Some new the viewers herebefore appointed in the matter of a petition for a road on the line between beet and Clack townships, by T. J. Bluckeck et al., and made their report which is as follows: to wit:

To the Honorable Board of Commissioners of Vanderburgh County, Indiana.

We, the undersigned viewers, who were appointed by your honorable body at your regular May term, 1905, to view a proposed highway, as petitioned for by T. J. Bluckeck et al., have discharged the duty assigned us, and submit to you the following report:

The said proposed highway to be 35 feet in width, commencing at a point where the section line dividing sections 16 and 21, Township 5 South, Range 10 West, intersects what is commonly known as the Browning Road, and running thence east along said section line about 1/2 mile to a point where the
Board of Commissioners, Vanderburgh County, Indiana, June 9, 1904

The said section line intersects what is commonly known as the Princeton or State Road. Said proposed highway will be on the line dividing Center and Scott Townships and will pass along, upon and over the lands of the following named persons: Louis Joseph H. Zeigler, Theodore Lohmack, Christopher Melhammer, John M. Brielmann, Evansville & New Haven Railway Co., Joseph M. Krueger, Bernard Lohmack, Andrew J. Wegner, John A. Monahan, Dr. B. Kloke, Joseph Ruston, occupant, Louis Wolff, occupant.

We find that said proposed highway be of a great expense to the county to be constructed and to keep in repair for the following reasons.

1st: Several bridges and several culverts are to be built.
2nd: A fill with bridge or culvert on both sides of the Evansville & New Haven Railway track would be necessary to cross said R.R. track, which Railroad bed is about five to six feet high over above the surface of the land, along both sides of said R.R. track.
3rd: Several of the land owners must has land damaged.

Therefore we are of the opinion that said highway would not be of public utility.

Respectfully submitted,

William P. Beacker
Henry Grimm
Fred Weckmann

And the Board after carefully examinig said report and being fully advised in the premises, in opinion approve the same. And the petition for said road is hereby dismissed.

And said proposed highway will pass along, upon and over the lands owned or occupied by the following named persons, to wit: Jacob A. Patterson, Bernhardt Ruff, Henry S. Schulte (C. E. Law), Lee M. Johnson, and DeWitt McAdams, occupants of the land of James M. Johnston, deceased, and others.

State of Indiana
Vanderburgh County

Before the Hon. Board of Commissioners of Vanderburgh County, Indiana - June Term, 1904.

The undersigned, John F. Rueger, respectfully represents and shows to the Hon. Board of Commissioners of Vanderburgh County, Indiana, that he is a freeholder and a citizen of said county, and was at the time of filing the petition herein, and is now the owner in fee simple of the following described real estate situate in Vanderburgh County, Indiana:

The Northwest half of the Northwest quarter of the Northwest quarter of Section 36, Township 5, South, Range 11, West, containing twenty acres, that said proposed highway as petitioned for and laid out by the petitioners respectively appointed by this Board goes over and occupy a strip of land of this remonstrant containing about one half acre.

And this Remonstrant further states that said proposed highway will be of no benefit to him whatsoever, but will take from him about one half of an acre of land, worth at least seventy-five dollars, as it is some of the best land. Remonstrant further states that he will be required to make and maintain a fence eighty rods in length upon the South side of the tract described above, which will be of no benefit to him. And by reason of such location of said proposed highway as set forth and described in the report of the petitioners, and the erection and maintenance of said fence, this Remonstrant will be damaged at least $250 or a total damage of one hundred dollars.

Wherefore this Remonstrant respectfully asks the Honorable Board to appoint three disinterested freeholders as viewers to review said highway and assess the damages occasioned to this Remonstrant, by reason of the location thereof.

John F. Rueger

Wednesday Morning March 22nd, 1905.

The Board of Commissioners of the County of Vanderburgh met in their room this day pursuant to adjournment when present Mark Grant, Henry Wabener and Andrew Koch, members composing said Board.

The minutes were read and approved.

Lemons now Mrs. H. Dodrick, sheriff of the poor's department and presents the Board his report as such superintendent for the quarter ending Feb. 26, 1905, which report is in substance as follows: To wit:

On motion the report was approved by the Board.

