows. That after having received a certified copy of the order of the Board of Commissioners. We met at the office of the County Surveyor on the 11th day of April 1892. and after having duly qualified. adjourned (on account of bad Weather) until April 28th 1892. when we met and with Chas A. Fairchilds, and George W. Saunders a civil engineer and surveyor proceeded to the line of said ditch, and made a careful survey of the route of said proposed ditch, and set stakes along the line at each 100. feet from its source to the out let in the Stacer ditch and numbered the stakes down stream. The line of said proposed ditch is described as follows:

Commencing at a point 120 feet east and 20 feet north of the center of Section twenty (20) Town. four (4) South Range Ten (10) West. and running West on the center line of Section twenty. to the East line of Section 19. Town and Range aforesaid. thence West on center

line of said Section 19. to the right of way of the Evansville and Terre Haute Rail Road. thence continuing west through a culvert of said rail road to a private ditch, thence west along said private ditch to Station 51+80. and from thence south 23° degrees west to station 54 in the center of Rusher Creek. from thence following the bed of Rushes Creek in a south westwardly direction through the south half of Section 19. and crossing through a corner of Section 30. Town 4 Range 10. Thence continuing along said creek to station 103 in the N. E. 1/4 of N. E. 1/4 of Section 25. Town 4. Range 11. on the land owned by Clinton Stacer. Thence South (46°) degrees west to the south line of said quarter quarter Section. Thence (west) east along said line to a point 80 feet west of the south west corner of said above described qr. qr. section. thence on a curve to a point 80 feet south of said corner thence south along the quarter quarter section line to Station 138. and thence on a curve to station 139. in the Stacer Ditch in the N W 1/4 of the S. E. 1/4 of Section 25. Town 4. Range 11. West.

The above route as surveyed by us passes along the line and through the lands of the following persons. Mrs. Magdalena Jew Barge. Joseph Singer. Philip Market Joseph N. Sewig, and Mrs. Magenheimer. in Section 20. Town 4. Range 10. West. Clinton Stacer, Mrs Barbara Magenheimer Evansville Terrhaute R. R. Frank Stacer Margrate Dipp (Heirs) and Henry Schuler in Section 19. Town 4. Range 10. West. Clinton Stacer. Helena Bauer. Anton Klinger Anna Peck. and Louis Bauer in Section 25. Town 4. Range 11. West. and through the corner of Section 30. Town 4. Range 10. West owned by Mrs. Margaret Vogel. said ditch route terminates on the land of Louis Bauer in Section 25-4-11- as shown on a map showing route of the line of proposed ditch (marked Exhibit "A") and which is made a part of this report.

We also submit a profile showing grade, width and excavation. marked Exhibit "B" which is also made a part of this report.

All earth excavated from the ditch shall be thrown back from the sides not less than two (2) feet leaving a berm two (2) feet wide on each side of the ditch. openings shall be left on each side of the ditch not more than 200 feet apart. We are of the opinion that the construction of the proposed ditch will be of great public utility, and a benefit to the health

of persons residing in the vicinity of said ditch, and that the expense of said ditch will be less than the benefits derived by its construction. We estimate the cost of the construction of said ditch as follows.

Estimate.

Excavation	9513 cubic yds. @ 12½ ¢.	$ 11.89.12
Clearing and grubbing.		57.25
Road Crossings.		36.70
Engineering and Advertising		173.10
Total cost of construction		$ 1456.17

We have carefully examined all the lands that in our opinion will be effected by the construction of said ditch and have set apart to each parcel of land benefitted a share of said work in proportion to the benefits which will result from such improvement, and to Vanderburgh County a share for benefits derived from drainage of roads. all of which is shown on our tabular statement with this report, and which is made a part of the same. Roadways or crossings shall be made of good sound white oak timber and to the satisfaction of the County Surveyor.

September Term 1892

To the Honorable Board of Commissioners of said County.

We John and Andrew Kolb. represent that we are land owners in Vanderburgh County. Indiana and pray that your Honorable Board construct a Ditch on the following route. towit: Beginning at a point eighty-three feet North of the South East corner of the South West Quarter of the North East Quarter of Section Thirty six (36) Township Six (6) South Range Ten (10) West and extending thence on the lands of Fred Titzer South 44 degrees East 217 feet. thence South 48 3/4 degrees E. 1510 to the east line of said Section to the land of John and Andrew Kolb in the South West Quarter of Section Thirty one (31) Township Six (6) South. We are the owners of lands that will probably be effected by the construction of the above Ditch and will be assessed for the same.

We beleive the construction of the above will be conducive to the public health convenience and welfare. for the following reasons towit: 1st the constnuction of said ditch will drain a large tract of land on which stagnant water stands. 2d It will render large tracts of land cultivatible that can not be used at present.
3d It will make the locality of the ditch healthier than it is now.

And your petitioners aver that there is ample fall to drain said ditch by the above described route. And your petitioners further aver that they have filed a bond conditioned for the payment of expenses incurred herein, in case the proposed ditch shall not be established, which bond has been approved by the Auditor, and we pray you appoint viewers to view and report upon the same and for further proceedings under the law.

That whereas the above bounden John Kolb under the provisions of the Statutes. did this day file in the office of the Auditor of said County their petition. to the Board of Commissioners of said County for the establishment of a Ditch. Drain or Watercourse, on the follow route. towit:

In the matter of the petition of Elizabeth Aiken for damages for change of unsafe highway. } Petition filed. Receivers appointed.

