VANDERBURGH COUNTY DRAINAGE BOARD

FEBRUARY 16, 1971

A meeting of the Vanderburgh County Drainage Board was held at 9:50 a.m. with President James Buthod presiding.

RE:Stockfleth Ditch-Assessment Error:

Steve Smith, Drainage Engineer, requested permission to delete tax code 6-43-9. Due to an error, the property does not drain into Stockfleth Ditch. Mr. Stofleth made the motion that it be deleted. Mr. Buthod seconed it. So moved.

RE: Installation of transmission line across Stevens Ditch:

Steve Smith read a letter from the Gas & Electric Co. asking for a permit to install a transmission line across Stevens Ditch, behind Whirlpool parking lot. He said that they recommend it. The pipe is undersized and will have to be replaced at a later date. He said that he will get a letter to the effect that they will agree to bear cost of moving their transmission line.

Mr. Stofleth made the motion that the line be installed, subject to a letter of agreement that they will pay the cost of moving it later. Mr. Buthod second it. So moved.

RE: Petition--Britain Ditch:

The Drainage Law requires that every property owner should be notified if a ditch is to be vacated. In this case it will be any where from 300 to 400 property owners.

The owners names and addresses can be obtained in the Auditors Office.

Meeting recessed: 10:00 a.m.

VANDERBURGH COUNTY DRAINAGE BOARD
FEBRUARY 22, 1971

A meeting of the Vanderburgh County Drainage Board was held at 10:35 a.m. with Presodent James M. Buthod presiding.

The following members were present: James M. Buthod, Chairman; A.J.Stofleth, Vice Chairman; Robert Willner, Commissioner; Attorney Russell Lloyd, Sam Biggerstaff, County Serveyor; and Steve Smith, Drainage Engineer.

RE: BRITAIN DITCH:

Mr. Wess Bowers, attorney for the Evansville Redevelopement Commission was there, asking permission for the vacating of Britain Ditch. They are wanting to vacate that part in the Villa Sites area only. There are other branches of this ditch, and the properties that drain into these branches will in no way be affected by the vacating of this part of that ditch.

Mr. Buthod made a motion that necessary notice be given to the property owners who will be affected by the vacating of Britian Ditch, and those being, the City Of Evansville and one Church. Mr. A.J.Stofleth seconed the motion. Motion carried.

MINUTES APPROVED:

Mr. James Buthod made a motion that the minutes of the meeting of Jan.18,1971, and the meeting of Feb.16,1971, be approved as presented.
Mr. Stofleth seconed. Motion carried.

MEETING RECESSED: 10:50 a.m.

Keil	3,390 ft.	Wallenmeyer	8,355 ft.
Kelly	7,600 ft.		
Kolb	7,703 ft.		

Commissioner Willner seconded the motion. Motion carried. Bids will be received April 12,1971.

RE: CHANDLER CONSTRUCTION COMPANY
OBJECTION TO ASSESSMENT:

On May 5,1969, Mr. Chandler appeared before the Drainage Board protesting his property.....Sec. 30 TWP. 9, Covering Sec. C. Plaza Terra Sub.

This matter was again brought to attention of the Commissioners at todays meeting. This is a piece of undeveloped land that has been platted. Mr. Biggerstaff stated that the law was that there is a $ 3.00 minimum on each lot or code number. This law has since been Amended and he will now put only one assessment on any one tract of land owned by one person. This will also apply to others who have more that one adjoining lot draining into the same Legal Drain.

This will be discussed again at the next board meeting.

RE: EAGLE SLOUGH:

Since the Levee Board has given their approval of the alternate bid on Eagle Slough, Mr. Biggerstaff suggested that Attorney Russell Lloyd, go ahead with the sale of bonds.

RE: KNIGHT DITCH:

A proposal is to be prepared and presented to the Drainage Board for the

installation of a sewer in Knight Ditch.The Engineer Associates have been contacted to to give an approximate figure to do the work. This will probably be ready at the next board meeting.

VANDERBURGH COUNTY DRAINAGE
APRIL 19,1971

A meeting of the Vanderburgh County Drainage Board was held at 12:08 p.m. with Chairman James Buthod presiding.

The following members were present:

James Buthod, Chairman
A.J."Ted" Stofleth, Vice Chairman
Robert Willner, County Commissioner
Sam Biggerstaff, County Surveyor
Steven Smith, Drainage Engineer
Lewis F.Volpe, County Auditor
Thomas Lockyear, County Attorney

Chairman Buthod made the motion that the minutes of the April 12 meeting be approved as presented. Commissioner Stofleth seconed it. Motion carried.

RE: BRITIAN DITCH:

Attorney Wess Bowers presented a resolution to the Commissioners on the vacation of part of Britian Ditch in Villa Sites.

Chairman James Buthod made the motion that they adopt a resolution desiring intentions to vacate that part of Britain Ditch in the Villa Sites area, and that a hearing be set on it on May 24, 1971 at 11:00 a.m.

Commissioner Stofleth seconed the motion. Motion carried.

RE: 1970 ASSESSMENTS ON LEGAL DRAINS:

Since there were not any remonstrators there,on the new assessments, Commisioner Stofleth made the motion that the assessments be approved, as presented. Commissioner Willner seconed. So moved.

RE: BIDS---ANNUAL PERIODIC MAINTENANCE:

The problems on the bid bonds were still not settled, so Chairman Buthod moved that they postphone the awarding of bids until the next meeting on April 26th., or until further studies can be made.

Meeting recessed 12:30p.m.

James M.Buthod, Chairman

A.J. "Ted" Stofloth, Vice Chairman

Robert Willmer, Commissioner

VANDERBURGH COUNTY DRAINAGE
MAY 10,1971

A meeting of the Vanderburgh County Drainage Board was held at 12:05 p.m. with Chairman James Buthod presiding.

THE FOLLOWING MEMBERS WERE PRESENT:

James Buthod, Chairman
A.J."Ted" Stofleth, Vice Chairman
Robert Willner, County Commissioner
Sam Biggerstaff, County Surveyor
Steven Smith, Drainage Engineer
Lewis F.Volpe, County Auditor
Thomas Lodkycar, County Attorney
Russell Lloyd, County Attorney

Vice Chairman, Ted Stofleth, moved that the minutes of the April 26th meeting be approved as presented, Commissioner Willner seconded. So moved.

RE: OPENING OF BIDS ON RE-ADVERTISED DITCHES:

The following bids were opened, and read by County Attorney, Russell Lloyd.

Joseph E.Seib:

Boesche Extension.....3,742 ft.@.15 per ft.....561.13
Henry Ditch.....3,245 ft.@.14 per ft.....454.30 ✓
Keil " .....3,390 ft.@.10 per ft.....339.00

Kelly Ditch	7,600 ft.	@.17 per ft.	1,292.00

Hirsch Ditch 1241.02

Vice Chairman, Ted Stofloth made the motion that the bids be taken under advisement by the Drainage Engineer untill Friday, May 14, when a special meeting will be called following a Commissioners meeting at 3:00 p.m. Mr. Willner seconded the motion, so moved.

RE: ENGINEERING AGREEMENT FROM ENGINEER ASSOCIATES:

Mr. Richard Eifler, appearing in behalf of Sam Biggerstaff, presented an engineering agreement from Engineer Associates pertaining to Harper Ditch and Hirsch Ditch. Mr. Biggerstaff wished to submit it to the County Attorney for his checking and recommendation.

Chairman, James Buthod moved that the proposed agreement be referred to the County Attorney for his recommendation by the special Friday meeting. Commissioner Stofloth seconded it. So moved.

Meeting ~~adjourned~~ Recessed: 12:20

PRESENT:

DRAINAGE BOARD	COUNTY AUDITOR	COUNTY ATTORNEY

Hirsch Ditch.....	5,641 ft.	@.22 per ft.....	1,241.02

Commissioner Stofleth seconded it. So moved.

RE: EAGLE DITCH IMPROVEMENTS:

At this time Drainage Engineer, Steven Smith presented the following letter to the Commissioners. Received and filed.

Gentlemen:

I have been authorized and requested by the Evansville Vanderburgh Levee Authority District to advise you that the Levee Authority, based upon the recommendations of the Army Corps of Engineers and its consulting engineers, Engineer Associates, has approved the alternate plan submitted by the Surveyor.

This approval is, of course, subject to the acquisition of the necessary easements, upon which I have been, and am presently working with Attorney John Bunner. There may be some modification, as I now understand the plans, but such would be minor. As soon as the necessary rights-of-way have been acquired, I will advise you.

Yours truly,

Ronald Warrum
Attorney at Law

Meeting recessed: 4:10 p.m.

VANDERBURGH COUNTY DRAINAGE
MAY 24, 1971

A meeting of the Vanderburgh County Drainage Board was held at 11:25 a.m. with President James Buthod presiding.

THE FOLLOWING MEMBERS WERE PRESENT:

James M. Buthod, Chairman
A.J." Ted"Stofleth, Vice Chairman
Robert Willner, County Commissioner
Sam Biggerstaff, County Surveyor
Steven Smith, County Drainage Engineer
Lewis F. Volpe, Auditor
Thomas Lockyear, County Attorney
Thomas Swain, County Attorney

Commissioner Stofleth moved that the minutes of the May 14th meeting be approved as presented. Commissioner Willner seconded it. So moved.

RE: PROOF OF PUBLICATION:

Atterney Thomas Lockyear presented the Commissioners with a proof of publication of intention to vacate a protion of Britton Ditch, which was sufficient and in accordance with the law, and also a copy of the notice of vacation of a portion of Britton Ditch, which the Commissioners approved and signed.

RE: FINAL DECISION....BRITTON DITCH:

The Commissioners were presented a copy of FINAL DECISION APPROVING THE VACATION OF BRITTON DITCH AND APPROVING THE SCHEDULE OF BENEFITS AND DAMAGES, which was approved and signed.

RE: EAGLE SLOUGH:

Drainage Engineer, Steven Smith said he had been contacted by the Ryan Contracting Co. asking him could they go ahead with the work on Eagle Slough, before the sale of bonds.

Chairman Buthod said he didn't think so, because they were awarded the bid subject to the sale of bonds, and there are still certain things that could happen.

Commissioner Stofleth said he thinks they should have a letter from Ryan Contracters, stating just what they would like to start doing.

Steven Smith said he would have Ryan to submit a letter to the Drainage Board to this effect.

VANDERBURGH COUNTY DRIANAGE
JUNE 7,1971

A meeting of the Vanderburgh County Drainage Board was held at 10:45 a.m. with President James Buthod presiding.

THE FOLLOWING MEMBERS WERE PRESENT:

James M.Buthod, Chairman
A.J."Ted"Stofleth, Vice Chairman
Robert Willner, County Commissioner
Sam Biggerstaff, County Surveyor
Steven Smith, County Drainage Engineer
Lewis F.Volpe, County Auditor
Thomas Lockyear, County Attorney
Thomas Swain, County Attorney

Commissioner Stofleth moved that the minutes of the May 24th meeting be approved as presented. Commissioner Buthod seconded it. So moved.

RE: WATERWORKS DEPT.....CRAWFORD BRANDIS:

Drainage Engineer, Steven Smith read the following letter from the Waterworks Dept.

Gentlemen:
The Evansville, Indiana Waterworks Dept. requests permission to lay a 12" water line across Brandis Ditch at Old Boonville Highway. The water line will be approximately 20 feet north of center line of Old Boonville Highway and four feet below flow line of ditch.

Yours truly,

Donald B. Mills
Waterworks Engineer

Commissioner Stofleth moved that the request be approved. Commissioner Willner seconded it. So ordered.

RE: BOND ISSUE....EAGLE SLOUGH:

Attorney Thomas Swain stated that originally in his letter to the Drainage Board, he would have the papers ready on the Bond Issue, but that he was having difficulty in getting all the information he needs to complete it. He will try to have it ready at the next meeting.

RE: HARPER DITCH:

County Surveyor, Sam Biggerstaff asked the Board members did they receive a copy of a proposed agreement from his office. They said no, they hadn't. He showed them a copy of it, stating that The Engineer Associates Inc. would get the contract, if the Board chose to approve it.The contract is for subsurface investigation and soil engineering services of Harper Ditch and Extension. Mr. Biggerstaff said in his opinion it ran pretty high, and he didn't know if all of that work was necessary or not. It was estimated between $4,490.00 and $6,637.50. Mr. Biggerstaff said he would see to it that each of the Commissioners received a copy of it this week, so that they could read over it.

James M. Buthod, Chairman
A.J."Ted"Stofleth, Vice Chairman
Robert Willner, County Commissioner
Sam Biggerstaff, County Surveyor
Steven Smith, Drainage Engineer
William Wittekindt, Deputy Auditor
Thomas Lockyear, County Attorney
Thomas Swain, County Attorney

Commissioner Stofleth moved that the minutes of the June 7th meeting be approved as presented. Commissioner Willner seconded it. So ordered.

RE:HARPER AND HIRSCH DITCHES:

County Surveyor Sam Biggerstaff presented a copy of an Engineering Agreement from The Engineer Associates, Inc., in which County Attorney Thomas Lockyear talked over with Mr. Leo Weiss, President of Engineer Associates, and ironed out any difficulties which might have been in it. Mr.Biggerstaff stated that they are now satisfied with the contract.

Mr. Stofleth moved that the contract be approved and executed subject to delivery at such time as appropriate funding is provided. Mr.Robert Willner seconded it. So ordered.

At this time the meeting recessed for a short time for Poor Relief.

Meeting resumed. 12:15 p.m.

RE: EAGLE SLOUGH...BOND ISSUE:

County Attorney Thomas Swain presented a Resolution authorizing the issuance of Drainage Improvement Bonds by the Vanderburgh County Drainage Board, Vanderburgh County, Indiana, for the purpose of financing drainage improvements designated as the Eagle Slough Improvements prescribing the form of the bond providing for the payment of said bonds for the segregation and distribution of assessments and for providing rights of the holders of said bonds in enforcement thereof.

Mr.Swain said he would give each of the Commissioners a copy of the resolution so that they could look it over.

RE: MAIDLOW DITCH:

Mr. Fred Buente appeared before the Drainage Board telling them he had, some years back, circulated a petition requesting that Maidlow Ditch be extended on past his farm and made a legal drain, so that it would be cleaned along with the rest of the ditch. This is along Boonville-New Harmony Rd.

Mr.Biggerstaff explained they are behind, and that all the ditches should be reassessed, and that they are now working in his area.

Mr.Steven Smith, Drainage Engineer said that they are now in the process of drawing up the water shed maps. They are trying to get all the maps drawn before the petitions are brought up.

Mr. Willner asked how would these petitions be heard, and Mr.Biggerstaff said first come, first serve.They will have to be advertised and there will be hearings on them. They are in the process of trying to consolidate some of these ditches.

In the mean time the County Highway will clean this ditch, and that will help for the time being.

Mr.Buente was worried that his petition wasn't on file any longer, but they assured that it was.

RE: TRANSFER OF FUNDS:

County Surveyor Sam Biggerstaff said he had talked to Mr.Volpe, Auditor and he asked permission to appear before the County Council to transfer from the General Drainage Improvement Fund, somewhere around 67,000.00, and put it into a special account for contractural purposes.

Commissioner Stofleth moved that he be given permission to appear. Commissioner Willner seconded it. So ordered.

JULY 12, 1971

A meeting of the Vanderburgh County Drainage Board was held at 11:25 a.m. with President James Buthod presiding.

THE FOLLOWING MEMBERS WERE PRESENT:

James M. Buthod, Chairman
A. J. "Ted" Stofleth, Vice Chairman
Robert L. Willner, County Commissioner
Sam Biggerstaff, County Surveyor
Lewis F. Volpe, Auditor
Thomas Lockyear, County Attorney
Thomas Swain, County Attorney

The minutes of the previous meeting held on June 21, 1971, were approved and the reading of them dispensed with.

RE: EAGLE SLOUGH

Mr. Swain said that there is a problem with the Eagle Slough improvements. He said that the alternate bids were taken from the State of Kentucky and the Levee Authority purchased the Right of Way for the alternate route and now there has been some problem with Inland Marina, and until the meeting of the Levee Authority, won't know where we stand. He said the outlook is dark for Eagle Slough without the purchase of Right of Way. Mr. Swain asked Mr. Biggerstaff if there wasn't another route besides going under Inland Marina. Mr. Biggerstaff said by going into the pipes and under the road.
Commissioner Stofleth asked how close we were to the bond issue on this project. Mr. Swain said that he didn't know but thought he had all the paper work done, but every time he thinks it is finished, something else comes up. He is waiting for an answer on two things, one from Mr. Noelting on where the City money is coming from and the other from Ron Warren, since he is having trouble from John Bunner who represents the Inland Marina, and until these problems are resolved, he has no idea of when this thing will be ready to go, but wanted to get it started so the contractor wouldn't lose the construction time.
Mr. Ivan Wathen wondered what would happen if the job isn't finished and the contractor's labor license expires, as his will expire this year.
Mr. Swain said he didn't know just what would happen in this case.
Mr. Wathen said that the people have already lost ten times as much as it would cost for the repair of the ditch because everytime it rains they get all the water from Lawndale and Washington Square, and it raises the water in his field up to ten inches.
Mr. Swain said that Eagle Slough has a definite channel and that through an agreement between the Board of Engineer's and the Levee Authority, the course was changed to pull Eagle Slough away from the Levee, thinking that the water was damaging the Levee, so in order to protect that, they moved the course and changed it's direction. He said that two bids were received, one was on following the course of Eagle Slouth as it now exists, and an alternate plan to take it out around the levee to protect it. The difference in the two bids was approximately $60,000.00. The Bond Issue was subject to the bonding and that the County purchase the alternate Right of Way. As Mr. Swain understood it, there was to be some trade made of property between Inland Marina and the Levee Authority. There has been a change of ownership of the Inland Marina, and as a result, they don't want the water coming into the bay there because of a filter problem, and it won't be known how this is being resolved until the Levee Authority acts on it.

Mr. Wathen said he didn't know why it is taking so long, as the petition on this was filed in 1965.

Mr. Biggerstaff said they could acquire a permit and go back to the original route of going through the pipes even though this is not the best route.

Commissioner Buthod said if these problems are resolved, the Drainage Board will reconvene in order to take action, so suggested that Mr. Swain check with Mr. Warren to see what decision, if any, was made at the meeting of the Levee Authority.

0028

Commissioner Buthod said he would like for this to be resolved and that he is tired of hearing about it, that the Commissioners have tried to do everything they could but had problems with the engineering, among other things, but that nothing has come before the Drainage Board to be acted on that wasn't acted on immediately, and have moved as fast as the Board could, but the problems are beyond the control of the Drainage Board. He said that the Board will meet as promptly as they can get a determination.

Commissioner Stofleth said he was in accord with the thoughts of Mr. Buthod and thought condemnation proceedings were in order.

Mr. Wathen said the people are spending their own money out there and something should be done.

Commissioner Buthod said that condemnation could be started and if there was no objection of this, just a matter of damages, then construction could be started before the bond issue is sold.

Mr. Wathen will be informed when any action is taken.

VANDERBURGH COUNTY DRAINAGE
JULY 19, 1971

A meeting of the Vanderburgh County Drainage Board was held at 11:05 a.m. on July 19, 1971, with President James Buthod presiding.

The minutes of the previous meeting held on July 12, 1971, were approved and the reading of them dispensed with.

RE: EAGLE SLOUGH

Mr. Thomas Swain, the County Attorney, asked that there be a special meeting sometime this week, relative to the Bond Issue on Eagle Slough. The Commissioners were in agreement with this.
Mr. Swain said that the problem with Inland Marina had been worked out.
Commissioner Buthod set the time of special meeting to be on Wednesday morning, at 8:30 a.m. on July 21, 1971, to execute agreement of Bond Issue on Eagle Slough.

Meeting recessed at 11:10 a.m.

VANDERBURGH COUNTY DRAIN
JULY 21, 1971

A special meeting of the Drainage Board was held on Wednesday, July 21, 1971, at 8:45 a.m. with President James Buthod presiding.

The minutes of the previous meeting were approved and the reading of them dispensed with.

RE: EAGLE SLOUGH

Mr. Swain summarized that the project on Eagle Slough started in 1966, when the Drainage Board authorized the sum of $2,000.00 for a preliminary study of the reconstruction of Eagle Slough. They then proceeded with the plans and specifications. The plans for the preliminary assessment rolls were prepared and were rejected. The objections were heard and modified, and other assessment rolls prepared. This time they were approved by the Drainage Board. Bids were taken and let on basis of alternate bid of Ryan Construction Co., and arrangements were made to purchase certain Rights of Way from Inland Marina, and Inland Marina is then trading land with the Levee Authority, to use the alternate plan of pulling Eagle Slough away from the levee and bringing it to the river.
Mr. Swain said that there is an agreement between the Levee Authority and the Inland Marina.
Mr. Swain then read the amounts of costs that are to be borne by the City, County, State, Levee Authority and the land owners, as stated in the resolution.
Mr. Swain said that the problem is, the Levee Authority said that they can get $40,000.00 Federal money as soon as the work is completed, so maybe this amount won't have to be bonded but that he didn't know how fast this money will come back.
He also read a breakdown on the cost of the project.
It was decided that it was necessary to sell negotiable bonds in the amount of $225,000.00 to finance the improvement and to set out the terms to be provided by said bonds, the proceeds of the sale of which are to be used for the reconstruction of Eagle Slough according to the plans and specifications.
Bonds to be financed for a ten year period, commencing on July 1, 1973.
Commissioner Buthod moved that the resolution, as presented by the County Attorney be adopted with amendment of Bond Issue to be $225,000.00 and that bonds shall be maturable in a ten year period with 22 bonds per year and five bonds the final year, and the County Attorney advertise. Commissioner Willner seconded the motion.

Mr. Biggerstaff said that he, Bob Willner, and Steve Smith went to look at some ditches. They watched the Armstrong-Scott ditch Association work their draglines, and said that they are doing a good job in removing the erosion from the ditches. He said that they estimated the cost to be approximately $100.00 for the straightening out of Baehl Ditch from Nisbet Road to Pond Flat Ditch. The Commissioners authorized the County Surveyor to let this job be done.

Meeting recessed at 9:35 a.m.

803-A

RESOLUTION AUTHORIZING THE ISSUANCE OF DRAINAGE IMPROVEMENT BONDS BY THE VANDERBURGH COUNTY DRAINAGE BOARD, VANDERBURGH COUNTY, INDIANA, FOR THE PURPOSE OF FINANCING DRAINAGE IMPROVEMENTS DESIGNATED AS THE EAGLE SLOUGH IMPROVEMENTS PRESCRIBING THE FORM OF THE BOND PROVIDING FOR THE PAYMENT OF SAID BONDS FOR THE SEGREGATION AND DISTRIBUTION OF ASSESSMENTS AND FOR PROVIDING RIGHTS OF THE HOLDERS OF SAID BONDS IN ENFORCEMENT THEREOF

WHEREAS, the Vanderburgh County Drainage Board, hereinafter referred to as"Drainage Board", of Vanderburgh County, Indiana, and the Evansville-Vanderburgh County Levee Authority have developed final plans for the improvement of Eagle Slough, a legal public drain in Vanderburgh County, Indiana, which project is a part of a plan to assist in controlling soil erosion, prevention and control of floods and protecting of water sheds and natural resources.

WHEREAS, the Drainage Board authorized the sum of $2,000.00 for a preliminary study of the reconstruction of Eagle Slough as shown by minutes of the Board dated April 4, 1966 and shown here as "Exhibit 1" and,

WHEREAS, on July 29, 1968, the Drainage Board set a public hearing for the objections on the preliminary assessment for Eagle Slough for Wednesday, September 25, 1968, at 10:00 A.M., and a copy of such notice is shown by "Exhibit 2" and said notice was published in a newspaper of general circulation printed and published in Vanderburgh County, Indiana on Sept. 12, and 19, 1968, as shown by proof of publication attached hereto as "Exhibit 3".

WHEREAS, the Drainage Board held a public hearing on September 25, 1968 for the purpose of receiving and hearing objections to the preliminary assessments and the list of objectors is shown by the minutes of the Drainage Board attached hereto as"Exhibit 4", and

at said meeting set a public hearing for ruling upon the objections to the preliminary assessments for December 18, 1968 at 10:00 A.M., and a copy of the notice is attached hereto as "Exhibit 5" and said notice was published in a newspaper of general circulation printed and published in Vanderburgh County, Indiana on December 5, and 12, 1968, as shown by proof of publication attached hereto as "Exhibit 6".

WHEREAS, on December 18, 1968, the Vanderburgh County Surveyor presented an amended assessment roll which is attached hereto as "Exhibit 7", and the Drainage Board set a public hearing for March 5, 1969 at 10:30 A.M. for the purpose of receiving and hearing objections to the amended assessment roll as shown by the notice attached hereto as "Exhibit 8", and said notice was published in a newspaper of general circulation printed and published in Vanderburgh County, Indiana, on February 20 and 27, 1969, as shown by proof of publication which is attached hereto as "Exhibit 9".

WHEREAS, on March 5, 1969, William Wedeking, Deputy Auditor of Vanderburgh County, Indiana, certified notice by mail to each of the objectors as shown by the minutes of the meeting of March 5, 1969, which minutes are attached hereto as "Exhibit 10" and at said meeting a motion was duly made, seconded and adopted approving the amended assessment rolls. Upon motion duly made, seconded and adopted, the Drainage Board ordered the County Surveyor to proceed with the preparation of plans and specifications for the reconstruction of Eagle Slough.

WHEREAS, on November 2, 1970, Steven V. Smith, as a deputy surveyor of Vanderburgh County and Drainage Engineer, presented plans and specifications to the Drainage Board for the reconstruction of Eagle Slough, and it was duly moved, seconded and adopted

that said plans and specifications submitted be approved by the Drainage Board and it was moved, seconded, and unanimously adopted that the Auditor advertise for bids for reconstruction of Eagle Slough, said bids to be received on or before January 11, 1971. A copy of said plans and specifications are attached hereto as "Exhibit 11". A copy of said advertisement for bids is attached hereto as "Exhibit 12". Said advertisement for bids was published in a newspaper of general circulation printed and published in Vanderburgh County, Indiana, on December 14, and 21, 1970. Proof of publication is attached hereto as "Exhibit 13".

WHEREAS, on November 30, 1970, Steven V. Smith, Deputy Surveyor of Vanderburgh County, presented amendments in the plans and specifications for the reconstruction of Eagle Slough and upon motion made, seconded and adopted, the amendments in the plans and specifications for the reconstruction of Eagle Slough were approved by the Drainage Board. The amended plans and specifications are attached hereto as Exhibit 14.

WHEREAS, on January 1, 1971, the Drainage Board organized for the year 1971 and James M. Buthod was elected President and A. J. Stofleth was elected Vice President of said Drainage Board and the minutes of the meeting are attached hereto as "Exhibit 15".

WHEREAS, on January 11, 1971, the bids were opened and on motion duly made, seconded and adopted, said bids were taken under advisement to January 18, 1971, and the minutes of the meeting are attached hereto as "Exhibit 16".

WHEREAS, on January 18, 1971, on motion duly made, seconded and adopted, the contract for the reconstruction of Eagle Slough was awarded to Ryan Construction Co. upon the basis of the alternate bid in the amount of $159,030.00, subject to the issuance of bonds

and subject to the approval of the Evansville-Vanderburgh County Levee Authority paying the cost difference between the primary bid and the alternate bid, and if the Evansville-Vanderburgh County Levee Authority does not agree to pay for the difference in cost between the primary bid and the alternate bid in the amount of $58,200.00, then the contract is awarded to Ryan Construction Company on the basis of the primary bid of $100,830.00 subject to the issuance of bonds. A copy of the contract is attached hereto as "Exhibit 17".

WHEREAS, on March 16, 1971, the Evansville-Vanderburgh County Levee Authority agreed to pay the increase in cost of the alternate bid and by motion made, seconded and adopted, the Drainage Board ordered the County Attorneys to proceed with the bond issue. A copy of the letter from the Levee Authority is attached hereto as "Exhibit 18".

WHEREAS, the plans and specifications for the reconstruction of Eagle Slough have been submitted to the Indiana Department of Natural Resources which has issued its permit for the reconstruction of Eagle Slough, said Certificate of Approval dated June 21, 1971 is attached hereto as "Exhibit 19".

WHEREAS, the plans and specifications for the relocation of Eagle Slough located in Henderson County, Kentucky were submitted to the Commonwealth of Kentucky, Department of Natural Resources which has approved said plans and specifications and issued its Construction Permit No. 469 dated December 4, 1970, a copy of said permit is attached hereto as "Exhibit 20", and

WHEREAS, on 13 April, 1970 and 16 April, 1971, the Department of the Army, Corps of Engineers, Louisville District, granted its

approval for the reconstruction of Eagle Slough, and a copy of said letters are attached hereto as "Exhibits 21 and 22".

WHEREAS, the Vanderburgh County Drainage Board received approval of the Evansville-Vanderburgh Levee Authority District for acceptance of the alternate plan as shown by letter dated May 10, 1971 and is attached hereto as "Exhibit 23", and

WHEREAS, Steven V. Smith, drainage engineer of Vanderburgh County, Indiana has determined that assessment roll approved by the Drainage Board on March 5, 1969 is as follows, as shown by the breakdown of individual land owners on Reconstruction Assessment Schedule (revised) dated November 16, 1970 which is attached hereto as "Exhibit 23".

The Evansville-Vanderburgh County Levee Authority (special assessment) is to bear 36.59687% of the total cost of construction under the alternate plan, and the balance is to be borne as follows:

City of Evansville	71.58706%
Vanderburgh County, Indiana	0.28702%
State of Indiana	0.34160%
Evansville-Vanderburgh County Levee Authority District	2.93433%
Individual Land Owners	24.84999%

WHEREAS, the cost breakdown under the alternate plan is as follows:

Construction Cost	$159,030.00
Engineering Cost	12,722.40
Inspection Cost	6,361.20
Contingencies	23,854.50
Aerial Route Surveys	4,842.50
Legal Fee	1,500.00
Bond Fee	2,500.00
Interest for first year	12,000.00

WHEREAS, the Drainage Board has determined the total cost of said improvement to Eagle Slough in the amount of $222,810.60 is in excess of that which the owners of land may conveniently pay

in installments over a five (5)-year period, and that it is necessary and proper for the drainage board to authorize the issuance of bonds for the purpose of providing funds to pay such cost and to finance the improvement.

WHEREAS, on December 7, 1970, County Surveyor, Sam Biggerstaff, made changes in the specifications for bids on the reconstruction of Eagle Slough, and on motion duly made, seconded and adopted, the final plans and specifications for the reconstruction of Eagle Slough were approved, and

WHEREAS, the Drainage Board finds that all conditions precedent to the issuance and sale have been met.

NOW, THEREFORE, BE IT RESOLVED by the Vanderburgh County Drainage Board of Vanderburgh County, Indiana as follows:

Section I. The Vanderburgh County Drainage Board now proceeds with the reconstruction of Eagle Slough, a legal drain, and that said reconstruction of Eagle Slough be carried out in accordance with plans, specifications and estimates dated June 7, 1970 referred to above and pursuant to the Indiana Drainage Code, Burns Indiana Statutes Annotated, Section 27-2001 et seq. and I. C.-19-4-3. The Drainage Board hereby finds and determines that the total estimated cost of construction and expense is the sum of $222,810.60 and that the proportion of the cost thereof is to be borne as follows:

1. The Evansville-Vanderburgh County Levee Authority, special assessment (alternate plan) is to bear 36.59687% of the total cost of the reconstruction. The balance of the cost is to be borne as follows:

City of Evansville	71.58706%
Vanderburgh County, Indiana	0.28702%
State of Indiana	0.34160%
Evansville-Vanderburgh County Levee Authority	2.93433%
Land Owners, as per revised schedule	24.84999%

0031-G

Section II. The Drainage Board hereby finds and determines the total estimated cost of reconstruction is in excess of that which the owners of land to be assessed may conveniently pay in installments over a five (5)-year period, and it is necessary to sell negotiable bonds in the amount of $225,000.00 to finance the improvement and to set out the terms to be provided by said bonds, the proceeds of the sale of which are to be used for the reconstruction of Eagle Slough according to the plans and specifications dated December 7, 1970.

Section III. The Vanderburgh County Drainage Board improvement bonds shall be issued in fully registered form without interest coupons and shall be payable not later than ten (10) years from the date thereof dated on the date delivered to the purchaser in the denomination of $1,000.00 each, and shall be numbered 1 to 225, inclusive. The bonds shall bear interest at a rate not exceeding six percent (6%) per annum as may be fixed by subsequent resolution as a result of competitive bidding as set forth in Section VII . The interest shall be payable semi-annually beginning July 1, 1972 and on January 1 and July 1 of each year thereafter until paid. The bonds shall mature annually on July 1, commencing July 1, 1973 according to the following schedule:

July 1, 1973 - 1-22
July 1, 1974 - 23-44
July 1, 1975 - 45-66
July 1, 1976 - 67-88
July 1, 1977 - 89-110
July 1, 1978 - 111-132
July 1, 1979 - 133-154
July 1, 1980 - 155-176
July 1, 1981 - 177-198
July 1, 1982 - 199-225

The bonds may be called by the Drainage Board for refunding or repayment in inverse numerical order without penalty. In the event the bonds are called for prepayment, interest shall cease to run thereon on the dates stated for presentment in said call as to those persons actually receiving a notice of the call by certified mail as shown by the return receipt whether presented for payment or not. In the event that the bonds are called for refunding, interest shall continue to run from date stated for presentment in the call, whether actually presented or not, at the rate provided for with respect to the refunding issue.

Principal of said bonds shall be payable to the registered holder upon presentation and surrender thereof to the Drainage Board and interest thereon shall be payable without presentation to each registered holder by check or draft drawn by the Auditor and Treasurer of Vanderburgh County and mailed to the Owner at his address shown on the Board Bond Regiatration Books.

The bonds shall be signed by the President and Secretary of The Vanderburgh County Drainage Board and shall bear the official seal thereof. Any officer or board which hereafter succeeds, by operation of law, to the powers and duties of any such officers shall be deemed included in the applicable official designation while having such powers and duties.

Each bond shall be fully negotiable and shall be registered in the name of the owner in a book maintained for that purpose by the Auditor of Vanderburgh County, Indiana, as Bond Registrar, after which transfer shall be by written assignment by the registered holder or his attorney, such transfer to be noted in said book and similarly noted on each bond. No charge shall be made for registration.

The bonds shall be payable from and constitute a lien upon all assessments paid by the owners of lands assessed as benefited by the improvement.

Section IV. The form and tenor of said bonds shall be substantially as follows:

UNITED STATES OF AMERICA

STATE OF INDIANA COUNTY OF VANDERBURGH

THE VANDERBURGH COUNTY DRAINAGE BOARD

DRAINAGE IMPROVEMENT BOND

EAGLE CREEK SLOUGH RECONSTRUCTION

No._____ $1,000

KNOW ALL MEN BY THESE PRESENTS, that The Vanderburgh County Drainage Board, Vanderburgh County, Indiana, hereinafter called the Drainage Board acknowledges itself to owe and for value received hereby promises to pay to the registered holder out of the bond redemption fund as herein provided the principal sum of

ONE THOUSAND DOLLARS

on January 1, 19____, in lawful money of the United States of America, upon presentation and surrender of this bond at the principal office of the Board and to pay the registered holder hereof interest on said sum at the rate of_____per annum from the date hereof until paid, by check or draft mailed to his address as it appears on the bond registration book of the County Auditor, such interest being payable semi-annually on the 1st day of July and the 1st day of January, each year, commencing July 1, 1972.

This bond does not constitute an indebtedness or a general obligation of the County, of the Drainage Board or of any person within the meaning of any constitutional or statutory provision or limitation, but shall be a lien upon the lands assessed for benefits

for the Eagle Slough Reconstruction in the ratio of said assessment; and is payable and collectible solely out of the Eagle Slough Reconstruction Bond Redemption Fund which was created by Resolution adopted and approved on July 21, 1971, for said improvement and such fund shall consist of all assessments paid including the owners of land assessed as benefited by the improvements. Such fund may only be used for the purpose of redeeming the bonds issued to finance the improvement and the Auditor of Vanderburgh County, Indiana shall maintain a separate ledger sheet for all assessments to be received into the bond redemption fund and said fund is irrevocably so pledged.

This bond is one of a series of a duly authorized issue of The Vanderburgh County Drainage Board Drainage Improvement Bond, Eagle Slough Reconstruction, constituting an issue of bonds of like tenor, date and effect, except as to maturity, numbered 1 to 225, inclusive, in the denomination of $1,000 each aggregating an amount of $225,000, authorized and issued for the purposes of paying the costs of reconstruction of Eagle Slough.

Bonds of this issue are subject to call, prepayment or refunding in whole or in part in inverse numerical order at a price equal to the principal amount redeemed or refunded plus accrued interest to the date fixed for prepayment or refunding. Upon the prepayment or refunding date (unless default shall be made upon presentation) all future interest upon the bonds shall cease to accrue, except if the bonds are called for refunding, interest shall continue to run from the date stated for presentment whether actually presented or not, at the rate provided for with respect to the refunding issue. Notice of any such call shall be sent by certified mail, mailed at

least 30 days prior to the date fixed for presentment, addressed to the registered holder, at the address as it appears on the Bond Registration Book or to such other address as the registered holder may designate by registered mail to the Drainage Board mailed at least 40 days prior to such date.

This bond shall be registered in the name of the holder and in accordance with the Resolution after which it shall be transferable only upon presentation to such registrar with a written assignment duly executed by the registered holder or his attorney, such transfer shall be noted upon the bond and upon the bond registration books kept for that purpose.

Upon default in the payment of principal or interest on this bond or upon failure of the Board to comply with any other provisions of this bond or the provisions of the Bond Resolution the holder may at his option exercise all rights and remedies provided by law or by said resolution.

It is hereby certified that all acts, conditions and things required to exist, happen and to be performed precedent to the issuance of this bond, now exist, have happened and have been performed as required by law.

IN WITNESS WHEREOF, The Vanderburgh County Drainage Board, Vanderburgh County, Indiana, has caused this bond to be executed in its name by the President of the Board and the seal of the Board affixed hereto and attested by the Secretary of the Board on this _____day of July, 1971.

PROVISIONS FOR REGISTRATION

This bond shall be registered on the books of the Board kept for that purpose by the Auditor of Vanderburgh County, Indiana, as Bond Registrar, upon presentation thereof to the Auditor who shall make notation of such registration in the registration blank and this bond may thereafter be transferred only upon a written assignment duly executed by the registered holder or his attorney, such transfer to be noted on said books and endorsed hereon.

REGISTRATION

Date of Registration	Name of Registered Holder	Signature of Registrar
_____	_____	_____
_____	_____	_____
_____	_____	_____

The bonds hereby authorized, together with interest thereon, shall be payable from the assessments paid including the owners of lands assessed as benefited by the improvements which shall be paid to a bond redemption fund and which shall be used only for the purpose of redeeming the bonds and the income therein is hereby pledged and set aside for that purpose.

The Treasurer of Vanderburgh County shall be custodian of all funds belonging to and/or associated with said improvement and such funds shall be deposited in the _____ Bank, _____, Indiana, which bank is a depositary pursuant to Section 61-622 et seq., Burns Indiana Statutes Annotated, and a member of the Federal Deposit Insurance Corporation. The said Treasurer is hereby directed to create the following fund and account into which the bond proceeds shall be deposited:

A. CONSTRUCTION ACCOUNT. The proceeds of the bonds hereby authorized shall be deposited in the Construction Account and such proceeds shall be withdrawn on the orders of the Board only on checks signed by the Auditor and Treasurer of Vanderburgh County and only for the purpose or purposes for which said bonds were issued. When the construction of all Eagle Slough Construction has been completed and/or construction costs have been paid in full, any balance remaining in the Construction Account shall be deposited in the Bond Redemption Fund and said Construction Account shall be closed.

B. BOND REDEMPTION FUND. The Board hereby creates an Eagle Slough Reconstruction Bond Redemption Fund which shall consist of all assessments paid including the owners of lands assessed as benefited by the improvements. Such fund may only be used for such purpose of redeeming the bonds and the Auditor shall maintain a separate ledger sheet for all assessments to be received into such Eagle Slough Reconstruction Bond Redemption Fund. Whenever there are sufficient funds on hand in the Redemption Fund to make a prepayment and to meet all payments of principal and interest due or to become due within the next 12-month period, the Drainage Board may make a prepayment as provided in Section II above.

Section V. The Board covenants and agrees that so long as the bonds hereby authorized remain unpaid as follows:

(a) It will comply with applicable State laws and regulations and it will,

(1) Levy assessments for debt service in sufficient amount to pay the interest on and redeem the bond.

(2) Levy assessments for annual cost of periodically maintaining the drain.

(3) Collect interest at the rate of 6% per annum on all unpaid assessments.

(4) Collect income in any amount in any other manner necessary to meet the needs of the Board.

(b) It will maintain complete books and records relating to the operation and the amounts received from the assessments for improvements as apportioned in accordance with the benefits and cause such books and records to be audited annually at the end of each fiscal year. At all reasonable times holders shall have the right to inspect the improvement and records, accounts and data relating thereto.

(c) The provisions of this Resolution shall constitute a contract between the Board and the registered holders of the bonds and after the issuance of such bonds this Resolution shall not be repealed or amended in any respect which will adversely affect the rights and interests of the holders nor shall the Board adopt any law, ordinance or resolution in any way adversely affecting the rights of the holders so long as said bonds or interest thereon remains unpaid.

Section VI. If there shall be default in the payment of principal or interest of the bonds, the officers responsible for the collection of delinquent taxes shall take the steps provided by law to collect all delinquencies, and for that purpose said officers are required to cooperate with any bondholder or committee of bondholders and to pursue any remedies available for the collection of the delinquent assessments.

Section VII. The period over which the bonds shall be repaid shall be ten (10) years and the Schedule of Assessments on the lands benefited by the improvements which are unpaid and each unpaid individual assessment are divided into ten (10) annual installments. Said installments becoming payable and due on the first Monday of July, 1972 and the first Monday of January, 1973, and on July and January of each year thereafter until fully paid, all of said installments to bear interest not to exceed the rate of six

percent (6%) per annum payable semi-annually.

The Chairman of the Drainage Board is hereby authorized and directed to cause notice for bids for the purchase of said bonds to be published pursuant to all applicable Indiana statutes. The Notice and Sale shall be according to Section 61-401 et seq., of Burns Indiana Statutes Annotated and shall state the bonds to be sold, time and place of sale, and that a certified good faith check representing at least three percent (3%) of the bonds must accompany the bid.

Notice shall provide that bidders shall name a single rate of interest which the bonds are to bear not exceeding the maximum rate of 6.000 percent per annum, said bids must be at par no more no less. If there is no bid or if all bids are rejected, the Drainage Board may readvertise the sale pursuant to this Resolution.

All ordinances, resolutions and orders or parts thereof in conflict with the provisions of this Resolution are to the extent of such conflict hereby repealed, and each section of this Resolution and each subdivision of any section thereof is hereby declared to be independent and the findings or holding of any section or subdivision thereof to be invalid or void shall not be deemed or held to effect the validity of any other section or subdivisions of this Resolution.

This Resolution shall be in full force and effect from and after its passage.

Passed and adopted by the Vanderburgh County Drainage Board of Vanderburgh County, Indiana, on the 21st day of July, 1971, and

approved by me as President on the 21st day of July, 1971.

Certification

I, LEWIS F. VOLPE, as Secretary of The Vanderburgh County Drainage Board, Vanderburgh County, Indiana, do hereby certify that at a meeting of the Drainage Board duly called and held on JULY 26, 1971, the foregoing Resolution was approved and adopted.

Dated this 26th day of JULY, 1971.

Lewis F. Volpe
Secretary

VANDERBURGH COUNTY DRAINAGE
AUGUST 16, 1971

A meeting of the Vanderburgh County Drainage Board was held at 11:45 a.m. on Monday 16,1971 with president James Buthod presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor.

RE: REQUEST OF ALIGNMENT OF BARR"S CREEK:

County Surveyor, Sam Biggerstaff presented a letter from Mr.Alvin Scheller in bringing a matter of utmost urgency to the attention of the Commissioners. This matter concerned the alignment of Barr's Creek between Baselino Road and Hepler Road. He said the channel has meandered to the point of endangering the safety of the Hepler Road bridge as well as the farm land which he and his neighbors own and that each rain worsens the condition and it is fast approaching the state which will make th cost to correct prohibitive. Mr. Scheller said he contacted Ken Adler who owns a high lift to look at one curve that is severly eroding into his field. The estimate to correct the one curve was approximately $ 600.00. He said this would not solve the problem, but only temporarily correct part of it.

He said that since this is a county ditch and it is the responsibility of the county surveyor to maintain the ditch, he appealed to the Drainage Board and to the county surveyor, to take steps to correct the problem.

Mr.Biggerstaff said that he would like for the county to appropriate the $ 600.00 for Mr.Ken Adler to make necessary repairs, and approval of same by the Drainage Board.

President Buthod moved, upon recommendation of the County Engineer, that this request be approved. Commissioner Willner seconded it. So ordered.

RE: SEWER NEAR THE SONNTAG-STEVENS DITCH:

Mr.Biggerstaff said that it has come to his attention, from the Curtis Constr. Co., that a sewer out near the Sonntag-Stevens Ditch,(he had sent everyone concerned a drainage map that showed the locations of all legal drains, and so stated that anytime they worked with rights-of ways of these drains, that their plans should be approved by the Vanderburgh County Drainage Board) this sewer is in place and if this sewer is re-constructed as others have been, they will lay the banks back on 3 to 1 slope.

Commissioner Buthod said that he was at the location of this sewer and wanted to state for the record that he is Secretary of Curtis Constr. Co. He said this ditch is rather shallow and approximately 6 feet from the edge of the bank and as he understood it, there was some mixup in the information provided as to this being a legal drain.

Mr. Biggerstaff said that he thought the law was out in left field in stating that there should be no structure 75 ft. from a legal drain, so assumed that if there is the law, a permit would have to be obtained from the Drainage Brd. He said that something will have to be done about this, and an agreement should be set up with the Drainage Board.

Buthod said this is a matter to discuss with the Board of Public works.

Mr.Biggerstaff said the sewer should either be moved out so that it isn't too close to the bank of ditch or else a letter from someone saying that in time it will be removed at no expense to the county.

As there was no emergency, Willner said he would like to see this condition.

Buthod said that any waiver that the Drainage Board granted, should be conditioned on a time limit basis and what other conditions can be worked out between the City and the Drainage Board.

President Buthod said, in other words, this sewer was installed in violation of the drainage law and a lot of money has been spent on it.

OFFICIAL NOTICE OF SALE OF BONDS OF THE
VANDERBURGH COUNTY DRAINAGE BOARD

Seal proposals will be received by the Vanderburgh County Drainage Board at Room 305 Civic Center Complex, Evansville, Indiana until 10:00 A.M. Eastern Standard Time on the 7th day of September, 1971 for the purchase of bonds for the reconstruction and improvement of Eagle Slough by the Vanderburgh County Drainage Board designated as "Vanderburgh County Drainage Board Drainage Improvement Bond -- Eagle Creek Slough Reconstruction", in the amount of $225,000bearing interest at a rate not to exceed six percent (6%) per annum (the exact rate or rates to be determined by bidding) which interest is payable on July 1, 1972 and semi-annually thereafter. Said bonds are dated July 1, 1971 numbered from 1 to 225 inclusive in the denomination of $1,000.00 each and mature serially commencing on July 1, 1973 at the rate of $22,000.00 per year with the exception of the last year when the balance of said bonds mature.

Principal and interest are payable at a depository pursuant to Burns Indiana Statutes Annotated 61-622 which bank must be a member of the Federal Deposit Insurance Corporation. Said funds will be administered by the Treasurer of Vanderburgh County.

All bonds maturing on the same date shall bear the same single coupon rate.

The award will be made to the highest qualified bidder complying with the terms of the sale and offering the lowest net interest cost to the board to be determined by computing the total interest on all of the bonds to their maturities and deducting therefrom the premium bid if any. The right is reserved to reject any and all bids. In

the event no satisfactory bids are received at the time and on the date herein fixed, the sale will be continued from day to day thereafter for a period not exceeding thirty days.

All bids must be submitted in sealed envelopes marked "Bid for Eagle Slough Bonds", and each bid must be accompanied by a certified or cashier's check in the amount of $10,000.00 payable to the Vanderburgh County Drainage Board. In the event the bidder to whom said bonds are awarded shall fail to accept delivery of same as herein provided, said check and the proceeds thereof shall become the property of the Board and shall be considered as liquidated damages growing out of such default. The deposit of unsuccessful bidders will be returned following the award of the bonds.

The bonds will be ready for delivery within thirty days after the date on which the award is made and if not deliverable within that period, the successful bidder may rescind the sale and his good faith check will be returned. The successful bidder will be required to make payment for and accept delivery of said bonds at such bank in the City of Evansville as shall be designated in writing to the Vanderburgh County Drainage Board within five days after being notified that said bonds are ready for delivery.

Said bonds are being issued to procure funds to be applied to the reconstruction of Eagle Creek Slough, and are to be repaid from funds assessed by virtue of the provisions of the Indiana Drainage Code.

A copy of the Resolution of the Drainage Board, supporting documents and any further information can be obtained upon request in the office of the Drainage Engineer (County Surveyor) Room 325, Civic Center Complex, Evansville, Indiana.

Dated this 23 day of August, 1971.

Commissioner Stofleth moved the minutes of the previous meeting be approved, and the reading dispensed with. Commissioner Willner seconded it. So ordered.

RE: BIDS-BOND SALE

The bids were to be opened today on Bond Sale for Eagle Slough, but no bids were received.

Buthod said the question is what the Drainage Board will do for money.

County Attorney Thomas Swain said that the bids can be held open for thirty days.

Commissioner Stofleth moved that the bidding be held open for thirty days, to enable the Commissioners to attempt to negotiate with the banks and other financial institutions to attempt to obtain bids.

Mr.Millard Haag was there and said they have put up with this situation about as long as they can. This morning water flowed across Weinbach Ave. from the fields and everywhere.

Commissioner Stofleth told him they are ready to go to work, but don't have the money to pay the contractor.

Commissioner Buthod said he talked to the contractor about buying the bonds and they told him they are in the contracting business and not the investing business and they are totally disinterested.

Mr.Haag asked how much longer did they think it would be and Buthod said he hoped they could talk someone into bidding on the bond in the next week, or so. They have no way of telling anyone to buy these bonds and they'll just have to use their power of persuasion as best, and as fast as they can.

Mr.Swain asked Mr. Haag could he get a group together to buy it, and he said no, he wasn't in that kind of business.

Commissioner Stofleth asked Mr.Biggerstaff how long it would take to complete it if they sold the bonds, and he said about 120 working days.

Commissioner Buthod asked Mr.Volpe would it be possible to use some of the inheritence tax refund money, and them purchase the bonds. Mr.Volpe said he doubted it, because your talking about two different funds, the County General Fund and the General Drainage Fund. Buthod asked Mr. Volpe would he check into it, and in the mean time they would contact the banks and try to work out something.

A meeting of the Vanderburgh County Drainage Board was held at 10:23 a.m. with President Buthod presiding.

Commissioner Buthod moved the minutes of Sept.7th meeting be approved as engrossed by the Auditor. Commissioner Wilner seconded it. So ordered.

RE: EAGLE SLOUGH

Several of the farmers from the east side of town were there to find out if any more had been found out on the re-construction of said ditch.

County attorney Thomas Swain said he had talked to Mr.Ryan, the contractor, and he is not interested in buying the bonds and if they aren't sold within the thirty days from Sept. 7th he would like out of the contract.

Mr.Bill Lloyd said they simply cannot put up with the way things are any longer. These bids were opened January 11th, so why hasn't something been done. Last week Weinbach was almost completely covered over with water.

Mr.Ivan Wathen said to start with, the city has violated the drainage law, because they didn't have adequate drainage when they brought all that water out there.

Commissioner Stofleth said they are checking into it to see if they can use some of the Tax Inheritence money and let the County General Fund buy the Bonds from the Drainage Board.

Mr.Buthod said he didn't think the county council would have to approve buying the bonds but he would like to appear before them and let them know about it.

Mr.Volpe said he called and had a talk with Mr. Dick Worley, State Board of Accounts and he told him no, it couldn't be done.

Mr.Don Wathen said then, can't the commissioners push it harder, because something has to be done quick.

Mr.Stofleth said that he and Mr.Swain would start visiting the banks that very day and talk to some one in the trust department, and they would know something not later than Wed.

RE: PETITION

Drainage Engineer Steven Smith recommended the commissioners approve the attached petition filed by the Armstrong-Scott Ditch Association. Mr.Stofleth moved that it be approved. Mr.Wilner seconded it. So moved.

Meeting recessed at 10:55 a.m.

PRESENT:

DRAINAGE BOARD	COUNTY AUDITOR	COUNTY ATTORNEY	DRAINAGE ENGINEER

Robert Willner, Commissioner

Vanderburgh County Drainage Board
Vanderburgh County Surveyor

We the undersigned members of the Armstrong-Scott Ditch Association, representing ⅔ of the landowners adjoining the Pond Flat Ditch, have agreed at a meeting of the association August 9, 1971, that it would be beneficial for everyone concerned if the following procedures were followed for the remainder of 1971.

1. The entire area of Lower Big Creek, Pond Flat Creek, Laterals C, E and Rusher Creek have been sprayed once with good results. Laterals C, E and Rusher Creek should be sprayed another time.

2. Since the association has purchased a dragline to be used for the benefit of the landowners of the community and since the vegetation of the ditch is fairly well under control; we feel it would be to the best interest of everyone if the second spraying of Pond Flat Main and Lower Big Creek was eliminated and the remainder of the funds be used for realignment and excavating of problem areas.

3. To petition the Drainage Board to allow operational money from the association bid to permit the dragline to continue to operate during good weather.

We respectfully submit these resolutions for your consideration and hope they meet with your approval:

VANDERBURGH COUNTY DRAINAGE
SEPTEMBER 20,1971

A meeting of the Vanderburgh County Drainage Board was held at 11:50 a.m. with President Buthod presiding.