Lemons now Harry Rineer, county auditor and presents to the Board an application for the admission of Lorena Webster to the Indiana State Asylum for Feeble Minded Youth, made by Martin H. Webster, her father.

The Board of County Charities, having an annual report from the Auditor, under date of March 16, 1905, and begging to submit the following reports:

County Asylum:

We found the buildings in good condition. We recommend that the hospital wards be opened at once. We also think for humane, as well as sanitary reasons all the main buildings should be screened. The water supply is sufficient and pressure fair. We are informed the heating apparatus has given entire satisfaction during the past very severe winter. The superintendent reports as follows for the first of March: Total number in home, 97, males 57, females 40. White males 45, white females 19, colored males 12, colored females 11. Disease: 20, white males 3, white females 2, colored males 5, colored females 5, Epileptic 11. White males 3, white females 2, colored males 3, colored females 0. Died during last quarter: Rat at present 15. General condition of the inmates, fair. Hand of 7, males 4; females 3, horses 2, males 4, cows 12, heifers 12, bull 1. Thirteen 6.43% pounds pork. Four patients are at times uncontrollable, and need to be held every two weeks.

County Jail:

We found 58 prisoners in the county jail. White males 31, colored males 18, white females 2, colored females 7. We cannot too severely condemn a system that allows so many able-bodied men to remain in idleness, and request our recommendation for a workhouse. We noticed lack of system about this place that we cannot excuse. The corridors were not as clean as they should have been, while the cells were slovenly looking and unsightly. With 58 healthy looking men and women lounging idly around, the place should at
Board of Commissioners, Vanderburgh County, Indiana, March 27, 1905

Dear Sirs:

Please present a clean and neat appearance. The City Orphans.

I found the City Orphans vacate and in good sanitary condition.

The Orphan Asylum:

I found the home 20 children, ten boys and ten girls. Fourteen attend school. The oldest child is 14 years old. The youngest is 3. No sickness in the home.

Doctor Orphans Home:

In this institution there are at present 20 children, 12 girls, 8 boys. Twelve are in school, one in each ward. Considerable work should be done at this place. The roof of the main building leaks in several places. Stable generally run down. Water pressure very poor, the furnace is out of order and has been all winter. These needs should have your prompt attention to save the county further expense.

White Orphan Asylum:

The matron reported thirty-seven children here, 20 boys, 17 girls, 33 attend school. One sick. Roof in main building needs repair. Several of the rooms should have old plastering taken off and replaced or patching done. Considerable painting should be done, especially hall floor and porch. The floor covering in front hall should be replaced with a new one in the floor painted. Two of the sections are reported in very condition and should have prompt attention.

Board of Commissioners, Vanderburgh County, Indiana, July 20, 1905.
To the Honorable Board of Commissioners
of Vanderburgh County, Indiana:

We, the undersigned petitioners, who were appointed by your honorable body at your regular June term 1905, to view a proposed highway, as petitioned for by Mr. Karbach and the area bounded thereby, do hereby formally present to you the following report:

Whereas, it is proposed to survey and locate a new road in the manner as by law prescribed, which has not heretofore existed, for the purpose of better and more convenient travel and transportation, the same to be thirty feet in width and commence at a point in the center of a public road about three rods west of the Rensselaer road in fractional section twenty (20) northeast quarter (NEQ) of section twenty-one (21) township seven (7) south, range eleven (11) west, and proceed thence eastwardly across the road that is now established and laid out on the dividing line of the lands of S. F. Hendricks and Adolph Barnett, in the eastern half of the north east quarter of said fractional section twenty (20) northeast quarter (NEQ) of fractional section twenty (20), and then across the lands of Frank and Henry S. Keim, where said road turns in a southwesterly direction running from said point due west over and through the lands of Frank and Henry S. Keim, Adolph Barnett, John R. Roth, Amos Roth, and John Roth, to a point in the west one half of the North west quarter of said fractional section twenty (20), where said due west line will intersect the old road now running along the bank of the Ohio river, said proposed road being about three quarters of one mile in length.

And we are of the opinion that said highway would not be of public utility.