Comes now Elizabeth Aiken by her Attorney D. B. Kumler and files with the Board the following petition. to-wit:

In the matter of the change of an Unsafe Highway. The River Road. } Before the Board of Commissioners of the County of Vanderburgh.

Petition of Elizabeth Aiken.

Elizabeth Aiken of Vanderburgh County. Indiana. respectfully shows your Honorable Body that she is the owner in fee simple of all of fractional Section No. Fourteen (14). Township No. Seven (7) South. Range No. Ten (10) West. situate in Vanderburgh County. Indiana.

That the entire southern and south-eastern portion of said fractional section is bounded by a navigable stream. namely the Ohio River: that for a great number of years there was a public highway forty (40) feet in width. along the bank of said river. and along the entire length of said southerly. and south easterly portion of said fractional section; that by reason of the storms and high waters of the years 1889 and 1890. said highway fell in and washed away. and it became unsafe and inconvenient for use as a public highway: that immediately thereafter. the Superintendent of the Township of Knight. wherein said lands are situate. and the supervisor of the district wherein said lands are situate. notified your petitioner to remove her fence back the distance of forty (40) feet from the bank of the river along said portion of said fractional section. and of his intention to appropriate for the public. and he then and there appropriated for use as a highway. the following portion of said lands: Beginning at a point One hundred and fifty (150) yards East of the South west corner of said Fractional Section No. Fourteen (14). running thence Eastwardly and North-eastwardly along the Southern and south-easterly. portions of said fractional section with the meanderings of the Ohio River the entire length thereof to the line dividing Fractional Section No. Thirteen (13) from said Fractional Section No. Fourteen (14). That this strip of land has been appropriated for highway purposes.

That by reason of the premises there has been taken

from your petitioner a strip of land for the purposes aforesaid forty feet in width. and of the length described as above as and for a public highway. That for a great distance, the exact distance your petitioner is unable to state, that portion of said fractional Section No. Fourteen (14) fronting on the Ohio River and along which said road runs, was fenced with a hedge fence. planted a great number of years ago. That the same not only served as a fence, but the further and more important purpose of keeping the driftwood from being carried on said fractional section during high water. That it will be necessary to cut and destroy the hedge fence along about the half of the distance described as above. That the destruction of the hedge fence and the appropriation of said strip of land has been and will be a great damage to your petitioner, namely a damage in the sum of One Thousand Dollars ($1000.00)

Wherefore, your petitioner files this her claim for damages for the removal and destruction of said fence, the change of the road, and for the use of the ground over which said road shall pass. And she prays your Honorable Body to appoint two reputable free holders of Vanderburgh County to view her premises and assess the damages she has sustained by reason of the appropriation of her land for highway purposes, and the removal and destruction of her fence. all of which is respectfully submitted.

Elizabeth Aiken
by D. B. Kumler her Attorney.

Dated at Evansville, Indiana, this 24th day of June 1891.

And the Board having carefully examined said petition, and being fully advised in the premises, find that the same is in proper form. It is therefore ordered that Charles Bruning, and Fred Buente ~~both~~ of Germania Pur'd Township be and they are hereby appointed viewers for the purpose of assessing the damages if any that may have been sustained in the change of said highway. And it is further ordered that said Viewers meet at the office of Ges. W. Nessen Justice of the Peace, at Evansville on Thursday Morning October 13, 1892 at 9 o'clock, and after being duly qualified, proceed to make such view and report the result thereof at the next regular Term of this Board.

In the matter of the Extension of First St. Pigeon Township. } Viewers Report. Remonstrance. Re Viewers appointed.

Come now the viewers heretofore appointed in the matter herein and make their report as follows. to-wit:

To the Honorable Board of Commissioners
of Vanderburgh County, Indiana:

We, the undersigned Viewers, who were appointed by your honorable body at your regular June Term 1892. to view a proposed highway, as petitioned for by Chas. E. Scoville et al., have discharged the duty assigned us, and submit to you the following report, to-wit:

We met as directed in the order hereunto attached and made a part hereof, and, after being duly qualified as appears therein, proceeded to view such proposed highway in the manner as by law prescribed, which by routes and bounds and course and distance is as follows, to-wit:

The said proposed highway to be 60 feet in width, and commencing at a point on the South side of Miner Street, and running thence due South to the Boulevard, through the South East quarter of the North East quarter of Section Thirty one (31) Town. Six (6) South, Range Ten (10) West. Said proposed highway being a continuation of First Street of the City of Evansville, and to be of the same width (Sixty (60) feet) of First Street at its intersection of the North side of Miner Street, and running on and over the property of James L. Orr a distance of about one hundred and fifty feet. And we are of the opinion that said highway would be of public utility.

Respectfully submitted.

Wm Bower
Thomas McCutchan } Viewers.
Michael Bauer

And comes now James L. Orr and files his remonstrance against the location of the proposed highway in the words and figures following, to-wit:

To the Honorable Board of Commissioners
of Vanderburgh County.