Commissionor Buthod moved the minutes of September 13th meeting be approved as engrossed by the Auditor. Commissioner Willner seconded it. So ordered.

RE CLAIM:

Commissionor Stofleth moved the following claim be approved for payment:

Manfred Stahl.....Annual Maintenance ...Schlensker Ditch...4,000 L.F.@.08/L.F...

Total....$320.00

Mr.Willner seconded it. So ordered.

Meeting recessed at 11:53 a.m.

PRESENT:

DRAINAGE BOARD	COUNTY AUDITOR	COUNTY ATTORNEY	DRAINAGE ENGINEER
James M. Buthod A.J."Ted"Stofleth Robert L.Willnor	Dep.Wm.Wittekindt	Thomas Swain	Steven Smith

COUNTY SURVEYOR

Sam Biggerstaff

SECRETARY: Janice Decker

James M. Buthod, President

A.J. "Ted" Stofleth, Vice President

Robert Willnor, Commissioner

VANDERBURGH COUNTY DRAINAGE
SEPTEMBER 27,1971

A meeting of the Vanderburgh County Drainage Board was held on Monday, at 10:45 a.m. with President Buthod presiding. The minutes of the meeting held on September 8th were approved as presented.

RE: CLAIM

A claim was presented to the Board from Clements Seibert for annual maintenance on Crawford-Brandis ditch in the amount of $ 776.00.

Mr.Stofleth moved that this claim, pursuant to contract, be approved. Mr.Willner seconded the motion. Motion carried.

RE: EAGLE SLOUGH

It was previously stated that Mr. Ryan wouldn't be interested in the Eagle Slough Project, if the bonds weren't sold within thirty days from Sept.7,1971, in which case he wanted out of the contract.
Mr.Buthod said that he thought Mr.Ryan would go along if the project preliminaries were started right away.

Attorney Thomas Lockyear said that he thought Mr.Swain was checking on the purchase of bonds by the banks, subject to their attorney's approval, and that he would check further on this.

Mr.Biggerstaff said that the attorney for Inland Marine has been in the hospital and he hasn't had a chance to talk to him. He said that Evansville Levee Authority is giving up their right-of-way, that he could go back on the base bid but preferred not to. He would rather wait and get the decision on right-of-way from Inland Marine as he preferred the alternate plan. He also said that their board is a new Levee Board, and they have to be brought up to date on this project.

Mr.Biggerstaff said that Mr.Swain is trying to get a right-of-way grant to be held in escrow and could take this with him so he would have something to show the state.

Commissioner Willner asked if Eagle Slough would be wrapped up by next week and Mr.Lockyear said it would, if the approval of the banks is obtained.

Mr.Biggerstaff said that the Waterworks Road floods so, that he has contacted the Dept. of Natural Resources as to the elevation of the bridge and hasn't heard from them yet.

Meeting adjourned at 10:55 a.m.

PRESENT:

VANDERBURGH COUNTY DRAINAGE
OCTOBER 4, 1971

A meeting of the Vanderburgh County Drainage Board was held at 10:55 a.m. with President Buthod presiding.

President Buthod moved the minutes of the previous meeting be approved as presented. Commissioner Willner seconded it. So moved.

RE: CLAIM

Drainage Engineer presented a claim to the Commissioners for payment of Annual Maintenance of Legal Drains, to:

Clem Seibert....Nurrenbern Ditch...10054.4 L.F.@ .06L.F.....		$ 603.26
" " Buente Upper Big Creek.....20195 L.F...@.10ft.		2,019.50
TOTAL	$	2,622.76

Commissioner Stofleth moved this claim be approved for payment. Commissioner Willner seconded it. So ordered.

RE: DISCUSSION.....BOND TRANSCRIPT.....EAGLE SLOUGH

Commissioner Stofleth said he talked with Mr. Does, attorney, and he told him that he would have the bond transcript ready not later than tomorrow, (October 5th)

President Buthod said they would tentatively set a meeting for Wednesday, October 6th. on this matter.

Meeting recessed at 11:00 a.m.

VANDERBURGH COUNTY DRAINAGE

OCTOBER 6, 1971

A special meeting of the Vanderburgh County Drainage Board was called to session this 6th day of October, 1971, at 9:05, with President Buthod presiding.

Minutes of previous meeting were approved as presented.

RE: EAGLE SLOUGH

County Surveyor, Sam Biggerstaff said they have finally resolved the Inland Marina right-of-way. They need to move a ditch location south to the south line of Inland Marina. They propose to go all the way to the river with the ditch at that point. They also proposed an alternate to go into Inland Marina's basin and then spill into the Ohio River on the outflow of their basin. If they go straight to the river they would create an island right at the river between their present outlet and our ditch, and Inland Marina objects to this island, so they would like for us to come on into their basin instead of straight to the river. They are also requesting that we rip-rap the area coming into their basin. Mr. Biggerstaff said this would change the contract eleven(11) or twelve(12) thousand dollars.
Commissioner Stofleth asked do they have enough to cover that and Mr.Biggerstaff said yes, there is enough in the Bond Issue to cover it.
Another thing that Inland Marina is asking of the Drainage is the filling up of Can Fish Hole off Water Works Rd. Mr. Biggerstaff said we would not have anyone haul dirt into it, but rather use the excess material that is being excavated. He said these are the two things they are asking of the Drainage Board.
They are asking a couple of things of the Levee Authority also. The Levee Authority owns right-of-way that runs straight to the Ohio River along both sides of Eagle Slough and crosses Water Works Road. Inland Marina would like the Levee to grant them title to that part of right-of-way. Also on the east side of Water Works Rd. the same situation appears. Some 500 feet is owned by the Levee (from center of Levee out to the right-of-way line) which is more right-of-way than the Levee needs and Inland Marina has asked that they back up around 150 feet and give them that right-of-way. Mr.Biggerstaff said this doesn't have anything to do with the Drainage Board but he wanted the Board to know this was in the requests and he said it is settled with the Levee and is in their minutes to this effect.

Also Mr.Biggerstaff said that this would be part of the bridge contract, that they have a road that leads from Water Works Rd.back to an island with at least fifty (50) camp sites. As they continue to work through there, those people will be cut off from these camps.
Mr.Rhoton, President of Inland Marina was present and he stated they certainly didn't want these people to be cut off from their camp sites for several months. Mr.Biggerstaff said they plan to put a run around which would be a low water crossing, and not a culvert,so that these people would continue to have access to their camps.
The following letter was presented, showing the changes planned, as recommended by the Surveyor and Drainage Engineer.

Gentlemen:

We submit the following changes to the plans for the reconstruction of Eagle Slough:

1. The proposed channel be dredged to Inland Marina's basin instead of to the river. This will result in a savings of approximately $ 12,000.00 in excavation cost.

2. The banks of the ditch west of the Water Works Road be rip-rapped from a point two feet below the bottom of the ditch to a point twelve feet above the bottom of the ditch. This will result in an increase of approximatly $ 24,000.00 in construction cost.

3. A temporary pipe is installed during the construction of the bridge over Water Works Rock to provide a low water crossing to Inland Marina's lease-holders on the river.

The above mentioned changes will result in a construction cost increase of approximately $ 12,000.00. These changes are necessary to insure that banks of the ditch will not erode and cause a sedimentation problem in the ditch and in Inland Marina's basin. Therefore I recommend they be approved.

Very truly yours,
Sam Biggerstaff, County Surveyor

Commissioner Stofleth moved that they approve that the changes be made, as the Drainage Engineer recommended. Commissioner Willner seconded it. So ordered.

Mr. Swain said that the bank council has certain objections to the Bond Issue, and he would try to have a report on it later on in the day.

OCTOBER 12,1971

A meeting of the Vanderburgh County Drainage Board was held at 10:37 a.m., with President Buthod presiding.

Minutes of October 6th. were approved as presented.

RE: LETTER FROM RYAN CONTRACTING CO., INC.

The following letter was received by the commissioners from Ryan Contracting Co.

Gentlemen:

In view of the present uncertainty regarding legality procedures, the lateness of the season, and the very prolonged delay in taking action on our bid, we respectfully request that our bid on Eagle Slough reconstruction be rejected. It would be impossible to accomplish the work this season as anticipated and the cost would be very substantially above our estimate.

Sincerely yours,

Roy Ryan, President
RYAN CONTRACTING CO., INC.

President Buthod moved they accept this letter of withdrawal and that their check, if any, be returned. Commissioner Willner seconded it. So ordered.

RE CLAIM:

The following claim was presented to the Drainage Board for approval of payment by Steven Smith, Drainage Engineer.

EDWARD T. SCHMITT....Harper Ditch.....6091 l.f. @ .20 per ft.....		$1,218.20
Tree Removal...6 Trees@ $100 Per Tree.....		600.00
	Total	1,818.20

Commissioner Stofleth moved the claim be approved, upon the recommendation of the Drainage Engineer. Commissioner Willner seconded it. So ordered.

RE: UNION TOWNSHIP....LAW SUIT:

County Attorney, Thomas Swain stated that on December 3, 1971 the Drainage Board will have a trial in Circuit Court. They are being sued by Union Township on complaints of assessments. He would like for one member of the Drainage Board to be present, with him, at the trial.
He said all the property owners ask is that ~~we get started on the re-assessments.~~ He knows they won't be happy, because they will be higher now than what they were before.

Sam Biggerstaff said it has all been completed except for Knight Township. All of them should come before the board the first of January.
Mr. Buthod recommended that Union be brought before the board first.

Mr.Swain thought they should have a meeting concerning this and it was agreed upon a meeting would be called the first of the year. Mr.Swain was going to check into it and then recommend a date, for the hearing.

VANDERBURGH COUNTY DRAINAGE

NOVEMBER 29, 1971

A meeting of the Vanderburgh County Drainage Board was held at 11:11 a.m., with President James Buthod presiding.

Minutes of the previous meeting was approved as presented to the Board.

RE: CLAIM:

The following claim was presented to the Drainage Board for approval of payment by Sam Biggerstaff, Surveyor. This is for the annual maintenance.

CLEM SEIBERT....Barr's Creek....20668 L.F. @ .09 per ft.....$ 1,860.12

Mr.Buthod moved the claim be approved. Commissioner Stofleth seconded it. So moved.

RE: SPECIAL DRAINAGE BOARD MEETING:

The following letter was presented to the Commissioners by Mr. Biggerstaff.

Dear Sir:

The Gibson County Drainage Board has been petitioned by approximately 150 landowners (owners of land in the Pigeon Creek water shed), asking for the drainage improvement work on Pigeon Creek in Gibson County and Warrick County.

I have determined that this portion of Pigeon Creek has drainage of approximately 80,000 acres in Gibson County, approximately 40,000 acres in Warrick County and approximately 1000 acres in Vanderburgh County and approximately 250 acres in Pike County.

In following the Indiana Drainage Code, article 1, Sec. 114, it is the requirement of my office to notify the Chairman of each Drainage Board of such adjacent county that a joint Board Meeting will be held on December 16, 1971, at 1:00 p.m. at the American Legion Home in Elberfeld, Indiana.

Your cooperation in this matter would be sincerely appreciated.

Yours truly,

Harry G. Morrison
Surveyor Gibson County

County attorney Thomas Swain said he feels that someone should be there to represent Vanderburgh County. It was decided that Commissioners James Buthod and Ted Stofleth along with the County Attorney Thomas Swain would attend the meeting.

RE: SPECIAL MEETING.....UNION TOWNSHIP:

Mr.Swain stated that he had signed a concent order with Charlie Griffith. He said that Sam and Steve have all the information on Union Twp. but he needs to know a couple of things, one of them being who will be the Drainage Brd. President next year and then too, he needs to set a date for a hearing on these assessments. A date was set for January 12, 1972 at 7:00 p.m.

MEETING RECESSED: 11:30 a.m.

PRESENT

VANDERBURGH COUNTY DRAINAGE BOARD MEETING
DECEMBER 6, 1971
****

A meeting of the Vanderburgh County Drainage Board was held at 10:45 a.m., with President James Buthod, presiding.

Minutes of previous meeting approved as presented.

RE: PRESENTATION OF CLAIMS

The following claims were presented to the Drainage Board for approval of payment by Surveyor Sam Biggerstaff:

CLAIM SEIBERT...Cleaning of Baehl Ditch...6737 L.F. @ $.05 per ft.....$339.85
MANFRED STAHL..Cleaning of Boesche Ex...3742 L. F. @ $.15 per ft.....$561.30

Motion made by Mr. Stofleth these claims be approved for payment. Commissioner Willner seconded motion. Motion carried.

RE: SURVEYOR'S MAINTENANCE REPORT--UNION TOWNSHIP LEGAL DRAINS--VANDERBURGH COUNTY

Comes now the Surveyor of Vanderburgh County, Sam Biggerstaff, and Steve Smith, Drainage Engineer and presents to the Board the annual periodic maintenance report together with schedule of assessments for annual periodic maintenance of KAMP, CYPRESS-DALE, EDMOND, MADDOX, BARNETT, HAPPE AND HELFRICH DITCHES--all legal drains as determined by the Drainage Board.

The Board now orders the report of the Surveyor marked filed and received by the Board and fixes the 12th day of January, 1972, for a public hearing for the purpose of adopting the annual periodic maintenance and the adoption of the schedule of assessments for the annual periodic maintenance to be held at 7:00 p.m. at Room 307, Administration Building, Civic Center, Evansville, Indiana. Said meeting to be adjourned from time to time as necessary to complete the work of the Drainage Board. The form of the notice as proposed by the Surveyor is now approved by the County Attorney and the secretary of the Board is ordered and directed to mail by first class mail in a 5 day return envelope to each owner named in the schedule of assessments not less than 30 days or more than 40 days prior to said public meeting the schedule of assessment and damages as by law provided.

The secretary of the Board is further ordered and directed not less than ten (10) days before such public hearing to publish in a newspaper of general circulation, printed and published in Vanderburgh County, Indiana, in the name of the Board a notice addressed to all land owners of tracts whose letters were returned as undelivered and addressed "to whom it may concern" as provided by Sec. 303, Ind. Drainage code of 1965, as amended. The Drainage Board further orders, upon recommendation of the Surveyor of Vanderburgh County, Indiana, that Cypress-Dale and Maddox ditch be combined in one ditch known as the Cypress-Dale-Maddox ditch and the Board further orders the secretary to give public notice of such combination, as provided by law.

The Drainage Board further orders, upon the recommendation of the Surveyor of Vanderburgh County, Indiana, that Helfrich ditch and Happe ditch be combined into one ditch known as Helfrich-Happe ditch and the Board further orders the secretary to give public notice of such combination as provided by law.

The Drainage Board further orders the combining for the purpose of public hearings the report of the Surveyor of Vanderburgh County on the proposed assessments for annual periodic maintenance for Kamp ditch, Cypress-Dale-Maddox ditch, Edmond ditch, Barnett ditch and Helfrich-Happe ditch.

Motion made by Mr. Stofleth, seconded by Mr. Willner that this report be accepted. Motion carried.

0049-A

VANDERBURGH COUNTY DRAINAGE BOARD
ROOM 325 ADMINISTRATION BLDG.
CIVIC CENTER COMPLEX
EVANSVILLE, INDIANA 47708

December 1, 1971

SURVEYOR'S MAINTENANCE REPORT UNION TOWNSHIP LEGAL DRAINS: Barnett, Cypress-Dale, Edmond, Happe, Helfrich, Kamp and Maddox Ditches

This report is being submitted to the Vanderburgh County Drainage Board in accordance with Article Four, Chapter 305, Acts of 1965 of the General Assembly of the State of Indiana as amended, designated as the Indiana Drainage Code of 1965, as amended.

Exhibit "A" in this report is the schedule as assessments for periodic maintenance for the above mentioned ditches and is incorporated as a part of this report. This is in accordance with Sections 401 and 402 of the Indiana Drainage Code of 1965, as amended, (Burn's 27-2153 and 27-2154).

Exhibit "B" in this report is the estimated annual cost of periodically maintaining the various drains in Union Township and is incorporated as a part of this report. The maintenance will be done annually as needed either by:

(1) cutting the vegetation and undergrowth from the bottom of the ditch and either cutting or burning the vegetation and undergrowth from the banks.
(2) spraying once in May or June and again in July or August.

This method of maintenance is in accordance with Section 401 of the Indiana Drainage Code of 1965 as amended, (Burns 27-2153), and is good engineering practice.

The ditches in Union Township have not been maintained since 1966 when the Drainage Board was enjoined from the collection of assessments on the various ditches. The purpose of this report is to start the proceedings to assess the landowners in the various watersheds as fairly as possible. When this is completed the Drainage Board can again assume the responsibility of maintaining the ditches in Union Township. It has been the practice of the farmers to keep the ditches clean since the Drainage Board was enjoined from cleaning the ditches. Also, since the ditches are in the Flood Plain of the Ohio River and are flooded every year, it has been the common practice to dredge them every two (2) years or so. Therefore we can state in this report that the ditches are in relatively good condition.

Under Section 406 of the Indiana Drainage Code of 1965 as amended, (Burns 21-2158), the Drainage Board may, when recommended by the Surveyor, combine legal drains

located in the same watershed into a single unit for the purpose of annually assessing the owners benefited for periodic maintenance. There are four (4) such ditches in Union Township which should be combined into two (2) legal drains. The ditches are the Maddox-Cypress Dale and the Helfrich-Happe ditches. It is the recommendation of this report to combine these four (4) ditches into two (2) legal drains. It is also the recommendation of this report that the new names of the ditches be the Helfrich-Happe Ditch and the Cypress dale-Maddox Ditch.

In making assessments to the landowners the Indiana Drainage Code of 1965 as amended states that each landowner shall be assessed according to his benefits. This statement is fine in theory, but is extremely difficult in practice. Section 113 of the Indiana Drainage Code of 1965 as amended (Burns 27-2013) listed nine (9) criteria that may be used for the determination of benefits. These are:

1. the watershed, or entire land area drained or affected by the improvement;
2. the number of acres in each tract;
3. the total volume of water draining into or through the improvement, and the amount of water contributed by each landowner;
4. the land use;
5. the increased value of each tract of land resulting from the improvement;
6. the location of the various tracts in relation to the main trunk of the drain, that is whether adjacent or upland, whether upstream or downstream;
7. elimination or reduction of damage from flood;
8. the soil type;
9. any other fact affecting the improvement;

Also, under criteria No. 9, the Board may give consideration to original cost distribution and allotments. The assessments which resulted in the lawsuit were made using that criteria, therefore, the benefits were computed using the remaining criteria which were applicable.

In calculating benefits and in the study of the Union Township Legal Drains, we have used the "rational method" (Q=CiA). This method is commonly used by state and local agencies throughout the country as well as the Corp of Engineers to determine the amount of runoff for a given storm. The "A" in the rational formula stands for the land in Acres, the "C" stands for the runoff co-efficient, the "i" stands for the rainfall intensity in inches per hour, and the "Q" stands for discharge in cubic feet per second.

In computing the percent benefit to be assessed against each tract of land, we are using primarily criteria No. 3 which states; the total volume of water draining into or through the improvement, and the amount of water contributed by each land owner. In calculation of this discharge we used the acreage in the individual parcel, which satisfies criteria No. 2. If we do all of the parcels in the watershed in this manner we will use the total number of acres in the watershed, therefore satisfing criteria No. 1. The runoff coefficient "C" is determined by the type of terrain and by land use. A "C" value of 0.3 will be used for farm land and unimproved land. A "C" of 0.5 will be used for residental land. A "C" of 0.7 to 0.9 will be used for commercial areas depending on the amount of impervious paved area. Also these "C" values can be adjusted when soils with differing degrees of imperviousness are encountered. By selecting the "C" values in this manner we have satisfied criterias No. 4 and No. 8.

The "i" term in the rational Q=CiA is calculated by determining the time of concentration of runoff from a particular parcel of land to the main trunk of the legal drain. We have used the method as given in the handbook of Concrete Culvert Pipe Hydraulics Published by the Portland Cement Association. The time of concentration is a direct function of the length and slope of a given parcel of land as well as the distance of the parcel from the main trunk of the stream. The length and slope of each parcel was measured from contour maps to compute the time of concentration. The "i" for each parcel of land is then computed directly from the time of concentration for each parcel of land completing the three terms of the equation to find the discharge from each parcel of land. Using this method to determine "i" in the rational formula will satisfy criteria No. 6.

Therefore in using this method as a basis for determing the percent benefit we have used six of the nine suggested criteria. It has already been stated in this report why criteria No. 9 was not used. This leaves only criteria No. 5 and No. 7. Criteria No. 5 states; the increased value of each tract resulting from the improvement. Since in maintaining the drains we are only cleaning the ditches, not reconstructing the ditches, we are not changing the area drained by the ditches, we will not be increasing or decreasing the value of any lands drained by the ditches. Since most of Union Township is in the Flood Plain of the Ohio River, we cannot hope to eliminate or reduce damage from flooding, therefore criteria No. 7 does not apply.

This report completes the requirements of Section 401 and 402 of the Indiana Drainage Code of 1965 as amended (Burns 27-2153 and 27-2154). The Drainage Board should now fix a date, time, and place for a hearing on the maintenance report of the Surveyor and on the schedule of assessments, and prepare a notice of assessment to mail to each landowner to comply with Section 403 of the Indiana Drainage Code of

(3819-D

1965 as amended (Burns 27-2155).

One copy of this report will be on file in the Surveyor's office, one copy will be on file in the Auditor's office, one copy will be on file in the Drainage Board office, and one copy will be filled with the County Clerk. A copy will be sent to Mr. Charles Griffith, attorney for the landowners in the lawsuit against the Drainage Board. A copy will be sent to Mr. Thomas M. Swain, attorney for the Drainage Board.

Very truly yours,

Sam Biggerstaff-Surveyor
Vanderburgh County

VANDERBURGH COUNTY DRAINAGE BOARD MEETING
DECEMBER 13, 1971

****

A meeting of the Vanderburgh County Drainage Board was held at 8:18 p.m. on Monday evening, December 13, 1971, with President Buthod presiding.

Minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: RE-ASSESSMENTS MAILED

At the meeting of last week, the form of the assessment notice was proposed by the Surveyor and was approved by the County Attorney and the secretary of the Board was ordered and directed to mail by first class mail, in a 5 day return envelope, to each owner named in the schedule of assessments not less than 30 days or more than 40 days prior to said public meeting, the schedule of assessment and damages as by law provided.

The County Attorney reported that notices have been mailed out for Union Township assessments.

Mr. Willner asked how soon the rest of the county would follow suit.

Mr. Biggerstaff said that the schedule of assessments for the rest of the county are very close to being ready.

Mr. Stofleth asked the County Attorney if this mailing must be done, by statute.

The County Attorney said that this is done by Court Order.

Meeting recessed at 8:20 p.m.

VANDERBURGH COUNTY DRAINAGE
BOARD MEETING...DECEMBER 20, 1971.

****

A meeting of the Vanderburgh County Drainage Board was held at 11:10 a.m. on Monday, December 20th, 1971, with James Buthod, President, presiding.

Minutes of previous meetings approved as presented.

RE: JOINT DRAINAGE BOARD...PIGEON CREEK

Mr. Buthod read a letter received by registered mail from Mr. Harry G. Morrison, County Surveyor of Gibson County regarding the formation of a joint Drainage Board concerning Pigeon Creek.

It was noted that Vanderburgh County has only approximately 1000 acres affected by these proceedings and Mr. Morrison asked that Vanderburgh County waive their rights to serve on this joint board. Mr. Biggerstaff reported contour maps for Vanderburgh County will be furnished by his office.

Mr. Stofleth made a motion Vanderburgh County waive their rights to serve on this joint board. Mr. Willner seconded the motion. Motion carried.

Auditor directed to notify Mr. Morrison.

RE: CLAIMS

County Surveyor Sam Biggerstaff presented the following claims for approval and payment:

Joseph Seib...Cleaning of Kelly, Henry and Stockfleth ditches...$2,694.50

Harold Peter..Cleaning of Sonntag-Stevens and Kiel ditches.. 1,454.62

Mr. Willner made a motion these claims be approved for payment. Mr. Stofleth seconded the motion. Motion carried.

VANDERBURGH COUNTY DRAINAGE
BOARD MEETING...DECEMBER 28, 1971.
****

A meeting of the Vanderburgh County Drainage Board was held at 10:45 a.m. on Tuesday, December 28th, 1971, with James Buthod, President, presiding.

Minutes of the previous meeting were approved as presented and the reading of them dispensed with.

RE: AFFIDAVIT OF SERVICE

President Buthod said to let the record show that the affidavit of Lewis F. Volpe, related to service of the annual periodic maintenance of Cypress-Dale-Maddox, Barnett, Kamp, Helfrich-Happe, Edmond Ditches, be received and filed. Notices have been mailed to each of the land owners in the above mentioned ditches watershed as shown by the assessment roles. Notice has also been circulated in the newspaper.

This certificate of service of mailing is to comply with the notice provision of Section 403, Indiana Drainage Code of 1965, as amended.

RE: CLAIM

A claim was presented and approved in the amount of $126.80 for Drainage Board fees from December 6, 1971 thru December 31, 1971, in favor of William Stephens, the County Attorney.

Meeting recessed at 10:50 a.m.

A meeting of the Vanderburgh County Drainage Board was held at 10:15 a.m., with President A.J."Ted" Stofleth presiding.

Minutes of the previous meeting were approved as presented and the reading of them dispensed with.

RE: PETITION.....MAIDLOW DITCH:

The following petition was presented to the Drainage Board by Mr.Sam Biggerstaff, for the boards approval.

Gentlemen:

We the undersigned hereby petition the Vanderburgh County Drainage Board for the construction of a new drain being the extension of the Maidlow Ditch south to the Sensmeir Road.

The undersinged are property owners which represent the owners of 10 per cent of the acreage involved.

Commissioner Buthod moved that this petition be approved. Commissioner Willner seconded it. So ordered.

Meeting recessed at 10:17 a.m.

VANDERBURGH COUNTY DRAINAGE BOARD
JANUARY 12, 1972

A special meeting of the Vanderburgh County Drainage Board was held at 7:00p.m. with President A.J."Ted" Stofleth presiding.

At this time President Stofleth introduced the members of the Drainage Board to the audience.

Commissioner Buthod moved the minutes of January 3 be approved as presented and the reading of them dispensed with.

RE: UNION TOWNSHIP

President Stofleth said he would like to get right down to the business at hand, with everyone there saying what they came to say, but not to have repetition..please.

At this time he introduced Mr.Charles Griffith, seeing he was the attorney for the remonstrators, asking him would he like to be heard at this time.

Mr.Griffith said the original schedules of assessments deals with specifically five ditches which are all located in Union Township, them being:
1.Barnett Ditch
2.Cypress Dale Madden
3.Edmond
4.Helfrich Happe
5.Kamp
They all run generally in an east,west direction, between the Ohio River and the western part of Union Township.

At this time he referred to a large map that Mr.Sam Biggerstaff, County Surveyor had brought in. It showed the locations of the different ditches involved. It also showed the L.&N Railroad tracks which run North and South.

One of the basic objections the property owners have is the matter of the total amount of cost which each property owner thought would be assessed on his annual statement. He said he had discussed this with Mr.Biggerstaff and he feels that he is in agreement with him that in fact the amount of money stated on the notice which was sent out to each property owner is not the amount to be assessed but rather based upon the average of old bids which they had used to arrive at that figure.

One thing they want is that the property owners in Union Township form a Ditch Association, such as they have in Armstrong-Scott, and when it comes time for the letting of these bids that they be permitted to do it and whatever the exact cost is, the following year, they be assessed, based upon these percentages. There are a number of property owners who do have a quarrel with their percentage as it was determined in the initial round. Some of the people on the east side of the tracks are assessed, whom their property does not drain into the Madden Ditch, but is flowing south along the tracks and either seeps into the ground or stands in puddles. So, they feel that it is completly unfair and incorrect for them to be assessed on this ditch. He said he points this out to prove that a field check by the Surveyor on all of these assessments would be highly beneficial. Mr.Biggerstaff agreed what needs to be done is that they need to go out and see each on of these, in order to make the proper and correct assessments.

Mr.Buthod said he would like to state that what they (the commissioners) want the people in Union Township to have the kind of drainage they want and feel in within the economic perimeter and they want it to be distributed fairly. They weren't aware of some of these problems and expressed his appreciation to each one who took time to come down and helped explain the situation.

At this point Mr.Griffith showed some photographs taken by one of the land owners of the problem concerning them. These were filed as exhibit one through five.

Mr.Buthod said the board does not want to try to push anything on these people that they do not want and whatever they can work out with the Surveyor thats

0257

what they are going to do. He knows they will come upon problems but feels like a lot of them can be resolved by negotiations, but basically what the Drainage Board wants is to do whatever job needs to be done.

Mr.Griffith said what they want is three things, which are:
1. Mechanical corrections worked out by surveys going out and making a field check.
2. To be able to bid on the work as an Association.
3. To do the work as needed, at actual cost.

Mr.Burbed said he agrees with those things and that they should be allowed.

Mr.Tom Swann at this time read the following proofs of publications:

1. Recommendation of the combination of Holfrich and Happo Ditches.... Courier and Press...December 13,1971...For the assessment for annual periodic maintenance.

2. Recommendation of the combination of Cypress Dale and Meldon Ditches for the assessment of annual periodic maintenance...Courier and Press... December 13,1971

3. Notice of public hearing on the preliminary report for the annual maintenance of Edmond Ditch....Courier and Press...December 30,1971.

4. Notice of public hearing on the preliminary report for the annual maintenance of Barnett Ditch...Courier and Press....December 30,1971.

5. Notice of public hearing on the preliminary report for the annual maintenance of Cypress-Dale-Meldon Ditch...Courier and Press...Dec.30,1971.

6. Notice of public hearing on the preliminary report for the annual maintenance of Holfrich-Happo Ditch....Courier and Press..December 30,1971.

7. Notice of public hearing on the preliminary report for the annual maintenance of Kemp Ditch.....Courier and Press.....December 30,1971.

Mr.Burhod recommended the record shows the Commissioners find the proper publication has been made with respect to all of the ditches dictated by Mr. Swain and that thois meeting is convened pursuant To the publication.

Mr.Swain said there is also the affidavit of Lewis F. Volpe, Auditor, showing the notice by first class mail to each of the landowners as shown by the Auditor's records more than thirty(30) days prior to the public hearing.

Commissioner Stoffleth asked for a showing of hands of anyone who would like to be heard at this time.

Mr.Carl Borgdorf said he did file an objection with Mr. Biggerstaff because he felt the price he had assessed too great. There are a lot of his neighbors who's property drains on to his land and he feels it is only fair that they should be assessed and assessed alike. These ditches (Edmund and Cypress) have not been maintained now for about four years and he would like to see this all settled so that they will start being cleaned once again.

Evelyn Borgdorf stated the property she now lives on was willed to her by her Father. At the time the Union Township School was sold there was an agreement made that they would pay the taxes and clean the ditches because their drainage drains onto Mrs.Borgdorf's land. This was in 1950 that the land was sold and the school has paid the ditch bills since 1952 and now this year she received the assessment and she wanted to know why it wasn't sent to the school.

Mr.Biggerstaff said he discussed this with Mrs. Borgdorf and he was at a loss as to what to do, because the law says it must be assessed to the land, and that is what he did. He feels that Mrs.Borgdorf should have a written agreement recorded on this because basically under the law they are to go the the record land owner.

After more discussion Mr. Hillmer asked Mrs. Borgdorf had she talked to the school about this and she said no.

Mr.Burhod said he feels this is a private agreement and the commissioners couldn't get into it too much and he suggested she go to the school and talk the situation over with them and since they had always paid it they probably don't even have a problem. He asked Mr. Biggerstaff would he look into it a little more and go with Mr. Borgdorf to the school and he did yes, he would be glad to. He also said that for the matter of the record she should talk with the school and have something formalized on it to protect every body in the future.

Mr.Burhod asked Mr.Griffeth could this meeting be continued when all the objectors could individually get together with the Surveyor and he said, yes, subject to the approval of the Attorney, and also that they reserve their rights if in fact there is still dissatisfaction. Mr.Stoffleth said their rights are reserved for any hearings in the future.

Mr. Biggerstaff said a lot of the fields in Union Township are tiled. He has no way of knowing how many are and how many tiles are in a certain field, and for the record they would like for each of the landowners to file an affidavit how much of their field is tiled.

Mr.Burhod asked Sam did he think if they recessed this for about thirty (30) days did he think a lot of these things could be worked out and he said, yes, he thought they could. And about the problem of water standing along side of the R.R. tracks, something will have to be worked out. The assessments next to these landowners along this line will be lifted but the problem is going to have to be solved.

Mr. Burhod said in view of what has been said and subject to the approval of the County Attorney as to the legality of it he moved that this hearing be continued to Wednesday, February 16, and that the Surveyor be instructed to attempt to eliminate any inequity that he feels might exist and to work with the people on it. After further discussion, Mr.Burhod amended his motion to make the meeting on the 16th. of February, 1972, following the County Comm. meeting.

Mr. Ed Borgdorf lives between the Henderson Road and the R.R. tracks and he was present to complain about the Haddox Ditch. He wanted to know why he should be assessed on the Happo, Cyprons Dale and Haddox Ditches when none of his water goes in them. Mr. Buthod said it isn't fair and it shouldn't be so.

Mr. Willner said if we have a problem with the L.& N. Railroad they should be contacted and brought in.

Mr.Griffith expressed his appreciation to the Drainage Board for their consideration in taking the time to hear him and the property owners and he feels all the primary objections can be worked out by the field checks and the percentage on maintenance schedules. He also asked would he get an advanced copy of the new percentages before the meeting so that he can distribute them among the landowners so that they may look them over. Mr.Buthod said yes, he was sure that he could.

Meeting recessed: 8:30 p.m.

January 12, 1972

Vanderburgh County Drainage Board
Civic Center Complex, Third Floor
Evansville, Indiana

Gentlemen:

This report is being submitted to the Drainage Board in accordance with Section 404 of the Indiana Drainage Code of 1965, as amended. Listed below is a breakdown of the objectors to the proposed assessment schedules for the Legal Drains in Union Township.

Barnett Ditch

Incorrect % & Assessments	16 Objectors
High Assessment Only	3 Objectors
Incorrect Acreage or Ditch	2 Objectors
TOTAL	21 Objectors
Total Parcels in Watershed	24
Total % Objecting	87.5%
Breakdown of Objections:	
Incorrect % & Assessment	76.2%
High Assessment Only	14.3%
Incorrect Acreage or Ditch	9.5%
	100.0%

Cypress Dale-Maddox Ditch

Incorrect % & Assessments	24 Objectors
High Assessment Only	10 Objectors
Incorrect Acreage or Ditch	9 Objectors
TOTAL	43 Objectors
Total Parcels in Watershed	51
Total % Objecting	84.3%
Breakdown of Objections:	
Incorrect % & Assessments	55.8%
High Assessment Only	23.3%
Incorrect Acreage or Ditch	20.9%
	100.0%

Edmond Ditch

Incorrect % & Assessments	7	Objectors
High Assessments Only	12	Objectors
Incorrect Acreage or Ditch	3	Objectors
TOTAL	22	Objectors

Total Parcels in Watershed	37
Total % Objecting	59.5%

Breakdown of Objections:

Incorrect % & Assessments	31.8%
High Assessment Only	54.5%
Incorrect Acreage or Ditch	13.7%
	100.0%

Helfrich-Happe Ditch

Incorrect % & Assessments	16	Objectors
High Assessments Only	2	Objectors
Incorrect Acreage or Ditch	3	Objectors
TOTAL	21	Ojectors

Total Parcels in Watershed	25
Total % Objecting	84%

Breakdown of Objections:

Incorrect % & Assessments	76.2%
High Assessments Only	9.5%
Incorrect Acreage or Ditch	14.3%
	100.0%

Kamp Ditch

Incorrect % & Assessment	18	Objectors
High Assessments Only	3	Objectors
Incorrect Acreage or Ditch	4	Objectors
TOTAL	25	Objectors

Total Parcels in Watershed	30
Total % Objecting	83.3%

Breakdown of Objections:

Incorrect % & Assessments	72.0%
High Assessments Only	12.0%
Incorrect Acreage or Ditch	16.0%
	100.0%

There were three major objections to the assessment schedules.

(1) The percent benefit is too high and therefore the assessment is too high.
(2) The amount of the assessment is too high.
(3) The acreage of the parcel used to compute the percent benefit is wrong or the parcel was included in the wrong watershed.

The Corps of Engineers Uniontown Pool Reach maps were used to determine the various watersheds and we have found certain errors therein that resulted in miscalculations of drainage watersheds. In addition to the above it has come to our attention that many fields have been tiled which also affected our calculations. This makes the task of computing watershed areas from these Corps maps alone impossible and it has become necessary that we field check all properties whose owners objected to items 1 and 3 above.

The estimated cost of cleaning the ditches was computed from an average price that the County paid last year throughout the County on Legal Drains. We used $0.14 per lineal foot. The amount of money stated to the landowners in the notices was based on that figure. This was only an estimate for use during the hearings. The actual assessments will be based on Bid Prices paid by the County for cleaning the ditches. This price may be higher or lower than the estimated price.

The Surveyor will now investigate each of the objections and amend each of the assessment schedules as needed and re-submit them to the Drainage Board for consideration.

Very truly yours,

Sam Biggerstaff

VANDERBURGH COUNTY DRAINAGE BOARD

JANUARY 17, 1972

A meeting of the Vanderburgh County Drainage Board was held at 11:05 a.m., with President A.J."Ted Stoffoth presiding.

Minutes of the previous meeting approved and the reading of them dispensed with.

RE: LETTER...MR. ED THOMAS.....MEL'S DRIVE AND PENIAL DRIVE.

Mr. Stoffoth read the following letter:

Dear Sirs:

I am writing you concerning a drainage problem at the intersection of Mel's Drive and Drexel Drive. My residence is at 924 Mel's Drive, adjacent to a ditch draining through a culvert under Mel's Drive.

I have lived at this address for almost four years, and have had water from said ditch flood my recreation room and basement on four different occasions.

The road is about 3 to 4 feet higher than the ditch, and the culvert is so small that during a hard rain the road acts as a dam and the water pours over the top of the road and floods my basement at the same time.

I have contacted the County Engineer's office several times concerning this matter and they have told me they know the culvert is not adequate and they have plans prepared to remedy the situation. I talked to Mr. Miller the last time and he suggested I write the County Commissioners and ask for help with this problem.

Any help you can give to expedite the needed repairs to this culvert will be greatly appreciated because I know with the coming rains will come more flooding and more damage.

Sincerely yours,

Ed Thomas

Mr. Diggerstaff said this is actually a matter for the County Commissioners rather than the drainage board. He said the pipes should be changed, but he would suggest the commissioners had a look at this problem.

RE: CLAIMS: ANNUAL MAINTENANCE

Mr. Diggerstaff presented the following claims to be approved for payment.

RALPH HEKING....Pond Flat Lateral "A"...5311 1.f.e.06 ft.....$ 320.66
" " Pond Flat Lateral "B"...3797 1.f.e.06 ft..... 167.82
TOTAL 486.48

ARMSTRONG SCOTT DIXON ASSOC...Pond Flat Lateral "B"..3616 1.f.e.082t...$239.26
" " " ...Rusher Creek.....4444 1.f.e.082t... 356.52
TOTAL 644.28

EDWIN ERON.....Hueling.....5572 1.f.e.06 ft.....$ 334.32

JOSEPH SEIB.....Kolb Ditch.....7597 1.f.e .10 ft.....$ 755.70

FRANCIS MAGAN....Wallenmeyer Ditch....8355 1.f.e.075 ft.....$ 626.63

RAYMOND STENGEIN....Hilon Extension...8329 1.f....e.08 ft....$ 666.08

Commissioner Bathard moved that upon the recommendation of the Drainage Engineer, they all be approved for payment. Mr.Willner seconded it. So moved.

RE: SAMUEL BIGGERSTAFF

Last year we had a contract with Engineers Associates to do some ditch work on the Harper and Ext. of Hirsch Ditch with injunction of their work on Green River Road. They were already in there working and it seemed expedient to let them have the contract to do the work at that time, since they did go under Green River Roadand it was being widened and repaved at the time. Basically the Knight Ditch is the one that runs on the West side along Green River Rd. from Division Street north to Vogel Road in which we put a pipe. The Harper Ditch lays east of Green River Rd.....somewhere in the neighborhood of the apartments on Slaughter Ave.....east of Green River Road...in a northwesterly direction and comes across Green River Rd. near Vogel Road and goes on west across Stockwell Road and into Pigeon Creek. Hirsch Ditch starts somewhere near the Complete Lumber Co.....near the junction with the Crawford-Brandis....runs west along the southern part of the highway and Southern R.R. tracks. In 1961 we had heavy rains and the water in the Crawford-Brandis, Stockfleth,and Kelly Ditches was approx. two (2) feet higher than Hirsch Ditch, so they suggested that the Engineer Associates install 48" pipes, set at an elevation of two (2) feet above the bottom of Crawford-Brandis, to serve as a relief in times of heavy rains. Some of the homes that lay east of Stockfleth Ditch had water in them when we had that heavy rain. Mr.Biggerstaff showed the preliminary plans to the Commissioners for their approval. Mr.Buthod moved the Engineer Associates be instructed to proceed with preparations of final plans in accordance of recommendations of Mr. Biggerstaff. Commissioner Willner Seconded it. So ordered.

RE: PETITION...HURRENBERN DITCH

Around two years ago we had the petition in for the Hurrenbern Ditch and they made the investigation at that time and found in cleaning this ditch from Lincoln Ave. to Slaughter Ave. we would be just spending our money because they would have the same situation in a year or so. So they ran the survey on out to Pigeon Creek and he thinks a couple of meetings ago they asked permission to have this flown and he doesn't have a price yet. This ditch is very crooked, runs into Pigeon Creek up near Burkhardt Rd, and he would like to have relcif there and bring this ditch into Pigeon Creek about a mile and 3/4 down stream. So they are going ahead with this and he should have the prices in for the flying of this in the near future. Along with asking for that price, they found out that Union Township has such flat land that it is very hard to pick out the water sheds. He hasn't talked with Mr. Rochm yet, but the Plan Comm. would like to implement our present contour maps and he thinks it would be very helpful to the Highway Department to have contours on down to the Levee, in Knight Twp., and the Plan Commission would like to have them on to a distance of two (2) miles into Warrick County. He said he has asked for a price and was told that perhaps the Street Dept. of Board of Public Works, Plan Commission, Drainage Board and the Highway Department would all take part of the expense. They would like to get Posey County at a later time because the same situation will develope there in the future.

Meeting recessed: 11:20 a.m.

VANDERBURGH COUNTY DRAINAGE BOARD
JANUARY 31, 1972

A meeting of the Vanderburgh County Drainage Board was held at 10:25 a.m., with Vice President James Buthod presiding.

Minutes of the previous meeting were approved and the reading of them dispensed with.

RE: CLAIMS:

Mr.Biggerstaff presented the following claims to the Commissioners to be approved for payment.

ANTHONY E. BITTNER.....Maidlow Ditch...11475 l.f.@.115 per ft.....$1,319.63

RAYMOND STEINKUHL.....Crawford Brandis Ext....14628 l.f.@.11 per ft...$1,609.08

Commissioner Willner moved that the claims be approved, upon the recommendation of the County Surveyor. Commissioners Buthod seconded it. So moved.

Meeting adjourned at 10:27 a.m.

PRESENT:

VANDERBURGH COUNTY DRAINAGE BOARD
FEBRUARY 7, 1972

A meeting of the Vanderburgh County Drainage Board met in session this 7th. day of February with President A.J."Ted" Stofleth presiding.

The minutes of the previous meeting was approved as presented and the reading of them dispensed with.

THE VANDERBURGH COUNTY DRAINAGE BOARD: IN THE MATTER OF THE RECONSTRUCTION AND ANNUAL PERIODIC MAINTENANCE OF EAGLE SLOUGH.

Comes now Sam Biggerstaff, Surveyor of Vanderburgh County, Indiana, and presents to the Board his preliminary report containing the best and cheapest method of the reconstruction of Eagle Slough and the annual periodic maintenance of said Eagle Slough so that it will adequately drain all lands affected.

The preliminary report contains the following:

Exhibit A--Plans for the reconstruction of Eagle Slough;

Exhibit B--Specifications for the reconstruction of Eagle Slough;

Exhibit C--The estimated cost of the reconstruction of Eagle Slough;

Exhibit D--The name and address of each owner of land affected by said improvements, including the legal description of the land as shown by the tax duplicates by the Auditor, Vanderburgh County, Indiana;

Exhibit E--The schedule of assessment and damage for reconstruction for each of said tracts benefited;

Exhibit F--The schedule of assessment for the annual periodic maintenance of each tract benefited;

The Board has been notified by the County Attorney that the permit from the Commonwealth of Kentucky, Department of Natural Resources had expired and has now been extended by the Department of Natural Resources for a period to and including December 4, 1972.

The Board now orders the report of the Surveyor of Vanderburgh County marked filed and received by the Board, and the Board now sets the 5th. day of April, 1972 for a public hearing for the purpose of hearing objections to the reconstruction report of the County Surveyor on the schedule of assessment of benefits and damages and the report for the annual periodic maintenance to be held at 7:30 o'clock p.m. in Room 301, Administration Building, Civic Center, Evansville, Indiana, said meeting to be adjourned from time to time as necessary to complete the work of the Drainage Board. The form of the notice proposed by the County Surveyor and approved by the County Engineer is approved, and the Secretary of the Board is ordered and directed to mail by first class mail in a five-day return envelope to

each of the owners named in the schedule of assessment and damage not less than thirty days nor more than forty days prior to the date of said meeting. The Secretary of the Board is further ordered and directed not less than ten days before said hearing to publish in a newspaper of general circulation printed and published in Vanderburgh County, Indiana, in the name of the Board, a notice addressed to all land owners of tracts whose letters were returned as undelivered and "To whom it may concern" as provided by law in Section 303 of the Indiana Drainage Code of 1965, as amended, a notice of the public hearing.

THE VANDERBURGH COUNTY DRAINAGE BOARD

Re: Surveyor's Report
Re-construction of Eagle Slough

Gentlemen:

This report is being submitted to the Vanderburgh County Drainage Board in accordance with Article Three, Chapter 305, Acts of 1965 of the General Assembly of the State of Indiana, as amended, designated as the Indiana Drainage Code of 1965, as amended.

Exhibit "A" in this report gives the property owners names in the watershed of Eagle Slough, their address and percent of benefit as required by Section 301 of the Indiana Drainage Code, as amended, (Burns 27-2131).

Exhibit "B" and "C" are the schedules of assessments for the re-construction and periodic maintenance of Eagle Slough on which is shown benefits and damages. Exhibit "B" is the schedule of assessments for re-construction, and Exhibit "C" is the schedule of assessments for periodic maintenance as required by Section 302 of the Indiana Drainage Code of 1965, as amended. The dollar value of the assessments referred to above is based on the estimated cost for re-construction and maintenance.

A brief history on Eagle Slough will be helpful to you.

In 1963 10% of the land owners in the watershed of Eagle Slough filed a petition for the dredging of Eagle Slough with the Board of County Commissioners. This request was turned over to Mr. Sam Biggerstaff, Vanderburgh County Surveyor, who inspected Eagle Slough and made a report to the Commissioners on January 7, 1963. The summary of this report was that dredging at that time would cost $69,500.00 and that in addition certain undersized structures be replaced. The breakdown on the cost sharing was Landowners 35%, Vanderburgh County Highways 10%, City of Evansville 45% and Knight Township Levee Authority 10%.

The cost was too high for all or most of the people affected. Senator Vance Hartke's office was contacted for possible financial aid. Senator Hartke's office forwarded this request to the Corps of Engineers. The Corps of Engineers replied that the maintenance of Eagle Slough was a problem, and that they were not authorized to spend money to perform work on local projects. This position was stated in a letter dated May 20, 1964.

The 1965 Indiana General Assembly passed the 1965 Indiana Drainage Code which took affect in January, 1966.

On January 15, 1966, Mr. Robert Hayes, who was then the attorney for the petitioners on Eagle Slough presented a letter to the newly formed Vanderburgh County Drainage Board requesting that Eagle Slough be reconstructed under the procedures outlined in the newly enacted Drainage Code. This request was turned over to the County Surveyor.

After investigating the problem we found that detailed engineering work would be needed to satisfy the requirements of the 1965 Indiana Drainage Code. Clyde Williams & Associated was contacted to fly aerial photos of Eagle Slough. From these they could plot the plan and profile sheets along with the cross sections. We made this request on January 28, 1966. The prints and plans were completed and delivered to us on July 5, 1966.

After a study of these plans we determined that additional information was needed. This additional information was delivered to us on November 11, 1966. The cost of these plans was $4842.80.

In 1967 and first part of 1968 preliminary plans were drawn for Eagle Slough. Assessment rolls were compiled and assessments figured. In addition a number of state wide meetings were held to clarify the Drainage Code as far as proper procedures were concerned.

All work on the preliminary plans was completed in 1968, and a public meeting on the preliminary plans was held on September 25, 1968.

The cost estimate for each property owner and governmental unit was prepared. This cost estimate, percentage wise, did not vary a great deal from the previous estimates that had been given. Forty-four percent of the persons in Eagle Slough watershed objected to the cost and the cost distribution.

The Surveyor requested that the Drainage Board grant time to study these objections in detail and to see it a new method of assessment distribution could be made. The Board granted this request.

During this investigation we found that the City of Evansville was draining more acreage into Eagle Slough than was figured. This drainage was being accomplished by underground storm sewers. We also reasoned that the property in the city was more valuable and was receiving a greater degree of protection, from flooding, than the county. We used the assessed valuation of property as listed in the Assessor's office to varify our reasoning. We found that this reasoning was correct. We then used to assessed valuation of property as a modifying factor, and came up with new assessments. We consulted

with the City of Evansville officials, and they agreed to the higher assessment which resulted from the modified assessment formula. On December 18, 1968 another public meeting was held to inform all concerned with what we had done. This seemed to be acceptable to most of the people concerned with this project. The Board set March 5, 1969, as the date for another public hearing on Eagle Slough at which time further details would be made public. On March 5, 1969, the public hearing for Eagle Slough was held. The revised assessment roll was presented. Nineteen percent still objected. We found that most of the objections were either illegal under the law or could be corrected. The Drainage Board accepted the corrected assessment roll and preliminary plans for the re-construction of Eagle Slough and this office began preparing final plans.

The preliminary plans were sent to the local levee authority, the Department of Natural Resources of the State of Indiana and the State of Kentucky for their review and comments and the Corps of Engineers. The Corps of Engineers requested that we modify our plans to conform with their levee plans for levee safety. This added cost to the project which was to be borne by the levee authority. Mr. Biggerstaff in reviewing this change felt that we could change our plans by moving the ditch away from the levee in the Shawnee Drive area. This will be benifical to the sand boil probelem on the land side of the levee in that area. The revised plan, called the alternate plan, was then submitted to the local levee authority, the Department of Natural Resources, and the Corps of Engineers. We received written approval for these plans from the Corps of Engineers, Indiana and Kentucky Department of Natural Resources. The local levee authority is in favor of the alternate plan and a right-of-way trade with a private property owner is being arranged.

On November 9, 1970, the Surveyor presented the final plans and specifications for Eagle Slough to the Drainage Board. The board having approved that plans and specifications instructed the auditor to advertise for bids. The bids were to be contingent on the sale of a bond issue to cover the cost of construction. Bids were received on January 11, 1971, Ryan Contracting Co. being the low bidder with a bid of $104,830.00 on the original plan and $159,030.00 on the alternate plan. On May 14, 1971 the Levee Authority in a letter approved to alternate plan, subject to the acquisition of the necessary easements. On July 27, 1971 the County Attorney presented a resolution authorizing the issuance of Drainage Improvement Bonds by the Drainage Board. The Board set the date of September 7, 1971 to receive bids on the bond issue. No bids were received. The Board then tried to sell the bonds locally with no success. On October 12, 1971 Ryan Contracting Co. was released from the contract on Eagle Slough.

This brings us to date on the Re-construction of Eagle Slough. With this Reconstruction Report on Eagle Slough we have completed re requirements of Section 301 and 302 of the Indiana Drainage Code of 1965, as amended. Now the

0303

board shall fix a date, time and place for a hearing on the re-construction report of the Surveyor and on the schedules of damages and assessments, and the board shall prepare notices to the landowners to be mailed not less than 30 days nor more than 40 days before the date of the hearing as required by Section 303 of the Indiana Drainage Code of 1965, as amended. This action will put the progress on the Eagle Slough Project in a forward direction again with hopes of construction early this year.

Very truly yours,

Sam Biggerstaff-Surveyor

VANDERBURGH COUNTY DRAINAGE BOARD

FEBRUARY 14, 1972

A meeting of the Vanderburgh County Drainage Board met is session this 14th. day of February, with President A.J."Ted" Storloth presiding.

The minutes of the previous meeting was approved as presented and the reading of the dispensed with.

RE: OBJECTORS.....UNION TOWNSHIP:

Comes now Sam Biggerstaff, Surveyor of Vanderburgh County, Indiana, and presents to the Board the list of names of objectors whose objections were timely filed and the surveyor now files his report as to said objections and the amended assessment roll for the annual periodic maintenance of,

1. Cypress-Dale-Maddox
2. Edmond
3. Kamp
4. Helfrich-Happe
5. Barnett

and also now appears Charles C. Griffith, attorney-at-law, who represents the objectors who have timely filed objections to said assessment for the annual periodic maintenance of said ditches and announced for and on behalf of his clients that the amendments are satisfactory to the objectors, with the exception of the assessment of John Hauschild on Kamp Ditch, which is designated as tax code #10-24-3, in Union Township.

The Board now finds the annual assessments to be fair and correct and now accepts, approves and adopts the amended assessments so filed by the County Surveyor for Cypress-Dale-Maddox, Edmond, Barnett and Helfrich-Happe all legal drains in Union Township, Vanderburgh County, Indiana, and now orders the secretary to publish the notices as required by law in a newspaper of general circulation printed and published in Vanderburgh County, Indiana, as provided by Section 405 of the Indiana Drainage Code of 1965 as amended.