Respectfully submitted

The overhead construction on Burdine Avenue to consist of what is known as the double pole construction, the wires were being suspended over and above the center of the track, and supported by chains from the poles to be placed on each side of said avenue.

That this might be granted upon such terms as your honorable body shall prescribe.

Respectfully,

Evansville-Mount Vernon Electric Ry.

By W. L. Armour, Mgr.
A Resolution by the Board of Commissioners of Vanderburgh county in the State of Indiana, granting to the Evansville and Mount Vernon Electric Railway, its successors and assigns, a right of way across, along and upon certain public highways of said county for the purpose of constructing, maintaining and operating a railway, to be operated by electricity or other motive power, except steam, and to erect and maintain therein poles, wires and other necessary appliances for the purpose of carrying passengers, baggage, express, mail, and freight.

Be it Resolved by the Board of Commissioners of Vanderburgh county in the State of Indiana, that the right and privilege hereby granted to the Evansville and Mount Vernon Electric Railway, a corporation, its successors and assigns, to construct, maintain and operate a railway line with all the necessary and convenient stations, terminals, loops and side-tracks to be operated by electricity or other motive power, except steam, for the purpose of carrying passengers, baggage, express, mail, and freight, and to erect and maintain poles and to string and maintain the necessary wires therein over and across such public highways and lands of said county as shall be necessary to construct such railway from Evansville, including its Mt. Vernon branch, The public highways being such Roads in Perry Township, Indiana, as run north and south through said township; also the right and privilege, to pass over, under and along the center of Colborne Avenue, and to erect therein such poles, wires, and lay such rails, ties and tracks as shall be necessary for the operation of said road over and upon said avenue, the construction upon Colborne Avenue being what is known as double pole construction, the trolley wire being suspended over and above the center of the track and supported by spans from the poles to be placed on each side of said Avenue.

The right and privileges aforesaid granted are upon the following conditions, to wit: first: The rails to be used in the construction of said railway shall be T rails, and shall not be lighter than sixty (60) pounds to the yard. Said track shall be so laid as to conform to the general grade of the roads which it occupies and crosses, and so that the top of the rails shall be flush with the surface of the roadway, unless the consent of the board of county commissioners be had to lay it otherwise.

It is further understood that where on account of the
width or grade of said highways it is impossible or impracticable to construct and maintain said track according to the provisions of this section, the location thereof may be changed or varied in order to meet such necessity by and with the consent of the Board of Commissioners.

Second: The said grantee, its successors and assigns, shall save said county harmless from any loss, damage or liability by reason of any of the operations of said railway and the construction thereof, and by reason of the negligence of any of the agents, servants, or employees of said company, its successors and assigns.

Third: The rate of fare to be charged on said line of railway shall not exceed two (2) cents per mile for one passenger for one continuous trip, provided that the said company, its successors and assigns shall not be required to accept any fare less than five (5) cents for one continuous trip.

Fourth: The said railway shall be commenced within eighteen (18) months after the adoption of this resolution and shall be completed to the city of Mount Vernon in the State of Indiana within thirty (30) months from said date. In failure of said company to commence the construction of said railway and complete the same to said city of Mount Vernon within the time herein limited, the rights and privileges hereby granted shall be forfeited unless said same is extended by the Board of Commissioners. Provided, that if said company is delayed in the commencement or completion of said road by injunction or other legal proceedings, the period of such delay shall be added to the time within which it is required to commence and complete the same by the terms hereof. Provided, the time herein limited for the commencement and completion of said road shall not in any event be extended by any such injunction or other legal proceedings more than fifteen months.

Fifth: The power to be used to operate said railway shall be electricity or other motive power, except steam; provided, however, that in the construction of said railway steam and animal power may be used as a motive power.

Sixth: At all highway intersections and whenever said...
tracks cross the said highways, the space between the rails
and to the end of the cross ties on either side thereof shall be
securely and properly planted, so that the surface of said
planking shall be level and even with the surface of said
highways, and in case the said company fails to put the
planking in good condition as provided herein, after thirty
days notice, the Board of County Commissioners shall have the
right to do so and charge the same against and collect the
same from said company, together with the costs of collecting
the same.