The undersigned represents to the Honorable Board, that he is the owner of that tract of land adjoining the City of Evansville in said County bounded by Minor Street, Parrett street and the Boulevard, being a part of fractional Section Thirty one (31) Township Six (6) South, Range Ten (10) West, and that a petition is now pending before your Board for an opening of a highway through said tract of land described as follows:

Commencing at a point on the South side of Minor street and running thence almost due South to the Boulevard through the South East quarter of the North East quarter of fractional section Thirty one (31) Township Six (6) South. Range Ten (10) West. Said proposed highway being a continuation of First street of the City of Evansville, and to be of the same width (60 feet) of First Street at its intersection of the North side of Minor street. Your petitioner further shows that the distance from the South side of said Minor Street to the Boulevard over which said proposed highway is to be established is about Two hundred and twenty five (225) feet. He further shows to the Board that he has already given the whole of the Boulevard and one half of Parrett street for the use of the public as highways, and has received no compensation therefor; That if the proposed street is opened, it will cut his land into two irregular shaped pieces and leave it in such shape that it cannot be subdivided into Lots to an advantage, and that in addition to the value of the land taken, that part which remains will be greatly damaged.
Your petitioner further shows that he will be damaged to the amount of at least Twelve Hundred Dollars ($1200) by the opening of said Street.

Wherefore, he asks the Board to appoint reviewers to review said proposed highway, and assess the damages which he may sustain on account of the opening thereof, and that the same be paid to him before said street is opened and for all other proper relief.

James L. Orr.

And the Board having examined said remonstrance finds the same to be in form as required by law. It is therefore ordered that Michael Hisch of Armstrong Township, and Nicholas Long and Christ Kramer of German Township, be and they are now appointed Reviewers of said proposed highway for the purpose of assessing the damages if any that would be sustained by the opening of the same. And it is further ordered that said Reviewers meet at the office of Geo. W. Nexsen Justice of the Peace in Evansville on Thursday Morning October 13th 1892 at ten o'clock, and after being duly qualified, proceed to make such review and report the result thereof at the next regular term of this Board.

On motion the Board adjourned to meet on Wednesday Morning September 21st 1892. at ten oclock.

In the matter of the Kolb Ditch in Knight Twp. } Viewers Report. Ditch Established.

This being the time set for the hearing in the matter of the Kolb Ditch in Knight Township now come Joseph Aman and John Spahn heretofore appointed viewers of the said ditch and present their report in said matter in the words and figures following towit:

To the Hon. Board of Commissioners
of Vanderburgh County Ind.

We the undersigned resident freeholders of Vanderburgh County Ind. having been appointed by your Hon. Board to view a ditch described in the certified copy of a

petition for a ditch by John Kolb and Andrew Kolb, most respectfully report as follows. That after having received a certified copy of the order of the Board of Commissioners. We met at the office of the County Surveyor on the 13th day of October 1892. after being sworn according to law we postponed the survey until Oct. 21. 1892. on which day we proceeded to the location of said proposed ditch and with Ira A Fairchilds County Surveyor and Jas. D. Saunders Civil Engineer and Deputy County Surveyor we made a careful survey of the route of said proposed ditch from its source to its outlet and placed stakes at each 100 feet number progressively down stream. Said route is described as follows Beginning at a point eighty three (83) feet North of the South-East corner of the South West quarter of the North East quarter of Section Thirty six (36) Township Six (6) South Range Ten (10) West and extending thence on the lands of Fred Titzer South 44 degrees east 217 feet thence South 48 3/4 degrees east 1609 feet to the East line of said Section to the land of John and Andrew Kolb in the South West quarter of Section Thirty one (31) Township Six (6) South. Range Nine (9) West, thence on the lands of said John Kolb and Andrew Kolb South 69 degrees East 1744 feet to the lands of James M. Garrett heirs in said South West Quarter of Section 31. Town. and Range aforesaid. thence on said Garretts land South 61 3/4 degrees East 800 feet. thence South 73 1/4 degrees east 800 feet. thence South 80 1/4 degrees East 1000 feet. thence South 66 1/4 degrees East 100 feet. thence South 51 1/4 degrees East 110 feet to the South line of said Section 31. thence on the lands of Mary E. Conway in Section Six (6) Town. Seven (7) South. Range Nine (9) West. South 51 1/4 degrees East 365 feet to the line between the land of Mathais Angel and said Mary E. Conway. thence South along said line 455 feet. thence South East on the land of said Mathais Angel 355 feet to a point 1040 feet South of, and 80 feet East of the North West corner of said land. and terminating in a slough. on said land. We are of the opinion that the construction of the proposed ditch will be of great public benefit and utility and that the expense of such drainage will be less than the benefits derived by its construction.

We herewith submit a plat of the route of said Ditch marked Exhibit A. and a profile showing the grade, depth, width and amount of excavation at each 100 feet marked Exhibit B. these exhibits are submitted as a

part of this report

All earth excavated from the ditch shall be thrown back from the sides not less than two feet leaving a berm of two feet on each side of the ditch.

Openings shall be left on each side of the ditch at not more than two hundred feet apart.

We have made a careful estimate of the cost of constructing said ditch as follows.

Excavation 5925 yards @ 12½ ¢	$740.62
Road Crossings	75.00
Engineering and advertising	125.00
Total	$940.62

We have carefully examined all the lands that in our opinion will be effected by the construction of said ditch and have set apart to each parcel of land benefitted a share of said work in proportion to the benefits which will result from such improvement and to Vanderburgh County a share for benefits derived from the drainage of roads. all of which is shown in our apportionment.

Apportionment.

Tuesday Morning December 13th 1892.

In the matter of the Eagle Slough Ditch in Knight & Pigeon Twps. } Petition: Viewers appointed.

Comes now James D. Parvin Auditor and presents the following petition which was filed in his office on the 7th day of December 1892. towit;

Petition for Eagle Slough Ditch in Knight and Pigeon Townships.