The Board further orders and directs the County Surveyor to investigate and report on John Hauschild, tax code 10-24-3, and report to the Board.

The Board further orders an inquiry into as to Kamp Ditch to February 24, 1972, at 9:00 A.M., in Room 301, Administration Bulb Ing, Civic Center, Evansville, Indiana.

The Board further orders that the Surveyor will [illegible] assessment roll [illegible] with the auditor on this matter.

Meeting Adjourned 9:05

VANDERBURGH COUNTY DRAINAGE BOARD

FEBRUARY 28, 1972

A meeting of the Vanderburgh County Drainage board met in session this 28th.day of February at 10:45 a.m., with President A.J."Ted" Stoffeth presiding.

Commissioner Wilmer moved that the minutes of the previous meeting be approved, as presented. So ordered.

RE: KAMP DITCH:

Comes now Sam Biggerstaff, Surveyor of Vanderburgh County, Indiana, and presents to the Board the additional report as to said objections and the amended assessment roll for the annual periodic maintenance for Kamp Ditch. With the correction made on tax code 10-82-3, John Hauschild, the board now finds the annual assessments to be fair and correct and now accepts, approves and adopts the amended assessments so filed by the County Surveyor for Kamp Ditch, and now orders the secretary to publish the notice as required by law in a newspaper of general circulation printed and published in Vanderburgh County, Indiana, as provided by Section 405 of the Indiana Drainage Code of 1965 as amended.

The Board further orders the report of the Surveyor and amended assessment rolls to be made part of the minutes of this meeting.

RE: TOM PUGH....MISCELLANEOUS PROJECT:

Mr.Pugh showed the Commissioners a map as to the whereabouts of this project, and explained there is a drainage problem and if they come up with a major redredging project it would create a flooding problem at the lower end. What they propose to do is go through some wooded area, clear some brush and trees and do some minor realigning. They are of the mind that they are going to have to have an overall water management master plan for the whole Blue Grass Valley. He explained they may get into some bridge work, and he just wanted to bring the Commissioners up to date as to what they were doing.

Dick Lifler also explained they are doing work in connection with the Engineer's Associates on the Harper and Hirsch Ditches. They are up grading these ditches. Mr.Sam Biggerstaff said he has talked with Leo Weiss on this and he is willing to work together with us on this, and he would keep the commissioners informed of the progress on it.

Meeting adjourned: 11:00 a.m.

VANDERBURGH COUNTY DRAINAGE BOARD

MARCH 20, 1972

A meeting of the Vanderburgh County Drainage Board met in session this 20th. day of March, 1972, at 12:30 p.m., with President A.J."Ted" Stofleth presiding.

Minutes were approved as presented and the reading of them dispensed with.

RE: PERIODIC MAINTENANCE ASSESSMENTS:

Mr.Biggerstaff said that there is a matter of public hearing on the periodic maintenance assessments. He said the assessments are against the land and there have been approximately 100 transfers of land ownership in the past year. He said it isn't necessary to have a hearing on land use changes but with this many thought a letter should be sent to them, telling them that they have purchased this land which carries an assessment and under the legal drain law they are subject to this assessment.
Commissioner Buthod said that if there is any doubt of whether a meeting should be had or not, to have one and if no one shows up, fine. The meeting was set two weeks from today.

Mr.Biggerstaff said another matter is Harper Ditch, in cleaning this ditch from Vogel Rd. over to Green River Rd, there are some trees on the bank to be removed which will cost approximately $600.00. He recommended this money be taken from the General Drain Improvement Fund.
Commissioner Buthod moved that the money be taken from the General Drain Improvement Fund For the removal of these trees. Commissioner Willner seconded the motion. So ordered.

Meeting Adjourned: 12:45 p.m.

MARCH 27, 1972

A meeting of the Vanderburgh County Drainage Board met in session this 27th.day of March, 1972, at 10:15 a.m.,with President A.J."Ted"Stofleth presiding.

Minutes of the previous meeting was approved as presented and the reading of them dispensed with.

RE: NOTICE TO BIDDERS:

Mr.Biggerstaff presented the commissioners with a notice to bidders to be advertised for the annual periodic maintenance of Vanderburgh County legal drains, with the date to be established by the Auditor.

Commissioner Willner moved the notice be approved for advertising. So ordered.

Meeting adjourned 10:20 a.m.

VANDERBURGH COUNTY DRAINAGE BOARD
APRIL 3, 1972

A meeting of the Vanderburgh County Drainage Board met in session this 3rd.day of April, 1972, at 10:23 a.m., with President A.J."Ted" Stofleth presiding.

Minutes of the previous meeting was approved as presented and the reading of them dispensed with.

RE: AMENDED ASSESSMENT ROLLS:

Drainage Engineer Steve Smith presented the commissioners with the amended assessment rolls of all the Vanderburgh County legal drains for their approval. He said that today is the last day for objections and since apparently there aren't any, he asked that they be approved. Commissioner Buthod moved that upon the recommendation of the Drainage Engineer the amended assessments rolls be approved. So ordered.

RE: UPPER PIGEON CREEK DRAINAGE SYSTEM:

The following notice was presented to the commissioners by Surveyor Sam Biggerstaff:

NOTICE IS HEREBY GIVEN TO:

Vanderburgh Co Hwy Dept
% County Commissioners
Civic Center
Evansville, Ind

You are hereby notified that the Maintenance Report of the Surveyor and the Schedule of Assessments made by the Gibson-Warrick County joint Drainage Board in the drainage proceedings known as the UPPER PIGEON CREEK DRAINAGE SYSTEM have been filed and are available for public inspection in the offices of the Gibson, Warrick, Vanderburgh and Pike County Surveyors.

The Gibson County Surveyor has estimated the total cost of the improvement in the sum of $ 34,518.56.

The following described lands owned by you and described as follows; to-wit:

1.25 ac

are shown by the schedule of assessments to be annually assessed .0087 per cent of the total cost of periodically maintaining the drain.

The above described lands which you own are shown by the schedule of assessments to be annually assessed in the sum of $ 3.00 for estimated periodic maintenance of the improvement.

On the 7 day of April, 1972, at 10 AM o'clock in Elberfeld, Ind, American Legion Hall a hearing will be held before the Gibson-Warrick County Drainage Board on the Surveyor's maintenance report and the schedule of assessments made by the Drainage Board.

Sincerely,

Virgil H. Gerhardt
Noah Barnett
James McConnell
Norman Williams

VIRGIL H. GERHARDT, Warrick County
NOAH BARNETT, Warrick County
JAMES McCONNELL, Gibson County
NORMAN WILLIAMS, Gibson County
Gibson-Warrick County Joint Drainage Board

Commissioner Buthod moved they waive all objections and that it be approved for payment in the future. So ordered.

RE: EAGLE SLOUGH:

Steve Smith remindod the Board of the meeting to hear objectors on Eagle Slough on April 5th. at 7:30 p.m. He said so far they have had only 18% objections. Sam said this land is so flat that it is sometimes difficult to determine what, if any of their land drains into Eagle Slough, so it will just take a little more time to resolve these objections.

Meeting adjourned: 10:26 a.m.

A.J. Ted Stofleth

VANDERBURGH COUNTY DRAINAGE BOARD
APRIL 5, 1972

A special meeting of the Vanderburgh County Drainage Board was held this 5th.day of April, 1972, at 7:30 p.m., with President A.J."Ted" Stofleth presiding.

Minutes of the previous meeting was approved as presented and the reading of them dispensed with.

RE: OBJECTORS.....EAGLE SLOUGH:

County Drainage Engineer Steven Smith submitted the following report to the Drainage Board in accordance with Section 304 of the Indiana Drainage Code of 1965, as amended. Set out herein is a list of the objectors and other data on information pertinent to this hearing. Commissioner Buthod moved that the following list be entered and made part of the minutes of this meeting. Commissioner Willner seconded it. So ordered

EAGLE SLOUGH OBJECTIONS

The Evansville-Vanderburgh Levee Authority District objects to the special assessment assessed them for the re-routing of the ditch away from the Levee in the Waterworks Road area.

BREAKDOWN OF OBJECTIONS

Total number of landowners in watershed - 165

Total number of landowners objecting - 25

Percent of landowners objecting - 15.15151

Total percent-benefit of landowners - 28.41294

Total percent-benefit objecting - 6.69558

Percent of percent-benefit objecting of total percent-benefit of landowners 23.56524

All of the twenty-five (25) objectors except four (4) had the same basic objections to the project. They are as follows:

1. The costs are excessive.
2. The costs exceed the benefits.
3. The project is not practical and not necessary.
4. The project will be of no benefit to their property.
5. The maintenance cost will run into large amounts because of the river flooding the ground each year.
6. The City of Evansville is not paying a large enough share.
7. The property owner can't afford the assessment.

The other four (4) objectors stated along with the above reasons that all or part of their property does not drain into Eagle Slough and that their assessment should be reduced accordingly.

The Surveyor is now in the process of investigating each of the objections and will amend the assessment schedule as required and re-submit to the Drainage Board for consideration.

1. Bertha Abbot. Mr.Swain read the objection which objection as filed in the words and figures as follows: See exhibit #1.
Commissioner Buthod moved that with the objector not being present, or no one in her behalf to present further evidence, the commission find the reason for objection be found inadequate and the objection be over-ruled. Commissioner Willner seconded the motion. So ordered.

2. Banks, Norris D. & Eleanor F. Mr.Swain read the objection which objection as filed in the words and figures as follows: See exhibit #2 and #3.
No one being present in their behalf, commissioner Buthod moved that with no evidence other than on the objection that the board finds the objection stated on written objection be found inadequate and be over-ruled. Commissioner Willner seconded it. So ordered.

County Surveyor Sam Biggerstaff said that on some of these objections where the complaint is the amount of acreage it is the same thing they found in Union Township where there is very flat land, so he suggested that they be allowed to re-check all of these. Commissioner Buthod said, certainly, where there is an objection to either the acreage of the drainage they will have to be re-checked.

3. Bruce, Hubert. Mr.Swain read the objection which objection as filed in the words and figures as follows: See exhibit #4.
Commissioner Buthod moved that #1 be referred to the County Drainage Engineer for drainage check and that #2,3,4 & 5 be over-ruled.

Mr.Mark Bruce was present and spoke at this time, in behalf of his father, Hubert. He explained that all of the objections, other than #1 has been cleared up and they are satisfied. He feels a check will show that only about 20% of their land drains into Eagle Slough.
Mr.Biggerstaff said a crew was out on this parcel of land today.
Commissioner Willner seconded the motion. So ordered.

Commissioner Willner asked the question that if any, or all of these are changed will this change the others and will we need to hold a public meeting for the change.
Mr.Biggerstaff said it would change very little and Mr.Swain said no additional public meeting. Mr.Biggerstaff also stated that in regard to the properties that lay within the city limits of Evansville, that about 71% of this is charged to them.

4. Collins, Bertha F. Mr.Swain read the objection which objection as filed in the words and figures as follows: See exhibit #5 and #6.

Commissioner Buthod said this is on 33 acres and he asked was this assessment a little high. Steve Smith said no, not according to the others,as this land is on Water Works Road, right across from Inland Marina.
Commissioner Buthod moved that with Bertha Collins not being present or anyone present in her behalf, and no evidence being presented other than the allocations contained in the written objection and no evidence to support the allocation that the ditch would not be of benefit and the benefits out weighing the objection that the objection be over-ruled. Commissioner Willner seconded it. So ordered.

5. Collins, George R. Mr.Swain read the objection which objection as filed in the words and figures as follows: See Exhibit #7.

Commissioner Buthod moved that with George Collins not being present or any one present in his behalf and no evidence being presented other than the allocation contained in the written objection and no evidence to support the allocations that the ditch would not be of benefit and the benefits out-weighing the objection, that the objection be over-ruled. Commissioner Willner seconded it. So ordered.

Commissioner Willner questioned the thing about these peoples signatures being forged on the original petition from back in 1965. Mr.Buthod said that if the signatures of both Bertha and George Collins were illegal, would there still be a sufficient number of petitioners to support the petition. Mr.Biggerstaff said he remembers it to take about four or five large land owners, so these two wouldn't make a difference.
Commissioner Buthod suggested that George and Bertha Collins are both free to file affidavits with the prosecuting attorney in respect to any forgery which may have occured.

6. Elikofer, Ernest & Aurelia. Mr.Swain read the objection which objection as filed in the words and figures as follows: See Exhibits # 8,9,10 and 11.

Mr.Elikofer was present and stated that most of his land drains into the Ohio River, directly. Commissioner asked what percent would he say does drain directly into the river, and Mr.Elikofer said at least 50% of it.
Steve Smith said this is one that should and will be checked again.
Commissioner Buthod moved that objection be referred to Drainage Engineer for further checking, in so far as # 1,2 and 3 are concerned and that #4 be over-ruled, there being no more evidence on this one. Commissioner Willner seconded. So ordered.
Mr.Elikofer said he thinks there should be more people assessed on this....on pass Lynn Road.
Commissioner Buthod stated that after re-checking and the Drainage Engineer finds they are in the water shed they certainly will be assessed.

7. Fickas, Annadale. Mr.Swain read the objection which objection as filed in the words and figures as follows: See Exhibit # 12.
Mr.Frank Fickas spoke in her behalf, explaining she is assessed the third highest percentage, and they both feel that this is way wrong. Tom Swain explained that under the old law that if you were on the ditch you paid the front footage and under the new law we're required to figure the water shed area. Mr.Fickas said some parcels have been eliminated and he is wondering why, as he feels they are certainly in the water shed, and should be assessed. These parcels of land belong to Tapp, Traylor and Buente.
Mr.Biggerstaff said these will be checked into along with Mrs.Fickas's land and if after checking, finds they should be assessed, they will be.
Commissioner Buthod said it is an engineering determination and we must rely on him. He then moved that the Drainage Engineer be requested to check into this matter and see if these lands mentioned should be included in the assessment.
Commissioner Willner seconded the motion. So ordered.

8. Ice,Wanda E. & Nannie Lee. Mr.Swain read the objection which abjection as filed in the words and figures as follows: See Exhibit # 13.
After hearing the objection commisscioner Buthod moved that it be referred to the Drainage Engineer for further checking.-Commissioner Willner seconded. So ordered.

9. Lloyd,William E. & Mary. Mr.Swain read the objection which objection as filed in the words and figures as follows: See Exhibit # 14.
Mr.Lloyd, being present, stated he feels this is out of line and that he doesn't have as much land as they are basing this assessment on, only 415 feet and the rest of it belongs to the levee. He stated that Mr.Willner has been out there and he(Mr.Lloyd) wants this checked into before it goes much further.
Mr.Biggerstaff said they based the assessments on the amount of land that the County Assessor assessed his real estate for that that he paid taxes on. He then suggested that they show Mr.Lloyd an aerial photo map and would that satisfy him and he said yes, he just wants someone to show him where this water drains to.
Commissioner Buthod moved this be referred to Mr.Smith for re-checking on both the amount of acreage and run-off direction and the benefits. Commissioner Willner seconded it. So ordered.

10. McCoy,Harold & A.Ellen. Mr.Swain read the objection which objection as filed in the words and figures as follows: See Exhibit #15.
Mr.Smith, Drainage Engineer said he spoke the the secretary from Mr.Early's office and she said that since he already had his objection in writing filed that he had no further evidence at the present time.
Commissioner Buthod moved this be referred to the Drainage Engineer with respect to specification #1 and #3 and that #2 be over-ruled,there being no specification as to what other real estate was omitted. Commissioner Willner seconded it. So ordered.

11. Schofield, Elmer H.& Opal D. Mr.Swain read the objection which objection as filed in the words and figures as follows: See Exhibit #16.
After reading this objection Mr.Swain stated that several of the objections are that its to costly and asked Mr.Biggerstaff could he shed some light on this.
Mr.Biggerstaff said since Eagle Slough first came up maturally all prices have increased. There isn't just a large difference between this and when it first came up. This is based on a proposed estimated cost. Ryans bid came in so low that it threw this all out of perspective as far as estimates go. This will be the maximum cost.
Commissioner Buthod moved that with no one being present to speak on this, that #2 and #3 be over-ruled as not constituting proper objection and not being supported by further evidence and that #1 be referred to the Drainage Engineer. Commissioner Willner seconded the motion. So ordered.

12. Scholl, Russill & Gentry,David. Mr.Swain read the objection which objection as filed is the words and figures as follows: See Exhibit # 17.
Mr.Gentry being present asked Mr.Smith how much land they are assessing him on. Steve said 22.3 acres. Mr.Gentry said he feels this is wrong on his land.
Commissioner Buthod moved this be referred to the Drainage Engineer for re-evaluation. Commissioner Willner seconded it. So ordered.
Mr.Gentry showed the commissioners a picture that was taken July 13th.of last year and the water is still standing. It is just an old barrow pit. He had planned on having a land fill there, but learned you can't have a land fill on a flood plain.
Commissioner Willner asked is it correct that the assessed value of this land is 560 per year.....yes.
Commissioner Buthod said apparently there is something very wrong with that.
Mr.Gentry said they are still assessing him on the full 30 acres and 7 acres of that went to the state.

13. Stewar,Blanceh C.& McCutchan,Nancy Jeanne. Mr.Swain read the objection which objection as filed is the words and figures as follows: See Exhibit-#18.
Commissioner Buthod moved that with no one present to represent this objection or to present further evidence other than that on the written objection the board finds it inadequate and move that it be over-ruled. Commissioner Willner seconded it. So ordered.

14. Stone,Raymond E. & Barbara. Mr.Swain read the objection which objection as filed in the words and figures as follows: See Exhibit #19.
Commissioner Buthod moved that with no one present to represent this objection or to present further evidence other than that on the written objection the board finds it inadequate and move that it be over-ruled. Commissioner Willner seconded it. So ordered.

15. Sweeney,Arla M. Mr.Swain read the objection which objection as filed in the words and figures as follows: See Exhibit #20.
Mr.Frank Fickas spoke in behalf of Mrs.Sweeney stating he farms her property for her. She feels this is over assessed and that there are others that should be included in this also.
Commissioner Buthod moved that this be referred to the Drainage Engineer to re-check the drainage and the benefits. Commissioner Willner seconded it. So ordered.

16. Wetzel,Walter J.& Madalyn. Mr.Swain read the objection which objection as filed in the words and figures as follows: See Exhibits # 21,22,23 and 24.
Mr. Wetzel being present he stated that he certainly is no engineer, but he doesn't feel that he is benefited to any great degree by Eagle Slough, as he feels that most of his drainage goes directly into the Ohio River.
Commissioner Buthod moved that this be referred to the Drainage Engineer for re-checking. Commissioner Willner seconded the motion. So ordered.

17. Williams,Mark H. & Bonnie L. Mr.Swain read the objection which objection as filed in the words and figures as follows: See Exhibit # 25.
Commissioner Buthod moved that with no one there to present further evidence that the board over-rule the objection. Commissioner Willner seconded it. So ordered.

18. Levee Authority. Mr.Swain read the objection which objection as being filed in the words and figures as follows: See Exhibit #26.
Mr.Biggerstaff said basically the reason some changes have been made was at the request of the Levee Dept. and Corps of Engineer. If the Levee Dept. objects, all they can do is strike out so many items and let it go at that.
Mr.Michael Mitchell, attorney for the Levee Authority splke at this time stating as a relative new board they are not clear as to why the alternate route is proposed. They have correspondance that the Corp of Engineer does not deem it necessary to follow an alternate route and they are not certain about the benefits from this and also are concerned about the run-off, the acerage and the economic use factor of the levee.
Commissioner Buthod said its been since 1926 that Eagle Slough has been cleaned out. We had a proposal to which the Levee Authority objected at a great expense and they, the Levee Authority, required us to make alternate provisions, insisted on following it through, demanded it and offered to pay the intire cost of the alternate route and this comes as very much of a surprise to us now that they come to us under new constitution and asks us to undo everything we've been planning for three years at their insistance. He realizes this is new members of a continuing board, but surely there are records of evidence to the fact that we've encountered at least a two yr. delay because of negotiations between Inland Marina and the Levee Authority trying to solve the Levee Authority's problem.
Mr. Morley of Edward T. Hannon and Assoc. consulting engineer asked the board do they realize this alternate route will cost the taxpayers of Vanderburgh County $250,000.00.
Commissioner Buthod said no, the alternate route will run approximatly $150,000.00
Mr.Morley said what about the bridge to be built.
Commissioner Buthod said yes, that is from the Cumulative Bridge Fund though, however, his opinion is that if the Levee Authority doesn't want it, lets cut it out, because we were doing this for their benefit in the first place. We just want to know which way they want it.
Mr.Morley said he checked some records as to whether the Corp of Engineer required an alternate route, and found that they approved either route that there is no requirement that it by-pass the Marina to protect the levee. He visited the site today and had some photographs and there seems to be no danger at all to the levee to use the present path way of Eagle Slough.
Mr.Willner said he made a personal inspection there and the reason he was given was that there was some quick sand in Cat Fish Hole and if we used that, then the dam would go. Now this was the prior board and now if you say that was wrong, lets hear it.
Mr.Morley said it is wrong and he can find no statement saying it is endangering the levee.
Commissioner Buthod moved the objection be taken under advisement and referred to the County Drainage Engineer for counciltation between the Levee Authority and the Drainage Engineer to determine the most effective route and in keeping with the integrity and safety of the levee and in keeping with the economic of the taxpayers of the county. Commissioner Willner seconded it. So ordered.

Mr.Ivan Wathen stated it seems there is quite a fob to be done and with spring already here and by the time bids are let again it's going to be too late to do anything again
Mr.Biggerstaff said full crews are working on this every day.

Commissioner Buthod said he feels we are coming along on it pretty good, and the board is as anxious as anyone else to get it under contract, bonds sold and get it on the way to completion.

Mr.Karch said when the water was up, if it would have gotten two feet higher it would have left an awfully large amount of debris in Eagle Slough.
Mr.Biggerstaff said thats the purpose of the annual maintenance.

Meeting adjourned at 8:50 p.m.

Re.: Reconstruction of Eagle Slough
April 5, 1972 hearing

Gentlemen:

I have received a notice of "Proposed Reconstruction and Annual Maintenance of Eagle Slough".

This is a formal objection to the proposed assessment on the land I own in Frac. Sec. 14, Twp. 7, Range 10 West, due to the following:

1. The land owned for the most part does not drain into Eagle Slough.

2. The assessment does not correspond proportionately to acreage owned if the land in the city is included as it s hould be.

3. The land drainage area in the city should be charged a larger than apportionate share due to improvements in that area causing faster run off during rains, making a larger water way necessary to take care of this fast run off, that would not be required for unimproved or farm land.

4. Maintenance assessments should not be charged to farm owners, as city storm water is dumped into the ditch with no proposed assessment to individual owners in the city.

VANDERBURGH COUNTY

VANDERBURGH COUNTY DRAINAGE

APRIL 17, 1972

A meeting of the Vanderburgh County Drainage Board was held this 17th.day of April, 1972,at 11:40 a.m., with President A.J."Ted" Stofleth presiding.

Minutes of the previous meeting was approved as presented and the reading of them dispensed with.

OPENING OF BIDS:

Commissioner Buthod moved that the County Attorney be authorized to open bids for maintenance of Vanderburgh County legal drains. Commissioner Willner seconded it. So ordered.

At this time the drainage Board recessed and reconvened at 12:17 p.m.

RE: BIDS TAKEN UNDER ADVISEMENT:

Commissioner Buthod moved that the bids be taken under advisement for one week, at which time they will be read and awarded, upon the recommendation of the County Attorney and Drainage Engineer. Commissioner Buthod seconded the motion. So ordered.

Thomas Swain said at this time he would like to make it a matter of the minutes which one of the bids had cash money in them, and the amount of each one.

RALPH REXING...Pond Flat A & B Lateral.....$25.00

FRANCIS. H. MAURER....Wallenmeyer Ditch.....$36.00

RAYMOND STEINKUHL....Aiken Ext.,Crawford Brandis Ext., and Maidlow....$210.00

EDWIN KRON.....Hoefling Ditch.....$20.00

EUGENE REXING.....Pond Flat D Lateral, Singer.....$27.00

CLARENCE WILDERMAN.....Kneer.....$9.00

CEDEL MAASBERG.....Maasberg Ditch.....$8.00

RE: HARPER AND HIRSCH DITCHES:

County Surveyor Sam Biggerstaff and Mr. Loe Weiss spoke to the Board at this time and showed them a map of some of the work being done in this area, and pointed out the direction in which these ditches run. Eventually some structures will have to be put in and the board should have some time to think about it and decide if the county will do it or if the Engineer's Assoc. will do it. There will be two, for sure, and possibly three structures to be designed, so there will have to be a decision made in the near future.
Mr.Biggersteff said there will be a large assessment against the city. This will be a general obligation bond.
Commissioner Buthod said the board needs to sit down and study this and see how the money would be raised and who builds the structures.
Sam then stated they also have a problem near Hesmer Product, where some of the pipes are too small and the buildings are too close to install larger pipes.
Commissioner Buthod recommended that Mr.Biggerstaff, Mr.Weiss and Richard Eifler get together and try to get those things worked out and that possibly one large structure instead of several small ones would solve the problem, or at least part of them.
Mr.Weiss said they just wanted to come in that the Drainage Board might be up to date on what they were doing.

RE: PETITION:

Mr.Swain presented the board with a petition signed by the majority of the property owners on Cypress Dale-Maddox, Edmond, Kamp, Barnett and Hoppe-Helfrich Ditches in Union Township,that there be no maintenance on said ditches during the calendar year 1972.
Mr.Biggerstaff said that some of these landowners are going to set up a ditch association similar to the Armstrong-Scott Ditch Association. Some of these ditches don't have to be cleaned every year, but rather dragline every two years.

Meeting adjourned at 12:40 p.m.

Lower Bid Creek	Armstrong-Scott Ditch Association	7,501 L.F.	$0.09	$ 675.09
Nurrenbern	Clem Seibert	10,592 L.F.	$0.07	$ 741.44
Pond Flat Main	Armstrong-Scott Ditch Association	29,351 L.F.	$0.12	$3522.12
Pond Flat "A" Lateral	Ralph Rexing	5,311 L.F.	$0.06	$ 318.66
Pond Flat "B" Lateral	Ralph Rexing	2,797 L.F.	$0.06	$ 167.82
Pond Flat "C" Lateral	Armstrong-Scott Ditch Association	9.036 L.F.	$0.08	$ 722.88
Pond Flat "D" Lateral	Eugene Rexing	4,579 L.F.	$0.08	$ 366.32
Pond Flat "E" Lateral	Armstrong-Scott Ditch Association	3,616 L.F.	$0.08	$ 289.28
Rusher Creek	Armstrong-Scott Ditch Association	4,444 L.F.	$0.08	$ 355.52
Schlensker	Manfred Stahl	4,000 L.F.	$0.08	$ 320.00
Singer	Eugene Rexing	2,450 L.F.	$0.07	$ 171.50
Sonntag-Stevens (HAROLD J. PETERS)	~~Armstrong-Scott Ditch Association~~	14,609 L.F.	$0.09	$1314.81
Stockfleth	Joseph Schmitt	6,318 L.F.	$0.135	$ 852.93
Wallenmeyer	Francis Maurer	8,355 L.F.	$0.085	$ 710.18

Not going to award a bid on HARPER

All of the listed bids were properly executed and the proper bond posted, and Steve Smith recommended to the board that the contracts be awarded to the ones listed who were the low biddors, with the exception of the Buente Upper Big Creek and the Harper ditchs. They are not going to award any bid on the Harper Ditch because there is some work being done in this area, however, they may ask for this to be let later on in the year.
On the Buente Upper Big Creek Ditch there was a tie on the low bids, and the Drainage Engineer recommended the bid be awarded to Anthony Bittner.
Upon the recommendations of the County Surveyor and Drainage Engineer Commissioner Willner moved that the Buente Upper Big Creek be awarded to Anthony Bittner and that the Harper Ditch be stricked out, and that the rest of them be awarded to the low bidders as stated in the list above. Commissioner Stofleth seconded it. So ordered.

RE: LETTER OF ERROR:

The following letter was presented to the Drainage Board by Steve Smith:

Gentlemen:

An error has been made on the assessments of Cletus E. and Edna L. Bittner for the annual maintenance of the Legal Drain known as Buente Upper Big Creek Lateral "A". Mr.Bittner has four (4) unimproved subdviision lots and has been assessed the $3.00 minumum assessment for each. It has been the policy of the Board in the past to group unimproved subdivision lots into one (1) assessment. Also one (1) of these lots identified by tax code 3-125-A does not drain into this ditch and should be removed from the watershed. The remaining lots identified by tax code numbers 3-125-8, 3-125-5 and 3-125-7 should be assessed together for percent benefit of 0.09, which amounts to $3.00 for the current year.

Commissioner Willner moved that the correction be made. Commissioner Stofleth seconded it. So ordered.

RE: LETTER FROM WARRICK COUNTY DRAINAGE BOARD:

The following letter was presented to the Vanderburgh County Drainage Board.

Dear Sir:

This is a request for an informal meeting of the Vanderburgh and Warrick County Drainage Boards on Tuesday, April 25,1972 at 10:00a.m. C.S.T. in the office of the Surveyor of Warrick County, in the Court House, Boonville, Indiana.
The meeting is to consider the drainage problems in the Fred Mann drain area, in Ohio and Knight Townships in our respective counties.
This meeting is being called at the request of Andy Easley and engineer representing Ken Neukam a developer of a shopping center in Ohio Township

Virgil Gerhardt, President
Warrick County Drainage Board

Mr.Biggerstaff said that he and Steve Smith will attend.

Meeting adjourned: 10:50

A J Stofleth

DRAINAGE BOARD MEMBERS

PRESENT:

VANDERBURGH COUNTY DRAINAGE
MAY 1, 1972

A meeting of the Vanderburgh County Drainage Board was held this 1st.day of May, 1972, at 10:55 a.m., with President A.J."Ted" Stofleth presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE:EMERGENCY WORK APPROVED:(RUSHER CREEK)

Mr.Biggerstaff said that he had a call last week, after a wind storm, from farmers, informing him that the ditches were full of debris and tree limbs, and they were concerned that if there was a heavy rain, their fields would be washed out. Mr.Biggerstaff said he went ahead and authorized the draglining and cleaning out of the debris, and the expenditures for doing this would be about $300.00.

Commissioner Buthod moved that the emergency action undertaken by the Drainage Engineer be approved. Commissioner Willner seconded the motion. So ordered.

RE: CORRECTION OF DITCH BILL:

Steve Smith, Drainage Engineer said there is an error on the ditch assessments for James M. Hallinan and Agnes C. Hallinan for the annual maintenance of the Maidlow and Buente Upper Big Creek Lateral "A" legal drains.. The Hallinans own a piece of property that is divided by the section line between Sections 12-5-11 and 13-5-11. Because of this the property has two tax code numbers and has been assessed as two pieces of property with two $3.00 assessments on each ditch. Since this property is actually only one tract of land it should only have one assessment on each ditch. Therefore Mr.Smith recommended that the assessment on tax code # 9-93-4 be included in the assessment for tax code #9-91-31, leaving only one assessment for the property on each ditch.

Commissioner Buthod moved this correction be made according to the recommendation of the Drainage Engineer. Commissioner Willner seconded it. So ordered.

Meeting adjourned at 11:00 a.m.

MAY 8,1972

A meeting of the Vanderburgh County Drainage Board was held this 8th.day of May, 1972, at 10:40 a.m., with President A.J."Ted" Stofleth presiding.

Commissioner Buthod moved the minutes from the previous meeting be approved as engrossed by the Auditor and the reading of them dispensed with. Commissioner Willner seconded the motion. So ordered.

RE: CLAIM:

Commissioner Buthod moved the following claim be approved for payment:

ARMSTRONG-SCOTT DITCH ASSN....Removal of obstructions from Rusher Creek, a Vanderburgh County Legal Drain.
18 hours with dragline @ $17.00 per hour.....$306.00

Mr.Willner seconded the motion. So ordered.

RE: LETTER FROM DRAINAGE ENGINEER.....CORRECTION OF ASSESSMENT:

The following letter was presented to the Drainage Board for their approval.

Gentlemen:

Carl and Helen Meyers are charged with a ditch assessment on the Legal Drain known as Crawford-Brandis Ext., their Tax Code number is 6-39-12.

This property does not drain into said ditch and should be removed from further assessment.

Steven Smith-Drainage Engineer.

Commissioner Stofleth moved the correction be made as recommended by the Drainage Engineer. Commissioner Willner seconded it. So ordered.

Meeting adjourned at 10:41 a.m.

VANDERBURGH COUNTY DRAINAGE
MAY 15, 1972

A meeting of the Vanderburgh County Drainage Board was held this 15th.day of May, 1972, at 11:10, with President A.J."Tod" Stofleth presiding.

The minutes of the previous meeting was approved and the reading of the dispensed with.

RE: ERRORS IN ASSESSMENTS:

There are errors on the ditch assessments for Joseph and Lorine Rexing for the annual maintenance of the Barr's Creek and the Pond Flat Main legal drains. The property covered by Tax Code # 1-26-1 now has an assessment on both of the ditches. This property drains into Barr's Creek. The assessment on the Pond Flat Main should be dropped. The property covered by Tax Code #1-26-3 also has an assessment on both ditches. This property drains to Pond Flat Main. The assessment on Barr's Creek should be dropped.

There is also an error on the assessment schedules for Buente Upper Big Creek, a Vanderburgh County Legal Drain. The Lakeview Terrace No.2 Sub-Division has been wrongfully included in the watershed. This property drains to Barr's Creek, another County Legal Drain, for which it is also assessed. Therefore I recommend to you that this property identified by Tax Code #1-70-1, 1-70-2, 1-70-3, 1-70-4, 1-70-5, 1-70-6, 1-70-7 and 1-70-8 be dropped from the Buente Upper Big Creek assessment schedule.

Very truly yours,
Steven Smith,Drainage Engineer

Commissioner Buthod moved these corrections be made as recommended by the Drainage Engineer. Commsissioner Willner seconded it. So ordered.

RE: NURRENBERN DITCH: LETTER

The following letter was presented to the Drainage Board;

Dear Sir:

Two years ago we experienced the problem of backed-up water in the spring along Outer Lincoln Avenue, due to an inadequate size culvert installed north from Lincoln Avenue in the Nurrenbern Ditch. The flooding created by this inhibits our business operation at 8001 Lincoln Avenue, and floods the adjacent 84 acres of farm land and couses flooding, septic and inconvenience form homeowners east of Martin's Lane in the Grimm sub-division area. We were told two years ago, when a petition with several names was submitted, that action would be taken to remedy this situation. At that time the necessary function of cleaning parts of the ditch were done, but no further action has taken place to our knowledge. Although it is generally recognized that larger improvements need to be made to Nurrenbern Ditch from Lincoln Avenue to Pigeon Creek, the relatively small interim remedy of enlarging the culvert size could be made. This matter has been referred to the county surveyor in the past and we are now interested in direct reply from your office concerning when this culvert size will be changed. We will appreciate your prompt consideration in this matter.

Yours very truly,
COLONIAL GARDEN CENTER, INC.,
James A. McCarty, President

Mr.Biggerstaff said the pipe could be replaced, but he doesn't know how they would charge the replacement at this time and besides that, it wouldn't do any good to do this at this time.
Commissioner Buthod suggested they request the Drainage Engineer to respond to this letter and set forth where they are at to date, as he feels the Drainage Engineer would be more accurate explaining it to them, instead of the commissioners attempting to do so.

RE:BARR"S CREEK:

Sometime last fall it was requested that the Vanderburgh County Drainage Board participate in an erosion slide that occured on Barr's Creek. At that time Mr. Biggerstaff said they went out and looked at it and the Drainage Board approved the participation in it, in the meeting of August 16, 1971.
Mr.Smith said they have received a call and that the work is now completed, so the bill for that will be coming in for payment in the near future.

RE: JOINT DRAINAGE BOARD:

Mr.Biggerstaff said that two weeks ago he and Steve attended a Drainage Board meeting in Boonville and told them at that time there was already a joint Drainage Board between Vanderburgh County and Warrick County, on the Mann Ditch. Mr.Biggerstaff said the main purpose in a joint drainage board was to drain the Lauderdale Sub-Division which we are going to drain west and then south. Mr. Biggerstafff said that he told them at the Boonville meeting that he was sure the Vanderburgh Dr. Brd would be happy to drain Lauderdale east like it should go, because we can drain it east a lot cheaper than we can drain it west.

Mr.Biggerstaff said he is meeting with Ray at noon on this matter and he will report on it at a later date.

Meeting adjourned at 11:13 a.m.

Secretary:J.Decker

VANDERBURGH COUNTY DRAINAGE
MAY 22, 1972

A meeting of the Vanderburgh County Drainage Board was held this 22nd.day of May, 1972, at 10:50 a.m. with President A.J."Ted" Stofleth presiding.

The minutes of the previous meeting was approved and the reading of them dispensed with.

RE: BAEHL'S CREEK

Last year the Drainage Board approved some money on this ditch which at that time was estimated at $600.00. They now have that bill and it is for $855.25 from Mr. Adler. Sam said he and Steve both went out and checked this work the they feel certain that this much work was done and that this is a reasonable price on it.

Commissioner Buthod moved the bill be approved and paid, subject to presentation of the claim. Commissioner Stofleth seconded it. So ordered.

RE: HEPLER ROAD BRIDGE

There is some work to be done on this which concerns Barr's Creek. There is quite a bit of errosion in the ditch and needs some further work done on it. This is 120 feet across, and some consider it to be a small river.

Sam said he will probably bring to the board, next week, the ditches off Green River Road. He and Mr.Eifler have discussed this and there will be about four structures to be involved and they may want to talk to Mr.Roehm and see if he can get these plans and specifications out or if they want to let it out to a private engineering firm. Sam said he has talked to Mr. Hudson and these structures could be paid for from the Cumulative Bridge Fund. He will try to have this ready to bring before the board at the next meeting.

Meeting adjourned at 10:53

Secretary: J. Decker

PRESENT:	DRAINAGE BOARD	COUNTY AUDITOR	COUNTY SURVEYOR
	A.J."Ted" Stofleth James M. Buthod	Lewis F. Volpe	Sam Biggerstaff

James M. Buthod

A. J. Stofleth

VANDERBURGH COUNTY DRAINAGE BOARD MEMBERS

VANDERBURGH COUNTY DRAINAGE
MAY 30, 1972

A meeting of the Vanderburgh County Drainage Board was held this 30th day of May, 1972, at 11:20 a.m. with President A. J. "Ted" Stofleth presiding.

The minutes of the previous meeting were approved and the reading of them dispensed with.

Mr. Biggerstaff said that last year when the City was working on Green River Road, they felt that with the quick action that was needed, they couldn't handle the engineering work on the two ditches involved and the Drainage Board employed Engineer Associates as consulting Engineer to do the work. He said that Mr. Leo Weiss, Representative of Engineer Associates, is present and has the the estimated cost to present to the Commissioners.

RE: TIME TABLE FOR GREEN RIVER ROAD

Mr. Biggerstaff said that the city has received some H.U.D. money and Dennis Brand is present to represent Dick Eifler.

Mr. Brand gave the time table planned for Green River Road. He said they have four phases, that Phase I which is all the drainage from Tippecanoe Ave North to Harper Ditch and basin on Green River Road. He said that the plans on this is to be done in three or four weeks and they hope to start construction in late summer. He explained that the rest is to be road widening from Division St. North and the intersections of Division St. and Morgan Avenue, that the plans should be completed in late summer and they hope to start construction this winter.

RE: QUESTION OF DITCHES

Mr. Biggerstaff stated that there are structures of Harper Ditch and Hirsch Ditch, also a structure under Vogel Road, also between Hesmer Foods Co. and J. H. Rudolph Co; one under Stockwell Road and a relocation of a structure under the Southern Railroad. He said that the work will have to be done in conjunction with all the work that Mr. Brand had talked about and the work on the two ditches. He wondered if they would want the County Engineer to perform these or if they would want to let the structures out to a private firm. He said this would have to be answered by the Drainage Board so that the plans can be started and try to tie them all together at the same time.
Mr. Biggerstaff said that there are six structures here and that they will be pretty large and probably the most expensive will be the one that will be between Hesmer's and J.H. Rudolph Co. He said that he has talked with Mr. Hudson about these structures and all of them will come from the accummulative Bridge fund and that the easement will have to be provided, that he assumed under the old law that they have easement for the ditch.

Mr. Weiss explained the estimates. He said the Harper ditch has no structures in it at all. He thought the total for the six structures to cost around $78,000.00 so far with around 500 to 600 feet. This is for the construction part. The Box Culvert will probably run from $175.00 to $200.00 a foot.

Mr. Biggerstaff said that the total cost of the Hirsch Ditch will be around $174,000.00 and on Harper Ditch about $200,000.00, which will be participated in by Accumulative Bridge fund, by Evansville Board of Public works & Landowners lying outside the city limits on an assessment basis. In addition, the Plan Commission informed them that H.U.D. will come in and finance half of this. He said that they have three applications.
Commissioner Buthod said the Commissioners would like time to think about them.

RE: MANN AND KOLB DITCHES

Mr. Biggerstaff said they have discussed the Mann and the Kolb Ditch drain problem several times and have run a plan profile of the ditches and have it pretty well under control except the money problem is a worry, so with

the H.U.D. funding, he has filled out an application for the Kolb Ditch and have come up with a figure of $237,000.00 of which he is asking for a grant of $118,000.00.
He said there are subdivisions of Brentwood, Audubon Terrace and Cardinal Heights, who have all experienced problems with drainage and it concentrates at Covert Avenue. He thought that a lot of problems can be eliminated by going through with this project including the Lauderdale section. He said that he is projecting for the needs of 1995.

RE: NURRENBURN PROJECT

Mr. Biggerstaff said he had the plans and profiles for the Nurrenburn Project at Lincoln Avenue and Fuquay Road. He said this runs along Fuquay Road North across Division Street, all the way North to almost State Road 62 where it is intercepted to what is called Kelly Ditch and it runs along Westerly, on State Road 62 to about where the Complete Lumber Co. is and it would include the Crawford-Brandeis Ditch which runs along Burkhardt Road from Lincoln Avenue, North,to State Road 62 and Stockfleth Ditch which runs Division Street, North, to State Road 62 and they all run into one ditch which is called the Crawford-Brandeis and the Crawford-Brandeis Extension, then this runs North to Pigeon Creek. There are roughly 6000 acres in this area and the present population is 3300 people with a projection of 6100 people. This is the area where the Industrial Foundation has land lying East to Green River Road. Mr. Biggerstaff said he would like to bring these plans for the consideration of the Commissioners. He said that they had, as an alternate to the Crawford-Brandeis Ditch, to bring a ditch halfway between Division Street and State Road 62 from the Warrick County line coming due West into Green River Road, but after talking to Leo Weiss, thought they waited toolong to do this with the money problems. They were such that it would cause economic embarrassment to the people and to the County, to go through with it so after discussing it, thought not to submit this application.
Commissioner Stofleth asked if the entire length of Nurrenburn Ditch was dredged , also if the size of the culvert at Lincoln Avenue was increased.

Mr. Biggerstaff said they have several, that they increased the size and lengthened the pipe at Lincoln Avenue and the one under the State Road was sufficient width but coming up Burkhardt Road, the culverts are too small and will have to be increased in size and they have given thought to relocate the ditch altogether, so there would be adequate space to provide for a wider road in the future so they have included this in the provision. He said there is suppose to be around $300,000.00 in this fund and more money is supposed to be allocated in July and they would like to submit the application for Eagle Slough after they get their bids. He said that if the plans that Mr. Weiss have now are satisfactory, they will submit them to the Plan Commission so they can send it on it's way.

Commissioner Buthod moved that the two applications for the Mann Ditch and the Nurrenburn Ditch be approved and the County Surveyor's office be authorized to submit them and that the other application be tabled for further consideration and further recommendations from the Surveyor's office.

Mr. Biggerstaff said there are too many names involved in the ditches and would like to consolidate some of them.

Commissioner Willner seconded the motion. So ordered.

Meeting adjourned at 11:40 a.m.

VANDERBURGH COUNTY DRAINAGE
JUNE 5, 1972

A meeting of the Vanderburgh County Drainage Board was held this 5th day of June, 1972, at 11:25 a.m. with President A. J. Stofleth presiding.

The minutes of the prior meeting was approved without reading.

RE: PETITION OF WARRICK RESIDENTS

Mr. Biggerstaff presented a Warrick County Drainage Petition on the relocation of Mann Ditch, with map and list of residents in the area that will be affected. This petition was prepared by Carl Heldt Jr.. It reads as follows:

IN THE MATTER OF ROTHLEI DRAINAGE PETITION

Johnny Marie Rothlei, one of the petitioners herein, says:

1. That she is a land owner within the drainage area shown on the attached map, which drainage area is the subject of this petition.
2. That the names and addresses of each owner of property within this drainage area and of property which will be affected by the proposed improvement are listed on the attached documents.
3. That the general route of the proposed drain is shown on the attached map.
4. That in the opinion of this petitioner the costs, damages and expenses of the proposed improvement will be less than the benefit which will result to the owners of the land likely to be benefited thereby.
5. That in the opinion of this petitioner the proposed improvement will be of public utility.
6. That the petitioner is represented by the law firm of Lacey, Terrell & Annakin, 5011 Washington Avenue, Evansville, Indiana.
7. That this petitioner shall pay the cost of notice and all legal costs if this petition is dismissed, and that the petitioner shall post bond sufficient to pay the costs of notice and all legal costs in case the improvement is not established.

WHEREFORE, it is requested that a new legal drain be established as shown on the attached map.

Johnny Marie Rothlei 2400 Knob Hill

Mr. Biggerstaff said this is a preliminary petition to be brought before the Board and that the estimate will be brought up at a later time.
Commissioner Buthod moved that the Drainage Petition submitted in the matter of Rothlei Drainage Petition be accepted by the Drainage Board. Petition received and ordered filed and referred to the County Attorney.

RE: CLAIM

Steve Smith presented a claim for dragline work on Barr Creek on the Alvin Scheller farm in favor of Kenneth Adler in the amount of $856.25.
Commissioner Buthod moved this claim be approved. Commissioner Willner seconded the motion. So ordered.

RE: EAGLE SLOUGH

Mr. Wathen asked how Eagle Slough Ditch was coming along. He said if it doesn't come along pretty soon, that Curtis Huff is going to file suit.
Mr. Smith said that the field work was completed last Friday and that they should have all the answers to the unresolved objections in two or three weeks. Commissioner Buthod said he would be extremely interested in knowing why Mr. Huff thinks that filing suit will expedite anything as it would do nothing but hold up the proceedings which are moving as rapid as possible.

Meeting adjourned at 11:30 a.m.

VANDERBURGH COUNTY DRAINAGE
JUNE 19, 1972

A meeting of the Vanderburgh County Drainage Board was held this 19th day of June, 1972, at 10:50 a.m. with President A. J. "Ted" Stofleth presiding.

The minutes of the previous meeting were approved as presented and the reading of them was dispensed with.

RE: CLAIMS

Mr. Biggerstaff presented two claims in the amount of $500.00 each for the services of Thomas M. Swain and William D. Stephens as attorney's for the Drainage Board. This is for the second quarter of the year which is from April 1, 1972 to June 30, 1972.
Commissioner Buthod moved these claims be approved. Commissioner Willner seconded the motion. So ordered.

RE: UPPER PIGEON CREEK DRAINAGE SYSTEM MAINTENANCE PROJECT

Mr. Biggerstaff presented the following notice of assessment for maintenance:

The undersigned, Gibson Warrick County Joint Drainage Board, having established an annual assessment for periodic maintenance on the upper Pigeon Creek Drainage System, hereby certifies that the Surveyor for the project, Harry G. Morrison, has determined the cost of annual maintenance of said drainage to be in the amount of $34,518.66, and that the Board has apportioned said cost to several tracts of land, easements, rights-of-way and public highways benefited by the maintenance of said drain, the whole of said several assessments being in Pike, Vanderburgh, Warrick and Gibson Counties in the State of Indiana, and said several assessments as established by said Board and said apportionments upon lands, easements, rights-of-way and public highways in Vanderburgh County.
A list of residents was enclosed that are benefited by these drains.

Commissioner Buthod moved that this assessment notice be approved, as a matter of record. Commissioner Willner seconded the motion. So ordered.
Mr. Biggerstaff said that the annual assessment of the landowners of Vanderburgh County is $3.00.

RE: ANSWER ON ORDER TO DRAINAGE BOARD

The following letter was presented to the Drainage Board from the Board of County Commissioners:

Gentlemen:

The Board of County Commissioners of Vanderburgh County, Indiana is of the opinion that:

A. The present Legal Drains serving the watershed lying East of New Green River Road and South of the Evansville-Newburgh Road are not performing the function for which they were built and maintained.

B. The present Legal Drains lying East of New Green River Road, north of the Evansville-Newburgh Road and South of Pigeon Creek are not performing the function for which they were built and maintained.

Therefore, in our desire to provide for more adequate drainage and a reduction of damage to the County Highway System, the Board of County Commissioners hereby petition the Vanderburgh County Drainage Board to make the necessary changes to the legal drains in this area to adequately and properly drain all lands affected in this watershed.

00160

Commissioner Buthod moved that the Drainage Board recognize this action and instruct the County Surveyor and the County Auditor to proceed with the rehabilitation of drains. Commissioner Willner seconded the motion. So ordered.

The meeting adjourned at 10:55 a.m.

VANDERBURGH COUNTY DRAINAGE BOARD MEMBERS

VANDERBURGH COUNTY DRAINAGE
JUNE 26,1972

A meeting of the Vanderburgh County Drainage Board was held this 26th. day of June, 1972, at 11:05 a.m. with President A.J."Ted" Stofleth presiding.

Commissioner Buthod moved the minutes of the previous meeting be approved and the reading of them dispensed with. Commissioner Willner seconded. So ordered.

RE: LETTER....WARRICK COUNTY DRAINAGE BOARD

President Stofleth read the following letter :

Dear Sir:

A petition has been filed with the Warrick County Drainage Board requesting a new Legal Drain be established in the Fred Mann-Willow Pond watershed area. This watershed area is located in both Warrick and Vanderburgh Counties.

I have determined that there are approximately 300 acres in Warrick County and 200 acres in Vanderburgh County that are effected.

You are hereby notified that a joint meeting of Warrick-Vanderburgh Drainage Boards will be held in the office of the Warrick County Surveyor, at Boonville, Indiana on July 14,1972 at 1:00 p.m. C.D.T. Your cooperation will be appreciated.

Sincerely yours,
Robert R. Clutter
Surveyor of Warrick County

Sam Biggerstaff said that he and Steve Smith will attend this meeting and thought it would be good if one of the Commissioners could also attend.

RE: EAGLE SLOUGH

Sam Biggerstaff and Steve Smith presented a report on Eagle Slough which included the objuctions they were to correct since the last meeting on Eagle Slough. The objections were as follows:

1. ERNEST & AURELIA ELIKOFER. Steve Smith said in reviewing this objection they had to run an extensive survey to determine whether or not the water actually drained to Eagle Slough and found some of the property did not. Also, in checking with the Township Assessor he found that his acreage was assessed incorrectly and that we have him charged with eleven (11) acres too much.
Commissioner Buthod moved the correction be made in accordance to the Drainage Engineer, that the verification of acres be made, and that all other objections by Ernest and Aurelia Elikofer be denied. Commissioner Willner seconded the motion. So ordered.

2. ARLA M. SWEENY. Mr.Smith said after checking this they find no reason to reduce the assessment. Commissioner Buthod moved that upon the recommendation of the Drainage Engineer the objection be denied. Commissioner Willner seconded the motion. So ordered.

3. HUBERT R. & LOUISE BRUCE. Mr.Smith reported that upon checking this he found that out of about 105 acres only 8.9 acres actually drained to Eagle Slough and the rest of it into the Ohio River.
Commissioner Buthod moved the correction be approved and that all other objections be denied with respect to Hubert & Louise Bruce. Commissioner Willner seconded the motion. So ordered.

4. WALTER J. & MADALYN WETZEL. Mr.Smith said in reviewing this objection that a number of acres drains into the river and that they also found errors in the Pigeon Township Assessor's office.
Commissioner Buthod moved they approve the correction be made in the assessment schedule with respect to Walter & Madalyn Wetzel in accordance to the recommendation of the Drainage Engineer and all other objections be denied. Commissioner Willner seconded the motion. So ordered.

5. ELMER H. & OPAL D. SCHOFIELD. Mr. Smith said at this time he could find no reason to reduce this assessment. Commissioner Buthod moved that upon the recommendation of the Drainage Engineer this objection be denied. Commissioner Willner seconded the motion. So ordered.

6. ANNADALE FICKAS. Mr.Smith said at this time they could find no reason to reduce this assessment. Commissioner Buthod moved that upon the recommendation of the Drainage Engineer this objection be denied. Commissioner Willner seconded the motion. So ordered.

7. WANDA E. & NANNIE LEE ICE. Mr.Smith said at this time he could find no reason to reduce this assessment. Commissioner Buthod moved that upon the recommendation of the Drainage Engineer this objection be denied. Commissioner Willner seconded the motion. So ordered.

8. RUSSELL SCHOLL & DAVID GENTRY. Mr. Smith said in reviewing this objection they found that the runoff factor used in determining the original assessment was to high, therefore they have reduced the runoff coefficient to C=0.15 from 0.3. Commissioner Buthod moved they approve the correction as recommended by the Drainage Engineer and that all other objections be denied in respect to Russell Scholl and David Gentry. Commissioner Willner seconded the motion. So ordered.

9. WILLIAM E. & MARY LLOYD. Mr. Smith said at this time he could find no reason to reduce this assessment. Mr.Lloyd was present and said he had no further objections. Commissioner Buthod moved that upon the recommendation of the Drainage Engineer this objection be denied. Commissioner Willner seconded the motion. So ordered.