Seventh: The further right and privilege is hereby granted
and given to the said grantees, its successors and
assigns, to furnish light, heat and power to any or all of
the residents of said Vanderburgh County, upon such
reasonable terms as may be agreed to between said grantees,
its successors and assigns, and said residents. Provided, that
the prices to be charged for such light, heat and power shall
be uniform under like circumstances.

Eighth: The franchises and the rights and privileges herein
granted shall be in force and effect for a period of
fifty years from and after the adoption of this resolution
by said Board of county commissioners, and the acceptance,
protesting, of the same by the grantees herein through
its president.

Ninth: All poles set in the construction of the said Railway
shall be so placed as not to interfere with the
use or drainage of any highway which may be crossed
or occupied by said railway. Whenever said Railway
passes along a highway, the poles shall be placed on either
side of the highway, and a sufficient distance from the
center of the center thereof, so as not to interfere with
either the use or drainage of such highway, and not to
obstruct any intersecting road, public or private. The valley
wires shall not be nearer the tops of the rails than
eighteen feet.

And said company further agrees that in the construction of said road over and along that part of the highway herein described that all of the dirt excavated shall be thrown upon the south side of the excavation and that the northern side of said highway shall be left open for traffic.
Board of Commissioners, Vanderburgh County, Indiana,

That said company further agrees to grade that part of the highway south of its tracks and place the same in good condition for traffic.

struct not more than two (2) tracks with the necessary trestles

The said railway agrees to place its poles on the side of the
highway in such a way as not to obstruct the drainage thereof
and not interfere with the public travel thereon.

And Railway asks that this grant over and along the above-
described highways be for a term of fifty years from the fourth
day of March, 1901, and agree as one of the conditions of
said grant to keep the highways in repair between its rails
and tracks and for a space of eighteen (18) miles on each side
thereof, and if at any time said highway shall be ordered
to be improved said Railway shall at the same time
and in the same manner resurface the same between
its rails and tracks.

Respectfully submitted,

by N. D. Moraw, Secy.

And the Board of Commissioners having duly considered the same,
hereby grant to the Evanville Electric Railway, its successors
and assigns, for a period of fifty (50) years from the fourth

in such fashion as not to obstruct the drainage and not
interfere with the public travel. It being understood and
agreed that said Railway shall not be compelled to change
the location of its poles or tracks after the line known
herein as the Walnut Street and Rose Avenue line; and
such Railway shall construct a double track over

That said Railway in constructing its road over and along the above described highways shall lay its track or tracks to a grade to be furnished by the County Surveyor at the expense of the said Railway.

Said Railway shall at all times keep that part of the said highways occupied by it in good repair for the whole space between the rails of its track or tracks and between its tracks and for a distance of eighteen (18) inches on the east side of said track or tracks, so as to keep the ties at all times covered, and should the City of Evansville, or the County of Vanderburgh, thereafter during the continuance of this grant improve said highways or any part thereof, then said Railway shall at the same time improve the space between its tracks in like manner.

Said Railway shall under this grant have the right to use any motive power except steam.

To the Board of Commissioners
of the County of Vanderburgh:

The undersigned petitioners, respectfully represent to the
Board that they and each of them are resident freeholders

freeholders of Vanderburgh county, and Perry County, and reside
in the immediate neighborhood of the highway herein pro-
posed to be located, three of whom reside in each said
county; and that said petitioners respectfully petition and ask
for the location of a new public highway in Perry Township
in the County of Vanderburgh, and in Moore Township, in the
County of Perry, in the State of Indiana, which said highway
is described as follows, to wit: Beginning at a point on
the Argue Road, immediately southwest of and adjoining the
right of way of the Evansville & Mt. Vernon Tract, or, and
running thence in a southerly direction along and
next to and adjoining the north side of the right of way
of the Evansville & Mt. Vernon Tract for a distance of about
one mile to the public highway in Perry County, running
north and south; known as the St. Phillips Road.

Said proposed new highway will pass along and upon and
over the lands of Joseph Dempsey, J. H. and Andrew Steinic