The State of Indiana } ss.
Vanderburgh County }

Commissioners Court
December Term 1892.

To the Honorable Board of Commissioners of said County.

Gentlemen:

We represent that we are land owners in Vanderburgh County Indiana, and pray that your Honorable Board construct a Public Ditch on the following route towit; Beginning in Eagle slough at the point where said Slough crosses the East line of Section One (1)

Township Seven (7) South, Range Ten (10) West. being about 59 chains South of the North line of said Section. and extending thence in a Western direction along said Slough through the lands of Bray and Fuquay and John James in said Section One. to the west line of said Section thence in a western direction along said Slough in Section Two (2) Township and Range aforesaid through the lands of Mary J. Gardner. Thomas E. Pollock. Elizabeth Vogt and Humphrey Fickas to the west line of said Section Two (2) thence in a western direction along said Slough in Section Three (3) Township and Range aforesaid through the lands of Humphrey Fickas Jacob Folz. Philip Schaus and Adam Weinbach to the west line of Section Three thence in a western direction along said Eagle Slough in Section Four (4) Township and Range aforesaid through the lands of R.K. Johnson. Kate W. Adair W.A. Johnson the Ohio Valley Rail Road Co. and John Hodson to the west line of said Section Four. thence in extending in a Western direction along said Eagle Slough in Section Five (5) Township and Range aforesaid on the land of John Hodson to the Public Ditch known as the Bee Slough Ditch. which is its terminus. the Ditch as above described will be located in Knight and Pigeon Townships and will be about four and one half miles in length.

We are owners of lands that will probably be effected by the construction of the above and will be assessed for the same

We believe the construction of the above will be conducive to the Public health convenience and welfare for the following reasons, towit that the construction of said ditch will drain land that is now covered with stagnant water during the summer months. that it will enable the owners of land to cultivate large tracts that are now nearly always covered with water. And your petitioners aver that there is ample fall to drain said Slough by the above described route. And your petitioners further aver that they have filed a bond conditioned for the payment of expenses incurred herein. in case the proposed Ditch shall not be established. which bond has been approved by the Auditor. and we pray you appoint viewers to view and report upon the same and for further proceedings under the law.

Humphrey Fickas
John James
Chas & Elizabeth Vogt.
John W. Hodson.

And said petitioners also file their Bond to the satisfaction of the County Auditor as follows, towit;

Know all Men by these Presents, That we Bray & Fuquay as principals and Kronenberger & Barnett as sureties all of Vanderburgh County, and State of Indiana, are held and firmly bound unto the State of Indiana, in the penal sum of Two Hundred Dollars. for the payment of which we bind ourselves our heirs, executors and administrators jointly and severally firmly by these presents.

Witness our hands and seals this 7 day of Dec. 1892.

The condition of the above obligation is such, That, whereas the above bounden Kronenberger & Barnett and Bray & Fuquay under the provisions of an act, entitled "An Act to enable the owners of wet lands to drain, etc," approved March 9 1881. did this day file in the office of the Auditor of said County, their petition to the Board of Commissioners of said County, for the establishment of a Ditch, Drain or Watercourse on the following route, towit: Beginning in Eagle Slough at the point where said Slough crosses the East line of Section One (1) Township Seven (7) Range Ten (10) West and extending thence in a western direction through No. One, Two, Three, Four and part of Five along Eagle Slough to the Bee Slough Ditch Said proposed ditch passes through the lands of the following parties, Bray & Fuquay, John James, Mary J. Gardner Thomas E. Pollock, Elizabeth Vogt, Humphrey Fickas, Jacob Folz, Philip Schaus, Adam Weinbach, R. K. Johnson Kate N. Adair, W. A. Johnson, The Ohio Valley Rail Road Co and John Hodson, and is situated in Township Seven South Range Ten (10) West, being in Knight and Pigeon Townships Now therefore, if upon final disposition of this matter before the Board of Commissioners of said County, they fail to establish such ditch, drain, or watercourse, then in that case we bind ourselves for the payment of all costs accruing by reason of said petition and failure, otherwise null and void.

Bray & Fuquay
Kronenberger & Barnett

Approved by me this 7th day of Dec. 1892
Jas. D. Parvin Auditor
By W. S Tinsley Dpty.

And the Board having duly considered said petition and being satisfied that the same is in conformity with law. On motion it was ordered that Peter Korreseel Peter Marx and August Schmuck resident householders and freeholders of said County and not of kin to any of the parties interested therein, and in no way interested in said ditch, be and they are now appointed viewers of said ditch. that they meet at the office of the County Surveyor on Tuesday the 27th day of December 1892. at 9 o'clock a.m. and having duly qualified. proceed to view said ditch as required by law. and make their written report. and file the same in the Auditors office on or before the 1st day of February 1893. and it is further ordered that the Auditor certify a copy of this order to said viewers.

In the matter of the Scheller Road in Armstrong Twp. } Petition filed. Viewers appointed.

Come now John Knapp and nineteen others and file their petition for the location of a public highway and the vacation of a portion of a certain highway in Armstrong Township which petition is in the words and figures following. towit;

To the Honorable Board of County Commissioners
of Vanderburgh County Indiana

Gentlemen:

in Union Township } Re-Viewers Appointed.

Come now the Viewers heretofore appointed herein and file their amended report in the words and figures following. towit;

To the Hon. Board of Commissioners
of Vanderburgh County Indiana.