10. HAROLD & ELLEN McCOY. Mr. Smith reported that in reviewing this objection they found that a portion of the land does not drain into Eagle Slough. Commissioner Buthod moved the correction be approved in the assessment roll in accordance to the recommendation of the Drainage Engineer and that all other objections be denied. Commissioner Willner seconded the motion. So ordered.

Commissioner Buthod moved that all other objections not specifically covered in the consideration of the assessment rolls be denied. Commissioner Willner seconded the motion. So ordered.

Commissioner Buthod moved that the Drainage Board find from the evidence that the benefits from the reconstruction of Eagle Slough will exceed the cost, that all objections have been considered and those not specifically allowed have been denied, that the amended assessment roll be finally approved and adopted by the Drainage Board of Vanderburgh County, Indiana and that the work proceed according to the statute and that advertisement be made of the proposed construction in accordance with law in a newspaper of general circulation published in Vanderburgh County,Indiana. Commissioner Willner seconded the motion. So ordered.

Commissioner Buthod moved that the Plans and Specifications for the Reconstruction of Eagle Slough as submitted by the County Drainage Engineer be approved and adopted, and that the County Auditor be instructed to advertise for bids at the earliest possible date. Commissioner Willner seconded the motion. So ordered.

County Attorney Thomas Swain suggested the Board wait until a later date to do anything about the bonds.

Mr.Biggerstaff said he wanted to explain that in asking for Federal Aid he didn't want to hold this up an longer so he thought they would wait until after they received the bids to do anything.

The following is a list of the objectors, their addresses and tax code number.

VANDERBURGH COUNTY DRAINAGE
JULY 5, 1972

A meeting of the Vanderburgh County Drainage Board was held this 3rd.day of July 1972, at 11:00 a.m. with President A.J."Ted" Stofleth presiding.

The minutes of the previous meeting were approved as presented and the reading of them was dispensed with.

RE: LETTER....WM H. SUHRHEINRICH....POND FLAT DITCH

The following letter was presented to the Drainage Board:

Gentlemen:
Inasmuch as I receive no direct benefit from this ditch, I petition that it be incorporated as a legal drain connection to Pond Flat Ditch so that those who benefit there from shall participate in its upkeep.

My drainage system drains into Pond Flat Ditch and has been approved by the A.S.C.S.

Yours very truly,
Wm. H. Suhrheinrich

Mr.Biggerstaff said that he sent a copy of this letter to the L & N R.R. and have received no answer, as yet. He said he would check with them again. Sam said that in checking on this and having made a survey on this ditch they find the water does come down on Mr. Suhrheinrich's land which is causing an erosion problem.

Mr.Biggerstaff said that it was wxplained to Mr.Suhrheinrich as to what had to be done to extablish this as a legal drain lateral, that it could be done through the Drainage Board but there would be signatures to obtain on a petition and assessment rolls to be figured.

Sam said he and Steve Smith will see what can be done to give Mr.Suhrheinrich some immediate relief.

Mr.Swain said he would look into it and let thim know how to proceed on this problem by Wednesday or Thursday.

Meeting Adjourned: 11:05

VANDERBURGH COUNTY DRAINAGE
JULY 10,1972

A meeting of the Vanderburgh County Drainage Board was held this 10th. day of July, 1972, at 11:00 a.m. with President A.J."Ted" Stofleth presiding.

The minutes of the previous meeting were approved as presented and the reading of them dispensed with.

RE LETTER.....MR.& MRS PFINGSTON:.....SONNTAG-STEVENS:

The following letter was presented to the Drainage Board by Drainage Engineer Steve Smith:

Gentlemem:

There appears to be an error on the above mentioned ditch assessment. In the old ditch records dating back to before 1900 the allotment for the property was sixty (60) feet for the forty acres. Over the years this property has been subdivided and sold as separate lots. However this was done prior to 1965 which was the year the present drainage law was enacted and the sale of these lots was not reported to the Surveyor. When Mr.& Mrs.Pfingston bought the property there was only 0.5 of an acre left and it was still being assessed for the intire 40 acres. None of the adjoining property owners are paying any ditch assessments.

Therefore I recommend that the assessment to this property (Tax Code # 2-153-68) be dropped until the reassessment proceedings for this ditch are completed.

Yours truly,
Steven Smith
DRAINAGE ENGINEER.

Commissioner Buthod moved that Tax Code # 2-153-68 be dropped from the tax roll as recommended by the Drainage Engineer. Commissioner Willner seconded the motion. Motion carried.

RE: CLAIM....ENGINEER ASSOCIATES, INC.

ENGINEER ASSOCIATES, INC. Reconstruction of Part of Harper Ditch, Hirsch Ditch and Extensions from Green River Rd. to Pigeon Creek.

Estimate of Harper Ditch.....$78,375.50
Estimate of Hirsch Ditch.....173,308.50 AMOUNT...$9,526.24
$251,684.00

Fee: 7.57% of $251,684.00= $19,052.48
50% of $19,052.48 as Para 9 A (2)

Commissioner Buthod moved the claim be approved. Commissioner Willner seconded the motion. Motion carried.

RE: LETTER....COLONIAL GARDEN CENTER, INC. ....NURRENBERN DITCH:

The following letter w s presented to the Drainage Board by Sam Biggerstaff:

Dear Mr. Smith:

We received your correspondence of June 23, 1972, and find some of your approach to it unacceptable. It has now been over two yrs. since we pointed out minor problems that would relieve excessive flooding in the area of our nursery at 8001 Lincoln Abenue. Eventhough the overall plan which you have in mind is impressive, it will not be ecomplished in time to prevent the unnecessary flooding that has occurred each spring in the last two years.

I am assuming that part of your plan is to replace the culvert just north of Lincoln Avenue in front of three homes. According to our views and observations made by people familiar with this area, there are small portions of the improvement which would greatly aid in the drainage of the areas immediately south of Lincoln Avenue. This would not be a tremendous expense and its cost could be included in the larger projects amounting to $255,000.00, which funds overall you intend to procure from H.U.D. and the sale of bonds.

With the above listed facts in mind, we would like for you to schedule the enlargement of the small sewer yet this summer, with other phases of the work to follow according to your plan. We will look forward to your early reply.

Yours very truly,

COLONIAL GARDEN CENTER, INC.

Mr. Biggerstaff sid he doesn't know where we would get the money to do this at the present time, as it would be around $90,000.00.

Commissioner Buthod said he sees no way we could do this at this time.

RE: OHIO VALLEY.....AGREEMENT....MR. ED BOYD:

This agreement came up before the Board of County Commissioners at which time Commissioner Stofleth made the following motion:

Commissioner Stofleth moved to enter into an agreement between the Vanderburgh County Drainage Board and Edwin Boyd D.B.A. Ohio Valley Engineer's in the form as presented but subject to modification of Paragraph 11 to provide that the agreement isn't binding on either party until such time as funds are appropriated by the County Council and Item 3C be changed to read that the tracings become the property of the County. Commissioner Buthod seconded the motion. So ordered.
Meeting adjourned 11:05 a.m.

PRESENT:	DRAINAGE BOARD	COUNTY AUDITOR	COUNTY SURVEYOR
	A.J."Ted" Stofleth James M. Buthod Robert L. Willner	Lewis F. Volpe	Sam Biggerstaff

VANDERBURGH COUNTY DRAINAGE
JULY, 17, 1972

A meeting of the Vanderburgh County Drainage Board was held this 17th.day of July, 1972, at 10:30 a.m. with President A.J."ted" Stofleth presiding.

The minutes of the previous meeting were approved as presented and the reading of them dispensed with.

RE: OPENING OF BIDS FOR EAGLE SLOUGH:

The following bids were opened and read aloud by County Attorney Thomas Swain.

ROBERT F. TRAYLOR.....$178,590.00

Item #3.....85,000.00.....Clearing, (Burning not allowed)

Item #3.....96,000.00....Alternate Bid...Clearing(Burning allowed)

RYAN CONTRACTING CO., INC.....$183,095.00....$153,095.00(Alt)

Item #3.....60,000.00...Clearing(Burning Not Allowed)

Item #3.....30,000.00...Atlernate...Clearing(Burning Allowed)

A letter was also received from Ryan stating that if he received the awarding of the bid and if it be before September 1st. that his bid would be reduced by the amount of $30,000.00

GILBERT J. RODE AND SONS, INC.....$168,090.00....$149,090.00 (Alt)

Item #3.....77,000.00....Clearing (Burning Not Allowed)

Item #3.....58,000.00....Alternate...Clearing(Burning Allowe

D.K. PARKER COMPANY, INC.....$232,725.00.....$188,875.00(Alt.)

Item #3.....163,450.00...Clearing (Burning Not Allowed)

Item #3.....119,600.00...Alternate...Clearing..(Burning Allowed)

PRIEST HAZELWOOD AND SON, INC.....$152,875.00..(.119,275.00(Alt.)

Item #3...76,800.00...Clearing(Burning Not Allowed)

Item #3...43,200.00...Alternate...Clearing(Burning Allowed)

Commissioner Buthod moved the bids be taken under advisement for one week. Commissioner Willner seconded the motion. So ordered.

Meeting adjourned at 10:40 a.m.

VANDERBURGH COUNTY DRAINAGE
JULY 24, 1972

A meeting of the Vanderburgh County Drainage Board was held this 24th. day of July, 1972, at 11:10 a.m. with President A.J."Ted" Stofleth presiding.

The minutes of the previous meeting were approved as presented and the reading of them dispensed with.

RE: EAGLE SLOUGH:

Mr. Biggerstaff said there is a twenty one day waiting period after the advertisement was made before they can award the bid, so he doesn't think it can be awarded today.
Mr.Buthod wondered if they could go ahead and award the bid subject to no objections coming in.
County attorney Thomas Swain said he thinks they should call a special meeting to award the bid, because they don't want any thing to be done wrong this time and cause any further delay. A special meeting was set for Tuesday,July 25th. 1972.

RE: LETTER....FREDERICK BUMB:

The following letter was received by the County Commissioners:

Dear Sirs:

Recently I received information that the Eagle Slough Ditch will be dug in the near future.

As one of a group of farm operators in the Pigeon Township area, I am concerned about the periodic back waters during the crop season. We wonder if it would be possible to incorporate into the Eagle Slough plans some type of locks or gates in the outlet of the ditch. This could prove greatly beneficial to all the land owners along the ditch and adjacent areas during high waters like those we experienced this month.

When the river stage is up to 34 ft., we often have a great deal of flooding from backwaters that could be controlled by such devices. This could also possibly appease some of the objecting land owners if they could see some benefits from such a ditch program.

A group of concerned farmers built temporary gates at the outlet of Eagle Slough Ditch during the recent high water and saved at least 800 acres of growing crops. Only those who witnessed the results can realize how much this benefitted the farmers in this area.

I inquired last spring about this matter but understand that there is no such provision in the current plans for the ditch. Mr. Sam Biggerstaff suggested that I appeal to your board about including such gates in the project plans before they are completed.

I trust that you will give this matter your kind consideration and will call upon me for an appearance before your board if necessary.

Very truly yours,

Frederick Bumb

Mr. Bumb was present and tried to explain anything further that the commissioners didn't understand.
Mr. Biggerstaff said there are three, 96" pipes out there, and he wondered if this might not be some of the Levee Authority's responsibility. Sam said after talking with Mr. Bumb he realizes there is a bad situation out there but he doesn't think that a flap gate would work, and when you go to talking about an automatic gate your are talking about quite an expense.
Mr. Bumb said if he was guessing he would say around $1,000.00.
Mr. Biggerstaff said he don't think that this could be made part of the contract, as this would be under flood control.
Mr. Buthod said could there be some kind of gates available that if the water came up they could be hand lifted and put into place over these pipes.
Mr. Biggerstaff said he would be happy to work with Mr. Bumb and Mr. Chambers and see what they could try and work out and then report back to the Drainage Board their findings. Mr. Bumb said he too would be happy to be the representative for these farmers and work with Mr. Biggerstaff to try and solve this problem.

Meeting adjourned at 11:27 a.m.

VANDERBURGH COUNTY DRAINAGE
JULY 25, 1972

A special session of the Vanderburgh County Drainage Board was held this 25th. day of July, 1972, at 9:10 a.m., with President A.J."Ted" Stofleth presiding.

Commissioner Buthod moved the consideration of the minutes of the previous meeting be deferred until the next meeting. Commissioner Willner seconded the motion. So ordered.

RE:AWARDING OF BID.....EAGLE SLOUGH:

Commissioner Buthod moved the bid of Priest Hazelwood of Henderson,Kentucky be accepted, for the reconstruction of Eagle Slough, subject to sale of bonds, necessary financing and approval of bonds by the attorney for the purchasing. Also, the bid was properly signed and notorized, but Mr.Hazelwood signed it on the wrong line, so Commissioner Buthod moved they waive the signing of it on the wrong line, and also that Mr. Hazelwood show proof that he is permitted to do work in Indiana.

The total bid price is $152,875.00, exclusive of alternate bid.

Commissioner Willner seconded the motion. After taking a vote...Buthod..aye, Willner....aye, Stofleth...aye.

So ordered.

Meeting adjourned at 9:13 a.m.

VANDERBURGH COUNTY DRAINAGE
JULY 31, 1972

A meeting of the Vanderburgh County Drainage Board was held this 31st. day of July, 1972, at 10:50 a.m. with President A.J."Ted" Stofleth presiding.

The minutes of the previous meeting were approved as engrossed by the County Auditor and the reading of them dispensed with.

RE: EAGLE SLOUGH:

Mr. Andy Hazelwood was present and ask the permission of the Drainage Board to go ahead and get started on the reconstruction of Eagle Slough, before the bonds are sold.
Commissioner Buthod said they have no assurance that the bonds will sell, and that Mr. Hazelwood would be taking an awful big chance.
Mr. Hazelwood said he realizes this, but would like to go ahead, as with a few thousand dollars he could get a pretty good start before fall sets in.
He also asked the commissioners about the timber he cuts, can he sell it. Mr. Buthod said certainly, that he has the bid and feels he considered this when he bid on the job and anything he wants to do with what he cuts down is up to him.
Sam said Mr. Hazelwood's contract calls for clearing and moving or burning of timber that is in the right-of-way of this ditch. He also said the Fire Comm. has already approved the burning of this,as it is within four miles of the city limits.
Mr. Buthod stated that any preliminary work done before the sale of bonds is at Mr.Hazelwood's risk,but it will be compensable under the contract assuming the bonds are sold.
Mr.Hazelwood is to write a letter to the Drainage Board saying the county is not liable for anything and also he should have his liability insurance certificate. The County Attorney is to write a letter to Mr.Hazelwood showing he has the approval of the Drainage Board.

County attorney Thomas Swain said he will also have the Bond Issue ready next Monday.

Meeting adjourned at 10:55 a.m.

AUGUST 7th, 1972

A meeting of the Vanderburgh County Drainage Board was held this 7th. day of August, 1972, at 10:25 a.m. with President A.J. "Ted" Stofleth presiding.

The minutes of the previous meeting were approved as engrossed by the County Auditor and the reading of them dispensed with.

RE: EAGLE SLOUGH:

County Attorney Swain presented a resolution for the Eagle slough Bond Issue. Commissioner Buthod moved the adoption of the Bond Issue Resolution in the form prepared at the base amount of $200,000.00 in accordance with further provisions of the Resolution as approved by the County Attorney's.
Commissioner Willner seconded the motion. So ordered.
Commissioner Buthod moved that all necessary findings of fact, preceding to the adoption of the resolution, be determined to be found as a fact and that such findings be included in the minutes of the meeting in accordance as prepared by the County Attorney.
Commissioner Willner seconded the motion. So ordered.

RE: APPLYING FOR DEDERAL FUNDS

The following resolution was presented to the Drainage Board by Sam Biggerstaff, County Surveyor:

RESOLUTION AUTHORIZING VANDERBURGH COUNTY SURVEYOR OF EVANSVILLE, INDIANA TO ACT FOR AND ON BEHALF OF THE VANDERBURGH COUNTY DRAINAGE BOARD ON APPLYING FOR FEDERAL FUNDS FOR RECONSTRUCTION OF CRAWFORD-BRANDIS AND KOLB DRAINAGE SYSTEMS, VANDERBURGH COUNTY LEGAL DRAINS

Resolution authorizing filing of application with the Department of Housing and Urban Development, United States of America, for a grant P.L. 89-117.

WHEREAS, pursuant to P.L. 89-117 the United States of America has authorized the making of grants to public bodies to aid in financing the construction of basic water and sewer projects:

NOW THEREFORE, BE IT Resolved By The Vanderburgh County Drainage Board of Evansville, Indiana;

1. That Sam Biggerstaff be and he is hereby authorized to execute and file an application on behalf of The VanderburghCounty Drainage Board of Evansville, Indiana with the Department of Housing and Urban Development, United States Government, for a grant to aid in financing the reconstruction of Crawford-Brandis - Colb Ditch, Vanderburgh County Legal Drainas, and an assurance of compliance with the Department regulations under Title VI of the Civil Rights Act of 1964.

2. That Sam Biggerstaff, Vanderburgh County Surveyor be and he is hereby authorized and directed to furnish such information as the Department of Housing and Urban Development may reasonably request in connection with the application which is herein authorized to be filed.

ADOPTED by the Vanderburgh County Drainage Board of Evansville, Indiana, on this 21st.day of August 1972 and on said day signed by the Vanderburgh County Drainage Board and attested by the County Auditor.

Commissioner Buthod moved this resolution be approved and that Mr.Biggerstaff be instructed to file for application for federal funds. Commissioner Willner seconded the motion. So ordered.

Mr. Biggerstaff also recommended that the Drainage Board receive a letter from the County Commissioners setting out the fact that this area is in dire need of storm drainage.

Meeting adjourned at 10:36

VANDERBURGH COUNTY DRAINAGE BOARD MEMBERS

A meeting of the Vanderbrugh County Drainage Board was held this 28th. day of August, 1972, at 11:15 a.m. with President A.J."Ted" Stofleth presiding.

Commissioner Buthod moved that the minutes of the previous meeting be approved as engrossed by the County Auditor and the reading of them dispensed with. Commissioner Willner seconded the motion. So ordered.

RE: LETTER FROM COUNTY COMMISSIONERS:

Gentlemen:

The Board of Commissioners of Vanderburgh County has reviewed the drainage problems in the watershed area East of New Green Rivor Road and North of the Evansville-Newburgh Road and South of Pigeon Creek and the Board has found that a problem exists in the area and that the drains serving this area are not performing the functions for which they were built and maintained.

The Board of Commissioners of Vanderburgh County would certainly desire and requests more adequate drainage and a reduction of the damage which occurs by reason of floods and hereby requests the Vanderburgh County Drainage Board to make the necessary changes in the Legal Drains in this area to adequately and properly drain all lands affecting the watershed.

If you have any questions in this regard, please feel free to contact us.

Vanderburgh County Commissioners

There was also a letter for the Drainage Board to sign stating that in past action the Vanderburgh County Drainage Board approved the Preliminary Engineering Report and Cost Estimate of the Crawford-Brandis-Kolb Ditch Reconstruction Projects.

Commissioner Buthod moved that the board sign this letter and the application be signed by County Auditor Lewis Volpe and that they be approved. Commissioner Willner seconded the motion. So ordered.

RE: INVITATIONAL BIDS:

Mr. Biggerstaff presented two invitational bids to the county attorney. These bids were for the removing of structures on a road crossing from a ditch back of Whirlpool. They were as follows:

NATHEN H. BATES.....$1,185.00

JERRY L. DAVID..... 1,100.00

Mr. Buthod moved that the low bid of Jerry L. David be approved and awarded. Commissioner Willner seconded the motion. So ordered.

RE: ENGINEER ASSOCIATES:

Mr. Biggerstaff stated that about a year ago they talked about running a ditch from Green River Rod east to Burkhardt halfway between Division Street and State Highway 62. He and Steve and Ed Boyd went out and looked at this last week and Ed suggested they install it going west from Green River Road, through Indrustrial Park and into Wesselman Park. He said to pick up where Harper Ditch crosses Green River Road. He said when the Industrial Park sub-dividion was layed out certain streets were dedicated which would be in line with this ditch but since that time most of them have been vacated so the only street opening we have is the one that adjoins Stockwell Road. Only one of these streets have anything built over it, and the rest of the way is open. He feels that even if we have to buy

right-of-way and some pipe, it would still save money by going this route and he would like for the Drainage Board to authorize Engineer Associates to make a study on this and study the feasibility of taking this route instead of the one through Rudolph's, back of Hosmers.

Commissioner Stofleth asked approximately what the cost would be for this study.

Sam said it shouldn't be too much as they already have the elevations for Stockwell and on Green River Road east. It would only be some spot checks to see what kind of problems may arise across this open field as for as gas lines, water lines, etc.

Commissioner Buthod moved that Engineer Associates be employed to make a study in accordance to the recommendation of the County Drainage Engineer. Commissioner Willner seconded the motion. So ordered.

Meeting adjourned at 11:20 a.m.

VANDERBURGH COUNTY DRAINAGE
SEPTEMBER 5, 1972

A meeting of the Vanderburgh County Drainage Board was held this 5th. day of September, 1972 at 10:30 a.m. with President A.J."Ted" Stofleth presiding.

Commissioner Buthod moved that the minutes of the previous meeting be approved as engrossed by the County Auditor and the reading of them dispensed with. Commissioner Willner seconded the motion. So ordered.

RE: RECEIVING OF BIDS.....ON THE BONDS FOR EAGLE SLOUGH

County attorney Thomas Swain said let the minutes show that no bids were received and pursuant to the statute that the bidding proceedure stay open for a period of thirty days.
Commissioner Buthod moved that upon the recommendation of the county attorney, that with no bids being received at the proper time and place appointed for the acception of the bids that the bidding remain open for thirty days.

Mr. Swain reported to the drainage board that the Old National Bank in Evansville, and the Citizens National Bank in Evansville agreed.

Mr. Stofleth said the reason the National City Bank has not agreed is when they contacted them on it, their officers were out of town and they were thinking about a clearing house. We asked about participation on a third basis and they talked about going on a clearing house percentage basis.

Commissioner Willner seconded the motion made by commissioner Buthod. So ordered.

RE RUSHER CREEK....JOHN REXING

Drainage Engineer Steven Smith talked to Mr. Rexing and he would like permission to lay a dragline on some property of his, where this ditch is also located. This land is very low and he feels this would be a great help. This would be entirely at Mr. Rexing's expense.
Commissioner Buthod said he sees no reason why this shouldn't be done and moved that it be approved. Commissioner Willner seconded the motion.. So ordered.

Meeting adjourned at 10:40a.m.

VANDERBURGH COUNTY DRAINAGE
SEPTEMBER 11,1972

A meeting of the Vanderburgh County Drainage Board was held this 11th. day of September, 1972, at 10:41 a.m. with President A.J."Ted" Stofleth presiding.

Commissioners Buthod moved that the minutes of the previous meeting be approved as engrossed by the County Auditor and the reading of them dispensed with. Commissioner Willner seconded the motion. So ordered.

RE: CLAIMS

Sam Biggerstaff presented the following claims to the commissioners for their approval:

Thomas Swain...Attorney fees for 3rd.quarter of 1972 which is from July 1,1972 to September 30th. 1972 in the amount of $500.00

William Stephens...Attorney fees for 3rd. quarter of 1972 which is from July 1, 1972 to September 30th.,1972 in the amount of $500.00

Commissioner Buthod moved that these claims be approved in the amounts stated. Commissioner Willner seconded the motion. So ordered.

RE: INVITATIONAL BIDS...HARPER DITCH

Sam Biggerstaff said he would like to ask for invitational bids on some work to be done on Harper Ditch from Division Street to Green River Road.

Commissioner Willner moved that Sam be instructed to get invitational bids on this.

Commissioner Buthod seconded the motion. So ordered.

Meeting adjourned at 10:45 a.m.

VANDERBURGH COUNTY DRAINAGE
SEPTEMBER 18,1972

A meeting of the Vanderburgh County Drainage Board was held this 18th. day of September, 1972, at 10:30 a.m. with President A.J."Ted" Stofleth presiding.

Commissioner Willner moved that the minutes of the previous meeting be approved as engrossed by the County Auditor and the reading of them dispensed with. So ordered.

RE: EAGLE SLOUGH

Mr.Arthur Karch was present and asked to be heard at this time. He said he has talked with several people on Outer Pollack and Green River Road and they feel that Eagle Slough will not help them very much. Some of these people feel that other land owners who are not, should be included in this assessment.
Mr. Smith, County Drainage Engineer said they have throughly surveyed this and studied it and they feel like averyone that is in this water shed is being assessed.

Mr.Stofleth said the Bond Issue is already sold and the period for remonstrators has already passed and he doesn't think we should back up on this thing now.

Mr.Willner said he is in agreement with Commissioner Stofleth in that the bond has been sold and the time for remonstrators is passed and if Mr. Smith says he has throughly checked these land assessments and they have all been approved and accepted by the commissioners then he thinks this is too late for them to come back with it.

Mr.Karch said some people did object to this and when Mr.Lloyd tried to say something he was heckled, and he feels that some people out there are trying to cover up for some reason or another.

Mr. Smith said he thinks the reason some of the farmers got a little hot is that they have been trying to get Eagle Slough to going for so long.

Commissioner Stofleth said again the bonds have been sold and he feels it is too late for all of this to come about again.

Mr. Smith asked at this time could the commissioners give him a time that he could tell Mr. Hazelwood that he could get started on the work or when they would be signing the contract.

Commissioner Willner moved that the Drainage Board adopt a resolution to accept the proposal of the three banks, them being Citizens National Bank, National City Bank and Old National Bank, subject to the conditions set out in the bid.

Commissioner Stofleth seconded the motion. So ordered.

Attorney Thomas Swain said next week he will try to have the contract between the Drainage Board and the Board of Public Works of the City of Evansville which is their agreement to pay the 72% assessment, and this gives them permission to dump their water into Eagle Slough.

Commissioner Willner told Steve Smith to tell Mr. Hazelwood that he would keep in contact with the attorneys on this and will be in touch with him as soon as possible.

VANDERBURGH COUNTY DRAINAGE
SEPTEMBER 25,1972

A meeting of the Vanderburgh County Drainage Board was held this 25th. day of September, 1972, at 11:10 a.m., with President A.J."Ted" Stofleth presiding.

Commissioner Willner moved that the minutes of the previous meeting be approved as engrossed by the County Auditor and the reading of them dispensed with. So ordered.

RE: CLAIMS

The following claims were presented to the Commissioners by Sam Biggerstaff for their approval:

Harold J. Peter....Ditch cleaning in Cloverlawn Sub-Division.....$115.00

Harold J. Peter....Cleaning of County legal drains...Keil Ditch.....$421.68
and Sonntag-Stevens.$1188.36

Commissioner Buthod moved that these claims be approved for payment upon the recommendation of the Drainage Engineer. Commissioner Willner seconded the motion. So ordered.

RE: HARPER DITCH

Mr. Biggerstaff said a couple of weeks ago they asked for invitational bids for the cleaning of a small portion of Harper Ditch, from Division to Green River Road and received a bid from Clem Seibert for 10¢ a foot. Commissioner Buthod moved that this be approved. Commissioner Willner seconded the motion. So ordered.

RE: DITCH...HEADEN AND VOIGHT RD.

Mr. Biggerstaff said about two weeks ago he was out looking at the north end of the ditch on Headen and Voight Road and thinks this should be cleaned. He got an hourly rate of $15.00 from Mr.Stahl, to dragline it, and he personally feels this is a very reasonable amount. This would be a highway contractual account. Commissioner Willner said he would like to get a contract on this to keep it clean and asked Mr.Biggerstaff could he get a signature on it. Commissioner Willner moved this be approved subject to the signature. Commissioner Buthod seconded the motion. So ordered.

RE CONTRACT...BOARD OF PUBLIC WORKS:

County attorney Thomas Swain presented a contract to the Drainage Board from the Board of Public Works whereby they agree to pay their 72% of the assessment to dump their water into Eagle Slough.
Commissioner Buthod moved that this be accepted and approved. Commissioner Willner seconded the motion. So ordered.

OCTOBER 10, 1972

A meeting of the Vanderburgh County Drainage Board was held this 10th day of October, 1972, at 11:00 a.m. with President A. J. "Ted" Stofleth presiding.

The minutes of the previous meeting were approved as engrossed by the County Auditor and the reading of them dispensed with.

RE: APPEAL OF FUNDS PROPOSED

Mr. Biggerstaff presented appeals that he wants made in the Drainage Board budget, for the approval of the Board. These appeals are $3,500 in legal services and $35,000 in Consulting Engineer Services.
Commissioner Buthod moved that these amounts be appealed to the State. Commissioner Willner seconded the motion. So ordered.

RE: EAGLE SLOUGH BOND ORDINANCE

The Bond Ordinance for Eagle Slough was previously approved and is now presented to the members of the Drainage Board for their signatures.

RE: HARPER DITCH

Mr. Biggerstaff said the Harper Ditch begins by Harrison High School but the part he is concerned with begins at Green River Road and runs Northwest through Rudolph Co. & Hesmers food plant property and across Stockwell Rd. where it runs into a larger ditch and into Pigeon Creek. He presented a drawing and explained the proposal and in, that they were going to take this ditch at Green River Road and run due West and bring it in to Wesselmans Park and come up that way to save money in constructing expensive culverts through here. He said that he talked to Dennis Stallings on this because this property was platted into a sub-division, then vacated, except for a portion of it. He said Traylor Brothers building sits on the South side, however, it is fenced in and used as a warehouse yard. He said that Mr. Stallings does not approve of this route, so Mr. Biggerstaff said that he would bring it before the Drainage Board to see what their decision would be.
Mr. Stallings suggested they go through the Hirsch Ditch which runs along the Southern Railroad, but Mr. Biggerstaff said this ditch was not large enough and one side of it is the Southern Railroad tracks and the other side is the Rudolph Co. He suggested the Drainage Board take a look at it and see what their feelings are. The Board agreed that they would.
Commissioner Buthod said he has been involved with so many people out there, that he thought he should probably disqualify himself, but would first like to look the situation over.
Mr. Biggerstaff said by doing this, they would increase the value of the other lands because when you diagonal across land, you destroy the usefulness of it. He said that when the value of the land is increased, it would also increase the future tax money that the county will collect by better use of this land.
Mr. Weiss gave a report on this same project, since he represents some people out there and he said they ended up being involved with almost everyone out there and the county doesn't have to pay a dime for any of the Rights-of-Way.
Commissioner Buthod thought that this might be able to be worked out and suggested that every avenue be investigated to keep from chopping up land arbitrarily, as this is some of the most valuable land in Evansville.

RE: VENEER DITCH

Mr. Biggerstaff said that Mr. Krohn wants to clean his portion of this ditch, which amounts to about a quarter of a mile and it crosses Lutterbach Road. He said the culvert that is there is in opposite direction of the flow and the road has caved in, on the top, so he wrote the people a letter and asked if they were in favor of cleaning or replacing the culvert.

OC202

He received their answers, and said that they don't object to it as long as the road stays open. He said that one farmer thought the culvert needed to be replaced at the proper grade and that the road be kept open even though it is only used by farm traffic.
Mr. Biggerstaff said that he agrees with this farmer, in that he thinks the culvert should be replaced and in case of a disaster, this road would take you into the Boonville-New Harmony Road, and it would only need to be graded a couple times a year.
Commissioner Buthod moved to approve the procedure as recommended by Mr. Biggerstaff. Commissioner Willner seconded the motion. So ordered.

Meeting adjourned at 11:17 a.m.

VANDERBURGH COUNTY DRAINAGE
OCTOBER 17, 1972

A meeting of the Vanderburgh County Drainage Board was held this 17th. day of October, 1972, at 10:20 a.m. with President A.J."Ted" Stofleth presiding.

The minutes of the previous meeting were approved as engrossed by the County Auditor and the reading of them dispensed with.

RE: LETTER....WARRICK COUNTY

County Surveyor Sam Biggerstaff said a letter was sent to us from the Warrick County to collect some assessments due to them for ditches in Warrick County. Sam said this is land in Vanderburgh County that the biggest part of the parcel drains into a Warrick County Legal Drain. Warrick County has never before sent us anything like this and the question is, how does Mr. Volpe pay Warrick County. Does he send bills to these people, or what. One item is the benefit of the Vanderburgh County Highway Department in the amount of $98.60.

Mr. Buthod moved that this be referred to the Vanderburgh County Auditor for appropriate action. Mr. Willner seconded the motion. So ordered.

RE: REMOVAL OF TREES FROM DITCHES

Mr. Biggerstaff said it had been brought up before on Eagle Slough about the pulp wood company that said they would remove trees from ditches for the wood. The commissioners at that time gave Mr. Hazelwood, the contractor for Eagle Slough, the permission to let them do this. Well now he would like to remove trees from some of the other ditches,at no cost to the county, so long as he gets the wood. Sam said especially in Little Pigeon Creek up to near Birch Industrial, if they could get some of these trees out of there it would solve some of their problems. Sam said that he would be glad to go and talk to them about it, take them out there to see it, and then report back to the board.

RE: BANK BONDS .....EAGLE SLOUGH

County Attorney Bill Stephens said he talked with the bank attorney and he said they were approved and he will send a letter to the bank, authorizing them to send the money to buy the bond. The bonds have to be printed and Bill said he doesn't know if Tom ordered them to be printed or not before he went on vacation. Mr. Smith asked do they have to be printed and signed before we can sign the contract. Mr. Stephens said anything could happen and it would be best to wait until the money is in before the board signs the contract.

Meeting adjourned at 10:30 a.m.

VANDERBURGH COUNTY DRAINAGE
OCTOBER 23, 1972

A meeting of the Vanderburgh County Drainage Board was held this 23rd. day of October, 1972, at 10:53 a.m. with President A.J."Ted" Stofleth presiding.

The minutes of the previous meeting were approved as engrossed by the County Auditor and the reading of them dispensed with.

RE: CLAIMS

The following claims were presented to the Drainage Board for approval for payment.

CLEM SEIBERT.....Baehl Ditch.....$339.85

Mr. Buthod moved that the above claim be approved as recommended by the Drainage Engineer. Mr. Willner seconded the motion. So ordered.

HAROLD J. PETER.....Removal of 2 structures on Sonntag-Stevens Ditch....$400.00

Mr. Buthod moved that the above claim be approved as recommended by the Drainage Engineer. Mr. Willner seconded the motion. So ordered.

HARPER DITCH

Mr. Biggerstaff said he wanted to discuss the re-location of Harper Ditch through the Traylor Brothers property. There are a couple of practical things that can be done. It has been discussed that we move north of them, which would put two thirds in the ditch in addition to what we have, and the other would be to leave it where it exists at the present time, which runs back of Hesmers Products. The financial problem to the county would be after we cross Vogel Road and to a northwestern direction toward Stockwell Road, we will be going through this pretty well built up property owned by the Rudolph Company, Hesmers Food,and others. These right-of-ways are so narrow, that we are going to have to pipe most of it which will cost some $150.00 a foot. That is why he is trying to investigate alternate routes. The route through Traylor Brothers is all open ditch except for maybe a couple hundred feet. So the commissioners really need to study and see which would be the best route and the most beneficial to the people that own the property, through which the ditch passes at this time

Mr. Joe Wallace said he was down at the board of works when they started talking about doing some improvements on Green River Road and he did go out for the city and get easements. He said he does need to know what is going to happen on this ditch before he can release all of this.
Mr.Biggerstaff said it would be a good idea if they could all go out and look and see what they might encounter going through Traylor Brothers. Traylor Brothers will be willing to let us go through there if we pipe it all the way through, which gets pretty expensive. The three commissioners said they would go out, along with Mr.Wallace,Mr.Biggerstaff and Mr.Smith and survey the situation and try to decide which would be the best route.

Meeting adjourned at 11:00 a.m.

OCTOBER 30, 1972

A meeting of the Vanderburgh County Drainage Board was held this 30th. day of October, 1972, at 10:00 a.m., with President A.J."Ted" Stofleth presiding.

The minutes of the previous meeting were approved as engrossed by the County Auditor and the reading of them dispensed with.

RE: CLAIMS

The following claims were presented to the Drainage Board for approval for payment. All of them are for the cleaning of legal drains.

EDWARD SCHMITT.....Henry Ditch $429.17

CLEM SEIBERT.....Hirsch Ditch.....$641.64

ARMSTRONG SCOTT DITCH ASSOCIATION.....$675.09.....Lower Big Creek

Commissioner Buthod moved that the above claims be approved as recommended by the Drainage Engineer. Mr.Willner seconded the motion. So ordered.

RE: CERTIFICATE OF THE DRAINAGE ENGINEER

County Attorney Thomas presented the following certificate to the Drainage Board:

IN RE: THE RECONSTRUCTION OF EAGLE SLOUGH, A LEGAL DRAIN

CERTIFICATE OF THE DRAINAGE ENGINEER

I, Sam Biggerstaff, Surveyor of Vanderburgh County, Indiana Ex-Officio Vanderburgh County Drainage Engineer, pursuant to the Indiana Drainage Code of 1965, Sections 709, 710, hereby certify that the exhibit attached hereto and made a part hereof and consisting of the following Columns:

Column A - Name of Land Owner;
Column B - Address of Land Owner;
Column C - Section;
Column D - Township;
Column E - Range;
Column F - Benefit;
Column G - Amount of Assessment;
Column H - Tax Code Number;

is the list of assessment for the reconstruction of Eagle Slough as apportioned to the several tracts of land and owners benefited in proportion to the benefit percentage assigned to each of said tract or owners and that said schedule is attached hereto, made a part hereof and marked "Exhibit A".

I hereby further certify that said apportionment of the assessment is based upon the total cost of the reconstruction of Eagle Slough, including the contract price, incident expenses, attorneys fees and engineering cost in the sum of $200,000.00.

I further certify that the assessment for reconstruction of Eagle Slough is presented to the Vanderburgh County Drainage Board for the purpose of adoption by such board and upon adoption by such board

to be forwarded to the Auditor of Vanderburgh County for the purpose of assessment as by law provided.

(signed) _____
Sam Biggerstaff, Surveyor of Vanderburgh County, Indiana, Ex-Officio Drainage Engineer

Mr.Swain said that the law in 709 and 710 states that you add up the construction cost and then certify it to the board and then two or three sections later, it talks about a bond and the two aren't related. If we do it on the basis of the lateral interpretation of the statute, it won't work out, so we will have to do it on the amount of the bond cost.

Mr.Buthod said lets do it the way we have to do it to meet our obligations.

RE: THE RECONSTRUCTION OF EAGLE SLOUGH, A LEGAL DRAIN

The county attorney Thomas Swain presented the following to the Drainage Board:

The Vanderburgh County Drainage Board hereby certifies that the above and foregiong reconstruction assessment schedule consisting of Columns A through H, attached hereto and made a part hereof as recommended by the Drainage Engineer is hereby certified as the assessment list for the reconstruction of Eagle Slough as apportioned by said Board and is hereby transmitted to the Auditor of Vanderburgh County for the purpose of including said amounts upon the ditch duplicate as by law provided.

VANDERBURGH COUNTY DRAINAGE BOARD
BY: A.J."Ted" Stofleth, President (signed)

James M. Buthod (signed)

Robert L. Willner (signed)

ATTEST: Lewis F. Volpe, Auditor
SECRETARY

Mr. Buthod moved that the above be executed. Mr. Willner seconded the motion. So ordered.

VANDERBURGH COUNTY DRAINAGE
NOVEMBER 9, 1972

A meeting of the Vanderburgh County Drainage Board was held this 9th. day of November, 1972 at 10:23 a.m., with President A.J."Ted" Stofleth presiding.

The minutes of the previous meeting were approved as engrossed by the County Auditor and reading of them dispensed with.

RE: SIGNING OF CONTRACT ON EAGLE SLOUGH...PRIEST HAZELWOOD & SONS, INC.

County attorney Thomas Swain said as for as he was concerned the signing of the contract was in order.

Mr.Buthod moved that the contract be properly executed.
Mr. Willner seconded the motion. So ordered.

RE VOLKMAN ROAD BRIDGE:

County Surveyor Sam Biggerstaff stated that on Volkman Road there was a spillway constructed. There are some settlements behind it and we have some water that is beginning to wash out a driveway, but he thinks some rip-rap would hold it so should he get a change order on this and that way it won't come out of the highway account, but rather the Bridge account. He thinks it would cost a couple of hundred dollars.

Mr. Buthod moved that the drainage engineer be directed to get prices of rip-raping the spillway box on Volkman Road.
Mr.Willner seconded the motion. So ordered.

Meeting adjourned at 10:30 a.m.

PRESENT:

VANDERBURGH COUNTY DRAINAGE
NOVEMBER 20,1972

A meeting of the Vanderburgh County Drainage Board was held this 20th. day of November, 1972, at 9:53 a.m., with President A.J."Ted" Stofleth presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: CLAIMS

Armstrong Scott Ditch Association...	Pond Flat Main.....	29,351 l.f.@.121.f...	$3,52[redacted]2
" " " "	Pond Flat Lat.C.....	9,036 l.f.@.08 l.f.....	722.88
" " " "	Rusher Creek.....	4,444 l.f.@.08 l.f.....	355.52
			$4,600.52

Joseph Schmitt.....Boesche Extension.....3,742 l.f. @ .145 l.f.....$542.59

Mr. Buthod moved that the amount in the above claims be approved for payment as recommended by the Drainage Engineer. Mr. Willner seconded the motion. So ordered.

RE: BARRS CREEK

Steve Smith the Drainage Engineer said that in the specifications for ditch cleaning we said that any trees in the ditches over 8 inches in diameter should be removed and they would negoiate a price. There are three in Barrs Creek and Mr.Clem Seibert has the contract on it . These trees are about 2 ft. in diameter and are blocking the whole ditch. Mr. Seibert has agreed to remove them for a price of $75.00 and Steve feels this is a very reasonable price and recommended that the drainage board accept his offer.

Mr. Buthod moved that the contract be awarded to Mr. Seibert as a change order on his ditch cleaning contract for the revoval of these trees in the amount of $75.00, as recommended by the Drainage Engineer. Mr.Willner seconded the motion. So order[redacted].

RE: HARPER DITCH

Steve Smith said that Mr. Seibert also has the contract on the Harper Ditch and he has offered to reduce the price of his unit bid price by 2¢ a foot if he doesn't have to burn, because of all of the proceedures one has to go through to get a burning permit. Steve recommended that we accept his offer.

Mr. Buthod moved permission be granted for Mr. Seibert to delete by change order the requirement of burning of debris and accept the reduction of 2¢ per foot. Mr. Willner seconded the motion. So ordered.

RE: DISCUSSION ON RECONSTRUCTION OF DITCHES

The County Auditor Mr. Volpe said the other day he was reading up on the billing of reconstruction of ditches and there is a misprint in the law on this that is completly nonsensical and he would like to show it to the drainage board and see what they think about it.

Mr. Buthod read from the Burns Statutes the following:

27-2412..Final Assessments-When Due-Deferred payments.-All final assessments, other than annual assessments for periodic maintenance, shall be due and may be paid upon the date of certification of the final assessment to the auditor, except:

(1) the owners of lands liable for the payment of such assessments may elect to pay the same in equal instalments of not less than fifty dollars($50.00) per year, plus interest on the deferred payments, extending over a period of not more than five (five) years, the yearly payments to be made biannually at the time general taxes are payable.

Mr. Volpe said that this should be semi-annually.

Mr. Buthod said let the records show that Mr. Volpe did bring this to the attention of the Drainage Board and that he was instructed to carry on as if this said semi-annually, and if anything more should ever come of it the matter could then be settled.

Meeting adjourned at 10:00 a.m.

VANDERBURGH COUNTY DRAINAGE BOARD

VANDERBURGH COUNTY DRAINAGE
NOVEMBER 27, 1972

A meeting of the Vanderburgh County Drainage Board was held this 27th. day of November, 1972, at 10:22 a.m. with President A.J."Ted" Stofleth presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: CLAIM

Drainage Engineer Steve Smith presented the following claim to the Drainage Board:

PRIEST HAZELWOOD AND SONS INC.....For work completed on the reconstruction of Eagle Slough. Estimate #1.....Amount of Contract.....$43,200.00
25% of Contract..... 10,800.00
Less 30% Retainage..... 3,240.00

AMOUNT DUE 7,560.00

Mr. Buthod moved that it be shown this claim was received and brought up for consideration and will be held until the preceeds from the sale of the bonds are made available. Mr. Willner seconded the motion. So ordered.

RE: BONDS...EAGLE SLOUGH

Bonds were received from the printer and the president and secretary were authorized to execute them in accordance with bond resolution, which was done. The Drainage Attorney was further authorized to deliver said bond to purchasers in exchange for draft check or money order.

Meeting adjourned at 10:23 a.m.

VANDERBURGH COUNTY DRAINAGE BOARD

VANDERBURGH COUNTY DRAINAGE
DECEMBER 4, 1972

A meeting of the Vanderburgh County Drainage Board was held this 4th. day of December, 1972, at 10:58 a.m., with President A.J."Ted" Stofleth presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: LETTER ON EAGLE SLOUGH BOND ISSUE

President Stofleth read the following letter:

Gentlemen:

In our letter of October 23, 1972, where we rendered an opinion on the Eagle Slough bond issue, we indicated a final requirement prior to the purchase of the bond issue.

We now wish to advise you that that requirement has been satisfied, and we have been submitted a copy of a certificate of the asswssment list along with a certificate that that list has been transmitted to the Vanderburgh County Auditor.

Very truly yours,
KAHN, DEES, DONOVAN & KAHN

Letter received and ordered filed.

RE: CLAIM:

The following claim was prestned to the Drainage Board for the approval of payment:

CLEM SEIBERT.....Cleaning of Harper Ditch..3300 l.f.@ .08¢ l.f....$264.00

Mr. Willner moved the claim be approved upon the recommendation of the Drainage Engineer. So ordered.

Steve Smith said that Mr. Seibert also has the contract on Barr's Creek and his contract calls for him to burn but some of the farmers don't want him to because it will burn up the grass, so Mr. Seibert would like permission be granted for him not to have to burn. This is on about 1,000 ft. or so. Mr. Willner moved that permission be granted for him not to burn. So ordered.

Mr. Biggerstaff said that they are having some trouble with some of the farmers on their cleaning of the ditches. They are stretching out the cleaning of them for too long and he has received quite a few complaints. These ditches should be cleaned by October 1st...or very close to that date. Sam said he won't be making up the specifications for these ditches next year, but whoever does it should set a certain date for it to be completed in. And also it should be put in the specifications that the bidders don't bid on portions of the ditches that are piped.
On these bidders that haven't cleaned their ditches yet, Sam said he wondered if we should award it to the next lowest bidder, because he has already sent them letters asking them to get them done. He realizes this has been a very wet season but they are going to have to be done soon. This involves about six or seven ditches.

The County Attorney, Thomas Swain was instructed to send a letter to each of these bidders and inform them they will have ten days in which to complete the cleaning of the ditches or the Drainage Board will give the contract to the next lowest bidder.

Meeting adjourned at 11:08 a.m.

VANDERBURGH COUNTY DRAINAGE BOARD

VANDERBURGH COUNTY DRAINAGE
DECEMBER 11, 1972

A meeting of the Vanderburgh County Drainage Board was held this 11th. day of December, 1972, at 11:11 a.m., with President A.J."Ted" Stofleth presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: CHECKS....THREE BANKS....SALE OF BOND ON EAGLE SLOUGH

The county attorney presented the Drainage Board with three checks which is from the sale of bonds for the reconstruction of Eagle Slough. They were in the following amounts:

The Citizens National Bank.....	$64,000.00
The National City Bank.....	52,000.00
Old National Bank.....	84,000.00
TOTAL	$200,000.00

Mr. Buthod moved that the checks be accepted and given to the Auditor to be deposited in the County Treasurers office, and that the interest on these begin as of today, (December 11, 1972).

RE: RECONSTRUCTION OF CARPENTER DITCH

Mr. Marvin Karch was present and wanted permission to have the Carpenter Ditch reconstructed. He said this would stop a lot of flooding and he feels that there is a need to have this done.

Mr.Smith, the Drainage Engineer said they asked for Mr. Karch to appear so that they might get permission to start on this reconstruction.

Mr. Buthod said he does think will have to be done sometime, but he feels this should come before the new commissioners and made a motion that it be put on the agenda in the January meeting. Mr.Willner seconded the motion. So ordered.

RE: LEO WEISS.....RELOCATION OF HARPER DITCH

Mr.Biggerstaff said they have talked to Mr.Weiss about giving a recommendation on the best way to go about relocating Harper Ditch and Mr. Weiss was present this meeting and gave each of the commissioners a copy of a letter with his recommendations on it.(Find letter attached). Mr.Weiss also showed them a layout map of this project and said he would make copies of it and give one to each of the drainage board members.

RE: CLAIMS

County Surveyor Sam Biggerstaff presented the following claims to the drainage board for their approval.

ENGINEER ASSOCIATES, INC.....ENGINEERING SERVICES

Reconstruction of Part of Harper Ditch, Hirsch Ditch and Extensions from Green River Road to Pigeon Creek

Harper Ditch Estimate.....	$77,503.00
Hirsch Ditch Estimate.....	215,177.00
	292,680.00

Fee: 7.57% of $292,680.00 = $22,155.88

70% of $22,155.88..... $15,509.12
Less Previous Payments 9,526.24.....NOW DUE $5,982.88

Mr. Buthod moved that the above claim be approved for payment. Mr. Willner seconded the motion. Motion carried.

ROGER STEINKUHL.....Kneer Ditch...1/3 of excavating cost as per agreement...$216.67

Mr. Buthod moved that the above claim be approved as recommended by the drainage engineer. Mr. Willner seconded the motion. Motion carried.

RALPH REXING...Cleaning of Pond Flat "A" Lat....5311 l.f. @.06 l.f.....$318.66
" " " Pond Flat "B" Lat....2797 l.f. @.06 l.f..... 167.82

TOTAL $486.48

EDWIN KRON.....Cleaning of Hoefling Ditch....5571 l.f. @.07 l.f.....$389.97

Mr. Buthod moved the above claims be approved upon the recommendation of the drainage engineer. Mr. Willner seconded the motion. Motion carried.

THOMAS M. SWAIN.....$1,500.00
WILLIAM D. STEPHENS....1,500.00

$3,000.00.....Attorneys fees for preparation of Bond Issue Eagle Slough Drainage Reconstruction.

KAHN, DEES, DONOVAN,& KAHN....Legal services rendered per attached itemized statement $1,500.00

PRIEST HAZELWOOD AND SON INC.....Estimate N.1....Reconstruction of Eagle Slough
Amount of Contract...$43,200.00
25% of Contract..... 10,800.00
Less 30% retainage.....3,240.00

AMOUNT DUE 7,560.00

Mr. Buthod moved that the above claims be approved. Mr. Willner seconded the motion. Motion carried.

Meeting adjourned at 11:27 a.m.

RE: Relocation of Harper Ditch through Stockwell Industrial Park

Gentlemen:

Pursuant to your instructions we have completed our analysis of the relocation of Harper Ditch through Stockwell Industrial Park along the alignment of vacated Maryland Street. The two plans are as follows:

PLAN NO. 1.....(1) Prepare a cost analysis consisting of purchase of 100 feet of right-of-way for this project.
(2) Excavate and place a concrete bottom ditch 10 feet wide with 2:1 side slopes and place slope concrete on these slopes to handle a 5-foot depth of flow.
(3) Place a poured-in-place 80-foot concrete box under Congress Avenue.
(4) Place a 100-foot poured-in-place concrete box under Stockwell Avenue and the Southern Railway.

The area of these structures is to have 115 feet of clear opening to facilitate storm flow in accordance with the county engineer's recommendations.

PLAN NO. 2.....Place a continuous concrete structure from the east line of said subdivision westward to a point 10 feet west of Stockwell Road. Under this plan the right-of-way would be given to the county without charge.

In evaluating Plan No. 2 it was readily ascertained that one could not use any section of precast pipe because of the large area needed for this flow. One other factor that entered into the conclusion is a sanitary sewer lying on the east side of Congress Avenue which cannot be moved to facilitate a large structure. Therefore, the only logical structure that could be used would be a poured-in-place concrete box having an opening of 5-foot high and 23 feet in width.

ENGINEER ASSOCIATES, INC.

Below is the cost analysis of Plan No. 1 and Plan No. 2:

PLAN NO. 1

52,500 Cu.Yds.	Excavation @ $1.50/Cu.Yd.	=	$ 78,750.00
4,552 Sq.Yds.	8" Reinforced Concrete for Channel Bottom @ $10.00/Sq.Yd.	=	45,550.00
400 Cu.Yds.	Reinforced Concrete for Structures @ $120.00/Cu.Yd.	=	48,000.00
100 Ft. x 1266.82	Right-of-Way @ $0.355/Sq.Ft.	=	44,972.00
		TOTAL	$217,272.00

PLAN NO. 2

57,000 Cu.Yds.	Excavation @ $1.50/Cu.Yd.	=	85,500.00
3,058 Cu.Yds.	Reinforced Concrete for Structures @ $120.00/Cu.Yd.	=	366,960.00
		TOTAL	$452,460.00

From these figures it is apparent that Plan No. 1 is the cheapest method. We therefore recommend that the Drainage Board proceed with Plan No. 1, as it will facilitate dredging of this channel and remove it from its present alignment through Hesmers, J. H. Rudolph Company, Etc., along Vogel Road. It will also make the property south of Vogel Road and west of Green River Road more valuable since the present ditch cuts diagonally through this property and makes it unusable for development.

Yours truly,

ENGINEER ASSOCIATES, INC.

Leo V. Weiss

VANDERBURGH COUNTY DRAINAGE
DECEMBER 18,1972

A meeting of the Vanderburgh County Drainage Board was held this 18th. day of December, 1972, at 11:35 a.m. with President A.J."Ted" Stofleth presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: CLAIMS

Drainage engineer Steve Smith presented the following claims to the Drainage Board for their approval of payments:

CLEM SEIBERT.....Barr's Creek..20,668 l.f.@ .10 l.f.....		$2,066.80
MANFRED STAHL....Schlensker Ditch...4,000 l.f.@ .08 l.f.....		$320.00
EUGENE REXING....Singer Ditch....2,450 l.f. @ .07 l.f.....		$171.50
" " Pond Flat "D" Lat....4,579 l.f. @ .08 l.f.....		366.32
	TOTAL	$537.82

Mr. Buthod moved the above claims be approved as recommended by the Drainage engineer. Mr. Willner seconded the motion. So ordered.