Gentlemen:

We the undersigned resident free holders and house holders of Vanderburgh County Indiana, having been appointed by your Hon. Board to view a ditch described in the certified copy of a petition for a ditch by Albert Camp, William Edgar Siebeking, Mattie Watson Pamelia Williams, William Barth, William Watson, Charles R. Ely, Fred Zimmerman, Peter Hoppe, William Zimmerman and Jacob Bauer most respectfully report as follows.

After having received a certified copy of the order of the Board of Commissioners we met at the office of the County Surveyor on the 11th day of July 1892 and being unable

to go to the location of the ditch at that date we postponed the survey until Monday 8th August 1892. On that day we proceed ed with Chas A Fairchilds County Surveyor and Geo. W. Saunders a civil engineer, and made a careful survey of the route of the ditch and placed stakes at each 100 feet. The route of said proposed ditch is described as follows. Commencing at the Trestle of the R. R. track of the Henderson Bridge Co at station marked "O" bearing N 35° E (105) one hundred and five feet from the S. W. corner of the N. W. 1/4 of Section Twenty six (26) Town Seven (7) South. Range Eleven (11) West. and extending thence South sixteen (16°) degrees west to station nine plus nineteen (9+19) thence South eighty six (86°) degrees west to station fifteen plus sixty three (15+63) thence seventy one and one half (71½°) degrees to station twenty three plus seventy five (23+75) from thence south eighty two (82°) degrees west to station forty five (45). Thence South eighty nine (89°) degrees west to the center line of Section twenty eight (28) Town. Seven (7) South Range eleven (11) west. Thence east on said line to the east line of the N. W. quarter of the South west quarter of above section. Town. and Range. Thence south along said east line to station one hundred plus fifteen feet (100+15) in Fish Pond Ditch.

The route of said proposed ditch passes along the line and through the lands of the following. Henderson Bridge Co. Lizzie Barth and Parmelia Williams in Section 26. 7. 11. Parmelia Williams. Fred Zimmerman. William Zimmerman in Section 27-7-11- and Peter Hoppe. Albert Kamp. W H Phipps. Valentine Fischer and Andrew and Ida Winter in Section 28. 7. 11. said ditch terminates on the land of Andrew & Ida Winter.

We herewith submit a plat of the route of said ditch marked "exhibit "A" and a profile marked exhibit B. These exhibits are submitted as a part of this report. All brush shall be moved from the sides of ditch. All earth shall be thrown at least two (2) feet from the sides of ditch. openings shall be left at each side of the ditch and not less than two hundred (200') feet apart.

We are of the opinion that the construction of the proposed ditch will be of public utility and benefit. and that the expense of such drainage will be less than the benefits derived by its construction.

We have made a careful estimate of the cost of the construction of said ditch as follows.

9.261. cubic yards excavation @ 15¢	†1389.15
Engineering and advertising	174.35
Clearing and grubbing.	121.50
Crossing at Hoppe Road.	25.00
Total Cost.	1710.00

We have carefully examined all the lands that will be effected by the construction of said ditch, and have set apart to each parcel of land benefitted, a share of said work in proportion to the benefits which will result from such improvements and to Vanderburgh County a share for the benefits derived from the drainage of roads And to the Henderson Bridge Co a share derived from drainage of right of way, all of which is shown on our apportionment, and which in our opinion is just and right.

And comes now D. B. Kunder atty for the Henderson Bridge Co. and files a remonstrance against the construction of said ditch in the words and figures following. towit:

Before the Board of Commissioners of the County of Vanderburgh. December Term 1892

In the Matter of the Goose Pond Ditch,

Now comes the Henderson Bridge Co by D. B. Kunder it attorney and remonstrates against the construction of what is known as the Goose Pond Ditch, and as described in the petition of the petitioners and the report of the viewers herein. for the following reasons; that is to say: Said proceedings are irregular and defective in the following particulars.

1st:- The point of beginning of said ditch is described in the petition as "commencing at the embankment of the Louisville and Nashville (Evansville and Henderson) Railroad on the west side of the lands of the Watson heirs in Section Twenty Six, Town Seven South, Range Eleven West."

There is no such railroad as the Louisville and Nashville Railroad or the Evansville and Henderson Railroad in said section township and range.

2nd:- Even if there were such a railroad in said section, township and range, the description, "on the west side of the lands of the Watson heirs" is indefinite and meaningless, the said Watson owning a tract of land abutting on the line of a railroad running through Union Township in said county, and the only railroad running through said township.

3rd:- The report of the viewers describes the beginning point of said ditch as "commencing at the embankment of the Evansville and Henderson Railroad on the land of the Watson heirs in Section Twenty six, Town Seven South, Range Eleven West." There is no such railroad as the "Evansville and Henderson Railroad" in existence, and especially is there no such railroad located in said section, township and range.

4th:- "On the land of the Watson heirs" is a description entirely indefinite and meaningless, and not such a description as is required by law in such cases.

5th:- If the property of the railroad company described in the petition and in the report of the viewers be intended to mean the property of the only railroad in Union Township, in said section, township and range, then it is the property of the Henderson Bridge Company, and said company owns no real estate in said section outside of its right of way, and is not such an owner

as is contemplated by law that shall be assessed for benefits arising from the construction of such ditch.

6th:- The Henderson Bridge Company owns its right of way through said section, township and range. but the report of the viewers describes no real estate belonging to the Henderson Bridge Company in said section, township and range. as the law requires.

7th:- Said ditch is not a public benefit and utility, and the expense of its construction will be for greater than the benefit derived from its construction.