RE: LETTER....MR.ANTHONY BITTNER

Steve Smith said they have received a letter from Mr. Bitter, who has the bid on two ditches and he would like to have his time extended to clean them. Mr. Buthod moved that his time be extended. Mr. Willner seconded the motion. So ordered.

Meeting adjourned at 11:37 a.m.

VANDERBURGH COUNTY DRAINAGE
JANUARY 3, 1973

A meeting of the Vanderburgh County Drainage Board was held this 3rd. day of January, 1973, at 10:36 a.m. This was an organizational meeting.

RE ELECTION OF PRESIDENT:

Mr. Ossenberg moved that Mr. Schaad be president of the Drainage Board for the year of 1973. Commissioner Willner seconded the motion. So ordered.

RE: ELECTION OF VICE PRESIDENT:

Mr. Schaad moved that Mr. Ossenberg be Vice President of the Drainage Board for the year 1973. Mr. Willner seconded the motion. So ordered.

Mr. Willner moved that the minutes of the previous drainage board meeting be approved as engrossed by the County Auditor and the reading of them dispensed with. Mr.Ossenberg seconded the motion. So ordered.

Mr. Nussmeyer said he knows of no other business to come before the board, as Eagle Slough is the working action now and the rain is holding up some work on it.

RE: MARVIN KARCH.....CARPENTER CREEK

Mr.Karch said he came to the Drainage Board in December and asked about the reconstructing of Carpenter Creek for its entire length. At that time it was deferred until the new Drainage Board could take it from the start. He would now like to be put on the agenda and have it studied and looked into. Mr.Ossenberg said he knows this is going to be a costly thing and they do need to get started on it right away, and that they would consider it soon.

Meeting adjourned at 10:37 a.m.

VANDERBURGH COUNTY DRAINAGE
JANUARY 8, 1973

A meeting of the Vanderburgh County Drainage Board was held this 8th. day of January, 1973, at 10:40 a.m., with President Bob Schaad presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: RECONSTRUCTION OF CARPENTER CREEK

Mr. Karch read a letter of December 4, 1972 addressed to Mr. Ted Stofleth, as follows:

Dear Mr. Stofleth,

The Evansville-Vanderburgh Levee Authority Board has asked me to present a request to the Vanderburgh County Drainage Board for reconstructing Carpenter Creek for its entire length.

Carpenter Creek is a legal drain into which flow the outfall ditches from the levee drainage pipe structures. The Levee Authority has dredged these outfall ditches from the flapgates of the drainage pipe structures, which were threatened to be sealed shut with silt built up in front of them, because the ditches would not wash themselves clean to Carpenter Creek.

Carpenter Creek has silted very badly and log jams impede flow of water from the levee drainage ditches causing water to stand continously high on the flapgates. This condition stops flow of water through the pipes under the levee causing the water to back up behind the levee until the water has built up enough head to push the flapgates open against the face of water, in the outfall drainage ditches holding them shut.

The inspector for the U.S. Army Corps of Engineers, on his fall inspection of the levee, was very much concerned because Carpenter Creek had not been dredged and reconstructed to relieve this condition. From records I found from previous inspections, I learned their concern over the steady worsening of this condition covers many years.

The levee was built to protect the property owners behind the levee from flooding from backwater when the Ohio River is high. The storm water behind the levee is channeled to these drainage structures. When the Ohio River backwater gets high enough to hold the drainage structure flapgates shut and excessive rainfall behind the levee builds up and can't flow out the drainage structure pipes, then only does the Levee Authority activate the storm water levee pumping stations at these structures to pump the rainfall from behind the levee through discharge pipes.

The reconstruction of Carpenter Creek will help relieve storm water flooding of property along its whole length on both sides of the levee.

I will be happy to meet with you or any of your representatives to discuss this matter in more detail.

Marvin G.Karch

Commissioner Willner said he thought what the previous commissioners had in mind was to not start this big of a project with the amount of time they had left in office and to pass it on to the new commissioners so there hasn't been any action taken on it yet. He said they would, however, have to know the exact number of dollars and have some set plan.
Commissioner Willner then moved that this matter be referred to the County Engineer for a cost estimate and some engineering work, also that the commissioners meet with Mr.Karch and look over this sight physically, at their earliest convenience. Commissioner Schaad seconded the motion. So ordered.

00228

Mr.Karch said there is high water at this location but he does want to get started on the processing of this project, as this is a legal drain and there is a possibility of some federal aid on it.

RE: CLAIM

A claim was presented from Clem Seibert for payment of tree removal in Barr's Creek in the amount of $75.00. Mr. Nussmeier said this work has been completed.

Commissioner Willner moved that this claim be approved for payment. Commissioner Schaad seconded the motion. So ordered.

Mr. Nussmeier said that he would have several claims for the cleaning of ditches next week.

Commissioner Willner explained that the reason these claims will be coming in now is because that due to the high water and bad weather conditions, the work was later in being completed.

Meeting adjourned at 10:50 a.m.

VANDERBURGH COUNTY DRAINAGE
JANUARY 15, 1973

A meeting of the Vanderburgh County Drainage Board was held this 15th. day of January, 1973, at 11:30 a.m. with President Bob Schaad presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: CLAIMS

Mr. Nussmeier presented the following claims to be approved by the drainage board.

Clarence Wilderman....Kneer Ditch..For ditch maintenance.....$166.98

Joseph E. Seib...Kolb Ditch...for ditch maintenance.....$755.70
" " Maidlow Ditch...for ditch maintenance.....1,377.00
Total $ 2,132.70

Francis H. Maurer....Wallenmeyer Ditch...for ditch maintenance.....$710.18

Mr.Willner moved that the above claims be approved for payment. Mr. Ossenberg seconded the motion. So ordered.

RE: CARPENTER CREEK

County attorney Thomas Swain said after checking into this, they have found out that Carpenter Creek is not a legal drain. He said it could be declared one and then the reconstruction of this ditch could be treated like the reconstruction of Eagle Slough. This could be taken out of the highway fund, Tom said, but he doesn't think itwould be fair to do this.

Mr.Nussmeier said this ditch is approximately three and one half miles long and something needs to be done to it. Even though it is not a legal drain it is still our responsibility. It is causing some serious drainage problems and also some problems with the drainage of the levee.

Mr.Schaad said they should check into all of the avenues of it and try to come up with what would be the best way to do it and to see if it should be declared a legal drain.

Mr.Ossenberg moved they refer it back to Mr.Nussmeier so that he might contact the Corps of Engineer's and report to the board his findings. Mr. Willner seconed the motion. So ordered.

Meeting adjourned at 11:36 a.m.

VANDERBURGH COUNTY DRAINAGE
JANUARY 22, 1973
****

A meeting of the Vanderburgh County Drainage Board was held this 22nd. day of January, 1973, at 10;15 a.m. with President Bob Schaad presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE:CARPENTER DITCH:

Mr. Nussmeier said he has nothing new on Carpenter Ditch. He said Mr. Biggerstaff had put in $75,000.00 in the Revenue Sharing to be used for study and engineering services, and he has been wondering if this could be used for the reconstruction of this ditch.
Commissioner Willner said he feels they should study everything and set up priorities instead of a hit and miss study on just a couple of things.
Mr.Nussmeier said he thinks this is one of the most important things going at this time. He said they have a really bad drainage problem and something is just going to have to be done about it.
Commissioners Schaad, Ossenberg and Willner all agree they should wait until they receive a priority list from Mr. Biggerstaff, that he has agreed to give them, so the matter was deferred at this time.

RE: BURKHARDT RD.

Mr. Nussmeier said they are having a terrible drainage problem out between Lincoln and Division St. on Burkhardt Rd. There use to be a culvert out there, but when the city paved it, they covered it up, and now the water is going down a small road ditch and it just won't hold all of the water. There is about six or eight hundred feet of this that needs to be cleaned and Jack Willard said he can get in there with his back hole and do it. Commissioner Willner moved that they give jack Willard the approval to go ahead and do it. Commissioner Ossenberg seconded the motion. So ordered.

RE: HARPER DITCH:

Mr. Nussmeier presented the commissioners with a study made by the Engineer Associates on Harper Ditch and told how they suggested re-routing it. Commissioner Willner said this has been going on for some time and that Mr. Traylor, he feels will donate some of his land, but he wants it piped, and that is talking about quiete a bit of money, infact, about 50 or 60 thousand dollars worth. They have almost all of the easements for this project.
Mr. Willner suggested that all three of the commissioners and the county engineer go out and look this situation over and try to decide something on it.
Mr. Nussmeier said he thinks the city should be in on this profect too, and Mr. Ossenberg agreed.
Mr. Willner said we would still have to build a structure and Mr. Ossenberg said yes, he knows this.
Mr. Willner said the previous ingineer was suppose to come up with X number of dollars, two different ways, on how to do this, but he doesn't think this was ever done.

RE:HIRSCH DITCH:

Mr. Nussmeier showed the drainage members a map explaining where this ditch starts at and how they propose to run it to Stockfleth Ditch and let this serve as an overflow for the Stockfleth Ditch. This will all be tiled. He explained there will be two structures, one for the road and one for the R.R. crossing. This will be 48 inch pipe.

RE: CLAIM:

The following claim was presented to the drainage board for approval of payment.

LAKE BANK NOTE CO. For Printing Drainage Improvement Bonds for the reconstruction of Eagle Slough.....$180.45.

Commissioner moved that it be approved subject to an itemized statement be attached. Commissioner Ossenberg seconded the motion. So ordered.

RE: BROADWAY AND REUTER RD.

Mr. Schaad said there has been quite a drainage problem out there for a long time now. Mr. Willard said what happened is that Curtis Construction Co. dug a guys sewer up out there and failed to put it back in.
Mr. Ossenberg said he talked to Dick Eifflor about this and Curtis had assured him they would repair this.
Mr. Schaad said he would contact Mr. Eifflor again and try to have the situation corrected as soon as possible.

Meeting adjourned at 10:35 a.m.

VANDERBURGH COUNTY DRAINAGE
JANUARY 30,1973
****

A meeting of the Vanderburgh County Drainage Board was held this 30th. day of January, 1973,at 10:43 a.m., with President Bob Schaad presiding.

The minutes of the previous meeting were approved as engrossed by the Audtior and the reading of them dispensed with.

RE: CLAIMS:

The following claim was presented to the Drainage Board for approval of payment.

RAYMOND STEINKUHL.. Maintenance of Legal Drains
Aiken Ext.....6011 ft. @08 per l.f.....$480.88
Crawford Brandis Ext.....14,628 ft. @.14 per l.f.....$2,047.92

Tom Ossenberg moved that upon the recommendation of the Coutny Surveyor, they be approved. Mr. Willner seconded the motion.....so ordered.

RE:HIRSCH DITCH:

Mr. Nussmeier explained they propose to extend this and establish a drain. Mr. Swain asked if he has a water shed area for this and he said apparently yes. Mr. Swain said this should be a road job, because under the drainage law, you have to assess people, however, he isn't so sure the Drainage Board ~~the drainage board~~ shouldn't approve the plans. Mr. Ossenberg moved that these plans be approved and it go before the County Commissioners at their next meeting.

RE: HARPER DITCH

This was brought up at the last meeting also and Mr. Joe Wallace was present this time to try to explain some of the problems they are having out there. He represents some of the city's portion of it.. Ohio Valley has the contract on three or four of the structures out there.

Mr. Ossenberg said he talked with Dick Eiffler and found cut the city does want to get on to this. Tom said they have been out there to see this project, and it is going to be quite a large and expensive thing and he personally doesn't feel like the county can afford it, however, he would be very glad to meet with the Board of Public Works and discuss it.

RE: LEWIS F. VOLPE

Mr. Volpe said he would like to get permission to travel to Indianapolis on February 7th. to discuss the new billing proceedures on the reconstruction of Eagle Slough.
Mr. Ossenberg moved that they give Mr. Volpe permission to travel, at the expense of the county.
Mr. Willner seconded the motion.....so ordered.

Meeting adjourned at 11:08 a.m.

VANDERBURGH COUNTY DRAINAGE
FEBRUARY 5, 1973
****

A meeting of the Vanderburgh County Drainage Board was held this 5th. day of February, 1973, at 11:12 a.m., with President Bob Schaad presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: GREEN RIVER RD.....HARPER DITCH

Mr. Richard Eifler presented the following letter to the drainage board fro their approval.

Dear Sirs:

The City of Evansville wishes to reconstruct a concrete box culvert at the junction of Green River Road and Harper Ditch (a County legal drain at this point). The City cannot complete the proposed structure within the Road right-of-way limits. For this reason we request that the Board allow the City to construct an "improvement" to the legal drain in question under Sec. 110 (b) (1) of the Indiana Drainage Code (as amended).

The wingwalls of the proposed structure will be built within the limits of the tops of the banks of the present drain and will provide encreased flow benefits without cost to the County. The wingwalls will extend to 82 feet east of Green River Road and to 86 feet west of Green River Road center line measured along the ditch centerline.

It is also anticipated that minor ditch shaping to meet existing sections will be required for 50 feet both directions from the structure limits (measured along the ditch centerline). This would place the limits of construction as approximately 135 feet either side of the centerline of Green River Road (again, measured along the ditch centerline.)

Yours truly,
Richard C. Eifler
City Civil Engineer

Mr. Eifler said this will be of no cost to the county.

Mr. Willner moved that they approve this proposal.
Mr. Ossenberg seconded the motion.....so ordered.

RE:HIRSCH DITCH

Mr. Nussmeier explained the need for a culvert under Green River Road near Hirsch Ditch and clean this ditch down to its termination with Harper Ditch. This will be in conjunction with the road work. We will stay within our right-of-way on this.

HARPER:

Originally, Ohio Valley has the contract on five structures on this project. Mr. Swain suggested we pay them for the work already done and then cancel the rest of the contract, because some of this ditch will be abandoned and the locations changed which will call for only four structures. The county will then issue Ohio Valley a new contract. Mr. Swain suggested they get together and negociate with the city and Ohio Valley.

Meeting adjourned at 11:28 a.m.
PRESENT:

DRAINAGE BOARD	COUNTY AUDITOR	COUNTY SURVEYOR	COUNTY ATTORNEY

VANDERBURGH COUNTY DRAINAGE
FEBRUARY 20, 1973

A meeting of the Vanderburgh County Drainage Board was held this 20th day of February, 1973, at 10:55 a.m. with President Bob Schaad presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: CLAIM

A claim was submitted from Anthony Bittner for Buente Upper Big Creek - Ditch Maintenance - 20,195 Ln. Ft. at the cost of $2,019.50 and Buente Upper Big Creek - Ditch Maintenance - 3,666.5 Ln. Ft. at the cost of $366.65, Account # 234 Lat "A" - X o.10, a total of $2,386.15.

Mr. Willner moved that this claim be approved, on recommendation of Mr. Nussmeyer.
Mr. Ossenberg seconded the motion. So ordered.

RE: PROBLEM ON LATERAL E OF BUENTE UPPER BIG CREEK

Mr. Willner asked how many ditches were left to be cleaned.

Mr. Ludwig said that there is only one ditch that hasn't been cleaned and he doesn't know what to do about it. He said it is the Armstrong Ditch Association and they haven't done the job and it is hanging fire, as the tax assessments are being worked on now. He said that it is almost too late to clean it now and he wondered what price he should use on the assessments. He also said that the contract should be voided and that there should be a deadline set for the coming year and they should talk to the farmers, as they are the ones that do the work, and see what they think as to when the deadline should be.
Mr. Ludwig said that the taxes are based on the new price and the work not having been done, wondered if he should go back to the old price and send the bills out.

Mr. Willner said if notices are sent out, the county will have to clean the ditch and if the county isn't going to do it, the ditch just won't be cleaned this year. He said that it will just be a little harder to clean next year and that it will probably cost a little more.

The members of the Drainage Board agreed that the ditch not be cleaned this year and that there will be no taxes owed by those on this ditch, for this year.

Mr. Willner moved to void the contract of Lateral E of Buente Upper Big Creek and cause the contract to be null & void, subject to any liability the Commissioners might have.
Mr. Schaad seconded the motion. So ordered.

RE: REQUEST TO COMPLETE JOB

Mr. Ludwig said that back in August of 1972, Mr. Biggerstaff presented two invitational bids to the county attorney. These bids were for the removing of structures on a road crossing,from a ditch in back of Whirlpool. They were from Nathan Bates - at $1,185.00 and Jerry David at $1,100.00. It was at that time, moved and seconded that the bid of Jerry David be accepted. Mr. Ludwig stated that Mr. David had started the job and has now asked to complete it.
It was agreed by the Board that Mr. David be allowed to finish th job.

RE: KELLY DITCH

Mr. Ludwig said that Kelly ditch needs dredging because the farmers are losing some of their crops.

It was agreed that this will be an involved ordeal since land assessments would have to be made.

Mr. Willner asked if there would have to be public hearings.

County Attorney, Thomas Swain, said that if he remembered right, public hearings must be held on annual maintenance for the first year, but from then on it doesn't have to be held unless there is a 10% increase in cost.

Mr. Ludwig said that the farmers have talked to him about it, that they want to get all of the property owners together and they want to form their own Ditch Association, so they are going to talk to the Armstrong Ditch Association and see how their set-up works.

The meeting adjourned at 11:07 a.m.

VANDERBURGH COUNTY DRAINAGE
MARCH 5, 1973

A meeting of the Vanderburgh County Drainage Board was held this 5th day of March, 1973, at 12:00 noon, with President Bob Schaad presiding.

The minutes of the previous meeting were approved with one correction made, and the reading of the minutes was dispensed with.

RE: CORRECTION

In the Drainage Board meeting of February 20, 1973, the minutes read that there was a problem on Lateral E of Buente Upper Big Creek and it should have read that there was a problem on Pond Flat Lateral E, in that the Armstrong Ditch Assocaition hasn't cleaned it.
It should have also read that Mr. Willner moved to void the contract of Pond Flat Lateral E and cause the contract to be null & void, subject to any liability the Commissioners might have and that Mr. Schaad seconded the motion. So ordered.

RE: EAGLE SLOUGH ENGINEERING SURVEY

Mr. Nussmeyer said they were jammed up on Eagle Slough, that the Contractor called and wanted to start working on it and since the original qualities were taken off the information, he called in Mr. Ludwig to ask for a price to apply it. He said they are in the position where they have to make three surveys for this, that they first have to determine the original ground, then the survey crew comes in and sets the stakes.
He said that the one survey operation can be eliminated by flying and the cost he received for flying was $8,000. He said this would be Bond Issue money and he thought there was $187,759.00 left in the Bond Issue money and that the contract amount is $119,275.00.

County Attorney Swain said they have to be careful, as they have to pay their first year's interest from this money as well as for retiring the first set of bonds, unless they have recessed it.

Mr. Willner said the airplane services have been used before and proved to be fairly good, but thought this price was very high.

Mr. Ossenberg said he checked into this with Mr. Biggerstaff and he seemed to think that they are the lowest and the best in this particular field.

Mr. Nussmeyer said if they were going to fly it, it must be done before the foliage appears, also that he wasn't aware of what had happened until last week.

Mr. Ossenberg said they should give him a time table.

Mr. Ossenberg moved that Mr. Ludwig be employed to do this engineering survey by air. Mr. Willner seconded the motion. So ordered.

The meeting adjourned at 12:05p.m.

VANDERBURGH COUNTY DRAINAGE
MARCH 12, 1973

A meeting of the Vanderburgh County Drainage Board was held this 12th. day of March, 1973, at 11:15, with President Bob Schaad presiding.

The minutes of the previous meeting were approved as presented and the reading of them dispensed with.

RE:ASSESSMENTS ON ALL LEGAL DRAINS IN VANDERBURGH COUNTY

Mr. Mike Ludwig presented a list of assessments of all of the legal drains in Vanderburgh County to the Drainage Board for their approval. Mr. Willner moved that they be approved, so that the spring bills may be sent out. Mr. Ossenberg seconded the motion. Motion carried.

Mr. Volpe said he has received the approval of the State Board of Accounts for the statement of assessment for Ditch Reconstruction, the ditch construction ledger and the ditch duplicate journal for Eagle Slough. He is also getting the new bar to set up the machine and he is wondering if this can be paid out of the Bond Issue account. Mr. Stephens, the county attorney said he sees no reason why it couldn't be paid from that account. The drainage board gave him the approval to go ahead and pay these things he has to have from the Bond Issue, with Mr. Willner making the motion and Mr. Ossenberg seconded it. So ordered.

RE:EAGLE SLOUGH

Mr. Nussmeier said due to the high water and hard rock and hard surface they have run into a little delay on the work on it.

RE: ADVERTISING FOR CLEANING OF LEGAL DRAINS

Mr. Nussmeier said that we will soon have to advertise for the annual maintenance of the county legal drains. Mr. Willner suggested that this time we set a time limit on them.

Meeting adjourned at 11:22 a.m.

MARCH 19, 1973

A meeting of the Vanderburgh County Drainage Board was held this 19th. day of March, 1973, at 11:30 a.m., with President Bob Schaad presiding.

Mr. Willner moved that the minutes of the previous meeting be approved as presented and the reading of them dispensed with. Mr. Schaad seconded the motion. So ordered.

RE:PROBLEM ALONG LINCOLN AVE. AND LONG RD.

Mr. Nussmeier said that in the past the county made some improvements on Lincoln Ave and put in too small of pipe and the water is backing upon Colonial Garden Center. He explained this is a county road, this is a legal drain and that some of it is in the city. There is a storm sewer out there with 24 inch pipe and the county attempted to put 48 inch pipe in, therefore causing it to back up.

Mr. Swain asked if there were any houses out there, and if so, we would have to put culverts under their drives and then we would have to re-assess them.

Mr. Nussmeier said yes there are a few homes out there.

Mr. Schaad suggested that he get together with the city engineer and talk this situation over with him and then report back to the drainage board.

Meeting adjourned at 11:40 A.M.

PRESENT:

VANDERBURGH COUNTY DRAINAGE BOARD

VANDERBURGH COUNTY DRAINAGE
MARCH 26, 1973

A meeting of the Vanderburgh County Drainage Board was held this 26th day of March, 1973, at 11:15 a.m. with President Bob Schaad presiding.

The minutes of the previous meeting were approved as presented and the reading of them dispensed with.

RE: MR. ARTHUR KARCH

Mr. Karch wondered if there was any Revenue Sharing money that could be used on Eagle Slough.

Mr. Schaad said they are very cautious with the Revenue Sharing money, that they receive it quarterly and they don't want to okay any projects until the money comes in and it always seems that the Council gets more requests than the amount of money they receive, will take care of and they don't want to give approvals for the money that is coming.

Mr. Ossenberg said that Eagle Slough is being paid for with Bond Issue money.

Mr. Volpe said that he has just received a regulation which states that any Bond Issue entered into after January 1, 1972, that the principle could be reduced if the original project came under one of the priority items to begin with.

County Attorney Stephens said this idea should be presented to the Board of Works since the Eagle Slough project is not on the county tax rate. 74% will be paid by the city and the rest by about 180 property owners.

Mr. Karch didn't seem to think that the Revenue Sharing money was helping the residents in his area.

Mr. Willner told Mr. Karch that through Revenue Sharing money, the Council reduced his taxes by some 30¢.

RE: PROBLEM ALONG LINCOLN AVENUE

Mr. McCarty of Colonial Garden Center at 8001 Lincoln Avenue, said that this area is drained into the Nurrenbern ditch and that two years ago they put a petition together. He said part of the legal drain which is east of Martins Lane is in the city and his property is in the county. He said it has been flooded several times and even the driveway has been under water and he thought there was a bigger problem here than he might entertain at the moment and he was told that all of the engineering has been done to take Nurrenbern ditch all the way to Pigeon Creek.
He proposed that the Commissioners authorize a four or five foot culvert to be put in there, to temporarily relieve this flooding until such a time as the complete project can be finished and he was led to believe by the County offices that requests for H.U.D. money were made to extend this ditch properly, all the way to Pigeon Creek, but no one has been able to give him an answer on this.

Mr. Eifler was to bring this up at his meeting but Mr. Nussmeyer hasn't heard anything from him as yet.

Mr. Nussmeyer asked Mr. Volpe if there was any money in the drainage fund to work with.

Mr. Volpe said that the drainage funds are on an assessment basis and funds would have to be transferred.

Mr. Schaad said that he would like for the Commissioners to go with him, after the meeting, to look at this problem and maybe they could go before the Council and see if perhaps there is Revenue Sharing money available.

Mr. Volpe wondered if this would qualify under Public Safety.

The Commissioners said that they would see what could be done.

RE: MR. LUDWIG

Mr. Ludwig said they were having a problem with Union Township on their Ditch Association. He said they have two Ditch Associations on the legal drains and asked if there was anyway that they could legally give these people the contracts.

Mr. Willner said that legally they have to come before the Board and submit a bid, and if they are low, they get it, and if not, it becomes the disgression of the Drainage Board.

Mr. Ludwig said they have their equipment and payments on them must be made so they need their particular ditches and if they don't get the bids, they are hurting.

County Attorney Stephens said they must go through the bidding procedure, as is required.

RE: LAW SUIT

Mr. Nussmeyer said there is a law suit of the Union Township, with the Levee Authority.

Mr. Willner asked if the Levee Authority didn't back up on this and decided to keep the levee.

Mr. Nussmeyer wondered where they were going to get the funds if they are going to let contracts and where the money was coming from to pay the contractor for the work in Union Township.

Mr. Volpe explained that the contractor is paid by the people he benefits and there is a revolving fund for this.

Mr. Willner asked if the cost is expected to exceed that of prior years.

Mr. Nussmeyer said that it wouldn't, but that they haven't done anything down there for five years.

Mr. Willner said he thought the legal drains were cleaned every year.

Mr. Nussmeyer said all but Union Township was.

Mr. Willner said the court mandated the Board, last year, to make a survey of the complete drainage of Union Township and they had to do it first, because of the law suit.

Mr. Volpe explained the procedure of cleaning the ditches, in that the bids are taken first, then they bill the property owners to cover the bid.

The meeting adjourned at 11:40 a.m.

PRESENT

VANDERBURGH COUNTY DRAINAGE BOARD

VANDERBURGH COUNTY DRAINAGE
APRIL 2, 1973

A meeting of the Vanderburgh County Drainage Board was held this 2nd. day of April, 1973, at 11:00 a.m. with President Bob Schaad presiding.

The minutes of the previous meeting were approved as presented and the reading of them dispensed with.

RE: GREEN RIVER ROAD PROJECT

Mr. Nussmeyer said he had to get an easement on Green River Road and his understanding was that something would be done about that ditch, also that men from the Engineer's office are going out there and do some staking to start this project and he understood that Ohio Valley Engineers was going to make a study as to where the ditch should go, but when he called them, they said that they had not been given permission to start out there, so he thought that something should be done.

Mr. Ossenberg said they met with Hank Sauer and the board and the only thing they talked about was proper drainage and Ohio Valley Engineers was given permission to proceed with the engineering work.

Mr. Willner said his understanding was that the county wouldn't have anything to do with it except to grant the Right of Way and give them permission to do the engineering, after they saw the plans.

Mr. Wallace said they have the easements for the work being done out there, but they have a terrible drainage problem and he told the people that something would be done.

County Attorney Swain said that the original contract was for five structures and he understood that this contract would be cancelled and they would enter into a new contract for four new structures that were being changed by reasons of a change in the engineering and Ohio Valley Engineers were to get the new contract and they were to design four structures and 600 feet of pipe and the city was to reimburse the county for it.

Mr. Swain said he has never prepared the contract for Ohio Valley Engineers but that he would prepare one between them and the county.

Mr. Nussmeyer said they should have some agreement with the city and make it plain as to who will do what.

Mr. Ossenberg moved that the county cancel the old contract and that the County Attorney re-write it for the designing of four structures, instead of five, also that the County Attorney prepare an agreement between the city and the county, for the city to reimburse the county for this work. Commissioner Willner seconded the motion. So ordered.

Mr. Willner asked if the county was going to pay for the structures.

Mr. Swain said we are only talking about the designing right now and the city is going to reimburse us for the 600 feet and it hasn't even been discussed, as yet, as to who will build these structures.

Mr. Willner said they should talk about who is going to build them.

Mr. Swain said he thought the city was goint to build all of them.

Mr. Willner said that he would like a clarification on this.

Mr. Ossenberg rescinded his motion and moved that this matter be referred to the County Attorney for clarification. Commissioner Willner seconded the motion. So ordered.

RE: ORDINANCE ON BRIDGES

Mr. Volpe said that the Board will have to sign a new five-year ordinance on bridges in June of this year and that the rate at the present time is 15¢ and can be raised to 25¢ when ordinance is signed.

RE: CLAIM

A claim was presented from County Attorney Stephens in the amount of $437.50, for the first quarter attorney fees, for serving on the Drainage Board.

Commissioner Ossenberg moved that this claim be approved. Mr. Schaad seconded the motion. So ordered.

RE: UNION TOWNSHIP AND KELLY DITCH

Mr. Nussmeyer said some of the property owners want to dredge the ditches instead of maintaining them and he wondered how to go about it, in the assessments for maintenance.

Mr. Schaad said the assessments won't be made, but they will advertise for bids on the dredging and that will be the assessment, and Mr. Volpe will pay for the contract, let on the dredging and the assessment will then be on the dredging next year instead of on maintenance.

Mr. Nussmeyer said that he will get the majority of the property owners to bring in a petition and they will then just go ahead and assess the rest of them.

Mr. Willner said that he understood that Union Township was going to form a Union Township Ditch Association.

Mr. Nussmeyer said they will just have to do this the same way, but if they bid low on it, they will get the job and if they don't, the lowest bidder will get it.

RE: DRAINAGE PROBLEMS

Mr. Ludwig said they have received several calls at the county garage from some sub-divisions, one of which is University Heights. They have open ditches with drainage problems. He said that they are not legal drains and he wanted to know who is responsible for correcting the problem.

County Attorney Stephens said he thought that either the property owner or the contractor is responsible.

Mr. Willner said that in the past, he knew of the county to take care of such problems even though they weren't legal drains but said that if the county did it for one sub-division, they are in trouble. He thought the guide to be that the county takes care of "God made ditches" but not "man made ditches".

Mr. Ludwig was told to thoroughly check the new Building Code and to report anything he thinks isn't right, so the Commissioners won't approve it.

Mr. Stephens said that it should be determined as to what kind of drain it is, that if it is a legal drain, it is the county's responsibility, if it isn't, to bring it before the Commissioners for proper action.

The meeting adjourned at 11:30 a.m.

VANDERBURGH COUNTY DRAINAGE BOARD

VANDERBURGH COUNTY DRAINAGE
APRIL 9, 1973

A meeting of the Vanderburgh County Drainage Board was held this 9th. day of April, 1973, at 10:45 a.m. with President Bob Schaad presiding.

The minutes of the previous meeting were approved as presented and the reading of them dispensed with.

RE:UNION TOWNSHIP DITCHES

Mr. Charles Griffith was present to represent the Union Township Ditch Association. Also present was Bud Winiger Jr., Edward Steinkamp and Louis Winigar. Mr. Griffith said he realizes that Mr. Schaad and Mr. Ossenberg weren't on this board when things were all hashed out about a year ago, so to give a better understanding of it perhaps he could give a little history of this. About five years ago the county was not in compliance with the 1965 Indiana Drainage Code. The old law was that the people were assessed on basis of how many front feet they had along the ditches for drainage. In 1965 the legislature changed the law and instituted the drainage code which provided a new process of assessing the land based upon how much of the water shed and how much acreage drained and the benefits received. It was then calculated how much each land owner would pay. About a year ago there was some meetings where this was all discussed and eventually a final settlement came about.. What was decided was unless and until the landowners who would benefit from these ditches in Union Township wanted things done, nothing would be. He stated he looked back on the minutes of these meetings the former commissioner Jim Buthod made it clear he wanted to co-operate with these people in Union Twp. So unless and until these people wanted something done, they weren't to receive a bill on them. He understands that last week a number of the residents in Union Twp. did in fact, receive drainage bills, which were based upon an estimate. He feels this confliots with what was agreed upon a year ago. The people in Union Twp. have a ditch association similar to the one in Armstrong-Scott and they indicated back a year ago that if there was any work to be done on the ditches that they would undoubtedly want to do it themselves, through their own association. They planned to have the equipment available and also the man power. Their asscciation is in operation now and he understands there is some maintenance work that needs to be done this year. What they want to do is have a chance at the bidding and he has read the statutes and it is also his understanding that if the amount of a particular contract is estimated to be $2,000.00 or less that this bidding can be handled on an invitational basis by sending out pre-mailers to people that the drainage board thinks might be interested in bidding and if its over $2,000.00 then its got to be advertised in the newspaper. It is his suggestion that if the work is going to be done down there and if the estimate for these respective ditches is less than $2,000.00 that it be done on an invitational bid basis, with one of the invitations going to the Union Township Association and he would predict with absolute certainty that they will be the one to bid and will be the lowest bid. To assess them and charge them with 14¢ per foot now is indirect conflict with what happened a year ago and its putting them in a bind having to pay for something now, that they don't have and pay in advance for a ditch cleaning that they don't know what it will cost, and to pay for something that they themselves will undoubtedly accomplish. So at this time they would like for the assessments that have gone out, to be recalled and that they not be obligated to pay this in advance. The statutes as he reads it, doesn't contemplate for assessments in advance. What the statute does contemplate is that first the bids go out to find out the low bidder, the work is then done and the assessments go out on a pro-rated bases, according to the percentages set forth.

Mr. Swain said he does not agree with this.

Mr. Griffith said whether he's correct or not, it really doesn't jive with what was generally agreed to at the last meetings on this thing.

Mr. Nussmeier said if we advertise for bids, what if this Ditch Association isn't low bidder.

Mr.Griffith said this could be true, but in any event, these bills have went

out on an extremely expensive presumed istimate and to be fair to these people they should know what bid's excepted before they get charged. If they aren't low bidder, fine, but they don't think that is likely to happen. But to estimate at 14¢ a foot, when it may not run a third of that isn't fair. This association plans to bid in on this mow trim that the commissioners plan to sell in April.

Mr. Stephens asked how many feet this is and Mr. Nussmeier said close to 70,000 ft.

Bud Winigar said they all need mowing and Edmond Ditch needs dredging.

Mr. Schaad said how can we advertise and pay for the contract if we have no monies available.

Mr. Griffith said how did the other ditches work, did they pay in advance.

Mr. Swain said thats beside the point, as we aren't working under that law now.

Mr. Griffith said what he is getting at is if this is estimated at 14¢ a foot and these guys come in and do it for 7¢ a foot then half of their money is tied up in a fund and why should it be.

Mr. Stephens said what would happen if we advertised for bids and the association didn't bid. We wouldn't have any funds to pay the contracter with and he feels the answer is to reduce this to some realistic level. He said it wouldn't cost you any more, but we'll be using your money for a while, as this money cannot be paid out of the General Fund.

Mr. Schaad said it seems to him this should be estimated a little high and then what ever is left over, the association can purchase their equipment. Like say, you bid at 12¢ a foot and get it and do the job for 8¢ a foot then after you get your money, what you do with it is your bisiness.

Mr. Griffith said why not do it on an invitaional bid, instead of advertising it.

Mr. Nussmeier said they plan on presenting a list of all the county legal drains to the Drainage Board nest week to be approved by the board for advertising for their maintenance.

Mr. Griffith said yes, but why, when you have a ditch association here that they know will be a bidder.

Mr. Nussmeier said would it be legal to let the association have it.

Mr. Swain said it might be legal but he would prefer it be done like it always has, that it be advertised and they come in and bid on it like anyone else.

Mr. Willner said that is how Armstrong-Scott Association does it and take their chances, and usually are low bidder on all they bid on, but he has seen ditches go as high as 22¢ a foot to clean, of course thats probably drag lines.

Mr. Winiger said in talking about having money in advance, there isn't any work that needs to be done out there that can't wait another year, except the Edmond Ditch which does need dredging very badly. There isn't anyone going to let someone come in on their land with a piece of equipment and do this work now unless someone mows it and no one is going to mow it by hand.

Mr. Swain said we have right-of-way on all legal drains of 75 feet on either side.

Mr. Willner said Armstrong-Scott Association requested they charge a little more so they buy their equipment with the extra money.

Mr. Stephens said he just knows we can't let a bid without the money on hand.

Mr. Willner asked how many members they have in their association and Mr. Griffith said thirty or forty, and Bob said but that doesn't mean they all agree. Are they all going to pool their money or if they are going to have to borrow it and pay 8% interest it looks like they would rather bid it in high and take this money and buy their equipment.

Mr. Schaad said while this money is in couldn't it be invested and be drawing some interest and Mr. Stephens said he doesn't know for why it couldn't.

Mr. Ludwig said the process has already started, as these bills were all mailed out April 5th. and some of these landowners are already coming in and paying them. These are payable in the spring and fall, just like real-estate.

Mr. Griffith asked what was this 14¢ a foot based on and Bob Willner said it was based on the experience of what the other ditch associations were doing and he feels it is a good figure.

Mr. Griffith asked if Armstrong-Scott's figure was 14¢ and Bob said he would think that it was close to that.

Mr. Winiger said yes, but they have large ditches out there.

Mr. Willner said it would average out next year, its just a matter of us using some of your money.

Mr. Griffith said we do want the assurance that this money can be invested and earn money.

Mr. Willner moved that the president of the Drainage Board, Mr. Schaad, contact Mr. Volpe and sees to it that this money is invested and put back in their account. Mr. Ossenberg seconded the motion. So ordered.

Mr. Griffith said could they also have an understanding on record that once its learned more accurately this year what the bids are going to be that the assessments in the future years be based some-what with what the actual cost turns out to be.

Mr. Schaad said they will be because we'll have the figures to work with now and the assessments will be on the actual bidding.

Mr. Griffith said we don't want to run the risk of maybe next year some public official just automatically going back and rebilling these amounts here that were billed this year, and maybe continue doing so every year.

Mr. Swain said you have a built in protection, as the law states you cannot have more than a 10% increase without following the procedure we've followed last year.

Mr. Griffith said who would know any better than the ditch association what needs to be done so why not give the Surveyor every Spring an opinion of what has to be done so he can prepare the estimates.

Mr. Schaad said let the minutes show that it is agreed that before March 1st, 1974 the Union Township Ditch Association will notify the Surveyor of what needs to be done so that he can in turn prepare the estimate and have a more realistic assessment.

Mr. Griffith said he would like to request the association be notified of the opportunity to bid and Mr. Ludwig said the will endeavor to notify each and every bidder, prior to the date of bidding.

RE: GREEN RIVER ROAD:

Mr. Nussmeier said the former commissioners had committed themselves to some engineering work on ditches in this area with Ohio Valley Engineering. The city is to reimburse us on this.

Mr. Willner said he still wants to know if its for the whole thing because he is not satisfied with this and if we've got to go out there and build the structures then he isn't for it.

Mr. Swain said this contract is for the engineering only, and it was his understanding it is for only the 600 feet the city was to reimburse us for and not the building of the structures.

He said he has not had a chance to talk with John Cox or Hank Sauer yet, but he will get with them this week.

Mr. Schaad said then we will take this under advisement for another week.

At this time Dick Eiffler came in and Mr. Schaad told him that we were under the impression that the city was going to reimburse the county for the whole thing and Dick said yes, that is true. He said they would have to because the law requires them to.

Mr. Willner said he doesn't understand why we had to do the engineering part of it and get reimbursed.

Mr. Stephens said since it is a legal drain the city didn't have any jurisdiction to do the engineering on it.

RE: LINCOLN AVENUE

Mr. Schaad said he was wondering how things were going out by Mr.McCarthy's land, where that large pipe is draining into a smaller pipe, causing it to back up.

Mr. Eiffler said they got in there with hip boots and cleaned it out and it is draining a lot better but what it really needs is a 72" pipe, or bigger. But anyway they are continuing to work on it.

RE: CORRECTION IN THE APRIL 2 MEETING

Under the ORDINANCE ON BRIDGES the minutes read that the Board will have to sign a new five-year ordinance on bridges in June of this year and that the rate at the present time is 15¢ and can be raised to 25¢ when ordinance is signed. It should have read that it can be raised to 20¢.

Meeting adjourned at 11:40 a.m.

VANDERBURGH COUNTY DRAINAGE
APRIL 16,1973

A meeting of the Vanderburgh County Drainage Board was held this 16th. day of April, 1973, at 11:15 a.m. with President Bob Schaad presiding.

The minutes of the previous meeting were approved as presented and the reading of them dispensed with.

RE: PETITION OF EDMOND DITCH

Dick Nussmeier said they have a petition on the dredging of Edmond Ditch. This was signed by about 70% of the property owners. These people haven't received assessments for about five years and they have requested that nothing be done out there, but now this Edmond Ditch must be dredged.

Commissioner Schaad said last week we had a group before us from the Union Township Ditch Association and they were objecting to being assessed before the work was done. He wanted Mr. Volpe to know that they arrived upon the decision that the money we would be holding of theirs be invested that it may be drawing interest and then put back into their account.

Commissioner Willner said from the time they pay their spring installment till the time the money is allocated they want their money invested on a short term and then be put into their account instead of the general fund.

Mr. Volpe said fine, he will do this.

RE: WAIVING OF BONDS

Mr. Nussmeier said there will be some changes in the specifications for the maintenance of the legal drains the he will have them back next week.
Also he wondered if on these bids couldn't the Drainage Board waive the bonds, as it is mostly these farmers that do the work on them. There will be a time limit as to when the work will have to be done.

Mr. Stephens said he didn't think it would be wise, because what if they go on someones property and some damage is done to it. The farmers will be looking to us then, because we didn't require a bond.

Commissioner Schaad said he knows its an inconvenience to the farmers, and we want to help them all we can, but if we did this, we would be leaving ourselves wide open.

Commissioner Willner said always in the past they've had these bonds and we've had no complaints.

Mike Ludwig said part of the problem is that in the past we have made these bonds out for some of the bidders, because they are rather complicated. It isn't our job to do this, but as a courtesy to them he would be glad to try and help them.

Mr. Stephens said he feels they do need this bond, for protection.

Commissioner Willner said he thinks according to the law they need the bond.

Mr. Nussmeier said he thinks the Drainage Board does have the authority to waive the bond.

Mr. Stephens said he isn't for sure if we can waive it or not, he knows we can't on an ordinary contract, so he doesn't know how they can on drainage.

Mr. Nussmeier said if they don't do the job then we wouldn't pay them.

Mr. Swain said yes, but then we'd have to re-let the bid.

Commissioner Willner said if we waive it for the Ditch Association, then we'd have to waive it for the individual too.

Commissioner Schaad said if we don't take any action then the standard position stands....right? None of the commissioners moved to make an exception.

RE: ABANDONING OF HARPER DITCH

Mr. John Cox is preparing the agreement whereby the city pays for the engineering and construction work and it will be submitted to the Drainage Board next week.

Mr. Volpe said he will have to check and see if we have enough funds in that account because we have to pay for it and we will then be reimbursed by the city.

RE:RONALD NEWMASTER...ERROR IN ASSESSMENT

Commissioner Willner said that Mr. Newmaster was in to see him about his ditch assessment which has been in error for several years. He has assessments on Maidlow and Buente Upper Big Creek "A" Lateral. He owns three lots in a sub-division and one of these was there before this was divided. He has been receiving assessments for the entire thing. He said if this takes an act of the drainage board to straighten this out , lets get it done, because this man has been given the run around for too long now.

When a sub-division is divided up the original owner pays one assessment only on all of them until he sells one and that one then picks up an assessment also.

Mr. Volpe said this board made that decision a couple of years ago. For instance, Jacobs Brothers has several acres of land for which maybe a $50.00 assessment was on it, then maybe it was divided into 40 lots and a $3.00 assessment was put on each one of these lots and then the drainage board said no, don't do that, but wait until they are sold.

Mr. Swain said the code says that as you sell them they are to go to the county drainage engineer, who is to allocate between those lots that are sold and the new assessment is picked up on that allocation.

Commissioner Willner said the guy who sub-divided it has not been paying one cent because this Mr. Newmaster bought the parcel that had the assessment on it before it was divided, and this Mr. Karhe should have then got an assessment on another on of his code numbers.

Mr. Nussmeier is going to get this straightened out and work with Mike on it. Action was deferred for a week.

RE:LOUIS WURTZ....4520 DETROY ROAD

Mr. Wurtz appeared before the drainage board and asked if there are any dumpsters out in German Township. He said there use to be two out there. Mr. Schaad explained to him that we have had so many complaints and these dumping sites were so misused that we have trouble keeping them out. People don't want them set on their property.

Meeting adjourned at 11:45 a.m.

VANDERBURGH COUNTY DRAINAGE
APRIL 23,1973

A meeting of the Vanderburgh County Drainage Board was held this 23rd. day of April, 1973, at 10:30 a.m. with President Bob Schaad presiding.

The minutes of the previous meeting were pproved as presented and the reading of them dispensed with.

RE: NOTICE TO BIDDERS

Mr.Nussmeier presented a notice to bidders for the annual periodic maintenance of the legal drains and the dredging of Edmond Ditch.

Mr. Nussmeier said in his opinion if the bids are on maintenance or structural of drainage are under $2,000.00 there is no performance bond required.

County Attorney, Bill Stephens said he would check into this, to see if there has been an amendment since 1969, and if not they will just do as they have done in the past.

RE: CHARBET ACRES SUB-DIVISION...MAIDLOW DITCH

Mr. Ludwig said they have a problem, in that last week, Mr.Ronald Newmaster received two bills and asked that he check with the Auditor's office in trying to get this corrected. He said in checking the area maps and assessments, back to 1966, he found that these people should be paying two assessments, except for the fact that in this sub-division, there is only one person who is paying any assessment. He said that Mr. Newmaster will pay his assessment, but is complaining that no one else has been placed on this assessment roll. Mr.Ludwig said he wants to add everyone else in the sub-division, on both ditches, because they should be paying these assessments. He said these people are on the books, but not on the assessment roles. He said there is a breakdown in the machinery somewhere and they should have the County Assessor, the County Auditor and the County Recorder to attend next week's meeting to see if this can be worked out, so that whenever a peice of property is bought or sold, he will get the actual records, so the people can be assessed. This matter will be placed on next Monday's agenda.

Mr.Ludwig said that each person should pay one $3.00 assessment, for each ditch. He said that Mr. Kahre owns the sub-division and he has no assessment at all.

Commissioner Willner asked the county attorney, if when the Union Township sued to have their ditch assessment updated, didn't the Drainage Board say that the subsequent townships would be done after Union Township.

County attorney Swain said he didn't remember, but this might have been said.

Mr.Volpe said that several years ago, it was started that every lot that is platted, would get the minimum of $3.00 and this was the way it is supposed to be, however, a Drainage Board of the past made the positive decision that when a person is platting these things, that regardless of what the plat said, there is $3.00 for the entire area, on the original code number until the lot is sold, then when the lot is sold, if he isn't informed of it, the assessment isn't picked up. He said he knew this would cause a lot of trouble, since he knew they should be treated as any other kind of assessment would, but he couldn't convince them.

Mr.Wandel said when this was done, the sub-division was taken as one parcel, belonging to one person, and he was given a minimum assessment of $3.00 and any number of lots can be transferred from the developer to the new owners and this is considered as one parcel and he pays a minimum of $3.00, the developer retains the $3.00 assessment on the remainder of the lots. If he sells another lot, it is transferred to the new owner as a parcel, but it is done on the basis of the area sold, being one parcel, with one assessment.

Mr.Volpe said it was previously the practice to charge, per lot, immidiately after it was sub-divided, until this was stopped by a former Drainage Board, but this is the way it should be done. He said the Drainage Board should now rescind that previous order and let them now operate according to law.

Commissioner Schaad requested that this matter be placed on next week's agenda and in the meantime, the county attorney could check into the law and make some recommendations.

The County Attorney said the Drainage Engineer could work up a percentage and the Auditor would take care of the billing.

Commissioner Willner moved that the Drainage Board change this particular assessment that has been brought to their attention, immediately, and that they take one ditch at a time and that they re-do the ditch assessments in accordance with the 1965 ditch assessment. Commissioner Ossenberg seconded the motion. So ordered.

Meeting adjourned at 10:55 a.m.

ENGINEERING AGREEMENT

THIS AGREEMENT, made and executed in duplicate this 16th day of April, 1973 by and between VANDERBURGH COUNTY, INDIANA, acting by and through its BOARD OF COUNTY COMMISSIONERS, hereinafter called the OWNER, and Edwin O. Boyd d/b/a Ohio Valley Engineer, hereinafter called the ENGINEER.

WITNESSETH:

That in consideration of the mutual covenants herein contained, the OWNER hereby agrees to employ the ENGINEERS to perform the services hereinafter mentioned, and agrees to pay them for such services according to the schedule of fees herein contained.

The services which the ENGINEER agrees to perform are as follows:

1. Scope of the Work:
   Preliminaries and design of -
   (a) Relocation of structure under Southern Railway;
   (b) Relocation of structure under Stockwell Road;
   (c) Relocation of structure under Congress Avenue;
   (d) Relocation of structure under Southern Railway;
   (e) Relocation of ditch on Greenriver Road west to Southern Railway, all on Harper Ditch in conjunction with the improvement of Greenriver Road by the City of Evansville.

2. Preliminary:

A. ENGINEERS agree to prepare preliminary studies and basic design together with preliminary plans and approximate estimates of cost, feasibility and scope of the improvements referred to in Section 1 hereof and will attend all necessary conferences with the OWNER in connection therewith and to coordinate this work with the affected governmental agencies.

B. Furnish to the OWNER sufficient copies of documents which documents shall conform to all applicable Federal, State and Governmental rules and regulations that might be applicable to the project contemplated by this Agreement, and which may be required by such governmental agencies from which agencies approval of the project may be required or from whom financing systems is sought. Such documents shall be furnished in eight (8) copies to the OWNER.

3. Design:

Upon approval of the preliminary services to be rendered under paragraph 2 of this Agreement and upon direction of the OWNER to the ENGINEERS in writing the ENGINEERS shall prepare plans and specifications for the construction of the improvements set forth in Paragraph 1 of this Agreement and in performance of his duties under the design phase of this Agreement the ENGINEERS shall perform the following services:

A. Make all necessary and further engineering studies and analyses and prepare detailed construction plans, specifications, and final cost estimates, and other information necessary for the intelligent bidding on the construction of the improvements specified by the OWNER.

B. Assist the attorney for the OWNER in the preparation of all legal matters pertaining to bidding, applications to governmental agencies for assistance under any governmental program applicable to the improvements, including, but not limited to instructions to bidders, proposal forms for bidding by contractors, general conditions of the contract, special conditions of the contract, contract forms, extra work agreements and performance bonds.

C. ENGINEERS shall furnish to the OWNER twelve (12) sets of complete construction drawings and specifications together with necessary contract documents and shall furnish such additional copies to

the OWNER of such documents at a net cost to the ENGINEERS. The original do uments, survey notes, and tracings are the property of the OWNER. The ENGINEERS shall also make such changes to the foregoing documents as may be necessary to obtain the approval of governmental or regulatory agencies.

D. Meet with the OWNER or representatives of the OWNER when requested or necessary for consultations or conferences.

E. Review the results of testing laboratories; inspection bureaus or other agencies employed by the OWNER or the contractor to test or analyze materials or equipment used in the improvements; review subsurface exploration data or make recommendations therefor; make soundings for rock to a suitable design depth if required in concept of project.

F. Assist the OWNER in the selection of qualified laboratories subject to the approval of the OWNER, for the purpose of conducting required tests which tests shall be conducted at the cost of the OWNER.

G. Prepare necessary plans and applications for submission to and approval by local, State and Federal suthorities as may be required for the initiation of the improvement.

H. Assist the OWNER in securing bids, tabulations, and analyse of bid results, and furnishing recommendations on the awards of construc tion contracts.

I. Assist the attorney for the OWNER in the preparation of formal contract documents for the award of contracts.

4. Construction:

A. Furnish consultation and advice to the OWNER during construction.

B. Check shop and erection drawings submitted by contractors for compliance with design concept and assist in correct interpretation of the drawings, specifications and contract documents.

C. Act as the OWNER'S representative in dealing with the contractor and to act as the arbitrator of any disputes that may arise between the OWNER and the contractor.

D. Furnish periodic general engineering inspection of the improvements and construction to determine if construction generally conforms to the drawings, specifications and contract documents; notify the OWNER and inform the contractor of defects and deficiencies observed for correction; and observe and report to the OWNER the progress and quality of the work.

E. Check partial and final payments to the contractor.

F. Supervise resident inspection forces.

G. At such time as the contractor claims one hundred percent completion of the improvement, ENGINEER shall generally inspect the same and prepare a list of defects or deficiencies not in compliance with the drawings, specifications and contract documents, and on correction there by contractor, ENGINEER shall acknowledge acceptability to the OWNER and approve contractor's request for final payment.

H. Arrange for initial instruction of the OWNER in proper operation and maintenance of the improvements and any equipment installe therewith and furnish an operating and maintenance manual therefor if required.

I. Furnish the OWNER one (1) complete set of "As Built" drawings of the improvements.

None of the foregoing services shall be construed to make the ENGINEER a guarantor or insurer of proper performance by the contractor in accordance with the contract documents, such proper performance being guaranteed by the contractor's bonds therefor, nor shall any of the above be construed to require the ENGINEER to make exhaustive or continuous on-site inspections for any purpose.

5. Resident Engineering Services:

If authorized and approved by the OWNER, ENGINEER shall also furnish resident engineering inspection of construction which will be designed to further endeavor and assure construction of the improvements in accordance with the contract documents, including further interpretation of the drawings, specifications and contract documents; closer representation of ENGINEER and OWNER at the construction site; recording authorized changes made during construction; recording discrepancies where noted; recording pay quantities; and more closely inspecting construction work and the contractor's performance. ENGINEER shall furnish one or more full time persons, to be determined by the OWNER, to accomplish the foregoing, however, performance hereunder shall not make ENGINEER a guarantor or insurer of proper performance by the contractor.