8th:- The amount of damages assessed against the Henderson Bridge Company is too high by the sum of four hundred and eighty nine dollars. ($489.00).

9th:- The right of way of the Henderson Bridge Company is fully and amply drained, and it will derive no benefit at all from the construction of said ditch.

10th:- Said ditch as described simply abuts on the right of way of the Henderson Bridge Company, and furnishes no drainage at all to and for the right of way of the Henderson Bridge Company.

11th:- The notice required by law and served upon the Henderson Bridge Company is defective in this, that it does not describe the real estate of said Company.

12th:- That the notice is imperfect and defective in this; that instead of saying that said company's right of way will be benefited to the amount of four hundred and ninety dollars., the notice as published and served says. "damage of right of way";

13th:- That in the report of the viewers the beginning point of the ditch is described as "commencing at the embankment of the Evansville and Henderson Railroad" and it is described as passing through the lands of the Henderson Bridge Company. That there is no point of beginning of said ditch named in the petition or in the report of the viewers.

14th That said petition does not contain the names of all the land owners which the petitioners claim will be affected by said ditch. That the Henderson Bridge Company owns land which is assessed for benefits on account of the construction of said ditch and it is not named as a land owner, although it was well known to the petitioners at the time they filed the petition.

For all the above and many other reasons the Henderson Bridge Company most respectfully remonstrates against the opening and construction of said ditch and prays

1st:- That the proceedings herein on account of their imper-

fections and insufficiencies, above stated be dismissed and 2nd:- In the event the Board should be of opinion that they should not be dismissed. then. that receivers be appointed to review said ditch and pass upon all such questions as are contemplated by the law to be passed on by receivers.

D. B. Kumler Attorney
for Henderson Bridge Co.

And said Remonstrators also file their bond to the approval of the County Auditor. in the words and figures following. towit;

The undersigned are bound unto the State of Indiana in the penal sum of One hundred (100) dollars for the payment of which they bind themselves. their heirs. executors and administrators by these present.

Witness our hands and seals this 8th day of December. 1892.

The condition of this obligation is such. that whereas the Henderson Bridge Company have filed their remonstrance before the Board of County Commissioners against the establishment and location of a Ditch or drain designated as the Goose Pond Ditch in Union Township. Vanderburgh County Indiana.

Now if the said Henderson Bridge Company shall pay all the costs which may be legally taxed against them upon a review of the said ditch. then this bond shall be void.

Henderson Bridge Co.
By D B Kumler its atty
D. B. Kumler.
Louis H. Legler.

And the Board having carefully examined the report of the viewers and the remonstrance herein. and being fully advised in the premises. It is ordered by the Board that Henry Helfrich. Philip Bender. and Jean Boudrot. be and they are hereby appointed receivers of said Goose Pond Ditch. and said receivers are hereby ordered to meet at the office of the County Surveyor in Evansville Indiana on Friday Morning December 30th 1892. at 10 oclock and from there proceed to the line of said proposed ditch. and review the action and report of the viewers. as well as the entire premises through which the proposed work extends. with all the powers granted to viewers originally. except that they shall not change the line of said proposed ditch (if they find the same to be of public utility) as located by the viewers. at any other place or places than

those complained of in the remonstrance, and there only for enough to do justice to the parties remonstrating and that they file a sworn report of their proceedings with the County Auditor before the next regular session of this Board.

Wednesday Morning January 4th 1893

The Board of Commissioners of the County of Vanderburgh met in their room this day pursuant to adjournment when present Charles Lindenschmidt. Samuel McDonald and Simon Harley members composing said Board.

The reading of the minutes was postponed.

In the matter of the Elbow Bridge in Center Twp. } Contract awarded.

This being the time set for the further consideration of the bids for Elbow Bridge. the Board after due consideration find that it will be more economical to build a new bridge. therefore on motion the Board rejects the bids for the repair of said bridge, and having submitted all proposals to James D. Saunders. Civil Engineer comes now James D Saunders and makes his report as follows towit:

Evansville Ind. Jan 4th 1893.

To the Hon Board of Commissioners
of Vanderburgh County.
Gentlemen;

I have examined the plans and strain sheets submitted to me and respectfully report as follows. The plans of the Pittsburgh Bridge Co. the Columbus Bridge Co. and the Indiana Bridge Co. are according to specifications. Those of the Variety Iron Works do not give the weight or area of the channels used in the upper chords or posts. Those of the Toledo bridge Co. do not comply with the specifications. as they are figured on a height of twenty four feet instead of twenty six feet. and in Plan B. the calculations for trusses are made on a live load of 1000 pounds per lineal foot instead of

1280. this would make this bridge only a 60 pound bridge as far as the trusses are concerned.

Yours Very Respectfully
Jas. D. Saunders. C. E.

And the Board after a careful examination and being fully advised in the premises. on motion award the contract for constructing the said bridge to The Columbus Bridge Co. according to Plan B. of their proposal. and for the sum of Three thousand two hundred fifty 00/100 Dollars. ($3250.00).

Provided that in event the said first party shall not have the said bridge completed by the date above specified they shall be liable in a penalty of Ten Dollars per day for each and every day's delay beyond said 15th day of May 1893.

It is further Agreed. by and between the parties hereto. that should the weather or condition of the said stream be such as to preclude the completion of the said bridge within the time above specified, or should the same be delayed by the failure of the Railroads to transport any portion of the material to be used in the construction of the said bridge within such time. or from

strikes or any other cause or causes beyond the control of the said first party. then the time for the fulfillment of this contract shall be extended for a period not less than that caused by such delay.

...Y, JANUARY 17, 1893.

A NEW RICHMOND

IN THE FIELD WHO PROPOSES TO BUILD THE

FRANKLIN STREET BRIDGE

Upon a Plan That Will Suit the Future Demands of a Great City.

There is a new Richmond in the field.

It is none other than D. J. Mackey.

He proposes to make a Bosworth Field for any body who wants to put up a viaduct over Pigeon Creek on Franklin Street that will not fill the bill for a city of 200,000 or 500,000. The proposition was submitted to the Business Men's Association last night, and when Secretary Wartmann finished reading it there was a round of enthusiastic applause.

The communication is as follows:

P. G. Kelsey, Esq., President Business Men's Association, City.

Dear Sir—You will have noticed that the Franklin Street bridge has been condemned as unsafe for the electric cars. You and all citizens will concede it proper, as well as being a necessity, to place a bridge there adequate to all uses and for fifty years, at least. There should be provision for street cars by double track, and in the same lines they now run; the provision for the wagon-way should be equal to what they now have in the street; pedestrians should have the same space as the present sidewalk affords, protected by an iron railing from the driveways. This contemplates a bridge without cover the full width of Franklin Street and the sidewalk. This it should be. The same level should be preserved of Franklin Street east of the creek so the approach from the west should be straight up-grade to this level. This system will always have to be preserved in its present proportions. It will be within the life of this bridge unmoved, possibly locked and dammed, for the purposes and benefits of important manufacturing interests. In the construction of this bridge it wants to be made in the proportions here suggested and it wants to be made a first-class job, in conformity not only with the demands of the day, and in line with the improvements made in the city, and especially in the West End, since the construction of the old bridge, but would look ahead twenty-five years, when the city will have a population of one, two or three hundred thousands of souls, and the business and financial conditions will have increased a thousand per cent. For certainly no observing thinking person can have failed to see that this is the destiny of this city. I have seen figures in the newspapers of the cost of this construction but let it cost what it may, you can build a handsome, substantial steel structure upon elegant stone abutments cheaper than ever before. My knowledge of this is practical, having constructed two miles of steel structures, carrying engines of 150,000 pounds in weight within two years. I am positive I can build such a structure as is described, and is just what we want, for not to exceed $50,000 $2,500 a year for interest or $7 a day for interest. My understanding of the street car contract is the city gets some revenue, and if so, the city should furnish this bridge without cost to the street car company. I am not a street car holder. If I was I would be too modest to say this. The street car company can make no money for years, and they should be protected by the city all that is fair. The subject is pertinent to the day, and no mistake should be made in this construction. The bridge want to be commodious to the extent of the street and ground in its structure. The difference in the interest cost when this style is made and the cost of a plain new, clean construction if both bridges are constructed in equally value and no loss, will not be $2 a day and I would pay $1 a day myself rather than see the bridge that would have to be lost in twenty years by not doing it for a better one.

Yours truly,
D. J. Mackey.

In the matter of the Franklin Street Bridge over Pigeon Creek } Resolutions from Citizens of "Independence"

The following communication was received by the Commissioners. in the matter of the Franklin Street Bridge.

At a meeting of the taxpayers in Independence, the following resolutions were unanimously adopted.

Whereas: Franklin Street Bridge is out of order and has been condemned and is considered unsafe for public traffic, and as such bridge is the passage way for a large traffic between the upper and lower parts of the city, and is inadequate in size to accommodate such travel. we demand that the County Commissioners of Vanderburgh County, at once proceed to the erection of a proper bridge at such point;

We suggest that such bridge should be of ample width to accomodate all kinds of traffic that may need it, and that such bridge should be one hundred and twenty (120) feet in width,

We further suggest to the County Commissioners, that as we are informed, before a plan can be adopted and the same let for construction, a considerable time will be necessary. That if the County Commissioners proceed at once in this matter that the creek under such bridge, could be used for the transportation of all the iron and stone which may be needed in its construction from the river, and thus be a large element in saving cost on the construction of such bridge. That if such bridge is now advertised for, the material could be got on hand ready to build such bridge at least during

low water of this summer; if not, the construction of such bridge will perhaps be delayed another year.

We earnestly submit that it is the duty of the County Commissioners to at once proceed with this work.

We do not desire to interfere with any attempt that the County Commissioners, or desire, that they may have to compel the Street Railroad Company to pay part of the expenses of such bridge. but any delay in order to arrive at any agreement with the Street Railroad Company is at our expense, and we fear at the safety of some of our people.

We therefore respectfully request that you proceed at once in the preparation of the plans and advertise for the construction of such bridge.

Jany 31st/93.

In the matter of the petition for the Eagle Slough Ditch in Knight & Pigeon Townships } Viewers Report. Remonstrance filed Re-Viewers appointed.