6. Matters controlled by Contractor:

None of the duties prescribed in Paragraph 3, 4, or 5 above shall serve to make the ENGINEER responsible for acts or omissions respecting safety practices and precautions exercised by the contractor during construction since this is an inherent responsibility of the contractor. Neither shall they serve to make the ENGINEER responsible for the progress and status of the work, methods of construction employed by the contractor, or for status of payments for labor, materials or equipment, used by the contractor in the construction of the improvements.

7. Extra Services of Engineer:

When authorized and approved by the OWNER, the ENGINEER shall furnish or cause to be furnished the following services, which are designated "Extra Services" to be considered separate and apart from those hereinabove set out:

A. Actual field layout for construction.

B. Special consultants when required by the complex nature of the improvements.

C. Furnishing topographic or boundary surveys and descriptions upon property not used for construction sites.

D. Actual shop, mill, field or laboratory inspections and analyses of materials and equipment.

E. Actual soil sampling and analyses, test borings and other subsurface explorations.

F. Calculations for special assessments.

G. Services required when construction contract time is prolonged by more than twenty-five percent (25%) of the original contract time.

H. Preparing detailed renderings, exhibits or scale models for the improvement.

I. Serving as an expert witness for the OWNER in any legal proceedings involving the improvements.

J. Revisions to drawings and/or specifications, due to change in scope of the improvements or design criteria, when authorized by the OWNER, and which occur after approval by the OWNER, as set out in Paragraphs 2 and 3 hereof.

K. Additional services in obtaining and establishing information relating to original construction if not furnished by the OWNER and if the improvement is an alteration or addition to an existing facility.

L. Any services not covered by this Agreement.

8. Duties of the OWNER:

The OWNER shall:

A. Provide complete information concerning the requirements for the improvements.

B. Furnish the ENGINEER all available information pertinent to the site and design of the improvements, including previous reports, plans and specifications, if any. If the improvement consists of an alteration or addition to an existing facility, OWNER shall furnish all available pertinent information, plans and specifications relating to the original construction required by the ENGINEER.

C. Provide access for ENGINEER upon all property as required to perform services hereunder.

D. Examine all data presented by ENGINEER and render decisions thereon immediately so as not to delay services of the ENGINEER.

E. Advertise for, receive and open proposals from bidders at the appointed time and place, and pay all costs incidental thereto.

F. Provide legal, fiscal and accounting services as may be required for the improvements.

G. Designate in writing a person to act as the OWNERS representative with respect to the work to be performed under this agreement. Such person shall have complete authority to transmit instructions, receive information, interpret and define the OWNER'S policy and decisions with respect to materials, equipment, elements and systems, pertinent to the work covered by this agreement.

H. Promptly notify the ENGINEER if the OWNER obtains knowledge of any difficulty concerning the improvements.

I. Furnish the ENGINEER with any known design and construction standards he may require the ENGINEER to follow in preparation of the contract documents.

J. Furnish or direct the engineer to furnish at the OWNER'S expense any services not covered by this Agreement, but which may be required for adequate designing and construction of the improvements.

K. Secure and pay for all permits and licenses as may be required by any local, State and Federal authority.

L. Pay directly the cost of those test borings not covered by Paragraph 3, sub-surface explorations, chemical, mechanical, electrical, or compaction control tests, all investigations and analysis which may be required for the determination of design data.

9. Compensation of Engineer:

The OWNER agrees to pay the ENGINEER for the professional services to be performed under this Agreement in accordance with the following schedule:

A. The OWNER agrees to pay the ENGINEER for such services a fee equal to the percentage as indicated on attached Exhibit "A" of the total and final construction costs of the improvements which are let or awarded at one time, together with any additional constructio performed in connection with such awards and said fee shall be paid in increments as hereinafter set forth:

(1) Upon completion of the preliminary work described in Section 2 of this Agreement a sum equal to twenty percent (20%) of the ENGINEER'S total fee as computed in accordance with Section 9A and based upon the ENGINEER'S estimate submitted in connection with said preliminary documents.

(2) Fifty percent (50%), less previous payments, based upon the preliminary cost estimate, when the design phase, described in Section 3 hereof, is fifty percent (50%) complete, upon presentation by the ENGINEER and reviewed by the OWNER, of work completed.

(3) Ninety percent (90%), upon receipt of final plans and specifications for construction under the project, less previous payments, said fee to be computed upon the actual total bid price or prices and if no bid or bids are accepted and no contract awarded, the fee will be based upon the lowest bid or proposal conformi to the bidding requirements and contract documents.

(4) Ten percent (10%) upon completion of the project, provided the ENGINEER shall have furnished the services called fo herein in a satisfactory manner, which total sum paid, includi the sum to be paid under this sub-paragraph, shall equal one hundred percent (100%) of the total fee to be paid under Paragraph 9A such fee to be computed upon the total and actual final construction cost.

B. That in addition to the fees to be paid under sub-paragrap A of Paragraph 9 the OWNER shall pay to the ENGINEER, for extra service to be rendered under Paragraph 7 of this Agreement a sum equal to the actual cost of said services to the ENGINEER plus ten percent (10%) for administration and supervision to be paid monthly; when such services are rendered directly by the ENGINEER then the OWNER shall compensate the ENGINEER on the basis of two and one-half (2!) times salary actually paid and to be paid monthly.

C. Resident Engineer:

If resident engineering services are authorized and approved by the OWNER and provided by the ENGINEER as hereinbefore set out in Paragraph 5 of this Agreement, OWNER shall compensate the ENGINEER on the basis of two and one-half (2!) times salaries, plus directly chargeable expenses at actual cost, and shall be paid monthly for such services performed the preceeding month.

D. Reimbursable Expenses:

Certain expenses which may be incurred by the ENGINEER shall be reimbursable to the ENGINEER at actual cost which expenses are as follows:

(1) Copies of plans, specifications and contract documents required for approvals, bidding and construction in excess of thos to be furnished by the ENGINEER under the terms of this Agreement.

(2) Travel and out-of-pocket expenses incurred in assisting the OWNER in obtaining grants, loans or other financing.

(3) Travel and out-of-pocket expenses of the ENGINEER on special trips.

(4) None of the expenses incurred in sub-sections (1), (2), or (3) above shall be incurred by the ENGINEER without first being authorized by the OWNER. Any salary paid by ENGINEER under sub-section (2) or (3) shall be reimbursed on the same basis as Reside Engineering charges under Section 9C.

10. Abandonment:

If any work contemplated by this Agreement to be performed by the ENGINEERS is suspended or abandoned, the OWNER will pay to the ENGINEER for all services rendered by the ENGINEER to the date of such suspension or abandonment a sum in full compensation of their services rendered to such date. Such payments shall be based, insofar as they can be determined, upon the fees as established in this Agreement, or, if the schedule of fees established herein cannot be applied then in accordance with the scale generally paid for like services in the community, but in no event shall the liability to the ENGINEER exceed in total amount the sum appropriated and available to the OWNER for the payment of such fees in the year in which such payment shall be due

11. Availability of Funds:

The OWNER represents and states, as an inducement for the ENGINEERS to enter into this Agreement, that all legal steps required to be taken will be fully completed and that insufficient funds will be appropriated and set aside to fully pay the ENGINEER for the service they are to perform under this Agreement.

12. Insurance:

The ENGINEER shall maintain such policies of insurance, inclusing workmen's compensation and public liability, as would be reasonably expected to provide protection from claims arising from ENGINEER'S performance hereunder.

13. Assignment:

This Agreement shall be binding upon the parties hereto, their successors, representatives, and assigns provided, however, that this Agreement shall not be assigned by either party without the written consent of the other party first obtained.

14. Delay in Construction:

In the event the contract is not awarded in a period of one year following the completion of construction plans, the ENGINEER shal be paid, including extra reimbursable costs, the fee which will be bas upon a reasonable and mutually agreed upon cost determination arrived at by and between the OWNER and the ENGINEER.

15. Termination:

In the event of substantial failure to perform this Agreemer or breach hereof, the party not at fault may terminate this Agreement

257

by giving the other five (5) days' notice in writing. If any services performed by the ENGINEER hereunder are abandoned or suspended in whole or in part by order of the OWNER, or if this Agreement is terminated, the ENGINEER shall be paid, including extra and reimbursable costs, in proportion for services performed prior to receipt of the said written notice.

IN WITNESS WHEREOF, the parties hereto have set their hands as of the day and date first above written.

ENGINEER: Edwin A. Boyd

ATTEST:

VANDERBURGH COUNTY DRAINAGE
MAY 7, 1973

A meeting of the Vanderburgh County Drainage Board was held this 7th. day of May 1973, at 11:26 a.m. with President Bob Schaad presiding.

The minutes of the previous meeting were approved as presented, the reading of them dispensed. The motion for the approval of the minutes was made by Commissioner Ossenberg and seconded by Commissioner Willner. So ordered.

RE: DISCUSSION ON DRAINAGE PROBLEMS:

Mr. Gilbert Mosby who is on the Kelly Ditch said his land between Telephone Road and Boonville Highway floods real bad with any kind of rain at all. He very seldom can raise a crop and it seems to be getting worse every year. He said he is paying high taxes and also a ditch assessment and can't raise a crop because of all the standing water and he is losing money every year. The ditch is higher than the field and he would like for it to be checked into.

Commissioner Willner asked what kind of shape the ditch is in and Mr. Mosby said it's alright and is being mowed every year.

Mr. Nussmeier said they don't have much of a problem on the south side of the high way, but this is on the north side.

Mr. Wilbur Kron said he did a preliminary survey for Mr. Mosby to determine what it would take to get an outlet and the water level in the ditch is the water level in his field and this is about six inches standing in the field. He was looking for a temporary means to give him some relief for this croping season. The R.R. culvert is too high also, but lowering that wouldn't help either, because the ditch is too high.

Mr. Tom Pugh said they investigated this problem out there about four years ago and in one location there, the culvert under the highway was eighteen inches and the culvert below it, under the R.R. maybe a twenty four or thirty inch. Then downstream from that, it was reversed. Now if they had the eighteen with the eighteen and the thirty with the thirty, they would have been alright, but the way it is, they don't have more than an eighteen inch anyplace. The Kelly Ditch is too high and hasn't been dredged for years and that is a part of the Crawford-Brandis system which is under study for the Vanderburgh Drainage Plan for the whole east side. Right at the county line there is a drainage coming under the highway and the R.R. and he has observed this water flowing westward and not four feet away is a tile outlet from a field that flows eastward so the county line is the exact breaking point in grades. Now, when a storm comes and everything is under water, he has observed water flowing very slowly westward and then at the county line it will flow very slowly eastward, there's water running to the north at the intersection on Boonville Highway and actually a few times the water runs through the R.R. ties as it comes jamming down clear form Newburgh Road, and then it goes down the Boesche Ditch and for a long time they thought this was the appropriate way to take this water.

Commissioner Schaad asked Mr.Pugh, or anyone, if they have a suggestion for some immediate relief for Mr. Mosby.

Mr. Kron said he doesn't believe a back hole would solve the situation, unless the R.R. would go along with lowering their culvert.

Mr. Mosby said they, the R.R., said they will co-operate, but he can't get a meeting with them.

Commissioner Schaad asked could the county garage get out there with a grade all and give Mr.Mosby some relief and then Mr. Mosby can get together with the surveyor, the railroad, the drainage engineer and anyone else involved and try to work out a permanent solution. It was mentioned about taking invitational bids, since this is an urgent matter, but until we get the bids Mr. Mosby needs some temporary help.

Commissioner Ossenberg said since this water runs over Telephone Road and is damaging it, then couldn't Mr. Willard take the grade-all out there and give Mr. Mosby some relief.

Mr. Nussmeier said he thinks this would be in order and would also be legal.

Mr. Pugh said we need to run a more detailed survey on this though.

RE: PERFORMANCE BOND:

Commissioner Schaad said it came up week before last that if the bids came to less than $2,000.00 would they require a performance bond and the attorney was to check in and see if there has been an amendment since 1969 and Mr. Stephens said no, there has not been. Commissioner Schaad said so then its up to the Drainage Board, it doesn't have to be done if the bid is under $2,000.00.

RE: UNION TOWNSHIP:

It was brought up at the April 23rd. meeting that they take one ditch at a time and that they re-do the ditch assessments in accordance with the 1965 ditch assessment.

Mr. Swain said it would be better to do it by ditch, rather then by Township.

Commissioner Willner said the previous commissioners choose to do it by townships, with Union first, because they were ordered by the court to do this.

Commissioner Schaad said they were talking about something else, where a large acreage was sub-divided into lots and one guy gets a bill for $3.00 and everyone else gets off free.

Commissioner Willner said his complaint is like Mr. Newmaster's problem, and its been made year after year and nothing has been done about it.

Mr. Swain said he thinks if we do it lot by lot we'll solve the problem.

Commissioner Willner said yes, but who's job is it to see that it gets done. Lets put the finger on one man.

Mr. Swain said all the drainage board has to do is make the motion and the Drainage Engineer then does it.

Mr.Crawford, who lives out on Baseline Road has about fifteen acres and has sub-divided it into sixteen lots, but he can't build on it until the drainage problem is solved. He doesn't think it is fair to slap a $3.00 assessment on each one of these lots. He pays a $3.00 assessment on the lot where his house is, and he doesn't mind that, but he feels a $3.00 assessment on the other lots shouldn't be put on until he sells them. He said if he holds on to these lots for say fifteen years, then he is going to pay in a lot of money, and why should he, when they are sitting there idle.

Commissioner Schaad said when you sub-divided, you picked up real estate taxes on each one and you don't complain about the large amount of that and do complain about the small amount on ditch assessments.

Mr.Crawford said yes, but the water isn't going anywhere, it still lays on the ground and is a terrible drainage problem, and I can't build on it.

Mr.Kron said we must keep in mind, there is a different degree of drainage for farm land than you would want for building homes on.

Mr.Mosby said he has bought 70 acres of farm land and he is assessed for 1/5 of the Kelly Ditch. There's another man that owns 120 acres and his water comes down on me and he doesn't have a ditch assessment and he doesn't feel thats fair.

Mr. Swain said if they'd re-do the ditches like the drainage code contemplates he probably should be on the assessment role.

Mr.Mosby said on the 40 acres he didn't buy doesn't have an assessment on it, so that means he got the whole assessment on Kelly Ditch and he thinks the whole thing needs to be re-done.

Mr. Ludwick said Mr.Mosby's assessment is for only the 74 acres that he purchased.

Mr. Pugh said he wonders if Mr.Crawford understands that what he is proposing, in a since, is that while he's holding these lots for development, that he be getting

free drainage. In other words, the taxes he pays, does not provide for drainage, as those benefits are a seperate tax.

Commissioner Schaad said this is all quite a problem and is going to have to be studied and re-done.

Commissioner Willner said he proposes that we do it, but by what means, by Township or by ditch.

Mr. Swain said he would suggest doing it a ditch at a time.

Commissioner Willner said O.K., he will agree and if the other commissioners agree, then lets take the first step and decide which ditch first. The Soil Conservation Service can tell us which ditch needs it the most.

Mr. Ludwick said lets take the smallest ditch we have first, because with all of the departments involved, it will take about six years to do it.

Commissioner Willner said it didn't take that long to do Union Township, and Mr. Swain said he thinks it took just about that long because the engineering started back in 1966 on it.

Commissioner Willner said he meant after they got the judgement on it, then it only took about five months.

Mr. Nussmeier said he thinks there should have been so much on a tax role for drainage, some kind of a general assessment fund. He feels the drainage law is set up for rural counties and are no good for suburban counties like Vanderburgh County.

Mr. Kron asked asked what it would take to get a general fund.

Mr. Volpe said it would have to go to state legislature, but what if it were an optional thing, that you could do it either way, or combine them.

Mr. Pugh said he doesn't see under the present law any other way to go except through Conservative District. Maybe we should have a special meeting and invite someone from the Department of Natural Resourses to meet with the Drainage Board and discuss the laws on this. He would say that the Vanderburgh County Drainage Board is more active than any others around.

Commissioner Schaad said why doesn't Mr. Pugh set up a seminar and see if we can't get something started on this, because if we don't, it will never get started.

Mr. Stephens said until then, we will just have to continue on a spot to spot basis.

Mr. Crawford said something is going to have to be done about the drainage in front of his home too.

Mr. Pugh said the Soil Conservation District was accepted by a group of farmers back in February of 1972 to do a preliminary investigation on this problem. At this time he presented the proposal done by the area engineer,along with a list of the people that was present at the meeting they had.

At this time Mr: Zimmerman and his daughter asked could they speak before the discussion on this continued. She explained they have a drainage problem at her fathers home out on Kansas Road, in which there is a ditch the county has dug out and failed to put back in. They have the 12 inch pipe that is to be put in but it's just a matter of getting the county to do it.

Mr. Willard said he isn't too familiar with it, but he does know where it is.

Commissioner Schaad told Mr. Zimmerman to get together with Mr. Willard and he would see to it that the tile is put in.

Mr. Pugh continued on by saying on this preliminary report and an estimate of cost, if we can get these people together mutually to do this, we will help them to determine their assessments and work with them, as that is what they have requested, on the basis of this estimate, then we would prepare a detailed engineering drawing for bidding, and the thing would actually be contracted out, and they would organize

their own volunteer association officers, but it must first have Mr. Nussmeier and the Drainage Board's approval, so today they would like the general approval for the preliminary investigation and that the board be sympathic to the new bridge as a part of the project. It would also involve improvement of the road side ditches.

Commissioner Willner asked Mr. Pugh that if the county decides to build a bridge and the ditch gets cleaned out, how will it be maintained.

Mr. Pugh said the proposal to the farmers is that they join the Pond Flat Drainage Association and extend the Lateral "A" up there.

Commissioner Willner said O.K., if this is done, he is willing to spend the money, and if not, then he isn't for it, but he wants the petition for this first and then the county will do their part. Commissioner Willner then moved that the Drainage Board instruct the Soil Conservation Service to go ahead and make a detailed drawing, that the property owners submit a petition that they will maintain it after we clean it and that if both of these things are done that we will construct the necessary culverts and a bridge on our right-of-way. Commissioner Ossenberg seconded the motion. So ordered.

RE: OPENING OF BIDS FOR THE ANNUAL MAINTENANCE OF LEGAL DRAINS AND FOR THE DREDGING OF THE EDMOND DITCH:

Mr. Swain said there was a bid from Mr.Anthony Schmitt received by mail in the Auditor's office with nothing on the outside to indicate it was a bid. It was believed to be a regular letter and was opened by a clerk in that office and was immediately sealed back up when they seen what it was and he would recommend that it be rejected. This decision was held for a few minutes while the rest of the bids were read aloud by Mr. Swain. They were as follows:

RAYMOND STEINKUHL:

Crawford-Brandis Extension...14,628 ft.@0.16 per ft.....$2,340.48
Aiken Extension....5,826 ft.@ 0.10 per ft..... 582.60
(Alternate Bid Without Burning)
Crawford-Brandis Extension...0.20 per ft.....$2,925.60
Aiken Extension.....0.14 per ft..... 815.64

Mr. Steinkuhl has $150.00 cash in the bid.

CEDEL MAASBERG:

Maasberg Ditch...2,206 ft.@ 0.07 per ft.....$ 154.42

Mr. Maasberg has $8.00 cash with his bid.

EDWARD SCHMITT:

Kelly Ditch...7,600 ft.@.21 per ft.....$1,596.00
This bid is for cutting debris and hauling away,instead of burning. Mr. Schmitt has submitted a cashier's check with his bid in the amount of $77.00.

EDWIN KRON:

Hoefling Ditch..5,571 ft.@ 0.07 per ft.....$ 389.97
Mr. Kron submitted $20.00 cash with his bid.

JOSEPH SEIB:

Maidlow Ditch...11,475 ft.@0.14 per ft.....$1,606.50
Kolb Ditch...7,557 ft. @ 0.11 per ft..... 831.27
Buente Upper Big Creek "A" Lateral.3,666.5 ft.@0.18 per ft..... 659.97

Alternate bid for Kolb Ditch if burning is not permitted:7,557 ft.@.22..... 1,662.54
Mr. Seib submitted a personal check in the amount of $154.89 with his bid.

LEO C. PAUL:

Baehl Ditch...6,797 ft.@.07 per ft.....$ 475.79
Barr's Creek...20,668 ft.@.12 per ft..... 2,480.16

Crawford-Brandis...12,982 ft.@.08 per ft.....$1,038.56
Alternate Bid for hauling off.....04 per ft..... 519.28
Harper Ditch....6,600 ft.@.10 per ft..... 660.00
Alternate Bid for hauling.....04..... 264.00
Hirsch Ditch...5,347 ft. @ .12 per ft..... 641.64
Alternate Bid for hauling....04 per ft..... 213.88
Nurrenbern Ditch...10,054 ft.@.08 per ft..... 804.32
Alternate Bid for hauling...04.per ft..... 402.16

Mr. Paul submitted a cashier's check with his bid in the amount of$374.99

DARRYL SCHMITT:

If burning is permitted:

Crawford-Brandis...12,982 ft.@.11 per ft.....$1,428.02
Nurrenbern Ditch...10,054 ft.@.06 per ft..... 603.24
Harper Ditch...6,600 ft.@.10 per ft..... 660.00

If burning not permitted:

Crawford-Brandis...12,982 ft.@.25 per ft.....$3,245.50
Nurrenbern Ditch...10,054 ft.@.20 per ft..... 2,010.80
Harper Ditch...6,600 ft.@ .30 per ft..... 1,980.00

Mr.Schmitt submitted a money order with his bid in the amount of $134.88

JOSEPH SCHMITT:

If burning not permitted:

Stockfleth....6,296 ft.@.36 per ft.....$2,266.56
Schlensker...4,000 ft.@.20 per ft..... 800.00
Buente Upper Big Creek"A"Lateral...3,666.5 ft.@.30 per ft..... 1,099.95
Aiken Ditch...3,327 ft.@.35 per ft..... 1,164.45
Hirsch Ditch...5,347 ft.@.41 per ft..... 2,192.27

If burning is permitted:

Stockfleth 6,296 ft.@.13 per ft.....$ 818.48
Schlensker...4,000ft.@.07 per ft..... 280.00
Buente Upper Big Creek "A"Lateral...3,666.5 ft.@.10 per ft..... 366.65
Aiken Ditch....3,327 ft.@.14 per ft..... 465.78
Hirsch...5,347 ft.@.18 per ft..... 962.46

Mr. Schmitt submitted a money order with his bid in the amount of $145.19

HAROLD J. PETERS:

Sonntag-Stevens...13,204 ft.@.10 per ft.....$1,320.40
Keil Ditch....3,012 ft.@.15 per ft..... 451.80

This bid is based on the fact that he will not burn. A cashier's check in the amount of $88.61 was submitted with Mr. Peters bid.

RALPH REXING:

Pond Flat "A" Lateral...5,311 ft.@.06 per ft.....$ 318.66
Pond Flat "B" Lateral...2,797 ft.@.06 per ft..... 167.82

Mr.Rexing submitted cash in the amount of $25.00 with his bid.

EUGENE REXING:

Pond Flat "D" Lateral...4,579 ft.@.10 per ft.....$ 457.90
Singer...2,450 ft.@.09 per ft..... 220.50

Mr. Rexing submitted cash in the amount of $35.00 with his bid.

263

MANFRED STAHL:

Schlensker Ditch...4,000 ft.@.08 per ft.....$ 320.00

Mr. Stahl submitted a money order with his bid in the amount of $16.00.

UNION TOWNSHIP DITCH ASSOCIATION:

Cypress-Dale.Maddox Ditch...23,887 ft.@.10 per ft.....$2,388.70
(A cashier's check in the amount of $119.44 was submitted with bid)

Kamp Ditch...11,160 ft.@.10 per ft.....$1,116.00
(A cashier's check in the amount of $55.80 was submitted with bid)

Barnett Ditch...8,358 ft.@.10 per ft.....$ 835.80
(A cashier's check in the amount of $41.79 was submitted with bid)

Helfrich-Happe Ditch...12,698 ft.@ .10 per ft.....$1,269.80
(A cashier's check in the amount of $63.49 was submitted with bid)

ALBERT SCHMITT:

Crawford-Brandis Ext...14,628 ft.@.13 per ft.....$1,901.64

Boesche Ext....3,742 ft.@.14 per ft..... 523.88

Kneer Ditch...3,036 ft.@.10 per ft..... 303.60

Maasberg Ditch..2,206 ft.@.12 per ft..... 264.72

(If burning not permitted)

Crawford-Brandis....39¢ per foot.
Boesche Ext.....42¢ per foot.
Kneer.....30¢ per foot.
Maasberg.....36¢ per foot.

Mr. Schmitt submitted a money order in the amount of $149.70 with his bid.

GILBERT J. RODE AND SONS INC....DREDGING OF EDMOND DITCH:

This bid not to exceed specifictions stated below. Any changes will be negotiated and additional payment required.
1. 4 foot bottom with 1.5 to 1 slopes with max. cut of 3 feet.....$9,965.90

Submitted with Mr.Rode's bid is a bid or proposal bond from American States Insurance Company.

Mr. Lugwick said that since the bid that came into the Auditor's office and opened by mistake is that of the Armstrong Scott Ditch Association and since they do have a new president, he would recommend they open it and accept it as a good bid. Commissioner Willner also recommend they open it.

ARMSTRONG SCOTT DITCH ASSOCIATION:

Pond Flat Main Ditch...29,351 ft.@.12 per ft.....$3,522.12

Pond Flat "E" Lateral...3,616 ft.@.10 per ft..... 361.60

Rusher...4,444 ft.@.10 per ft..... 444.40

Pond Flat "C" Lateral...9,036 ft.@.10 per ft..... 903.60

Lower Big Creek...7,501 ft.@.10 per ft..... 750.10
(A cashier's check in the amount of $299.09 was submitted with this bid)

Commissioner Ossenborg moved that the bids be taken under advisement for one week. Commissioner Willner seconded the motion. So ordered.

RE: CONTRACT BETWEEN OHIO VALLEY ENGINEERS AND THE DRAINAGE BOARD:

The following letter was presented to the Drainage Board along with an executed copy of the Engineering agreement.

The letter stated we should cancel the existing contract between Ohio Valley Engineers and the Drainage Board with reference to the preliminary work on the realignment of Harper Ditch which is done in conjunction with the City's improvement of Green River Road.

In addition, we should inform Ohio Valley Engineers for a final bill and instruction not to increase the cost thereof.

Thomas Swain.

Commissioner Ossenberg moved that the contract be canceled. Commissioner Willner seconded the motion. So ordered.

Meeting adjourned at 12:37 p.m.

VANDERBURGH COUNTY DRAINAGE
MAY 14, 1973

A meeting of the Vanderburgh County Drainage Board was held this 14th. day of May 1973, at 11:15 a.m. with President Bob Schaad presiding.

The minutes of the previous meeting were approved as presented and the reading of them dispensed. The motion for the approval of the minutes was made by Commissioner Ossenberg and seconded by Commissioner Willner. So ordered.

RE:LETTER....SOUTHERN INDIANA GAS AND ELECTRIC CO.

The following letter was presneted to the Drainage Board.

Gentlemen:

I have been advised that you have contracted with Ohio Valley Ingineers for the purpose of structure design for the road crossings in conjunction with the realignment of Harper Ditch. It is my understanding that the present alignment that runs northwesterly from the North Green River Road crossing will be abandoned in favor of a westerly alignment from this crossing that will involve the necessity of bridge type structures at the proposed new crossings at North Congress Avenue, the Southern Railway spur tracks, and North Stockwell Road.

We have high pressure gas distribution mains in the Congress Avenue and the Stockwell Road areas. These mains must be considered at the design stage of your project.

Please provide us with a set of plan and profile drawings as soon as they are available. We will provide you with the necessary adjustment requirements for our mains. This informations will be added to the plans provided. It is best for us to have a set of sepia tracings of such projects so that r productions can be made as needed; and in the event of loss there is a readily available replacement. The sepia will eliminate the need of doing the job over in the event of loss.

Please be advised that only one of these lines can be out of service at one time.

If you have questions concerning this request please direct your inquiry to me at the Company's Gas Engineering Department. My telephone extension is 263.

Yours truly
Southern Indiana Gas and Electic Company
R.D. Bracey
Supervisor, Gas Engineering

Commissioner Schaad said let us make a photostatic copy of this letter and send it to Ohio Valley Engineer. Mrs. Smith, the county commissioners secretary said she has sent a copy to Ohio Valley Engineer.

RE: MR. MOSBY'S PROBLEM

Commissioner Schaad asked about the problem that Mr.Mosby is having out at his place and Mr.Nussmeier said they have made a survey on this and he showed the commissioners a map of this area. He said this land is so very flat and he just doesn't know of anything they can do to give him any relief. They have talked to the R.R. about getting the culvert enlarged under the railroad and will meet with them again and try to get the ball rolling.

Mr. Pugh said this all goes into the Crawford-Brandis and it would have to be lowered also.

Mr. Ludwick said this is the trouble with the whole east side, that it is all so low and this involves so many ditches.

Mr. Pugh said he spoke to the plan commission and told them they ought to clamp down on development in this area until the drainage problem is solved.

Mr.Ludwick said they have a really big drainage problem out at Chickasaw Park, which is on the Kolb Ditch.

Mr. Nussmeier said they have this project out on Fuquay Rd. and Pollack Avenue, and he sees no reason why this problem with Chickasaw Park can't be included in this project.

Mr. Ludwick asked Mr. Volpe that when all of this money comes in from these ditch assessments, and due to the fact there is a $3.00 minimum, there is some surplus money, what is done with this and could it be used to work on these otherditches.

Mr. Volpe said it stays within that ditch and you can take that into consideration in your future assessments. You cannot use this money in any other ditch though, it must stay within that one ditch, because this is their money, the people who paid on that ditch. This isn't very much though, because these bids run pretty close. This is suppose to be for maintenance, and if it can be used for a little construction on the ditch, he isn't sure.

Commissioner Schaad asked Mr. Swain if they could use any of this money to do work with in that particular ditch and he said he really doubts it, and if there's such a large amount left over, then maybe they are over charging them, or else it isn't calculated right.

Commissioner Schaad asked when it reflected in the assessment and Mr. Swain said every five years.

Mr. Ludwick said most of these ditches need to be dredged, as they haven't been done for years.

RE: DREDGING OF EDMOND DITCH

The only bid that came in for the dredging of Edmond Ditch was Rode & Son in the amount of $9,965.90, which figures out to be about 65¢ per foot.

Mr. Nussmeier said he doesn't feel like this figure is out of line considering the cost of equipment.

Commissioner Willner said he thinks it is too high and we should re-advertise.

Mr. Swain said he thinks its bad policy to re-advertise and he would recommend we award the bid.

Willner agreed that it is if there were a lot of them but he can't see paying this much to have it done and he made the motion we reject this Edmond Ditch bid and re-advertise. Commissioner Ossenberg seconded the motion. So ordered.

RE: AWARDING OF BIDS FOR MAINTENANCE OF LEGAL DRAINS:

Commissioner Willner moved that the following ditches be awarded to the bidder stated:

AIKEN...Joe Schmitt....14¢
AIKEN EXT.....Raymond Steinkuhl...10¢
BAEHL...Leo C. Paul...07¢
BARNETT...Union Township Ditch Assoc...10¢
BARRS CREEK...Leo C. Paul...12¢
BOESCHE EXT....Albert Schmitt...14¢
BUENTE UPPER BIG CREEK.....No bid.
BUENTE UPPER BIG CREEK..L TERAL "A"...Joe Schmitt...10¢
CRAWFORD BRANDIS...Leo C. Paul...08¢
CRAWFORD BRANDIS EXT...Albert Achmitt...13¢
CYPRESS DALE-MADDOX...Union Township Ditch Assoc....10¢
HARPER....LeoPaul....10¢
HELFRICH-HAPPE...Union Township Ditch Assoc....10¢
HENRY....Edward Schmitt....0.135¢
HIRSCH....Leo Paul.....12¢
HOEFLING.....Edwin Kron....07¢
KAMP....Union Township Ditch Assoc.....10¢
KEIL.....Harold J. Peter....15¢
KELLY.....Edward Schmitt.....0.145¢
KNEER.....Albert Schmitt....10¢
KOLB.....Joseph Seib.....11¢
LOWER BIG CREEK.....Armstrong Ditch Assoc.....10¢

MAASBERG.....Cedel Maasberg...07¢
MAIDLOW.....Joseph Seib.....14¢
NURRENBERN.....Darryl Schmitt....06¢
POND FLAT MAIN ....Armstrong-Scott Ditch Assoc....12¢
POND FLAT "A" LATERAL.....Ralph R. Rexing.....06¢
POND FLAT "B" LATERAL....Ralph Rexing.....06¢
POND FLAT "C" LATERAL....Armstrong-Scott Ditch Assoc.....10¢
POND FLAT "D" LATERAL....Eugene Rexing.....10¢
POND FLAT "E" LATERAL.....Armstrong-Scott Ditch Assoc.....10¢
RUSHER....Armstrong-Scott Ditch Assoc.....10¢
SCHLENSKER.....Joe Schmitt....07¢
SINGER.....Eugene Rexing....09¢
SONNTAG STEVENS....Harold J. Peter....10¢
STOCKFLETH.....Joe Schmitt....13¢
WALLENMEYER....No bid.

There was a tie on the bid for Harper Ditch and since there was no advantage on it one way or another and Mr. Paul has done this for the last several years the board awarded it to him again this year.

Included in Commissioner Willner's motion was to ask the County Engineer to ask for invitational bids from anyone he so chooses and that there be three of them. Commissioner Ossenberg seconded the motion. So ordered.

Mr. Swain said he still opposes to this.

RE: HARLOLD J. PETERS

Mr. Peters said concerning Howell Ditch out behind Whirlpool. This does need to be cleaned out and he would like to have the bid on it. Dick Nussmeier is to check on this and see why it hasn't been cleaned and report back to the drainage board.

RE: HILLSDALE

Commissioner Willner said he has received several phone calls about the drainage problem in Hillsdale which is east of Highway 41. Several years ago the drainage board cleaned it and now it is grown up again and they would like for us to try to do something about it.

Mr. Ludwick said they did a drainage survey on this about three years ago and this is on private property.

Commissioner Willner said he still believes something can be done to it and made a motion that the Engineer make a complete survey on the problem and bring his recommendation before the drainage board. Commissioner Ossenberg seconded. So ordered.

Meeting adjourned at 11:45 a.m.

VANDERBURGH COUNTY DRAINAGE
MAY 21, 1973

A meeting of the Vanderburgh County Drainage Board was held this 21st. day of May, 1973, at 11:58 a.m. with President Robert Schaad presiding.

The minutes of the previous meeting were pproved as presented and the reading of them dispensed with.

RE: ERROR IN MINUTES OF MAY 14th.MEETING:

In the May 14th. minutes the ditch that runs behind Whirlpool was called Howell Ditch and it is not that but rather the Sonntag-Stevens Ditch.

Commissioner Schaad asked Mr.Nussmeier if he had looked into this any further and he said no he hadn't, but he would try to get to it before the next meeting.

RE: HILLSDALE:

Commissioner Willner asked if they had completed the report on Hillsdale yet and Dick said not yet and that he would also try to have that by next week.

RE: CONTRACT....R.H. LUDWIG AND CO.,INC.

The following letter was presented to the Drainage Board for their signature.

Dear Mr.Nussmeyer,

As per your conversation with Tim Rolph and Tom Howell of our company, we are confirming our proposal for mapping and cross sections.

We propose to furnish a strip map at a scale, 1"= 50', approximately 300 ft. wide, with cross sections each 50 ft. on mylar, penciled manuscrip , project being approximately 5½ miles long to be completed before foliage is out.

Price.....$8,000.00
(including all ground control)

Thank you for the opportunity to offer this proposal.

R.H. LUDWIG AND CO.,INC.

Commissioner Ossenberg moved that this be approved and signed. Commissioner Willner seconded the motion. So ordered.

RE: CARPENTER CREEK:

Mr. Nussmeier said he has recieved some complaints on Carpenter Creek, as there are some junk cars in the ditch. These have blocked up the running of the ditch and is running up into private property. This was a legal drain but it has been abandoned. Mr. Swain said it is now a natural waterway and we aren't responsible for it.

Mr. Stephens said we are not responsible for it and if we try to go out there and do anything about it, they could sue us.

MEETING ADJOURNED AT 12:05 p.m.

VANDERBURGH COUNTY DRAINAGE
MAY 29, 1973

A meeting of the Vanderburgh County Drainage Board was held this 29th. day of May 1973, at 11:30 a.m. with President Robert Schaad presiding.

The minutes of the previous meeting were approved as presented, the reading of them dispensed with.

RE: HIRSCH DITCH

This is concerning a problem in Hirsch Ditch where it goes under Green River Road. There is a 72 inch pipe in this. The Telephone Company, Water Company and Gas and Electric Company are all involved in this. They can get the Water Company and Gas and Electric Company out of the way, but the Telephone Company is the problem as they have so many cables in there that it is virtually impossible to change it now. We want to raise the grade on the pipe that we have in there, approximately one foot. We will have to revise the plans on Oak Hill Road to conform with this, but we can do it.

Mr. Stephens asked what kind of provisions will they have to make and Mr.Nussmeier said we'll have to revise the whole ditch drainage.

Mr.Stephens asked how deep these telephone cables are and Mr. Eiffler said not deep enough. He doesn't know the elevation on the thing but we can't get the pipe clear of it, as it will take a six foot pipe. At the time the cables were layed out there it no doubt was within the right-of-way of the road, as it was then and also within the right-of-way of the legal drain.

Commissioner Schaad asked about the expense and Mr. Nussmeier said it won't be very expensive for us, but rather for the city.

Mr.Stephens asked if the alteration would cause any problem in drainage of the ditch and Mr. Nussmeier said he didn't see where it would.

Commissioner Willner said you are going to raise the structure a foot so will it have any effect on that and he said no, we have plenty of depth on the structure so it won't hurt that.

Commissioner Willner said he isn't very receptive if this is going to lessen the effectiveness of the ditch.

Mr.Nussmeier said actually, the ditch will be in better shape than it is now.

Commissioner Willner said aren't they on our right-of-way and Mr. Eiffler said no, because when they put the cables in they were with their wight-of-way and didn't violate any laws or ordinances.

Commissioner Willner said don't we have 25 foot on either side of legal drains and Mr. Eiffler said not in this case we don't because we have Railroad problems and this ditch runs along side of these tracks and Old Hogue Road is on the other side.

RE: DITCH BEHIND WHIRLPOOL

Commissioner Schaad asked about this ditch and Mr. Nussmeier said the contract was let by the previous administration and this has all been done and taken care of, as this bridge has been removed.

Meeting adjourned at 11:40 a.m.

VANDERBURGH COUNTY DRAINAGE
JUNE 4, 1973

A meeting of the Vanderburgh County Drainage Board was held this 4th. day of June 1973, at 10:45 a.m. with President Robert Schaad presiding.

The minutes of the previous meeting were approved as presented, and the reading of them dispensed with. Commissioner Ossenberg moved they be approved and Commissioner Willner seconded the motion. So ordered.

RE: CLAIM:

Mr. Ludwick presented the Drainage Board with the following claim for approval of payment.

JERRY L. DAVID EXCAVATING CO. INC.

FOR: Demolition of brick and concrete structure in Keil Ditch located South of St.George Road and adjacent to S.I.G.E. Company sub-station of 5-18 and 5-21-73.
Contract price.....$1100.00

Commissioner Ossenberg moved that it be approved. Commissioner Willner seconded the motion. So ordered.

RE: HIRSCH DITCH

Commissioner Schaad said he noticed in last weeks meeting on this, they wanted to raise the grade on a pipe approximately one foot. Mr.Eiffler told them this had to be done and he wondered if there should have been a motion made on it.

Mr. Stephens said it should appear in the minutes, but sees no reason for a motion to be passed on it.

RE: INVITATIONAL BIDS....WALLENMEYER AND BUENTE UPPER BIG CREEK "A" LATERAL :

Mr. Ludwick said he would like for the minutes to show that he has sent letters to each of the following bidders asking them for bids on the Wallenmeyer and Buente Upper Big Creek "A" Lateral Ditches.

VANDERBURGH COUNTY DRAINAGE
JUNE 11, 1973

A meeting of the Vanderburgh County Drainage Board was held this 11th. day of June, 1973, at 11:55 a.m. with President Bob Schaad presiding.

The minutes of the previous meeting were approved as presented, the reading of them dispensed with. The motion for the approval of the minutes was made by Commissioner Ossenberg and seconded by Commissioner Willner. So ordered.

RE: LETTER....COLONIAL GARDEN CENTER, INC.

The following letter was recieved by the Drainage Board:

Gentlemen:

Several weeks ago I made a personal appearance at your Drainage Board Meeting, at which time we discussed enlarging the culvert adjacent to Fuquay Road, approximately 300 foot north from the north side of Outer Lincoln Avenue. At that time it was suggested by your board that this would be a joint project with the City, since it is on the City-County line, and that we should contact Henry Sauer, President of the Evansville Board of Works, to expedite this project, which we did. Since then, I have heard no further response as to the progress of this project and felt that since it is important to the development of several hundred acres of real estate, both developed and undeveloped, that our request is not unreasonable.

In discussing this drainage problem with many residents and land owners in the area, they feel that since the first request was made over two years ago, that sufficient time has elapsed to have done the engineering, budgeted necessary monies and gotten this project completed.

We will appreciate the courtesy of your prompt reply.

Sincerely,
COLONIAL GARDEN CENTER, INC.

Mr. Eiffler was present at this meeting and Commissioner Schaad asked him would he please give Colonial Gardens a reply and he said yes, he would be glad to send them a letter.

VANDERBURGH COUNTY DRAINAGE
JUNE 18, 1973

A meeting of the Vanderburgh County Drainage Board was held this 18th. day of June, 1973, at 11:13 a.m. with President Bob Schaad presiding.

The minutes of the previous meeting were approved as presented, the reading of them dispensed with. The motion for the approveal of the minutes was made by Commissioner Ossenberg and seconded by Commissioner Willner. So ordered.

RE: LETTER...FROM GAYLON CLARK...CONCERNING CONTINENTAL INS. COMPANY:

The following letter was recieved by the Drainage Board:

Dear Tom:

As I have discussed with you my client, Continental Insurance Company has advised that under their policy they do not provide coverage for Vanderburgh County Drainage Board or Richard Nussmeyer, Surveyor or Sam Biggerstaff,Former Surveyor. I will appear for Schaad and Ossenberg as commissioners. I have talked with both you and Bill Stephens about this and I am sending Bill a copy of my letter. I assume you will see that the interests of the Drainage Board, Nussmeyer and Biggerstaff are either protected or at least they are advised of the situation.

If you have any questions at all please don't hesitate to call.

Yours truly,

McCRAY, CLARK, STATHAM & McCRAY

This is concerning a law suit on Sunrise Drive. Commissioner Ossenberg said he received a letter telling him he was going to receive a summons, but he never did.

Mr. Swain said the insurance company denied coverage to the drainage board. He said he talked to a Torian agent and told them that the drainage board was the county commissioners and its his understanding they, the drainage board, are covered. This conversation was by telephone and he wants it confirmed by a letter. They have not picked up coverage for Nussmeyer and Biggerstaff.

Commissioner Willner asked if they were covered at no extra cost to the county and Mr. Swain said he thinks that is correct, but he couldn't assure him of it, because they could raise their premium. He said the policy reads real funny and it doesn't read like it even covers the three commissioners.

Commissioner Schaad asked why Mr. Nussmeyer isn't covered and Mr. Swain said because he isn't insured, like-wise neither are the Auditor or Treasurer.

Mr. Swain said he spoke only to an agent, but he is trying to get in touch with Paul Torian.

Commissioner Schaad said he would like to get it streightened up because it seems to him any elected official should be protected.

Commissioner Willner asked when this suit was filed and Mr. Swain said in 1971, and that this is an amended complaint.

Commissioner Ossenberg re d Section 104. The county commissioner and county surveyor, ex-officials shall constitite the county drainage board in each county in the state.

Mr. Swain said he would work on it and try to get a clarification and report back to the Drainage Board his findings.

RE: LETTER....COLONIAL GARDEN CENTER, INC.

The following letter was received by the drainage board:

Gentlemen:

We have learned from Board of Works President, Henry Sauer, that the city is prepared to do the engineering drawings and provide half of the money for increasing the

culvert size to eliminate the storm drainage problem on Outer Lincoln Avenue in the Nurrenbern Ditch where the culvert is too small, 30 ft. north of Outer Lincoln Avenue on Fuquay Road. The Evansville Board of Works estimate for this project is $50,000.00 and they have set aside $25,000.00 to pay for the city's half of this project.

In the meeting that I attended of the Vanderburgh County Drainage Commission earlier this year, it was indicated that if the city would pay 50%. Apparently this has been accomplished. Please notify immediately, the Board of Works Department and instruct them to go ahead with the engineer's plans and let this project for bids, in order that it be accomplished this summer for fall, winter and spring drainage this coming year.

Although it has been a long time in the process, we sincerely appreciate your coopers-tion and are certain that the residents and landowners of the affected area will also appreciate your cooperation.

Sincerely,
James A. McCarty

Mr. Nussmeyer said they want to install an 84" pipe all the way through and it hasn't been decided yet who will do the engineering on it.

Mr. Swain said in a sense aren't you reconstructing the legal drain and if so, shouldn't the land owner be assessed instead of the city and county sharing expense. We'd have to make up the plans and hold public hearings and assess them, and as far as the city is concerned, the drainage code now provides you can treat them as a land owner and assess them as so. He said its a matter of who's in the water shed and if its all in the city then the city should pay for all of it.

Commissioner Ossenberg said he would think more than 80% is in the city.

Commissioner Willner said since when is it even permissable to cover a drainage and

Mr. Swain said yes thats what puzzles him.

Commissioner Willner said if we do this, then the next guy that wants a drainage ditch covered, we will have to do theirs.

Mr. Swain said under an allotment the landowners would pay for it.

Commissioner Schaad said he doens't see how we can put tile that big in the peoples front yards. These people north of there would never agree to this because they aren't having problems.

Commissioner Willner said he just isn't for tiling it.

Mr. Swain said we can always abandon it.

Mr. Nussmeyer said we have the same problem out on Kolb Ditch, in Chickasaw Park.

After more discussion and no decision on it Commissioner Schaad said why don't we refer it back to Mike and Mr.Nussmeyer and let them work on it and try to come up with a solution. Mr. Nussmeyer said to give them two or three weeks to work on it.

Commissionor Schaad said maybe we should get Jesse Crooks to look into it also.

RE: LETTER....WARRICK COUNTY SURVEYOR:

The following letter was received and ordered filod.

Gentlemen:

On June 11th. I discussed our reconstruction plans for Lockwood Ditch with your Drainage Engineer, Mike Ludwick. Mr.Ludwick indicated a need for improved Vander-burgh County drainage in the Telephone Road area. Preliminary flowline elevations for our reconstruction reflect the possibility of draining this area by extension or our reconstruction.

It is requested that we hold a bi-county meeting on July 13, 1973, at 10:30 A.M. in this office. Please notify me if this day and time are agreeable.

George Allon Trabits
Warrick County Surveyor

Mike said that is fine with him and that Mr.Kandel and himself will attend.

RE: EAGLE SLOUGH:

Mr. Nussmeyer said he has met with the contractor on Eagle Slough and he is having a problem as he should have the work completed and hasn't. The rain has been very heavy as we all know and the slough is under water even now. Mr. DePriest is asking that the drainage board give him an extension date on the completion of this. HAZELWOOD

Commissioner Ossenberg moved that we grant an extension date on the completion of Eagle Slough till December 1st.1973. Commissioner Willner seconded the motion. So ordered.

Mr. Nussmeyer said we are having another problem out off of old highway 41. Mud is chest high our there and we are going to have to get the area drained so that it can be cleared so that we can get it staked. There is going to have to be some preliminary work done out there at a cost of probably somewhere around $2,000.00.

Mr. Swain said he doesn't object to paying him for the extra work as long as we get credit for the dirt he is suppose to be moving anyway, as stated in his contract.

Commissioner Schaad said he agrees with this, but we are going to have to get something done, because this is only going to delay it that much longer.

Dick said we need to run a dragline down through there.

Commissioner Ossenberg moved that they grant a change order so that this may be draglined and that the cost is not to exceed $2,000.00. Commissioner Schaad seconded the motion. So ordered.

Meeting adjourned at 12:07

VANDERBURGH COUNTY DRAINAGE
JULY 2, 1973

A meeting of the Vanderburgh County Drainage Board was held this 2nd. day of July, 1973, at 10:46 a.m. with President Robert Schaad presiding.

The minutes of the previous meeting were approved as presented, the reading of them dispensed with. The motion for the approval of the minutes was made by Commissioner Willner and seconded by Commissioner Schaad. So ordered.

RE: CLAIM: EAGLE SLOUGH....PRIEST HAZELWOOD AND SONS, INC.

The following claim was presented to the Drainage Board for approval of payment:

PRIEST HAZELWOOD:
Total.....$12,466.10
Deductions (30% Retainage).....$3,739.83
Balance.....$8,726.27
Previous Payments.....$7,560.00
Amount Due.....$1,166.27

There was an itemized statement attached to this claim.
Commissioner Willner moved that this claim be approved. Commissioner Schaad seconded the motion. So ordered.

Mr. Volpe said he just paid off the first installment of the Bond Issue in the amount of $26,690.00. Twenty bonds were redeemed and then $6,690.00 worth of interest. It was suppose to be $30.00 but we sold it 21 days ahead at the beginning of the year so he paid $33.45 on each one.

Commissioner Schaad asked him about the sending out of the bills and Lew said since these bills, ledgers and journals were all new this year and it took so long to get state approval on them, we didn't receive the bills until the day before they were to be mailed out, he didn't mail any. They will have to go out in the fall.

RE: INVITATIONAL BIDS:

Mr. Ludwick said on May 30th. they asked for invitational bids on Wallenmeyer and Buente Upper Big Creek, by sending out six letters to bidders that they thought would be interested in bidding on them. They received no bids on Buente Upper Big Creek and only one on Wallenmeyer Ditch. At this time he would like for the records to show that he is asking the Drainage Board to drop the assessments on Buente Upper Big Creek for next year.

Commissioner Willner asked him does he base this request on the fact it doesn't need cleaning and Mike said no, as it does need cleaning, but no one wants to do the job.

Commissioner Willner asked if they gave any reasons why they didn't want to do it and Mike said no, not even a reply from the letters sent out.

Commissioner Willner asked if they contacted the Armstrong-Scott Ditch Association and Mike said they sent a letter to the person that was president last year, but received no reply.

Mr. Volpe said could a Highway crew go out and clean it and then let the highway send them all a bill for a reasonable amount.

Mike said it is a very big ditch and does need cleaning and if it isn't cleaned this year, its going to be a big problem next year.

Commissioner Schaad said maybe we should take this under advisement and check into it and get a legal opinion on it.

Commissioner Willner asked what was the bid price on the Wallenmeyer Ditch and Thomas Swain said 20¢ a foot if burning is allowed and 37¢ a foot if burning is not allowed. The ditch is 8,355 feet.

Commissioner Willner said he is wondering if the time limit we set is what is bothering these bidders and that maybe we better make some phone calls and find out why.

Commissioner Schaad said we will take this under advisement for one week and check out all these possibilities.

Meeting adjourned at 10:55 a.m.

VANDERBURGH COUNTY DRAINAGE
JULY 9, 1973

A meeting of the Vanderburgh County Drainage Board was held this 9th. day of July, 1973, at 12:00 noon, with President Robert Schaad presiding.

The minutes of the previous meeting were approved as presented, the reading of them dispensed with. The motion for the approval of the minutes was made by Commissioner Ossenberg and seconded by Commissioner Willner. So ordered.

RE: PETITION.....CONCERNING HARPER DITCH

This is concerning a piece of property which is about six hundred and some feet east of the intersection of Green River Road and Division Street. Mr.John Carroll showed the board members a map and pointed out the property to them, showing how close it lies to Harper Ditch. A statute was passed in 1965 that you cannot build within 75 feet of a legal open drain unless you get the consent of the Drainage Board. So, what he is asking for is consent to build a permanent structure within 75 feet of Harper Ditch and at this time he presented a petition asking for this consent. It will actually be about 45 feet from the ditch, at the closest point.

Mr. Bill Nicholson from Engineer Associates was present and explained at this time that at the present there is the S.I.G.& E. easement and they want to abut the building right to that property line. He showed them on the map where the property lines were at.

Mr.Nussmeier said there is no spoil bank on Harper Ditch through this area--it is actually flat as its been farmed right up to the point of the ditch. He said they have no objection to this building going up this close to the ditch.

County attorney Bill Stephens said then we don't need to be any closer than that in order to maintain the ditch and Dick so no.

Commissioner Schaad asked if Tom Pugh has seen this and Mr.Carroll said yes, he showed it to him and discussed it with him and Tom has no objections what-so-ever.

Mike Ludwick said he too had talked to Tom Pugh and Tom told him he had no objection. One thing he would recommend if we do accept this and that would be to let the minutes show that we would not be responsible for any damage done to a parking lot or any improvements they make, when we go in to clean this ditch.

Mr. Stephens asked will we have to go in that lot to clean this and Mike said he isn't sure, but we need this protection in writing.

Mr. Carroll said the statutes specifically provide that you can put temporary structures within that 75' but if they're put in,that very thing you're talking about, with any damage to a temporary structure, in terms of cleaning out that ditch,are things the property owner is responsible for.

Commissioner Schaad said since this is a permanent structure couldn't it make a difference.

Mr. Carroll read the following statute:

Temporary structures may be placed over a right-of-way without the consent of the board but shall be removed immediately by the land owner when so ordered by the board or Surveyor. Crops grown on right-of-way are at the risk of the land owner. If necessary in the reconstruction or maintenance of the drain may be damaged or destroyed, without liability on the part of the Surveyor, the board, or representative. Trees, shrubs or woody vegatation may not be planted in the right-of-way without the written expressed consent of the board. Existing trees and shrubs may be removed by the Surveyor if necessary for proper operation of maintenance of the drain..

Mr. Stephens said but what about damage to a parking lot, because these things you have talked about are temporary, and didn't include a permanent structure.

Commissioner Schaad asked if it would be agreeable if we added this to it and Mr. Carroll said he is sure they would have no objections.

Commissioner Willner moved we accept this with the provision make that we won't be liable for any damage to any permanent structure when we maintain Harper Ditch. Commissioner Ossenberg seconded the motion. So ordered.

RE: INVITITATIONAL BIDS

Commissioner Schaad asked about the invitational bids on Wallenmeyer and Buente Upper Big Creek Ditches and Mike said he has made several phone calls and he thinks they will get some bids in on thes in the next week or so. The time limit is one thing that is bothering these bidders, and this year especially it creates a problem.

Commissioner Willner said on these two ditches maybe we could waive the time limit.

Commissioner Schaad said its going to be a worse problem if we don't.

Commissioner Willner moved the Drainage Board grant a ninty day extension to the Wallenmeyer and Buente Upper Big Creek Ditches time limit. Commissioner Ossenberg seconded the motion. So ordered.

Mr. Ludwick was asked to contact these bidders and inform them of the extended time.

RE: McCARTY PROPERTY

Commissioner Schaad asked how things were going out on the McCarty property as far as the city is concerned, as this is where the city was paying 50% of the cost and the county paying 50% of it. It was to be checked into and see how much of the water shed was in the city and how much in the county.

Mr. Ludwick said the total of the water shed is 301 acres. The area in the city is 128 acres and the area in the county is 173 acres. The run off factor is higher in the city but since there's more acres in the county it cancels that out. The pipe sizes are even, so we still come up with the same pipe size which is 6X68, which equals 84 inches.

Commissioner Schaad said with these figures then, it looks like the county will be getting the better end of it.

Commissioner Willner said if we are going to set a precedent here and do it in one area, then we're going to have to do it in all other areas. He doesn't want to do it for one and not another.

Commissioner Schaad said what other solution do we have if we don't pipe it.

Attorney Bill Stephens said are you setting a precedent here or making an exception in this case because of the problem out there.

Commissioner Schaad said there is a drain there now thats not adequate, as a big pipe goes into a smaller one, and everythings under sized.

Mike said as far as he knows, this is the only existing problem of this kind.

Mr. Nussmeier said we could abandon this 300 ft. portion of the ditch and then pipe it.

Commissioner Willner said if we construct this pipe who will pay for it, that is, out of what account, as he will go along with it if we have this much money in this particular ditch account.

Mr. Nussmeier said he thinks we can pay for it out of the bridge account.

Mr. Stephens said he thinks we've got a problem there, as to what account to pay it from.

Commissioner Willner said if the people who pays for this ditch maintenance will pay for it, he is for it, and if they don't , then he will pass on it.

Mr.Stephens said if we abandon it we will have to hold public hearings, but then we will have to hold them if we assess these people on this ditch too.

Commissioner Schaad suggested that we take this under advisement for another week and also that we get an opinion from Mr.Capp Hudson as to what account we can legally take this out of.

Meeting adjourned at 12:30 p.m.

VANDERBURGH COUNTY DRAINAGE
JULY 16, 1973

A meeting of the Vanderburgh County Drainage Board was held this 16th. day of July, 1973, at 11:47 a.m. with President Robert Schaad presiding.

The minutes of the previous meeting were approved as presented, the reading of them dispensed with. The motion for the approval of the minutes was made by Commissioner Ossenberg and seconded by Commissioner Willner. So ordered.

RE: PROBLEM ON McCARTY PROPERTY:

President Schaad asked Mr.Ludwick if he has found out any more about this problem and if he had talked to Mr. Hudson.

Mr. Ludwick said he talked to Mr. Hudson and he told him that possibly it could be taken from the R.&S. or Bridge Funds, but he couldn't tell him for sure. He referred him to Mr.Slater in Indianapolis. Mike said he tried to reach Mr. Slater several times, but couldn't. So until Mr. Slater is contacted he doesn't know any more about it.

County attorney Bill Stephens asked Mr. Nussmeyer if he could justify this as a road job and he said yes, he could.

Commissioner Schaad said then we'll have to defer this until Mr. Slater can be reached for his opinion.

RE: INVITITATIONAL BIDS:

Commissioner Schaad asked Mr. Ludwick if he has had any more luck on the bids for Wallenmeyer and Buente Upper Big Creek and Mike said they have received a bid on Buente Upper Big Creek from Anthony Bittner.

At this time attorney Bill Stephens opened the bid which was for 15¢ per foot, for a total of $3,231.20. Mr. Stephens said the non-colusion avidavit was in order but he failed to have the bid notorized.

Upon the recommendation of the Drainage Engineer Commissioner Willner moved that they award the bid to Mr. Bittner, subject to him coming in and having the bid notorized. Commissioner Ossenberg seconded the motion. So ordered.

Commissioner Willner moved they defer the awarding of the bid for Wallenmeyer Ditch for one week, because Mike thinks he will get another bid on it. Commissioner Schaad seconded the motion. So ordered.

RE: CONSENT TO ERECT PERMANENT STRUCTURES:

County Attorney Bill Stephens presented a consent to erect permanent structures to the drainage board. This had been presented the week before and was approved, subject to the sentence being added saying the County shall not be liable for any damage within such fifty foot strip reasonably necessary in the care and maintenance of Harper Ditch.

Commissioner Schaad said to let the record show this has been received,signed and filed.

Meeting adjourned at 12:00 noon.

PRESENT:

VANDERBURGH COUNTY DRAINAGE BOARD MEMBERS

VANDERBURGH COUNTY DRAINAGE
JULY 30,1973

A meeting of the Vanderburgh County Drainage Board was held this 30th. day of July, 1973, at 11:00 a.m. with President Robert Schaad presiding.

The minutes of the previous meeting were approved as presented, the reading of them dispensed with. The motion for the approval of the minutes was made by Commissioner Ossenberg and seconded by Commissioner Willner. So ordered.

RE: CLAIM

A claim was presented to the drainage board for approval of payment for Priest Hazelwood and Son, Inc., for work completed between June 30 and July 15, 1973. This was for the amount of $2,483.46, and has been approved by Dick Nussmeyer. Commissioner Ossenberg moved it be approved and was seconded by Commissioner Willner. So ordered.

County Auditor Lewis Volpe said he made the bond payment on June 30th. and that he has retired twenty bonds. The interest was approximately $6600.00. No bills have been sent out on Eagle Slough yet.

RE: INVITATIONAL BID...WALLENMEYER DITCH

An invitational bid was presented by Mr.Ludwick from Leo N. Bittner for the cleaning of Wallenmeyer Ditch, at the rate of 12¢ per foot or for a total of $1,002.60. A check was enclosed in the amount of 5% of the bid or $200.10. Mr. Ludwick recommended this bid be accepted. Commissioner Willner moved that they accept the bid and was seconded by Commissioner Schaad. So ordered.

Mr. Ludwick said that there as another bid for cleaning this ditch from a Mr. Smith which was from 30¢ to 40¢ per foot and this bid was rejected.

RE: EXTENSION REQUESTED....ARMSTRONG SCOTT ASSOC.

Mr. Ludwick said he had a request from the Armstrong-Scott Ditch Association for an extension of time on all of their ditches, the reason being that they used spray, and with all the rain that we've had, the crops are being put in late and will be harvested late. The deadline was set at November 18th. and they would like an extension of two months, as they won't be able to spray now, they will have to burn.

Commissioner Willner moved that the Armstromg-Scott Ditch Ass'n be granted a sixty day extension, making the deadline January 18,1974. Commissioner Ossenberg seconded the motion. So ordered. Mr. Swain suggested that a letter by sent to them to this effect.

RE: OUTER LINCOLN AVE. AND FUQUAY RD.

Commissioner Schaad said that project on Outer Lincoln Ave and Fuquay Road has been discussed in previous minutes of the Drainage Board but that it has now been transferred to the County Commissioners to be handled as a road job under R & S Funds and not under the Drainage Board.
Commissioner Ossenberg moved that this fact be so recognized and made a part of the minutes. Commissioner Willner seconded the motion. So ordered.

Meeting adjourned at 11:10 a.m.

AUGUST 20, 1973

A meeting of the Vanderburgh County Drainage Board was held the 20th. day of August, 1973, at 11:16 a.m. with President Robert Schaad presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: JAMES BUTHOD....CENTER DEVELOPERS:

Mr. Buthod said he is representing Center Developers Limited who is developing Woolco Shopping Center at the corner of Green River Road and Division Street. There is insufficient storm sewer on Green River to drain this project, so they are proposing to take the building drainage and drain it eastward to Harper Ditch, which is pretty well silted up, as we all know.
Mr. Buthod showed the drainage members a map, pointing out the location of Harper Ditch and where the new proposed building will be located.
Part of the parking lot drainage will run to Green River, where there will be a 36 inch line to take it on into the bigger sewer. Harper Ditch runs right along the S.I.G.& E. easement and then up northward over to Green River.
Subject to working out the details, his clients are willing to assume the cost of cleaning and reconstructing Harper Ditch in accordance with county specifications, in return for the fill dirt that will be removed, because they do need some fill dirt. They are trying to get an estimate for the reconstructing of the ditch now, but have not received it yet, but they feel it will be roughly equivelent to what they would have to give for fill dirt. This way the county will get the work done for nothing.
He said he just wanted the drainage board to see this, as it is still a preliminary matter, and he will have more details when Engineer Associates finishes recalculating what size ditch, etc.
This,in general, is what they are proposing. They aren't quite ready to move on it yet but they did want the drainage board to be informed of it.
They are trying to make a deal with a Mr. Kemp for him to take some of the fill dirt in excange for an easement that they need.

Mr. Nussmeyer said if the ajoining property owners have no objection to it, he feels it is a good deal for the county.

Harper Ditch, west of Green River Road has been abanded, so this will have no effect on that.

Mr. Buthod said he hopes to be back next Monday with further details on this.

RE: RECOGNITION OF BOB WILLNER JR.

President Robert Schaad said he thinks we should recognize Bob Willner Jr. as being a guest in our meeting today.

SEPTEMBER 10, 1973

A meeting of the Vanderburgh County Drainage Board was held the 10th. day of September, 1973, at 11:05 a.m. with President Robert Schaad presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: CLAIMS

A claim for R.H. Ludwig & Co. was persented to the Commissioners for payment of $609.00, the claim was for Photograph and Field checking on Eagle Slough. (The time and material accrued to date on contract cros-sectioning, contract cancelled due to high water.

A claim for Thomas Swain was presented to the Commissioners for 3rd Quarter Attorney fees for the Drainage Board in the amount of $437.50.

A claim for Priest Hazelwood & Son., Inc. in the amount of $9,960.97 was presented to the Commissioners for payment.
Commissioner Ossenberg moved the three (3) above claims be approved, seconded by Commissioner Willner, so ordered.

RE: FRED BUENTE:

Mr. Buente said he had some petition in the County Surveyor's office when Sam Biggerstaff was Surveyor. He said what he is mostly interested in is the extension of Maidlow Ditch. Mr Buente said the last time he was there they told him they would take care of this as soon as they could get to it. He said the former commissioners told him they were soon ready to start on it. Mr Buente said the petitions have been in the surveyor's office for about five (5) years.
Mr. Ludwig, from the surveyors office said he could find no petitions but he did find where Mr Biggerstaff had done something on it. Mr Nussmeyer suggested they turn in a new petition. The Commissioners recommended that Mr. Nussmeyer and Mr. Ludwig get together with Mr Biggerstaff and Mr. Buente and see what can be worked out.

VANDERBURGH COUNTY DRAINAGE
SEPTEMBER 17, 1973

A meeting of the Vanderburgh County Drainage Board was held the 17th day of September, 1973, at 11:35 a.m. with President Robert Schaad presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: CLAIMS

The following claims were presented to the Commissioners for payment:

Albert Schmitt for the Annual Maintence of Boesche Ext. in the amount of $523.88

Joseph Schmitt for the Annual Maintence of Aiken, Schlensker and Stockfleth Ditches in the amount of 1,564.26.

Commissioner Ossenberg moved the above claims be approved, Commissioner Willner seconded the motion. So ordered.

RE: MIKE LUDWICK

Mr. Ludwick said the Union Township Ditch Association ask him to ask the County Attorney if under the annual maintence, did that have to be advertised or let the association have the contract and they take care of it or what would be the process. Mr. Swain said he would give an answer later because there is a price break where they don't have to advertise, but he doesn't know what it is. He said he would check into it and let them know.

RE: CLAIMS

A claim to Albert Schmitt for maintenance to Kneer Ditch in the amount of $303.60 was presented to the Commissioners for approval. Commissioner Ossenberg moved the claim be approved, Commissioner Willner seconded, so ordered.

A claim to Priest Hazelwood and Son Inc. in the amount of $5,265.00 for Eagle Slough. Commissioner Ossenberg moved they pay it. Commissioner Willner seconded. So ordered.

A claim for William Stephens, Attorney fees for the third quarter in the amount of $437.50, the claim was moved for approval by Commissioner Ossenberg and seconded by President Schaad.

Mr Volpe said they were in the process of sending the Eagle Slough Reconstruction Bills.

RE: MIKE LUDWICK

Mr Ludwick said a letter has been passed back and forth several times, it concerns cleaning a ditch in the Lincoln, Burkhardt area. He said this is not a legal drain but has been cleaned out twice. Commissioner Schaad said since is not a legal drain it should be referred to the County Commissioners.

Mr. Ludwick also said about two (2) weeks ago he brought up the subject of the Union Township Ditch Association. He wants to know if they can let their own contract if they can get it cheaper, on an anual maintenence and not on re-construction. County Attorney William Stephens is looking this up and will report back to them.

VANDERBURGH COUNTY DRAINAGE
OCTOBER 22,1973

A meeting of the Vanderburgh County Drainage Board was held the 22nd. day of October, 1973, at 10:20 a.m. with Vice President Thomas Ossenber presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: EAGLE SLOUGH...WILLIAM LLOYD

Mr. William Lloyd was present and said that on April 5,1972 he received notice of his assessment of Eagle Slough for the reconstruction of it in the amount of $1,059.89. As far as he knows there were no more meetings on this and he was never notified of an increase in his assessment. A week or so ago he received his bill for this in the amount of $1,121.83 and he wants to know why the difference. He asked what was the accepted bid on this and Mr. Swain said $119,000.00. Mr. Swain said the first bid, in which the advertising was in error, was for approximately $160,000.00, which was quite a bit higher. He explained these were unit bids and could vary. Tom also said the notice that Mr. Lloyd received on this was an estimated assessment and could go up or down.

Mr. Lloyd said when they figured his first assessment on the $160,000.00 it was only around $800.00 for his part, so why is it so much higher on the $119,000.00 bid.

Mr. Swain said you pay on the $200,000.00 bond issue and not the bid price. The bond issue on the $160,000.00 bid was $225,000.00 which would make you pay more than the $1,121.83 you are assessed for now. Mr. Swain also explained that between the first and second assessment there were objections filed and after re-surveying these parcels some of the acreage was found to drain directly into the Ohio River and these were dropped from the assessment roll, causing an increase to the rest of the property owners.

Mr. Biggerstaff said its true that a large amount of acreage was dropped from this after a re-surveying of it.

Commissioner Willner asked what happens to the money difference between the $119,000.00 bid price and the $200,000.00 bond issue and Mr. Swain said under the provisions of the bond, any monies left over can be used to pay off the bonds using the oldest bonds first.

Mr. Lloyd also said that there is to be $5,000.00 spent to seed down the ditch. Now all of Eagle Slough is in the bottoms, behind the levee and anytime the water comes up that grass is gone, so he thinks we are throwing away $5,000.00. Also the farmers will plow this grass up, so we'd better think about this before seeding it.

After more repeated discussion on the Commissioner Ossenberg said in view of everything that has been discussed, our Surveyor Dick Nussmeier should check into this and see what the cost is and why it has gone up.

RE: CLAIM

The following claim was presented to the drainage board for approval:
EDWARD SCHMITT....Cleaning of Kelly Ditch.....$1,102.00

Commissioner Willner moved that it be approved. Seconded by Commissioner Ossenberg. So ordered.

RE: LEGAL ADVERTISEMENT...EDMOND DITCH

Mr. Ludwick presented a legal ad to the Drainage Board for the cleaning and dredging of Edmond Ditch in Union Township. The bid they received on it was for $10,000.00 and the people in Union Township abjected to this because they feel like they can do it for about $3,000.00. So he would like for this to be advertised.

Commissioner Willner moved it be advertised and Commissioner Ossenberg seconded the motion. So ordered.

Meeting adjourned at 11:00 a.m.

NOVEMBER 5,1973

A meeting of the Vanderburgh County Drainage Board was held the 5th. day of November, 1973, at 10:20 a.m. with President Robert Schaad presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: BIDS OPENED....EDMOND DITCH

County Attorney Thomas Swain opened the following bid for the annual maintenance of Edmond Ditch:

UNION TOWNSHIP DITCH ASSOCIATION....30¢ per foot.....$4,618.50.

County Surveyor Dick Nussmeyer recommend we accept this bid.

Commissioner Ossenberg moved the Drainage Board accept the bid from Union Township Ditch Association. Commissioner Schaad seconded the motion. So ordered.

RE: EAGLE SLOUGH

Mr. Nussmeyer said when Mr. Bill Lloyd was in a couple of weeks ago the question came up about the seeding of Eagle Slough. He said that he is in agreement with Mr. Lloyd in that if we pay $5,000.00 to have it seeded it will be washed away. He would recommend that we either don't seed it or else seed and mulch it. Seeding it was all the contract calls for and it will cost about another $5,000.00 to mulch it, which can be done with a change order.

Commissioner Ossenberg moved, upon the recommendation of Mr. Nussmeier that we seed and mulch it. Commissioner Schaad seconded the motion. So ordered.

County attorney asked Mr. Nussmeyer to bring in a written change order.

RE: AMELIA LAUGEL

Mrs. Laugel presented a letter to the drainage board that was addressed to Mr. Charles Bubenzer from attorney J. Wm. Davidson, that read as follows:

Mrs. Laugel of Baseline Road consulted with me relative to the matter of damages derived out of a drainage problem on Baseline Road .

Mrs. Laugel has advised me she has suffered considerable damage to her real estate, growing crops and her land, do to the fact that a situation has been created lately wheras an unusual amount of surplus water drains off of Mr. Bubenzer's property and also others on the south side of Baseline Road drains onto her property on the north side of Baseline.

Baseline Road between Old Princeton Road and Darmstadt Road has been ditched on the north side of the road but no ditch on the south side. My client also states that this surplus water and drainage problem did not exist until recently when you and others on the south side of Baseline Road changed the contour of the drainage area in a manner that has thrown excessive water over the land of Mrs. Laugel.

There have been instances where the Vanderburgh County Commissioners have furnished free labor and layed culverts under the driveway, when the land owner furnishes the tile and culverts. This might solve the problem out there.

Commissioner Schaad said it seems to him if this attorney wanted us to do anything about this he would have sent the commissioners a letter. This letter in no way was sent to us.

Commissioner Willner asked Mrs. Laugel how much land she owns and she said forty acres.

Mike Ludwick said he has studied this and Jack Willard has had a man out there two or three times. There is a natural drain on her property and there just isn't anyway to change this. There is not anything possible for us to do out there and he has told Mrs. Laugel this.

Mrs. Laugel asked Mr. Schaad if she can chock it up so that the water can't drain and he said she would have to consult her attorney about that, as the county commissioners couldn't advise her on that.

County attorney Thomas Swain said the only time the county is required to build ditches is to protect the county road and not private property.

Commissioner Schaad suggested to Mrs. Laugel that she contact Mr. Davidson, her attorney, and if he feels there is something we should do then let him appear before the commissioners and give his recommendations and we would be very glad to listen and study it and possibly work something out on it.

Meeting adjourned at 10:40 a.m.

VANDERBURGH COUNTY DRAINAGE
NOVEMBER 13,1973

A meeting of the Vanderburgh County Drainage Board was held the 13th day of November, 1973, at 10:43 a.m. with President Robert Schaad presiding.

The minutes of the previous meeting were approved after the following correction was made.

It was stated in the November 5th minutes that Commissioner Willner asked Mrs. Laugel how many acres she owned out on Baseline Road. Commissioner Willner was not present at that meeting. Mrs. Laugel said she had talked with Mr. Willner previous to that meeting and told him about the problem out there and how much property she owned.

RE: LETTER....MERRILL,SCHROEDER,JOHNSON AND EVANS

Mr. Ludwick presented the following letter to the Drainage Board. This law firm represented Browning-Ferris Industries of Indiana, Inc., and is asking permission to cross Eagle Slough. The letter was addressed to Mr. Ludwick.

Dear Mike:

This letter is to confirm our conversation of yesterday, in which I advised you that Browning-Ferris Industries of Indiana, Inc. has entered into an agreement to purchase certain real estate owned by Charles C. and June Baum, located immediately south of the Levee and immediately east of an extension of that part of Lodge Avenue which is approved and accepted by the City for maintenance due south. The tract contains approximately twenty-eight (28) acres. A plat drawing prepared by Andy Easley Engineering was left with you showing the property in question.

The purpose of this acquisition is to obtain dirt for use in the operation of the present Sanitary Landfill located at U.S. Highway 41 and Southlane Drive, and for use as a final cover as the Landfill operation is completed. In order to assure the use of this property for this purpose, we are seeking to obtain approval of the Drainage Board for crossing Eagle Slough with earth moving equipment. Except for possible leveling and for contouring, no dirt will be removed from the subject property north of Eagle Slough. Dirt to be removed from the subject property south of Eagle Slough will be from excavations not to exceed a depth sufficient to allow the excavated area to drain into Eagle Slough. Dirt hauled from the excavated area over Eagle Slough to the Landfill Site will be hauled by rubber tired vehicles only, primarily using trucks and a model 627 caterpillar twin engine fourteen yard earth mover. We propose to cross Eagle Slough at approximately the point where the Lodge Avenue Extension bridge was formerly located. If requested, however, we would be agreeable to moving the crossing point to the east of this location at some point located upon the subject property. It is estimated that this crossing will be used for the purposes above stated for a maximum period of three years.

We wish to pursue this matter as promptly as possible, and will cooperate with you in providing whatever additional information, drawings or other data which is required to complete the application for authority to cross Eagle Slough at the point indicated for the purposes stated above.

Signed,
Gerald H.Evans

Mr. Ludwick said this would be of no cost to the county.

Commissioner Willner moved that this firm be allowed to put in this low water crossing. Commissioner Ossenberg seconded the motion. So ordered. Commissioner Willner said he did want to include in his motion that this work concur with the engineer's specifications.

RE: LETTER...WARRICK COUNTY SURVEYOR

Commissioner Schaad said he received a letter from the Warrick County Surveyor

about a Joint Board meeting on Mann Ditch. This is between Warrick County and Vanderburgh County. Warrick County is going to do all the work and we will be assessed for some of it. This letter is just a notice of the meeting that is to be held Thursday, December 6th. and 9:00 a.m.
Mr. Nussmeyer and Mr. Ludwick should attend this meeting to represent Vanderburgh County.

Commissioner Ossenberg moved that Mr. Ludwick and Mr. Nussmeyer be present at this meeting. Commissioner Willner seconded the motion. So ordered.

RE: MR. TOM PUGH

Commissioner Schaad said they received a letter from the Secretary of Natural Resources.

Mr. Tom Pugh was present and stated there is to be a meeting and he would like for all of the Commissioners, if possible, to attend. He said that Mr. Whitham talked with him and told him he could not attend because he has to be at a Plan Commission meeting the same night.
At the last legislature they appropriated $30,000.00 for a flood plain zoning law. It has been worked on and this is the hearing on the proposed legislature. He doesn't think any city in the state is in anymore of a flood plain than what we are here and feels it would profit us to have several representatives at that meeting. The meeting is at the Vincennes University.
All three of the Commissioners said they would attend.

RE: ARTHUR KARCH

Mr. Karch said he would like to discuss part of Aiken and Aiken Extenion Ditches. After all of these high assessments on Eagle Slough and he feels a lot of the people won't receive any benefits from it, he wondered if we could find enough money to repair these ditches from Pollack Avenue to the levee. The ditch is full and running over.
Mike Ludwick said we have no money available now, but after the first of the year, possible something can be done.
Mr. Nussmeyer said that since the pump station and most of this is in the city, maybe we could get them to participate in paying part of it.
County attorney Bill Stephens brought up the question of abandoning this but after discussion on it with Mr.Nussmeyer, found it wouldn't solve the problem.
Commissioner Schaad suggested that Mr.Nussmeyer get together with Mr. Eiffler and discuss this problem and see if some city participation could be worked out.

MEETING ADJOURNED AT 11:00 a.m.

PRESENT:

DRAINAGE BOARD	COUNTY AUDITOR	COUNTY SURVEYOR	COUNTY ATTORNEY

VANDERBURGH COUNTY DRAINAGE
NOVEMBER 19,1973

A meeting of the Vanderburgh County Drainage Board was held the 19th. day of November, 1973, at 11:05 a.m. with President Robert Schaad presiding.

The minutes of the previous meeting were approved as engrossed be the Auditor and the reading of them dispensed with.

RE: CLAIMS

The following claims were presented to the Drainage Board for approval of payment.

LEO PAUL...Annual Maintenance of Harper Ditch....$924.00
LEO PAUL...Annual Maintenance of Hirsch Ditch....$855.52
TOTAL $1,779.52

Commissioner Willner moved that the above claim be approved as recommended by the Surveyor. Commissioner Ossenberg seconded the motion. So ordered.

UNION TWP. DITCH ASSOC..,Annual Maintenance of Helfrich-Happe....$1,269.80
UNION TWP. DITCH ASSOC...Annual Maintenance of Kamp Ditch.....$1,116.00
TOTAL $2,385.80

Commissioner Ossenberg moved that the above claim be approved as recommended by the Surveyor. Commissioner Willner seconded the motion. So ordered.

JOSEPH SCHMITT...Annual Maintenance of Buente Upper Big Creek "A" Lateral in the amount of $366.65.

Commissioner Ossenberg moved that the above claim be approved as recommended by the Surveyor. Commissioner Willner seconded the motion. So ordered.

LEO PAUL...Annual maintenance for Barr's Creek....$2,480.16
LEO PAUL...Annual maintenance of Baehl Ditch..... 475.79
TOTAL $2,955.95

Commissioner Ossenberg moved that the above claim be approved as recommended by the Surveyor . Commissioner Willner seconded the motion. So ordered.

RE: REMOVAL OF TREES ON BARRS CREEK

Mr. Nussmeyer said there are four large trees in Barr's Creek that need to be removed. Mr. Leo Paul, who has the bid on this ditch said he would remove them for a total price of $150.00. Mr. Nussmeyer said he feels this is a reasonable price and would recommend it be done.

Commissioner Ossenberg moved that Mr. Paul be allowed to remove these trees for the amount of $150.00. Commissioner Willner seconded the motion. So ordered.

RE: HIGHWAY OVER EAGLE SLOUGH

Mr. Nussmeyer said he received a call from the State Highway last week about a drainage problem where South Highway 41 crosses over Eagle Slough. Eagle Slough is centered between the piers. The state is worried that this can cause erosion later on, and would be a problem to their bridge. Mr. Nussmeyer said he made the suggestion that we rip-rap it.

County Attorney Stephens said isn't it true that the Slough was there first.
Commissioner Schaad said they built their bridge over our Slough.
Commissioner Willner said if they want to let them rip-rap it.
Commissioner Ossenberg wondered if there was any agreements or committments on this with the previous Commissioners and Mr. Swain said no.
Mr. Nussmeyer said the state feels we should have gotten together with them before we done much work on the ditch where it runs under the bridge.
Mr. Swain said we got a permit from the Indiana Department of Natural Resources.
Mr. Nussmeyer said it would take about 300 tons of rip-rap and Mr. Priest Hazelwood, who has the contract on Eagle Slough said it would run about $15,000.00 if he did it. That is figuring about $50.00 a ton. Dick said he feels this is way high. He would say it shouldn't be over $4500.00 or $5000.00, at the most.

County Attorney Stephens said Eagle Slough has been out there for years and they built their bridge in a place where our Slough could effect, so it seems to him they assume certain types of risks involved as they knew the Slough was there and they also knew we were obliged to keep it cleaned out and open.
Mr. Nussmeyer said yes they knew this. However it is about ten feet deeper than it was before.
Mr. Stephens said he thinks the Mr. Nussmeyer should report back to the Highway Department and tell the the County Commissioners are alarmed about spending money for something they feel like they don't owe and see what kind of an answer we get from them.
Commissioner Willner said he would like to see the attorneys persue this, but Mr. Stephens said he wouldn't want them to think this is a legal hassle yet and feels it would be better for Mr. Nussmeyer to talk to them first.
Mr. Nussmeyer said the State is saying that we didn't get a permit, but Mr. Stephens said what did we need to get a permit for and what kind of a permit.
Commissioner Schaad said the state feels we should have gotten a permit before we cleaned under their structure.
Commissioner Ossenberg moved that we refer this matter back to Mr. Nussmeyer to persue it further and report back to the Drainage Board. Commissioner Willner seconded the motion. So ordered.

Stephens
County attorney/said that we shouldn't offer them anything,but rather let them know that we feel this is the states responsibility.

RE: DRAINAGE PROBLEM ON AIKEN AND AIKEN EXT. DITCHES

Mr. Nussmeyer said last week Mr. Karch was in discussing the problem they are having out there on these ditches and he was to talk to Mr. Eiffler and see if perhaps the city would participate in the cost of correcting this problem.
He said after talking to Mr. Eiffler, he indicated that the city would be glad take care of this. However, they did not come to a complete agreement on just what work would be done on it. Mr.Karch wants these ditches dredged. Mr. Nussmeyer said he would check back with Mr. Eiffler and see just what they plan to do and then report back to the Drainage Board.

RE: MR. TOM PUGH ....INSTIGATING OF A NEW LEGAL DRAIN

Mr. Pugh said he would like to talk to the drainage board about the instigation of a legal drain. There is one possibility through this Resource Conservation and Development Project, that there could be some funding available. It would take considerable time to run it through, so he thought he would bring it before the drainage board and see what their feelings are on it. He said that he has discussed with John Daus at Anchor Supply, and Allen Birch at Birch Supply, the solution to the problem, which he sees it, is to move the open ditch along Birch Drive to the south side of the sanitary sewer thats there. Now then, you have the edge of the road, then the open ditch to the south side of the sanitary sewer. There isn't room to enlarge the ditch. If they moved the ditch to the south side of the sanitary sewer, that would give them enough room to get a ditch up through there with the capacity to move the water down to Pigeon Creek. This water goes to Pigeon Creek anyway. Through this proposal, in order to get it into that system, there needs to be a sponser for such a project, that has the legal authority to carry it out, and the Drainage Board has the authority to carry it out and the Drainage Board has the authority to instigate a legal drain. He thinks this group of property owners out there could be persuaded to enter into a legal drain petition, etc. So if we could somehow get the ball rolling and get some federal assistance, he thinks it would be worth a try.

Commissioner Schaad said wouldn't it have to be a legal drain before we could do anything with it.

Mr. Pugh said you would have to be able to establish the easements, and to raise the balance of the money some way, probably through assessments. He said he hasn't throughly checked it out, but it looks like its possible that we could get some federal help. We would have to establish there is no federal funding under any other program available. The city goes to HUD

but we wouldn't qualify for this.

Commissioner Willner said with all the other legal drains that need to be re-done he would not want to jump into this one ahead of them because it would be preferential treatment.

Commissioner Schaad said he agrees something should be done but sometimes we get so many things going and nothing works out on them. We need a priority list, as there are several ditches that have been in the workings for several years and maybe they need to be done first.

Mr. Pugh asked would it be out of line to have a meeting with the people involved and let Dick and him present them with the alternatives they have in solving the problem and try and get a general agreement from them. Of course, like Mr. Kissel, what these people want is something they will all benefit from and want the county to pay for it.

Commissioner Schaad said we could continue to work on all the other ditches and perhaps also pursue this in the manner Mr. Pugh is talking about.

Commissioner Willner said this would be a real big thing. What we just went through with Eagle Slough on, is probably what we'd be getting into again.

County attorney Bill Stephens said he was wondering how many property owners would be involved in this and Mr. Pugh said about thirteen, he believes.

Commissioner Schaad said maybe we could get all of the options together and have a meeting with these property owners.

RE: ROSENBERG AVENUE

Mr. Nussmeyer said they have a problem on Rosenberg Avenue off of Harmony Way and it looks to him like the city is to fault. There is a Mr. Vonderay that lives out there and he wants a ditch dug out there. Mr. Nussmeyer said this should go to the city so Commissioner Schaad told him to present it to the Board of Public Works.

VANDERBURGH COUNTY DRAINAGE
NOVEMBER 26, 1973

A meeting of the Vanderburgh County Drainage Board was held the 26th. day of November, 1973, at 11:00 a.m. with President Robert Schaad presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: BRIDGE DAMAGE DISCUSSED

Mr. Richard Phegley, Mr. Robert Cornelison and Mr. Charles Bates of the State Highway Department appeared before the Commissioners and explained that the county's work on cleaning Eagle Slough may have damaged pilings supporting a new bridge on New U.S. 41, South of Southlane Drive and that the bridge could become dangerous if repairs are not made soon.

Mr. Phegley said this was discovered when a joint inspection with Kentucky was made two weeks ago. He requested that the county submit a set of plans to the state on the remaining work on the Eagle Slough project so the state can determine just what action should be taken to reinforce the pilings. He said that the state engineers fear the drainage in the area could cause the footings to settle, causing the bridge floor to sag.
He said that the county failed to get a permit from the state, before the work was ever started.

County Attorney Swain said that the Eagle Slough project had been planned for ten years and that the plans were approved by the state highway department before the cleaning was started last year.

Mr. Phegley said that the drainage will have to pay for whatever is done. He said the state would study the plans and then make recommendations on how the pilings should be reinforced.

County Attorney Swain said that he can't speak for the County Commissioners, but that he wasn't so sure that the Drainage stand all the cost.

Mr. Phegley said they would like to get the permit filled out so that proper notification can go through the channels of the highway department, which wasn't done.

This matter was referred to Mr. Nussmeyer, to be worked out with the legal department, as to what steps should be taken.

RE: CLAIM

A claim was received from Ed Krohn on Hoefling Ditch for $389.97. Commissioner Willner moved that this claim be approved for payment. Commissioner Schaad seconded the motion. So ordered.

RE: DRAINAGE PROBLEM ON AIKEN & AIKEN EXT. DITCHES

Mr. Nussmeyer said that he will talk to Mr. Eifler today on what work needs to be done on these ditches and will report back to the Drainage Board at a later date.

The meeting adjourned at 11:15 a.m.

VANDERBURGH COUNTY DRAINAGE BOARD

VANDERBURGH COUNTY DRAINAGE
DECEMBER 3, 1973

A meeting of the Vanderburgh County Drainage Board was held this 3rd. day of December, 1973, at 11:45 a.m. with President Bob Schaad presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: CLAIMS

The following claims were presented to the drainage board for approval for payment.

UNION TWP. DITCH ASSOC....Maintenance of Cypress Dale Maddox Ditch...$2,388.70
" " " " ....Maintenance of Barnett Ditch.....$835.80

Commissioner Willner moved that the above claim be approved. Commissioner Ossenberg seconded the motion. So ordered.

PRIEST HAZELWOOD....Eagle Slough...For work completed between October 26 and November 30,1973.....$28,914.18

Commissioner Willner moved that this claim be approved. Commissioner Ossenberg seconded the motion. So ordered.

LEO BITTNER...Maintenance of Wallenmeyer Ditch.....$1,002.60

Commissioner Willner moved the above claim be approved. Commissioner Ossenberg seconded the motion. So ordered.

RE: BRIDGE DAMAGE....EAGLE SLOUGH

Mr. Nussmeyer said this has been referred to the State and nothing further has been heard on it.

RE: DISCUSSION ON AIKEN DITCH

Mr. Nussmeyer said he is doing a profile on this now and will report back to the Drainage Board when something is worked out on this.

RE: MR. HAMILTON...LEVEE AUTHORITY

Commissioner Schaad said that Mr. Hamilton called him and the Levee Authority is having a problem out on Carpenter Creek. This whole thing needs to be dredged and he wants to know who is responsible for doing this.

Mr. Hamilton said he would like to go on record to have the question resolved as to who is responsible cor correcting this problem out on Carpenter Creek. This needs to be done as it is in terrible shape. He said in the past, the Levee Authority has been advised, not legally, but by some different authorities, that the drainage board does have the responsibility to do this. This is a big problem thats been just laying there for sometime now and it needs to be corrected. In the past the Levee Authority has been willing to pay its fair share on anything that has to be done. A large part of theis is in the city.

County Attorney Thomas Swain said, (1) this is not a legal drain, (2) it cannot be justified in protection of a bridge and (3) its not for protection of a county highway. So as far as he can see, its all resolved, it is not our problem.

Mike Ludwick said if this were a legal drain, which it is not, under the drainage laws, the person which most benefits from this, which would be the Levee, would pay for it. So if that the case, why don't they do that on their own.

Commissioner Schaad said, in other words, if this were a legal drain or if we were to make it one, then the levee would pay most of it anyway.

Mr. Nussmeyer said the city and levee would pay the most of it. We would pick up some bridges and roads.

Mr. Ludwick said this has been neglected for so long, you wouldn't believe some of the stuff people have dumped there, even cars and trucks. The cost would be outrageous for us to let out a contract to have it all cleaned and dredged.

Mr. Swain said that the city just let out a contract to do some ditch cleaning in Union Township, so why can't they do the same thing here.

Mr. Hamilton said this could possibly be done, but he can't see where who is responsible for doing this was ever resolved.

Commissioner Schaad suggested having a meeting with the Levee and the city and see if this can't be worked out.

Mr. Stephens said this may be the Corps of Engineer's problem, as it certainly isn't ours and we can't assume responsibility just because something needs to be done.

Commissioner Schaad said for the minutes, we have had the county attorney's legal opinion that it is not our responsibility at all.

RE: MEETING AT BOONVILLE

Mr. Ludwick said he received a telephone call from Warrick County Surveyor, George Tribbet about the joint drainage board meeting and he would not only like for Mr. Nussmeyer and Mr. Ludwick to attend, but also the Drainage Board Members. This meeting will be Thursday, December 6, in Boonville,Indiana.

Mr. Schaad and Mr. Willner said they would try to attend.

MEETING ADJOURNED AT 12:05 p.m.

PRESENT:

VANDERBURGH COUNTY DRAINAGE BOARD MEMBERS

VANDERBURGH COUNTY DRAINAGE
DECEMBER 10, 1973

A meeting of the Vanderburgh County Drainage Board was held this 10th. day of December, 1973, at 11:20 a.m. with President Bob Schaad presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them was dispensed with.

RE: CONSENT TO ERECT PERMANENT STRUCTURES

Mr. John Carroll, Attorney for Columbia Property Associates/73, LTD. appeared and said that about four or five months ago, he had submitted a petition for relief from the provisions of Burns, Indiana Annotated Statutes 27-2301 which relates to the seventy-five feet of all legal drains. He said that there is a provision under that code whereby the Drainage Board is permitted to consent to the erection of permanent structures within that seventy-five feet. He said that he came before the Commissioners for relief from the provisions of this statute as relates to Harper Ditch for the construction of a Sears Roebuck & Co. Building and he is now asking that his present petition be approved for a six acre tract, just south of other property, going to Division Street.
He said that there is a fifty foot Right of Way and he is asking that they be permitted to build permanent structures on that remaining twenty-five feet which would be approximately sixty-five feet from the ditch, itself. He said that a three story office building will be built on this six acre tract and they would like to build it up to the fifty foot line.

Commissioner Ossenberg moved that the petition be approved. Commissioner Willner seconded the motion. So ordered.

RE: CLAIMS

A claim was presented from each of the County Attorney's, Thomas Swain and William Stephens, each claim in the amount of $437.50.

Commissioner Ossenberg moved that both claims be approved. Commissioner Willner seconded the motion. So ordered.

A claim was presented from Ralph R. Rexing, inspected and passed on November 28, 1973, for Pond Flat Lateral "A"...5,311 L.F. for $318.66 and Pond Flat Laterial "B"....2,797 L.F. for $167.82.. Total amount of claim is $486.48.

Commissioner Ossenberg moved that this claim be approved for payment. Commissioner Willner seconded the motion. So ordered.

A claim was presented from Albert E. Schmitt for Crawford Brandeis Ext....14,628 X .13...Passed and Inspected on December 7, 1973. Amount of claim is $1,901.64.

Commissioner Ossenberg moved that this claim be approved. Commissioner Willner seconded the motion. So ordered.

A claim was presented from Joseph Seib for the Maidlow and Kolb Ditch. Maidlow Ditch...11,475 X .14 amounted to $1,606.50 and the Kolb Ditch amounted to $831.27....Passed and Inspected on November 30, 1973. Amount of claim is $2,437.77.

Commissioner Ossenberg moved that this claim be approved. Commissioner Willner seconded the motion. So ordered.

RE: AIKEN DITCH

Mr. Nussmeyer said that the water has been too high to do any work on Aiken Ditch. This matter will be continued at a later date.

RE: BRIDGE DAMAGE .... EAGLE SLOUGH

This matter has been referred to the state and is still in abeyance. Mr. Nussmeyer will report to the Commissioners when he hears something from the state.

RE: REPORT ON MEETING AT BOONVILLE

Commissioner Schaad said that Mr. Nussmeyer, Mr. Ludwig and Mr. Whitham attended this meeting and a joint Vanderburgh-Warrick County Drainage Board was organized. He said that Mr. Andy Easley has been doing some preliminary work, that he was hired by the Warrick County Board to do some preliminary study on this and he presented it and they are coming back to see how it can be funded. He said that Commissioner Willner was unable to be there but that he was elected to serve on the Joint Drainage Board. He said there were three proposals on the funding but that he hasn't received a copy of the minutes as yet but he just wanted to bring the Commissioners up to date on it.

Commissioner Ossenberg congratulated both, Commissioner Schaad and Commissioner Willner, as they will both be serving on the Board of the Joint Drainage.

Mr. Pugh wondered if a meeting could be set up to meet with Burch Plow at Anchor Supply Co.

Commissioner Ossenberg said that he wouldn't be able to attend because he couldn't get away from his business during this busy season.

Commissioner Schaad said that he and Commissioner Willner would attend the meeting and that Mr. Pugh could set it up with the Commissioner's secretary. The meeting will probably be next Monday.

Meeting adjourned at 11:35 a.m.

VANDERBURGH COUNTY DRAINAGE
DECEMBER 26, 1973

A meeting of the Vanderburgh County Drainage Board was held this 26th day of December, 1973, at 8:20 p.m. with President Bob Schaad presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them was dispensed with.

RE: CLAIMS

A claim was presented from Raymond Steinkuhl, passed and inspected on December 18, 1973, for Aiken Ditch Ext. 5,826 L.F. X 0.10, for $582.60.

Commissioner Willner moved that this claim be approved. Commissioner Ossenberg seconded the motion. So ordered.

A claim was presented from Eugene Rexing, passed and inspected on December 17, 1973, for Pond Flat "D" 4,579 L.F. X 0.10, in the amount of $457.90 and Singer Ditch 2,450 L.F. X 0.09 in the amount of $220.50...Total amount of claim is $678.40.

Commissioner Willner moved that this claim be approved. Commissioner Ossenberg seconded the motion. So ordered.

A claim was presented from Anthony Bittner, passed and inspected on December 26, 1973, for Buente Upper Big Creek 20,195 L.F. X 0.15, for $3,029.25.

Commissioner Ossenberg moved that this claim be approved. Commissioner Schaad seconded the motion. So ordered.

A claim was presented from the Armstrong-Scott Ditch Association Inc., passed and inspected on December 26, 1973, Pond Flat Laterial "E" 3,616 L.F. X 0.10 for $361.60 and Pond Flat 29,351 L.F. X 0.12 for $3,522.12...Total amount of claim is $3,883.72.

Commissioner Willner moved that this claim be approved. Commissioner Ossenberg seconded the motion. So ordered.

A claim was presented from the Armstrong-Scott Ditch Assc. Inc. passed and inspected on December 18 & 19, 1973, Lower Big Creek, 7,501 L.F. X 0.10 at $750.10, Rusher Creek 4,444 L.F. X 0.10 at $444.40 and Pond Flat Laterial "C" 9,036 L.F. X 0.10 at $903.60...Total of claim is $2,098.10.

Commissioner Willner moved that this claim be approved. Commissioner Ossenberg seconded the motion. So ordered.

Mr. Ludwig said that out of all the legal drains, there are only two that aren't completed and those are the Mossberg Ditch and the ~~Barnett~~ Edmond Ditch. He said that an extension of time has been given for the ~~Barnett~~ Edmond Ditch to be completed and that Mr. Mossberg hasn't called in yet.

RE: DRAINAGE PROBLEM

The Commissioners were to meet with Mr. Tom Pugh on the drainage problem at Burch Plow. The meeting has been postponed and will be set for a later date.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them was dispensed with.

RE: CLAIM

The following claim was presented to the Drainage Board for approval of payment.

CEDAL MAASBERG...for the cleaning of Maasberg Ditch...2,206 l.f. X .07¢ per foot. Inspected and passed on December 28, 1973.....$154.42

Commissioner Willner moved that the above claim be approved upon the recommemdation of the County Surveyor.
Commissioner Schaad seconded the motion. So ordered.

RE: LETTER FROM INDIANA STATE HIGHWAY COMMISSION

Mr. Ossenberg read the following letter which was received by Mr. Nussmeyer from the Indiana State Highway Commission.

Dear Mr. Nussmeyer:

Please find attached a letter from the Bridge Design Department of the Indiana State Highway Commission as to the required rip-rap placement along the north bank of the new channel of Eagle Slough. This additional construction is necessary to insure adequate pier protection of the above referenced structure. Also attached is a typical cross section showing the rip-rap placement required.

Please initiate the necessary action to complete the required construction at the earliest possible date.

The District would also recommend that the material stacked against the piers on the south side of the new channel be leveled to original ground elevation. This material, in its present location, could cause a very turbulent flow around these piers during periods of high water; resulting in possible foundation damage.

Sincerely yours,
Charles R. Bates
Richard L. Phegley
Nicholas VanNielen

Mr. Nussmeyer said they have an estimated cost of $4,000.00 but he would recommend that he draw up new specifications and advertise for the job or take invitational bids.

Commissioner Willner moved that the County Engineer be instructed to get three invitaional bids. Commissioner Ossenberg seconded the motion. So ordered.

Meeting adjourned at 11:03 a.m.

JANUARY 28, 1974

A meeting of the Vanderburgh County Drainage Board was held this 28th day of January, 1974, at 10:45 a.m. with President Thomas Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: KOLB DITCH RECONSTRUCTION

Mike Ludwick presented the following to the Drainage Board members:

RE: Kolb Ditch Reconstruction

Estimated Cost: $5,000.00

City Of Evansville.....41%
Vanderburgh County..... 4%
Dept. of Natural Resources..... 5%
Land Owners.....50%
TOTAL.....100%

The land owners percentage which is 50% one family, the Kolb family would pay 31% the other land owners would pay the remaining 19%.

Mr. Kolb.....$1,562.21
City of Evansville.....$2,073.94
Vanderburgh County..... $201.67
Dept. of Natural Resources..... $261.64
Other Land Owners..... $900.54
TOTAL $5,000.00

Work up material Accomplished.....January 25,1974

Commissioners Meeting.....January 28,

Mike said as we can see, Mr. Kolb owns 50% of the land and his assessment is quite high.
Mr. Swain wondered if the city shouldn't pay in advance but Mike said we wouldn't know what to charge them until the bids are in.

Mr. Stephens said he didn't think we would have to have the money before we advertise for it.

Commissioner Schaad moved that the Surveyor's office be allowed to proceed with this work on Kolb Ditch. Commissioner Willner seconded the motion. So ordered.

RE: BURCH PLOW INDUSTRIAL PARK

Mr. Ludwick said they met with some State Highway personnel and they are checking into the roadside ditches out on highway 41 to see if that is in state right-of-way or on private property. If its on state right-of-way they will do their part. The R.R. has been contacted and they will cooperate and we will know by February 1st. exactly what they will do.

Mr. Stephens said he has written letters to Mr. Burch, Mr. Doss and Mr. Stone. Mr. Pugh suggested that the property owners out there that are interested in solving their drainage problems, get together and form their own Ditch Association and then come to the Drainage Board with a financial proposal and an agreement of dedication of right-of-way and we will in turn work with Mr. Ludwick in getting the other agencies involved. As soon as he hears any more about this he will report it to the Drainage Board.
Mr. Ossenberg said he and Mr. Nussmeier traveled about 58 miles of county roads yesterday and they went out and surveyed this industrial area and apparently the way it is staked out it looks like the ditch along Highway 41 is the property owners ditch. They primarily looked at what the county's obligation would be. Discussion on this will be continued at future meetings

Meeting adjourned at 10:55 a.m.

DRAINAGE BOARD OF VANDERBURGH COUNTY

SECRETARY: J.Decker

VANDERBURGH COUNTY DRAINAGE
FEBRUARY 4, 1974

A meeting of the Vanderburgh County Drainage Board was held this 4th. day of February, 1974, at 11:15 a.m. with President Thomas Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: BURCH INDUSTRIAL PARK:

Mr. Nussmeier said he was in touch with the Highway Department about the ditch along Highway 41 and they will cooperate with us. They have asked that we get a temporary right of entry on either side of the ditch. He has also contacted the R.R. and they too will cooperate.

Mr. Ossenberg said the property owners would have to cooperate on a mutual drain. With the state, the R.R. and the property owners cooperating then we can move to solve this problem. The next step is for Mr. Nussmeier to pursue his drawings of what we have to do, then have a public meeting and bring everyone in.

Mr. Nussmeier said we'll have only two property owners but he will continue to work on this and report back to the Drainage Board.

RE: SONNTAG STEVENS

Mr. Ludwick said the Mr. Harold Peters has offered to clean trash out of a part of this ditch that runs out behind Whirlpool. Mike said this needs to be done and that Mr. Peters gave a price of $65.00 and he would recommend that the board approve this.
Mr. Schaad moved that Mr. Peters be allowed to clean this portion of the ditch at the price stated ($65.00).
Mr. Willner seconded the motion. So ordered.

RE: KOLB DITCH

Mr. Nussmeier said they are still trying to work on this Kolb Ditch project but that the high water has hindered them some. They have the survey line established.
Mr. Ludwick said couldn't this be considered maintenance. He thinks as long as we stay in the alignment of the ditch as it now exists, it isn't reconstruction, as we are only going to dredge it. He realizes we will still have to send notices out to the property owners and let them know what we are going to do and have a public meeting, but he believes we can shorten the proceedure and still stay within the law.

Mr. Swain said he doesn't know about this so he would check it out to see if it could be maintenance instead of reconstruction and he would report back to the Board.

Meeting adjourned at 11:23 a.m.

VANDERBURGH COUNTY DRAINAGE
FEBRUARY 19, 1974

A meeting of the Vanderburgh County Drainage Board was held this 19th. day of February, 1974, at 10:25 a.m. with President Thomas Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: BURCH INDUSTRIAL PARK:

Mr. Nussmeier showed the Drainage Board members the plans on this project. He has only a portion of the plans and not all of the way to Highway #57. He said the State wants us to get an additional 30 ft. temporary right-of-way and clean it out for them.

Mr. Ossenberg said he talked to someone in the office at Burch Plow and Mr. Burch from there will be at our next regular Drainage Board meeting to discuss this problem. We have all of the cooperation that we need as far as the State and the R.R. is concerned. He said there is a concrete abutment out there that has fallen over and the drainage is going out and around that, so it needs to be broken up and cleaned out. He feels the county highway department could do this, but there is the problem of going onto private property.
We need to get this work all done before we can go into a mutual agreement.

Mr. Nussmeier said he doesn't know who owns the right-of-way out there, because the corporation that was out there is now non-existant. He wondered if the property reverts back to the original land owner.

Mr. Ludwick said all of that belongs to Southern Indiana Gas and Electric.

Mr. Nussmeier said he would contact Mr. Jack Stone and we would pursue this further next week when Mr. Burch comes to the meeting.

MEETING ADJOURNED AT 10:35 a.m.

VANDERBURGH COUNTY DRAINAGE
FEBRUARY 25, 1974

A meeting of the Vanderburgh County Drainage Board was held this 25th. day of February, 1974, at 11:16 a.m. with President Thomas Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: BURCH INDUSTRIAL PARK

Commissioner Ossenberg said Al Burch from Burch Plow could not be here today, but that he does intend to be here next week to discuss this problem.
He said roughly now, cooperation has been given by the R.R. and the State of Indiana, and if we will recall last week, they had a bridge abutment to fall over which has to be cleaned out. He found out that property belonged to S.I.G.&E. and he therefore contacted Jesse Barns and we have permission to go in there and break up that abutment on their property, so everything is set so we can proceed with it.
Ed said he went out there to see what the R.R. had done and they had cleaned one structure and he talked to their district engineer and they will get in there and clean out the rest of it as soon as they are able to.
At this time Ed showed the drainage board members a map showing just what they need.

Mr. Ossenberg said on the property at the corner of Highway 57 and 41 which is owned by the Kinder estate and he talked to Ted Gore at Citizens National Bank and he would be glad to give the necessary temporary easements. So in general what we need is 30 ft. temporarily, then the State will move in, the the R.R. will clean and we can go over to Mr.Pleasant and we can move in on the mutual agreement of Burch and Baumgart and this should eleviate their problems.

MEETING ADJOURNED 11:20 a.m.

VANDERBURGH COUNTY DRAINAGE
MARCH 4, 1974

A meeting of the Vanderburgh County Drainage Board was held this 4th. day of March, 1974, at 11:06 a.m. with President Thomas Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: BURCH INDUSTRIAL PARK

President Thomas Ossenberg said that Mr. John Weber and Jack Stone are present from the Burch Industrial area to discuss this problem we have out there. He said this has already been explained to both gentlemen, but maybe we could run over it briefly.