Come now the Viewers heretofore appointed herein and file their report in the words and figures following towit:

To the Honorable Board of Commissioners
of Vanderburgh County Indiana:

We, the undersigned, appointed by this Court at its December Term 1892 to view a drain described in the certified copy of a petition and order of Court for a Ditch, by Kronenberger v Barnett M. J. Bray and others, handed us by the Auditor, would represent that according to said order we, on the day named therein. to-wit. the 27th day of December 1893 in company with H. A. Gemmy a civil engineer, made an accurate survey of the line of said proposed Ditch from its source to its outlet. The survey by the engineer, marked "Exhibit A." We caused stakes to be set along said line, each one hundred feet, numbering down stream. We also made a computation of the total number of cubic yards of earth to be removed from said drain and estimated the total cost for the construction of the work at Four thousand three hundred sixty three 30/100 Dollars. We also apportioned and set apart to each parcel of land, a share of said work in proportion to the benefits received, all of which will fully appear by a tabular statement in this report. We have also set out by a statement below, the names of the owners of lands benefitted, with a description of each tract of land, and the amount assessed against each tract. The depth of cut the width at bottom and width at top along said drain is also shown in a tabular statement in this report. After a full and careful view and examination, we are of the opinion that the ditch, drain or water course as located by the survey will be practicae and of public utility, and will improve the health in that neighborhood, and benefit public highways. The line of said proposed ditch is described as follows. Commencing at a point two (2) chains south of the N. E. corner of the S. E. 1/4 of S E 1/4 Section 1 T. 7 S. R 10 W. at Sta. 0. Thence through said Section 1 S 65° W. 700 feet, thence S. 74° W. 900 ft thence S. 65° W. 1800 feet. thence S. 79° 30' W. 350 ft. thence N. 42° W. 550 ft thence N. 72° 05' W. 100 ft. thence S. 86° 05' W. 500 ft. to the west line of said section 1. at Sta. 58. being 205 ft. Leo. Thence along said Rt. of way South 305 ft. thence S. 85° W. 80. ft. crossing said company's Rt. of way. Thence N. 48° W. 880 ft. thence N. 64° W. 600 ft. thence N. 22° W. 200 ft. to west line of Knight Township at Sta.. 235. being 482 ft S. of NW. cor SW¼ Sec. 4. thence through Sec. 5. Pigeon Township N. 52° W. 1700 feet. Thence N. 86° 30' W. 400 ft. to Bee Slough Ditch at Sta. 256.

The above route as surveyed by us passes through the lands and along the lines of the following persons. Bray & Tugnay John James Sr. Martha W. James. Thos. Pollock. Elizabeth Vogt. Humphrey Fickas. Jac Folz. Arthur Grumble. Adam Weinbach. R. K. Johnson. Kate Adair. W. A. Johnson. Ohio Valley Ry & Terminal Co. John Hodson. Sec. 5. Town 7. Range 10. West. as shown on Exhibit A. which is made a part of this report.

We also submit a profile showing Grade. width and Excavation, marked Exhibit "B" which is made a part of this Report. All earth excavated from the ditch shall be thrown back from the sides not less than two (2) feet. and openings left on each side of the ditch not more than 300 feet apart.

We are of the opinion that the construction of the proposed ditch will be less than the benefits derived by its construction. We estimate the cost of the construction of said ditch as follows.

Estimate:

Excavation	21.334 cu. yds @ 15¢	$3200.10
Clearing and Grubbing.		358.50
Road Crossings		150.00
Engineering and Advertising		654.70
Total Cost		$4363.30

Total length of ditch 4 85/100 miles or 256. Stations.

All Road Crossings to be put in according to the plans & under the supervision of the County Surveyor.

We are of the opinion that to carry off the water freely from proposed Ditch. Bee Slough ditch should be cleaned & widened.

Comes now James D. Parvin County Auditor and presents the following petition which was filed in his office on the 15th day of March 1893. to wit:

State of Indiana
Vanderburgh County } Before the Board of Commissioners of Vanderburgh County March Term, 1893.

To the Honorable Board of Commissioners
of Vanderburgh County.

The undersigned your petitioner. Katharine Hogan. would respectfully represent unto your honorable body that she is sieged in fee of the East one half 1/2 of the North East quarter, and the East one half 1/2 of the South East quarter all in Section Thirty one (31) Township Four (4) South. Range Ten (10) West. in Scott Township, said County. That said lands would be benefitted by drainage; that there rests a body of stagnant water upon, and covers for months at a time, a portion of said lands; That said drainage cannot be accomplished in the best and cheapest manner without affecting the lands of others. That to the East of said lands there is a public ditch called the "Glander Ditch." which terminates abruptly in a trestle under the track of the Evansville and Terre Haute Railroad; that there is thence no outlet for the water coming down said "Glander Ditch" except a slight and inadequate private ditch through the lands of Anna Stockfleth; and the water coming down said "Glander Ditch" from above spreads out over and upon the lands of Katharine Hogan and Anna Stockfleth and finally stops upon and covers the lands to the East of the lands described herein. thus increasing considerably the amount and volume of water upon the lands of your petitioner and of others as aforesaid: that during the fall, winter and spring months of the year much valuable land is thereby rendered unfit for agricultural or other purposes. and is injurious to the health of those residing in the vicinity.

That it is believed said drainage can be accomplished in the best and cheapest manner by a ditch of proper depth and fall in continuation of said "Glander Ditch;" as nearly as practicable upon the following route. in said

County, towit: Commencing at the terminus of said "Olander Ditch" under the trestle in the track of the Evansville and Terre Haute Railroad about Two hundred and Seventy (270) feet north of the South line of Section Thirty (30) aforesaid Town. and Range and running thence in a northwesterly direction through the lands of Anna Stockfleth, along said old private ditch about one fourth of a mile to where it will intersect the public ditch known as the "Singer Ditch" on the East side of the County road known as the Evansville and Princeton Road at which last mentioned place said proposed ditch is to terminate.

That in the event event of said ditch being established the lands of others would be affected as follows.