Mr. Nussmeyer showed Mr. Weber and Mr. Stone a map of this area and told them they have full cooperation from the state and also from the R.R. and now what we would like to have is an additional 30 ft. temporary easement from Burch Plow.

Mr. Ossenberg said in the original meeting at Burch Plow it was a ccoperation between the R.R., the State and later we found out towards the Mt.Pleasant area that we thought that was R.R. property also, but later found out it belongs to S.I.G.& E. We have full cooperation but we have to get in there and let that ditch be dredged. He has an agreement at 57 and 41 with the Kinder estate, which is on the same side of the road as Burch Plow. Ted Gore of Citizens National Bank represents that estate, and he has agreed to whatever we want that they will give us the temporary easement. Up on the Mt.Pleasant field when the concrete abutment is down Mr. Vaughn from S.I.G.& E. has given the county the right to go in there and tear the abutment up,get it out of there, straighten the curve out and give you a free flow through there. So consequently, the county in their original agreement out there, have done their work, now all we need is your total cooperation for that 30 ft. temporary easement.

Mr. Nussmeyer said this temporary easement would have to be granted to the State and not to the county.

President Ossenberg said we are working on some type of a mutual agreement of some kind of an assessment, because if we go through a drainage assessment it would take forever. After this is all completed then Mr. Nussmeyer, Tom Pugh and everyone involved will go back to Burch Plow for your ditch north of Burch and Baumgart and then we'll have this thing solved.

Mr. Nussmeyer said we would like to do this thing this year, because when you've got the State Highway Commission's cooperation, you'd better get going.

Mr. Stone said he believes this would solve their problem, and as their attorney he would certainly recommend it and he has every reason to believe they will accept his recommendation and they will have a meeting on this immediately.

RE: CLAIMS

The following claims were presented to the Drainage for approval of payment:

THOMAS M. SWAIN....Attorney Fee...1st.quarter 1974
From January 1st. to March 31st.....$500.00

Commissioner Willner moved that it be approved. Seconded by Commissioner Schaad. So ordered.

UNION TOWNSHIP DITCH ASSOCIATION...Edmond Ditch.
Inspected and Passed on March 1, 1974 in the amount of $4,618.50

Commissioner Willner moved that it be approved. Commissioner Schaad seconded the motion. So ordered.

Mr. Ludwick informed the Drainage Board that he has the Ditch Assessments for 1974, for all of the legal drains completed and he will bring them in next week for the boards approval.
He said he would like to remind the board that last year they decided that when a person owns a sub-division, that they will be charged for each lot. He knows that this is going to cause a lot of people to complain, so he wanted to remind the board of this.

MEETING ADJOURNED AT 11:20 a.m.

PRESENT:

DRAINAGE BOARD	COUNTY AUDITOR	COUNTY SURVEYOR	COUNTY ATTORNEY

SECRETARY: J.Decker

VNADERBURGH COUNTY DRAINAGE
MARCH 11, 1974

A meeting of the Vanderburgh County Drainage Board was held this 11th. day March, 1974, at 11:52 a.m. with President Thomas Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

President Ossenberg asked Mr Nussmeyer if he had heard anything on this Burch deal and Mr Nussmeyer said they were to get back to him next week.

President Ossenberg said he received a letter from John Weber, and he said he wrote a letter to all involved including the L&N R.R., Southern Indiana Gas and Electric Company and to Mr Gore. So this easement should be coming soon.

President Ossenberg said he also received a letter from Alvin Burch, thanking them, so let the record show that they are now in total agreement and they should be able to start work on this next week.

RE: DITCH ASSESSMENTS

Mr Ludwig presented the 1974 Ditch Assessments to the Commissioners for approval. Commissioner Willner moved they be approved, seconded by Commissioner Schaad, so ordered.

Mr Ludwig said most of the ditches decreased from last year.

RE: HIGHWAY 65 - BASELINE ROAD (BAEHL DITCH)

Mike Ludwig said a farmer by the name of Mr. Steckler wants to dredge Baehl Ditch at his own expense. He said he has a drainage problem out there and he wants to do it himself. Commissioner Schaad moved that Mr Steckler be allowed to dredge Baehl Ditch providing in doing so he doesn't flood anyone else's property. The motion was seconded by Commissioner Willner. So ordered.

RE: JERRY COLLINS

It seems that Mr Jerry Collins built a garage and it is pretty low, but at the time he built it, it was higher than the alley behind it. He said the County has put rocks in the alley several times and now the alley is higher than the garage, and water floods his garage. The City said they can't drain the alley in the sewer.

The suggestion was made that they take out the rock and dredge the alley down about six (6) inches and then "v" the alley so it will drain.

Mr Collins wants this taken care of because he says the County is who caused his problem. To do this the cost should run about $1500.00 to $2000.00.

County Attorney asked which came first, the garage or the alley raising.

Commissioner Schaad said Mr Collins claims that he built his garage before they put the rocks on the alley.

Mr.Ludwig said they have put rocks on the alley for a number of years at different intervals.

President Ossenberg said to let the record show that they are going to check this out and report back next week.

RE: CLAIM

The following claim was presented to the Drainage Board for approval:

WILLIAM D. STEPHENS.....Attorney Fee.....First Quarter.....In the amount of $500.00.

Commissioner Willner moved the claim be approved, seconded by President Ossenberg. So ordered.

The meeting recessed at 12:07 p.m.

Minutes Prepared by Jean Wilkey

VANDERBURGH COUNTY DRAINAGE
March 18, 1974

A meeting of the Vanderburgh County Drainage Board was held this 18th. day of March, 1974, at 11:30 a.m. with President Thomas Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them was dispensed with.

RE: MR. LUDWIG

Mr. Ludwig presented a chart on the project of the intersection of Pollack Avenue and Fuquay Road. He said they aren't in the final stages yet and that they are going to start with the structure before they do the Kolb ditch and that Mr. Nussmeyer wants to get the intersection widened first. He said this will be a combined project with the city.

Commissioner Ossenberg said they were having trouble with the Right-of-Way to the East because of the beautiful trees out there and that the South side of Pollack Avenue is owned by the state.

Mr. Ludwig said that there are two pipes under the levee but they won't need to be bothered since this is the control point.

Mr. Martin said he thought they could taper around the South side and stay clear of the trees.

Mr. Ludwig said that they may have a problem with the bridge on Highway 41, that the state is abandoning, in that they might have trouble with log jams due to Eagle Slough. He said that the water is up now and this will have to be looked into.

Commissioner Willner asked if the log jam was the fault of the contractor, because of their not cleaning up the debris.

Mr. Martin said that this was partially the reason and they agreed to clean it up, since this is in his contract.

RE: BASELINE & OLD PRINCETON ROAD

Mrs. Amelia Laugel appeared because of her drainage problem at this location.

Commissioner Willner said that he has been out there several times, to look over this problem, as was Mr. Ludwig and Mr. Willard.

Mr. Ludwig said that it is a natural drain swell where the water ran off and that Mrs. Laugel now has the pipe blocked off.

Mrs. Laugel said that it isn't blocked off anymore.

Mr. Ludwig said the water is going against her property and at the time, their department agreed that there wasn't a thing they could possibly do to change the situation of the drainage onto her property.

Mrs. Laugel said that the county didn't install the pipe, that the people up the road put it in themselves. She thought the ditches out there could be opened.

Mr. Ludwig said there is no way to put a ditch in there at all, that this is a natural drain.

Commissioner Willner asked Mrs. Laugel what advice was given her, by her attorney.

Mrs. Laugel said that she was advised by her attorney, to sue her neighbors.

Commissioner Schaad said that this was probably what she would have to do.

Commissioner Willner recommended that Mrs. Laugel work with her attorney and take his advice.

Commissioner Ossenberg said that her only recourse would to be for her attorney to file a civil suit against her neighbor.
He suggested that Mrs. Laugel see her attorney and if he finds that the trouble is on the county Right-of-Way, the attorney can consult with the county attorney and then they can see what might be done to help her but as far as the final decision, it must come from the judge of the court.

It was the recommendation of the Board of Commissioners for Mrs. Laugel to consult her attorney.

The meeting asjourned at 11:55 a.m.

PRESENT

DRAINAGE BOARD	COUNTY AUDITOR	COUNTY SURVEYOR	COUNTY ATTORNEY
Thomas Ossenberg Bob Schaad Robert Willner	Curt John Dep.	Dick Nussmeyer	William Stephens Thomas Swain

Minutes prepared by Margie Meeks

VANDERBURGH COUNTY DRAINAGE
MARCH 25, 1974

A meeting of the Vanderburgh County Drainage Board was held this 25th day of March, 1974, at 11:25 a.m. with President Thomas Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: CLAIM

The following claim was presented to the Drainage Board for payment:

HAROLD J. PETER....For cleaning and extra work done on Sonntag-Stevens Ditch.....in the amount of $65.00

Commissioner Willner moved that the above claim be approved for payment. Commissioner Schaad seconded the motion. So ordered.

RE: NOTICE TO BIDDERS:

Mr. Ludwick presented a NOTICE TO BIDDERS requesting bids for the annual periodic maintenance of ditches. The notice will be advertised on March 28th, April 4th, 1974 and the bids will be opened on April 8, 1974.

Commissioner Schaad moved that the specifications be approved and that the Auditor be authorized to advertise for bids.
Commissioner Ossenberg seconded the motion. So ordered.

RE: BURCH INDUSTRIAL CENTER

Mr. Martin said that they have talked to the district level on the Burch Industrial Center and said that they are going to do some further checking with Indianapolis and they are contemplating putting a fence in their right-of-way and this may cause a slow down on his work.
Commissioner Ossenberg said he talked with Ted Gore, the executor of the estate at Highway 41 and 57 and was told that Mr. Gore was sent some papers and that he had signed a temporary easement already.

Mr. Martin said he has received the signed easement and have permission to go in there and now the state seems to be dragging their feet by saying that they have to check a little further. He said that Mr. Nussmeyer has suggested they go along with their share of it and the maintenance supervisor said that he thought he could get that taken care of. Mr. Martin said he would have the plans completed next week.

A meeting of the Vanderburgh County Drainage Board was held this 1st day of April, 1974, at 11:55 a.m. with President Thomas Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: BURCH INDURSTRIAL CENTER

Mr. Nussmeyer showed the Drainage Board members drawings of the project out on Highway 41 and 57. He said they hope to have the plans prepared on this by next week to submit to the state.

Mr. Stephens asked if they have formed an association yet and Dick said no, they are trying to avoid it. Mr. Stephens asked are they going to take care of their own maintenance and Dick said we will pay part, they will pay part and we will put them on assessment.

Mr. Nussmeyer said we have asked the state to go in on the part to the North and it looks like they are going to cooperate, at least for the time being. He said to the North is the only place that he can comprehend any problems.

Mr. Stephens said then there is nothing the Drainage Board has to do is there and Dick said no, he just wanted to report.

Commissioner Ossenberg asked about Baumgart Road and Dick said they are going to make some drainage improvements in there also.
Tom said that Mr. Ted Gore has asked of us to send him a notification, if and when the state approves this as to when they are going to go in there.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: OPENING OF BIDS FOR MAINTENANCE OF LEGAL DRAINS:

The following bids were opened and read aloud by county attorney's Swain and Stephens:

UNION TOWNSHIP DITCH ASSOCIATION:

Kamp Ditch...11,160 ft...07 per ft.=$781.20
Barnett Ditch...8358 ft....07¢ per ft.=585.06
Cypress Dale Maddox.....23,687 ft...12¢ per ft.=$2,866.44
Edmond Ditch....15,395 ft....03¢ per ft.=$461.85
Happe-Helfrich.....12,698 ft....07¢ per ft.=$888.86

There were five Cashiers Checks in the following amounts:
$143.32, $44.44, $39.06, $29.25 and $23.09.

C.H.MAASBERG:

Maasberg Ditch....2,206 ft....07¢ per ft..=$154.42...$8.00 cash enclosed.

RUSSEL STRATMAN:

Baehl Ditch...6,797 ft....9.5¢ per ft= $645.72
Hoefling Ditch....5,571 ft....09¢ per ft.= $501.39
Kneer Ditch....3,036 ft...09¢ per ft.=$273.24
Maasberg Ditch...2,206 ft....8.5¢ per ft...=$187.51
There was a personal check enclosed in the amount of $80.39.

EDWARD SCHMITT:

Kelly Ditch....7,600 ft...16½¢ per ft...$1254.00
If no burning allowed...25¢ per ft....$1900.00

Henry Ditch...3,179 ft...16¢ per ft....$508.64
If burning is not allowed....24¢ per ft....$762.96
Enclosed was a Cashier's Check in the amount of $88.13

RALPH REXING:

Pond Flat "A" Lateral....5,311 ft...07¢ per ft....$371.77
Pond Flat "B" Lateral....2,797 ft...07¢ per ft....$195.79
Enclosed was $30.00 cash.

ARMSTRONG DITCH ASSOCIATION:

Lower Big Creek...7,501 ft...10¢ per ft.=$750.10
Pond Flat Main....29,351 ft...10¢ per ft.=$2,935.10
Pond Flat "C" Lateral.....9,036 ft...10¢ per ft.=$903.60
Pond Flat "E" Lateral.....3,616 ft...10¢ per ft..=$361.60
Rusher Creek.....4,444 ft...10¢ per ft.=$444.40.....TOTAL BID: $5394.80
Enclosed was a Cashier's Check in the amount of $269.74

LEO C. PAUL:

Baehl Ditch....6,797 ft....08¢ per ft.=$543.76
Barr's Creek....20,668 ft....13¢ per ft.=$2,686.84
Crawford-Brandis....12,982 ft....09¢ per ft.=$1,168.38.
Harper.....6,600 ft....10¢ per ft.=$660.00
Hirsch Ditch.....5,347 ft...13¢ per ft.=$695.11.

LEO PAUL...CONTINUED:

Nurrenbern Ditch.....10,054 ft.....07¢ per ft.=$703.78
Stockfleth Ditch.....6,296 ft.....07¢ per ft.=$440.72
Wallenmeyer Ditch.....8,355 ft.....08¢ per ft.=$668.40

ALTERNATE BID: for hauling off for the following ditches:

Crawford-Brandis.....12,982 ft...04¢ per ft.=$519.28
Harper Ditch.....6,660 ft.....04¢ per ft.=$264.00
Hirsch Ditch.....5,347 ft.....05¢ per ft.=$267.35
Nurrenbern Ditch.....10,054 ft.....04¢ per ft..=$402.16
Stockfleth....6,296 ft.....04¢ per ft.=$251.84

Enclosed is a Cashier's Check in the amount of $463.58

DARRYL SCHMITT:

Nurrnebern Ditch.....10,054 ft.....07-3/4¢ per ft.
Boesche Extension..... 3742 ft.....14 ¢ per ft.
Harper Ditch.....6600 ft.....09-3/4 per ft.
Kolb Ditch.....7557 ft.....10¢ per ft.....TOTAL BID: $2707.26

ALTERNATE BID:

Nurrenbern.....20¢ per ft.
Boesche Ext.....20¢ per ft.
Harper Ditch.....18¢ per ft.
Kolb Ditch.....18¢ per ft.

Enclosed is a Money Order in the amount of $135.12

ALBERT SCHMITT:

Crawford-Brandis Ext..14,628 ft.....14½ ¢ per ft.
Hirsch Ditch.....5,347 ft.....11-3/4 ¢ per ft.....TOTAL BID: $2,749.33

ALTERNATE BID: Crawford Brandis....Additional .18¢ per ft.
Hirsch Ditch.....Additional .15¢ per ft.

Enclosed is a Money Order in the amount of $137.46

LEO N. BITTNER:

Wallenmeyer.....8,355 ft....10¢ per ft.=$835.50
Buente Upper Big Creek.....20,195 ft.....15¢ per ft.....$3,029.25
Buente Upper Big Creek "A" Lateral.....3,666½ ft.....12¢ per ft.=$439.98

Enclosed is a personal check in the amount of $215.39.

JOSEPH SEIB:

Maidlow Ditch.....11,475 ft.....15¢ per ft.=$1,721.25.

Enclosed is a Money Order in the amount of $86.06

MERL HOEFLING:

Hoefling Ditch.....5,571 ft.....07¢ per ft.=$389.97

Enclosed is $20.00 in cash.

GEORGE J. SEIB:

Kelly Ditch.....7,600..12¢ per ft.=$912.00
Henry Ditch....3,245 ft....12¢ per Ft.=$389.40
Kolb Ditch.....7,703 ft.....10¢ per ft.=$770.30
Stockfleth Ditch.....6,318 ft.....12¢ per ft.=$758.16
Aiken Ditch....3,900 ft....12¢ per ft.=$468.00
Aiken Extension.....6,011 ft.....09¢ per ft.=$540.99

Enclosed is a Cashier's Check in the amount of $191.94

EUGENE REXING:

Pond Flat "D" Lateral.....4,579 ft.....12¢ per ft.=$549.48
Singer Ditch.....2,450 ft.....10¢ per ft.$245.00
Enclosed is cash in the amount of $40.00

MANFRED STAHL:

Boesche Extension.....3,742 ft.....13¢ per ft.=$486.00
Schlensker Ditch.....4,000 ft.....08¢ per ft.=$320.00

Enclosed is money order's in the amount of $16.00 and $24.32.

NORMAN E. MESSEL...CONTRACTOR:

Keil Ditch.....3,390 ft.....16¢ per ft.= $481.92
Sonntag-Stevens Ditch.....13,204 ft.....11¢ per ft.=$1,452.44

Enclosed is a Cashier's Check in the amount of $96.72

JOSEPH SCHMITT:

Stockfleth....6,296 ft.....16¢ per ft.
Schlensker Ditch.....4,000 ft.....08¢ per ft.
Aiken Ditch.....3,327 ft.....14¢ per ft.
Kneer Ditch.....3,036 ft.....12¢ per ft.
Crawford-Brandis.....12,982 ft.....11-3/4¢ per ft...TOTAL BID: $3,682.84

ALTERNATE BID: For hauling

Stockfleth....Additional.....20 per ft.
Schlensker....Additional.....15 per ft.
Aiken.....Additional.....15 per ft.
Kneer.....Additional.....15 per ft.
Crawford-Brandis...Additional...18 per ft.

Enclosed is a Money Order in the amount of $184.15.

Commissioner Willner moved that the bids all be taken under advisement for one week at which time the County Surveyor will give a report on the lowest bidders.

Commissioner Ossenberg seconded the motion. So ordered.

Mike Ludwick asked what would happen if some of these bidders went into these fields and in the cleaning of the ditches they destroyed some corn or beans. Who would be liable for them.

Mr. Stephens said he doesn't think the county would because we have the 75feet right of entry. They have never had this to happen before, so we would cross that bridge if we get to it.

Mr.Peter was present and said he thinks that the bidder is liable for any damage that they might do, as they are bonded.

MEETING ADJOURNED AT 12:15 p.m.

VANDERBURGH COUNTY DRAINAGE
APRIL 15,1974

A meeting of athe Vanderburgh County Drainage Board was held this 15th day of 11:35 a.m. with President Thomas Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: CLAIMS

A claim was submitted by the Evansville Courier for legal advertising of the Drainage Board for a notice to Bidders in the amount of $21.02.The Evansville Press submitted a claim also for the advertising in the amount of $21.02.

Commissioner Schaad moved that these claims be approved for payment. Commissioner Willner seconded the motion. So ordered.

RE: AWARDING OF BIDS FOR THE ANNUAL MAINTENANCE OF LEGAL DRAINS

Mr.Ludwick presented a list of the bidders and the amounts of the bids with the low bids underlined and said that there was a tie of bids submitted by Manfred Stahl and Joseph Schmitt on Schlensker Ditch in the amount of $320.00. He said the Joe Schmitt cleaned this ditch last year.
Mike recommended that low bids be awarded on the ditches.

HIRSCH DITCH.....Mr. Nussmeyer said he didn't think that the Hirsch Ditch needed to be cleaned, that part of it is in the county and is part of Oak Grove Road and it has been abandoned from Green River Road in, so this ditch can be scratched from the list.

HARPER DITCH....Mr. Nussmeyer said that Harper Ditch is another that has been abandoned from Green River Road in, but there is a portion outside the city to be cleaned, so a portion can be scratched from the list.

KOLB DITCH....Mr. Nussmeyer asked that the bid on Kolb Ditch be taken under advisement since they have asked the county council for funds for the structure of Pollack Avenue and Fuquay Road.

Commissioner Willner moved that the bids for the cleaning of ditches be awarded as recommended with the exception of Kolb Ditch, which the Commissioners will take under advisement, Hirsch ditch which is to be scratched completely and Harper ditch which will leave a portion to be cleaned and under the tie for Schlensker ditch, the contract to be awarded to Manfred Stahl.

Commissioner Schaad seconded the motion. So ordered.

RE: BURCH INDUSTRIAL

Mr. Nussmeyer said that he is to meet with John Weber on the Burch Industrial problem.

APRIL 29,1974

A meeting of the Vanderburgh County Drainage Board was held this 29th day of April at 12:00 noon with President Thomas Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: BROWN AND FERRIS

Mr. Jerry Evans was present to represent Brown and Ferris and stated that they have to cross over Eagle Slough to get to some land they have purchased. Water has been up for some time out there and they have been concerned about the availability of dirt they have. The state and everyone else is concerned with the low stock pile we have. They have been waiting for the water to get totally out of the ditch before they cross. The water is low, but not out of the ditch. He said they have talked to Mike Ludwick about putting in a temporary culvert which would be two-five ft. pipes covered with dirt. He said they would agree to remove these at their expense when they get done in there, which would be before any danger of high water.

Mr. Nussmeyer said he would like to see a deadline of November 1st for them to get the pipes back out of there.

Mr. Evans said they would be willing to remove them immediately if told to do so or else will have them out by the November 1st deadline.

Commissioner Schaad moved that they be allowed to cross over Eagle Slough and that the latest date the tile be removed and cleaned up to be in the same condition as it was before they started, be November 1st or any date before that upon notification from our Engineer's office.
Commissioner Willner seconded the motion. So ordered.

VANDERBURGH COUNTY DRAINAGE
MAY 6, 1974

A meeting of the Vanderburgh County Drainage Board was held this 6th. day of May at 11:08 a.m. with President Thomas Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: CLAIM

The following claim was presented to the Drainage Board for payment:

PRIEST HAZELWOOD AND SON INC.....Easement for Eagle Slough.....$500.00

Mike Ludwick said this is a bill from about a year and a half back and we do owe it. County attorney Thomas Swain has checked into it and has recommended that we pay it.

Commissioner Ossenberg moved that the above claim be approved.
Commissioner Willner seconded the motion. So ordered.

RE: BURCH INDUSTRIAL

Mr. Nussmeyer said that the city is out in this area working on a water line and sewer and they probably won't be out of there until August, so he would like for the Drainage Board to know this.

VANDERBURGH COUNTY DRAINAGE
MAY 20, 1974

A meeting of the Vanderburgh County Drainage Board was held this 20th. day of May, 1974 at 11:40 a.m. with President Thomas Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: SONNTAG-STEVENS DITCH....CANTRELL CRADDOCK

Commissioner Ossenberg said that Mr. Cantrell Craddock got in touch with him last Friday and wants to know why he is on the Sonntag-Stevens Ditch assessment roll and his neighbors on either side of him aren't. Mr. Craddock's address is 4310 Oak Hill Road, in Center Township. Tax code 2-171-22.

Mike Ludwick said what Mr. Craddock wants is to be dropped from the ditch assessment. He doesn't feel that he should pay and said that he hasn't paid for three years. Mike said he showed Mr. Craddock the assessment roll and all the neighbors around him are paying an assessment. He wouldn't say the neighbors on either side of him are paying, because he doesn't know who these people are.
Personally, he doesn't feel Mr. Craddock should be dropped from the assessment roll, just because perhaps there are some people that should be paying and aren't. Mr. Craddock is in the water shed and should be assessed.
He said it is true that all over the county there are people in water sheds that should be assessed, but aren't. Mr. Craddock's assessment is the minimum charge of $3.00 per year.

Commissioner Ossenberg said that Mr. Craddock told him that he has gone to each of the neighbors on each side and they aren't paying an assessment, even though they are in the water shed.

Commissioner Willner said this is going on all over the county. We had to re-do Union, because the court ordered us to, and this is what we are going to have to do to these other townships too when the court gets tired of it. He realizes this is a tremendous job but something is going to have to be done

Commissioner Schaad said perhaps these neighbors were omitted in error, but he still doesn't see how we can drop Mr. Craddock, but how can we get these neighbors on the assessment roll.

County attorney Bill Stephens said we would have to adopt a whole new assessment roll, have meetings after we notify everyone and give them a chance to remonstrate. Incidently, when these rolls were adopted we gave notice to each property owner and at that time they had an opportunity to object to it. He would say on this particular person, he doesn't see where he can justifiably be stricken from the roll.

County attorney Tom Swain said this assessment is under the old allotment system and technically you are suppose to be re-doing every ditch on a water shed basis.

Commissioner Ossenberg said regardless of what action we take today he is sure Mr. Craddock will appear before us at next Tuesday's meeting, so do we want to defer action and talk to him or reject this request and keep him on the assessment roll, and if he so wishes, he can appear before the Drainage Board and discuss this further.

Commissioner Willner said he isn't going to reject it because he feels like Mr. Craddock has a legitimate complaint.

Mr. Swain said the assessment roll hasn't been checked, so we don't know that his complaint is legitimate. Really, your making a decision based on imperfect information.

Commissioner Willner said he knows there are legitimate complaints within the county. He is in favor of having Mr. Craddock come in next Tuesday and he would like for Mike to check out the neighbors on either side of him and maybe even have Mike to check to complete water shed.

Mr. Ludwick said these water sheds haven't been re-done since 1965, with the exception of Union.
He said first of all he is no drainage engineer and secondly, he has no intentions of getting involved in it. He said he is willing to do his part, but this is going to require a Drainage Engineer and he certainly is not qualified to do this.

Mr. Nussmeyer said this is one terrific job and would be obsolete before its finished.

Commissioner Schaad said he wondered if it would be better to employ an outside engineer to make this study.

Mr. Ludwick is to check these things all out and report back to the Board next week.

RE: EAGLE SLOUGH....MR. BILL LLOYD

Mr. Lloyd said they have dug on this up to his culvert and he is saying right now it is not big enough and will never carry all of the water. The rains we've had in the last few weeks have flooded his fields and isn't being carried off. The engineer says the ditch is not done from Wathen Road up to his culvert. From the culvert, through the bar-pit to Fickas pump station, they've never touched. There are some places in the bar-pit that the surveyor's stake shows three feet deep and he knows you can't get much water in that.
He said he has put up with water in his fields for seven or eight years and he is tired of it and he wants something done.
He suggested to go to Wathen Road, re-dig that part of the ditch, up to his tile and on through to the Fickas pump station and put a ten foot bottom in it and put him some concrete tile to crossover and he would be satisfied. If the water didn't go through that, then he would have no kicks coming.

Mr. Nussmeyer said he would recommend we do what Mr. Lloyd suggested. We'd have to go back to about Weinbach and re-dig it. It would be a cost of approximately $5,000.00, but something is going to have to be done to give Bill some relief.

Commissioner Ossenberg asked if we have the money and Dick said yes.

Commissioner Willner moved we give the County Surveyor authority to ask for bids from the contractor of Eagle Slough to do the work according to the Surveyor's specifications and return to us next week on this.
Commissioner Schaad seconded the motion. So ordered.

MEETING ADJOURNED AT 12:10 p.m.

PRESENT:

VANDERBURGH COUNTY DRAINAGE
MAY 28, 1974

A meeting of the Vanderburgh County Drainage Board was held this 28th. day of May, 1974, at 11:21 a.m. with President Thomas Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: SONNTAG-STEVENS DITCH....CANTRELL CRADDOCK

Commissioner Ossenberg said it was brought to our attention at last weeks meeting the ditch assessment of Cantrell Craddock who lives at 4310 Oak Hill Road and is assessed on Sonntag-Stevens Ditch. Tom said he received a letter from Mr. Craddock stating no one he can find, and this encludes a sub-division called Clover-Lawn in back of him to the west, pays this ditch assessment except him. He said there are many homes closer to Sonntag-Stevens ditch than he is. He knows taxes are a must, but why should he be singled out of a community to pay this ditch tax, as this isn't equitable assessment.
Commissioner Ossenberg said he asked Mike Ludwick to check into this and report back to the Drainage Board this week.

Mr. Ludwick said he checked this and Mr. Craddock's neighbors to the immediate left and right of him are not on the assessment roll and have never been as far back as 1967.

Commissioner Schaad asked if these neighbors are in the water shed and Mike said yes.

Commissioner Ossenberg asked if the people in Clover-Lawn are paying and Mike said some are and some aren't.

County attorney Bill Stephens said when that ditch assessment was determined, notices were sent out to all that were to be assessed and at that time they could appear before the commissioners and object to either being assessed, or object to the amount they were being assessed for. Obviously, there were some errors made in the determination of who was to be assessed, but the time to object has long since passed and we can't correct that now. All we can do is what was discussed previously, and that is to have a complete re-assessment made. Mr. Ludwick is not a qualified Drainage Engineer and he just doesn't have the qualifications or the time.

Commissioner Willner said just who does the law say is the Drainage Engineer and who is responsible for doing this.

Mr. Stephens said he doesn't know who the Drainage Engineer is but when a piece of property is transferred from one owner to another it is done in the Assessor's office, then to the Auditor's office and a list of all new owners is then suppose to be given to the Surveyor's office.

Lew Volpe, Auditor, said on drainage the law is quite specific that all assessment is done by the Surveyor's office.

Commissioner Willner said he has had about five calls in the past week and things similar to this is happening all over the county.

Mr. Stephens said well there's no doubt about it that this has been a haphazard system and a lot of errors have been made but in order to assess these people who have never been assessed and should have been, we would have to have a complete re-assessing. This particular error occurred in the original assessing of Sonntag-Stevens Ditch.

Commissioner Ossenberg said he knows this re-assessing is going to be a tremendous job but it looks like that is what we are going to have to do, because he cannot see singling out one person and also Mr. Craddock said he never received a notification of any kind and he has lived out there since around 1964.

Mr. Craddock said he has paid this assessment up until the last couple of years, because he assumed everyone else was also paying.

Commissioner Willner said he knows its going to be a big job but he says lets start on it now, because it is not right the way it is and something has to be done about it.

Commissioner Schaad said it wasn't done right to start with and he doesn't see anything else but to do it over.

Mr. Ludwick asked did they want to start with Sonntag-Stevens and they all decided that we might as well, since this is the one in question now.

Mr. Ludwick said while we're on Sonntag-Stevens he would like to say that last year it was the boards decision to put on every sub-division by lot, so this year he added on what is called Aspen Ridge Sub-Division which is owned by Citizens Realty. He feels he should not have added this on and he would like for the board to give him permission to void these bills. They will be put back on in the new re-assessment.

Mr. Volpe said the only way to keep it straight is to keep the taxation and the ditch assessments exactly the same on all ditches, so that when something is platted we pick up each lot.

Commissioner Willner said he wants to be reassured we won't do Sonntag-Stevens and then stop, as they all need to be done in time. He asked Mike should we do them a ditch at a time or a Township at a time and Mike said a ditch at a time.

Mr. Stephens said since we are going to re-assess the whole thing he would recommend we void the Aspen Sub assessments for this year, because what Mike did was add it on without re-assessing the whole ditch.

Commissioner Schaad moved that all of the Aspen Sub bills be voided. Commissioner Willner seconded the motion. So ordered.

RE: CHANGE ORDER....EAGLE SLOUGH

Mr. Nussmeyer presented,as requested previously, a change order for work to be done on Eagle Slough, concerning the problem on Mr. William Lloyd's property. It was for widening the channel in the area that has already been excavated, the price being per cubic yard will be $.60. For the eliptical RCP size 68" X106" X 24' in length, the lump sum price for furnishing and installing is $3,444.00. This is from Priest Hazelwood.

Commissioner Willner moved this change order be approved. Commissioner Schaad seconded the motion. So ordered.

VANDERBURGH COUNTY DRAINAGE
JUNE 3, 1974

A meeting of the Vanderburgh County Drainage Board was held this 3rd day of June, 1974, at 11:05 a.m. with President Thomas Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: DISCUSSION...WILLIAM WAGNER.....EAGLE SLOUGH

Mr. William H. Wagner of 1014 E. Gum Street said he was assessed for $179.29 on Eagle Slough. He said the way this Slough is going through it will not effect this land of his at all. He is speaking of eighty acres of land on the old river road. He said the people on both sides of him got out of being assessed. These people are Traylor Brothers and Mr. Tapp, from Henderson Kentucky. He doesn't see why he is assessed if these people aren't.

Commissioner Willner said when the county asked for remonstrators on Eagle Slough wasn't Mr. Wagner notified the meeting was to be held.

Mr. Wagner said thats been a couple of years ago and he doesn't remember, but he knows he didn't sign anything.

Commissioner Willner said no, but there was a time when all people included in the Eagle Slough assessment were to come in and object if they felt their property didn't drain into it and we sent the Surveyor or the Drainage Engineer out to check it out and see what was correct.

Mr. Wagner said back in there they have what is called Eagles Lake and there is about eight acres of ground which is too low and will not drain and cannot be cultivated. They also have about ten acres up there in slough which they cleaned the trees out of there about eight or ten years ago and the high water gets in there and doesn't dry up until about July. He would like to take someone up there and just show them the situation. He and his sister had 147 acres and they sold 47 acres in 1965, when the new highway went through. He has 80 acres which he said drains into the river and not Eagle Slough. This land is up on River Road, on the far east end of the Slough. You go out Highway 41 and right there where you turn into Dade Park, it's right across where the old traction line use to be. Mr. Tapp, from Kentucky, owns 96 acres right there also and he isn't being assessed for any of it.

Mr. Mike Ludwick said the former drainage board, when they went through the legal precedings, Mr. Wagner did write an objection and the drainage board passed on it. Traylor Brothers is one of the people that don't pay. The drainage board decided that since it was a barrow pit, Mr. Biggerstaff did go down and survey the farm ground and all the ground drained into the barrow pit and the board accepted Mr. Giggerstaff's explanation for this and decided to take Mr. Traylor off of the assessment rolls. Mr. Tapp's farm also drained into this barrow pit, so the drainage board dropped their assessment also. The board over-ruled Mr. Wagner's objection and he was left on the assessment roll.

Commissioner Willner said if this was the action of the former board we can't take him off, can we.

Mr. Nussmeyer said can we check this by a survey, and Mike said there isn't any need to since the former board ruled on this already when they surveyed it.

Mr.Wagner asked if someone would go with him and let him show them the situation.

Commissioner Schaad said he feels Mr. Wagner is due this courtesy.

Mr. Nussmeyer said he would go out and look at it.

Commissioner Willner said he agrees Mr. Wagner is due the courtesy, but, he doesn't know if anything can be done about it.

Commissioner Schaad said if there was an error made then there should be some way to over rule the previous action taken on it, so at this time he would like to move that the Surveyor be instructed to go out and check this out with Mr. Wagner. Commissioner Willner seconded the motion. So ordered.

RE: KOLB DITCH

Mr. Nussmeyer said he has received more complaints out on Kolb Ditch, where the Brentwood area is also effected. He said he would like to report that we have plans developed for the innersection of Fuquay and Pollack Avenue. These plans are in the hands of the Southern Indiana Gas and Electric Company and the whole thing hinges on their approval of these plans.
We can let a separate contract on the innersection and then let another contract on the ditch. We are attempting to lower the drain on Pollack Avenue. Mr. Ludwick is going to check on this problem and try to report back on it next week.

JUNE 24, 1974

A meeting of the Vanderburgh County Drainage Board was held this 24th. day of June, 1974, at 11:00 a.m. with President Thomas Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: EAGLE SLOUGH

Mr. Nussmeyer said he talked to Mr. Wagner again last week about the problem out on River Road. He said he hasn't been able to get in there and look the situation over because of the high water, but will do it as soon as he can and report back.

RE: BURCH INDUSTRIAL

Mr. Nussmeyer said that there are two contractors working in the area presently and part of their construction is going to the S.W. corner of Petersburg Road and Highway 41 and it will be in the same ditch that he will be involved in so he anticipates the schedule will be in October or November of this year which doesn't leave him much time.
He said he has agreed to go to Indianapolis with Nick VanElan to see if their plans coincide with his. He said that right now they can't get off dead center, that they are waiting on the state, the city with two contracts and the Water Department.

Commissioner Ossenberg said he was sure the people out there would understand if they were kept informed of the situation.

VANDERBURGH COUNTY DRAINAGE
JULY 8, 1974

A meeting of the Vanderburgh County Drainage Board was held this 8th. day of July, 1974, at 10:30 a.m. with President Thomas Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: CLARIFICATION REQUESTED

There had been a complaint of the way in which public funds are being handled by Mr. Pete Chandler, the City Controller, in the meeting of the County Commissioners today, but this was a matter to come before the Drainage Board, so the matter was further discussed at this time.

Mr. Chandler said that the Auditor is a county official and has acted in a manner that needs clarification, since he withheld money from the city's fair apportionment of tax receipts for Harper Ditch and Eagle Slough.

Mr. Volpe said that under the Drainage Laws, there are two ways in which the Auditor can collect, that one is: A. On a five year basis, and the other; B. On the written petition of all the owners, it could be up to twenty years and to say this could be up to twenty years, would be to say that the Board of Works of Evansville owns every piece of property in Evansville, that since he has a home in Evansville, he debated whether the Board of Works owns his house, therefore they are down to the fact that he can only bill on a five year basis and this is exactly how the law reads. He said he doesn't care what the bonding attorney's say, that they cannot override a piece of legislation and this is his position and only through Circuit Court, can they change his position.

County Attorney Swain said that the law provides that payments may be spread over ten years through Bond Issue, if it can't be paid in a five year period and in this instance, bonds were issued and the bonds require a ten year payment, therefore 1/10 of the bonds come due each year.
He said that Mr. Volpe was right on the statute that he read but that this wasn't financed under the five year statute, that it was financed under the Bonding Statute.

Mr. Volpe said they would go to court on it.

County Attorney Swain said it was fine if the Drainage Board wanted to tell him to go to court but that he didn't want to be told to go to court by the Auditor.
He said by the very fact that Mr. Volpe deducted the money without a claim, he is using the bonded statute rather than the one he claims he is using.

Mr. Chandler asked if the contract that has been entered into and signed by the Drainage Board is the true contract by which they will operate for the life of the contract. He said he needs to know so he can enter the amounts in the City budgets for next year.

Mr. Swain said the Drainage Board would like to operate this way but that the Auditor would not.

Mr. Chandler then asked what power the Drainage Board has over the Auditor in this matter, since the city would like to have their money back, that was apparently, if not illegally, mistakenly withheld, in terms that it was twice the amount.

County Attorney Swain advised the Drainage Board to order the Auditor to pay it on a ten year basis.

Mr. Chandler said he will then assume that the city will get a rebate from the Auditor for the overage that he has withheld from the city.

Commissioner Schaad moved that the Auditor be directed to pay the money on a ten-year basis. Commissioner Ossenberg seconded the motion. So ordered.

Mr. Volpe said that he would have to notify the State Board of Accounts, because apparently, they aren't familiar with that law.

There was further discussion, in that the Harper Ditch project was a bridge and has turned into a sewer, which is what the city was to pay for, that the County is to pay Ohio Valley Engineering, under their contract and be reimbursed by the city, so the money can go back into the bridge fund, so this is the reason for the claim to the city for the $25,000.

County Attorney Swain said that part of Harper Ditch was abandoned and that the original contract called for five structures and this contract was cancelled and a new contract was drawn up for four new structures and the locations of them were changed and that the engineering was all that Ohio Valley Engineering was to do. He said, if he remembered correctly, Ohio Valley Engineering submitted a bid on the first contract and it was agreed that they would only claim what was under the first contract. He said that Ohio Valley Engineering submitted a final bill for the first contract.

Commissioner Ossenberg said it seemed to him that the final figure, in the agreement, for the project, was to be around $50,000.00. He said the contract was way up but a lot of abandonment was done out there so they reduced their budget.

Commissioner Schaad said that Mr. Nussmeyer should get together with them and get this thing squared away so they can get it settled once and for all.

RE: CLAIM

Mr. Nussmeyer presented a claim from Priest Hazelwood and Son, Inc. for Eagle Slough, 126-252, in the amount of $3,981.60.

Commissioner Schaad moved that the claim be approved. Commissioner Ossenberg seconded the motion. So ordered.

The Drainage Board meeting adjourned at 10:45 a.m.

VANDERBURGH COUNTY DRAINAGE BOARD
JULY 15, 1974

A meeting of the Vanderburgh County Drainage Board was held this 15th. day of July, 1974, at 10:40 a.m. with President Thomas Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: REQUEST TO HAVE DITCH CLEANED

Mr. Wilburn Buente appeared before the Commissioners and said that he has been trying to get a ditch cleaned out on Buente for a year. He said the water is washing over the gravel road and closing his culvert. He wondered if there was any way he could get it cleaned out. He said this problem is south of Boonville-New Harmony Road, also that Mr. Martin has made a survey of it.

Mr. Martin said that he was out there last fall and found that the ditch was in need of being cleaned and shaped and he gave his report to Mr. Willard. He said that the grade-all that the county has would do the work.

Commissioner Willner said that Buente Road was recently resurfaced, since there was a newspaper report that the oil mat was wasting away and Mr. Willard did the road over and put a new floor in the bridge, also at that time, it took care of the drainage on Boonville-New Harmony and he thought the road was in pretty good shape.

Commissioner Schaad said he thought they agreed that when they do improve a road, that they cut the berm and do it right, to do less mileage of road but do it properly and he was sorry to hear that it wasn't done in this case.

Mr. Buente dais there is 300 to 400 feet of work to be done and he is afraid that if it isn't done, they will have to tear the culvert out again and replace it.

Commissioner Willner said that with the permission of the other Commissioners, he will follow through on this matter to see that the work is done.

The other Commissioners agreed that Commissioner Willner follow through with it.

RE: WEINSHEIMER WATERSHED...PHASE I

Mr. Nussmeyer said the Warrick County Drainage Board brought the Surveyor's report of Phase I of the Weinsheimer Watershed. He said we have 143 acres in this watershed.
A list of the property owners that are affected was included in the report.

Mr. Nussmeyer said they want to hold a hearing on this so it will take the action of the Vanderburgh County Drainage Board to do so, because this is a joint board.

Commissioner Schaad moved that the Vanderburgh County Drainage Board give the authority to the Warrick County Drainage Board to give notice to the necessary people for a public meeting. Commissioner Willner seconded the motion. So ordered.

Commissioner Schaad said they will do all the work and bill Vanderburgh County, that we will send out the bills for Vanderburgh County and Warrick County will bill us for the money that we collect from the people in the watershed.

The meeting adjourned at 10:45 a.m.

JULY 22, 1974

A meeting of the Vanderburgh County Drainage Board was held this 22nd day of July, 1974, at 11:40 a.m. with President Thomas Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: EAGLE SLOUGH

Mr. Nussmeyer said back last winter he was given permission to advertise for bids or take invitational bids for the rip-rapping along the north bank of the new channel of Eagle Slough where it crosses Highway 41. He believes it will run less than the $5,000.00 they estimated so he is wondering if he should take invitational bids or run an advertisement.

County attorney Bill Stephens said we should advertise for it.

Commissioner Schaad moved that Mr. Nussmeyer advertise for bids. Commissioner Willner seconded the motion. So ordered.

Meeting adjourned at 11:42 a.m.

PRESENT:

VANDERBURGH COUNTY DRAINAGE
JULY 29, 1974

A meeting of the Vanderburgh County Drainage Board was held this 29th day of July, 1974, at 10:40 a.m. with President Thomas Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: ADVERTISING FOR PIER PROTECTION

Mr. Nussmeyer presented specifications and bid to be advertised for the rip-rapping under New 41 Bridge Structure by Eagle Slough.

Commissioner Willner moved that this be approved for advertisement. Commissioner Schaad seconded the motion. So ordered.

RE: HARPER DITCH

Mr. Nussmeyer said we are having a little confusion as to what was agreed upon between us and the city on some work done on some ditches by Ohio Valley Engineering. He presented some minutes from previous meetings to Commissioner Ossenberg and he read the following:

Mr. Nussmeyer said the former Commissioners comitted themselves to some engineering work on ditches in this area with Ohio Valley Engineering. The city is to reimburse us on this.
Mr. Willner said he still wants to know if its for the whole thing because he is not satisfied with this and if we've got to go out there and build the structures then he isn't for it.
Mr. Swain said this contract is for the engineering only, and it was his understanding it is for only the 600 feet the city was to reimburse us for and not the building of the structures. He said he has not had a chance to talk with John Cox or Hank Sauer yet, but he will get with them this week.
Mr. Schaad said then we will take this under advisement for another week.
At this time Dick Eiffler came in and Commissioner Schaad told him that we were under the impression that the city was going to reimburse the county for the whole thing and Dick said yes, that is true. He said they would have to because the law requires them to.
Mr. Willner said he doesn't understand why we had to do the engineering part of it and get reimbursed.
Mr. Stephens said since it is a legal drain the city didn't have any jurisdiction to do the engineering on it.

Commissioner Ossenberg said after reading the above minutes he would say it is spelled out very plain that the city does owe us.

Mr. Nussmeyer said what they are doing is designing a storm sewer.

Commissioner Ossenberg said does this mean the $25,000.00 we approved has to be reimbursed to us by the city and Dick said yes.

Mr. Volpe said what was done was that we paid Ohio Valley and then he withheld it from the distribution.

Commissioner Schaad said he knows we deducted it but there never was a claim sent to the city for the $25,000.00. Maybe we should send them a paid receipt.

Mr. Volpe said the city submitted a claim last week that is pending. They want us to give them the money back so we can bill them.

Commissioner Schaad said we should have sent them a bill for this instead of just deducting it, as they should have something for their files.

Commissioner Willner said now do we want to give their money back to them and then bill them for it or do we want to just give them a receipt.

Canty attorney Bill Stephens said he thinks what we want to do is give them a detailed explanation and inform them it is already paid and give them a receipt.

Commissioner Ossenberg said in this case it is down in black and white that they do owe us and he would like for these minutes to be xeroxed and given to the controllers office.

Mr. Stephens said why don't we have these minutes, an explanation of what has been done and a receipt marked paid all at next Monday's meeting to give to Mr. Chandler.

Commissioner Ossenberg said fine, we will do it that way.

RE:INDIANA BELL TELEPHONE COMPANY

Mr. Ludwick said he has a letter from the Telephone Co. wanting the Drainage Board's permission to lay a cable under the Lincoln and Fuquay storm sewer that we installed about four months ago.
He told them he would present this request to the Drainage Board and also that they would have to stay 36" below the present flow line in case we ever go back in there and clean it out we wouldn't hit the cable. This is an open ditch.

Commissioner Schaad moved that the Telephone Company be allowed to lay this cable. Commissioner Willner seconded the motion. So ordered.

RE: KOLB DITCH

Mr. Ed Martin said he has a bad situation on the Kolb Ditch, which ties in with Pollack and Fuquay. He showed them on a map which part will all be cleaned out, which is a legal drain. He showed them where we presently have a drain at.

Commissioner Ossenberg said what this is, is that presently we are about to go into a law suit if something isn't done to this. He said over the years and as high as 1972 the county has gone in there and cleaned this particular ditch. Now we have a situation that borders up on Taylor Avenue .

Mr. Swain said did the drainage board or the highway clean this and Commissioner Ossenberg said the highway department.

Mr.McCoy is the man that is complaining because at one time the county inserted a 24 inch or a 30 inch pipe and now all of the water is dumped on his property. Mr. McCoy said he has lost about five acres of ground because of this pipe. This pipe was put in under Sam Biggerstaff's administration.

At this time Mr. Biggerstaff came in and they asked him if he recalls the situation. He said he knows where we are talking about but he thinks the city put that tile in and not the county. We may have cleaned it but its in the city limits and he feels the city put the tile in.

Commissioner Ossenberg said we should check with the City Engineer's office and see if they did this. He said he was told by some people in the area that Mr. McCoy blocked the drain up and it backed up as far as Taylor Avenue and flooded a man's basement.

Mr. Nussmeyer said to give him a week to check into this and he would report back next week.

Commissioner Ossenberg said what about this assessment on Kolb Ditch.
Mr. Nussmeyer said the County Council gave them $30,000.00 and he is wondering if we can use this money and Mr. Swain is going to check into the Statute.

CLAIM:
The following claim was presented to the Commissioners for approval of payment:
Evansville-Vanderburgh Levee Authority District....Refund excess portion of payment made as Levee's share on Eagle Slough Project.....$5,450.99.

This was discussed in the commissioners meeting but it was decided that it should

be put in the minutes of the Drainage Board instead of the commissioners.

Mr. Earl "Pete" Chandler said the Levee's share of Eagle Slough is 3.0-3335% over a ten year period, so the bill was for the full amount. So he wants a refund and they will then pay it a year at a time over a ten year period. The full amount paid was $6,056.67.

Mr. Volpe said he must, by law, first notify the property owner of the full amount due, which he did do last fall.

Mr. Chandler said the bill was paid on January 30, 1974, which was before he became treasurer of the Levee Department.

Mr. Volpe said on the five or ten year bit again the law says he can bill only one way and thats five years, unless the owner wants it made ten years.

Mr. Chandler said he thought that matter had been resolved by the Drainage Board.

Mr. Volpe said it was pre-paid but the question is do they get refunded 80% or 90%.

Mr. Chandler said on all of the claims he submitted last week, are they on the agenda for today's meeting and Commissioner Schaad said they are still waiting for an answer from the State Board of Accounts.

Mr. Chandler said we're going to have to do something, even if it is go to court.

Commissioner Ossenberg said since no one has heard from the State Board, we will put this matter on the agenda again next week and try to resolve it.

Commissioner Ossenberg asked for a motion on the claim presented in the amount of $5,450.99.
Commissioner Willner moved that it be approved, seconded by Commissioner Schaad. So ordered.

Meeting adjourned: 11:07 a.m.

VANDERBURGH COUNTY DRAINAGE
AUGUST 5, 1974

A meeting of the Vanderburgh County Drainage Board was held this 5th day of August, 1974, at 10:40 a.m. with President Thomas Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: FUQUAY ROAD

Mr. Martin and Mr. Ludwick presented a sketch of property on Fuquay Road at Kolb Ditch. He explained the elevation by saying that the water normally went into Mann Ditch and what has happened over the years, he doesn't know. He said someone replaced the pipe and the previous County Engineer said he didn't put it in and it is possible that the city did. He said this is also the dividing line between the city and county. The men from the Engineer's office went out there and profiled this and explained what they found out. He said in the study with Warrick County, if they do anything, we can take the water and dump it into the existing drain and he assumes that they can get the fall over there. He said that the city has apparently done something because that ditch has been dug. He said that there have been complaints made out there because of the conditions that exist.

County Attorney Stephens asked where we gained jurisdiction over this matter since it isn't a county road and it isn't a legal drain.

Commissioner Ossenberg said he was thinking this was all county and they have $30,000 in the Contractual Account and he questioned whether they could go in there or not and he has now found that this is the city's responsibility and he asked Mr. Martin if he had talked to anyone in the city about it.

Mr. Martin said that he hadn't.

Mr. Ludwick said they are going to clean out Kolb Ditch to help them out of the problem created in Brentwood and why couldn't the city, in turn, clean out that ditch.

Commissioner Ossenberg asked Mr. Martin and Mr. Ludwick to get together with the city and tell them what the county is doing and ask them to do what needs to be done on the other ditch.

RE: CLAIM

A claim was presented from Priest Hazelwood for 126-252, Eagle Slough, in the amount of $7,961.78.

Commissioner Schaad moved that this claim be approved for payment. Commissioner Willner seconded the motion. So ordered.

RE: GREEN RIVER ROAD PROJECT

Commissioner Ossenberg said that in regard to an explanation to Mr. Chandler, The Commissioners have the minutes of the Commissioners meeting of April, 9, 1974, whereby the agreement was made on Green River Road, in question of the $25,000 that the county paid Ohio Valley Engineer's and the city is to refund the county, in case a question should come up on this matter.

The meeting adjourned at 10:50 a.m.

VANDERBURGH COUNTY DRAINAGE
AUGUST 12, 1974

A meeting of the Vanderburgh County Drainage Board was held this 12th day of August, 1974, at 11:25 a.m. with Vice President Bob Schaad presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: PROPOSED RECONSTRUCTION AND ANNUAL MAINTENANCE OF EAGLE SLOUGH.....Checks sent in wrong amounts

Mr. Ludwick said he received a letter from Catherine and Theodore Will of 5522 Pollack Avenue, with two checks totalling more than $500.00 on Eagle Slough and in the legal proceedings of Eagle Slough they used the letter of April 5th. 1974, that was sent them by the Drainage Board and that isn't the one they should have used and he didn't know if they received the proper notice or not.

County Attorney Swain said they have to take the position that the people did receive the proper notice.

Mr. Ludwick said they took this letter of April 5th. and wrote checks on Eagle Slough in the amount as shown on that date which is incorrect. The check that he sent in the amount of $86.46 should have been $91.12 and the one that he sent in the amount of $410.54 should have been $435.17.

County Attorney Swain said that the letters of April 5th. were preliminary notices, prior to the public hearing and as a result there were changes made in the assessment. He said to send the checks back to Mr. & Mrs. Will, with a letter, explaining that the figures aren't correct.

Mr. Volpe said this is why he sent out a bill last fall, not asking for money, just for the total amount then, so that anyone that had problems could come in, so he did send out a notice last October.

Mr. Ludwick asked if the letter should be written by the Drainage Board.

Commissioner Schaad said the letter should be sent by the Auditor's office, telling them that they didn't send the correct amount, that a bill was sent to them this spring for the correct amount which should have been $91.12 on code 6-38-13 and $435.17 on code 6-115-3.

RE: OPENING OF BIDS ... EAGLE SLOUGH PIER PROTECTION

There were three bids received for the Eagle Slough Protection. They are as follows:
Tapp Excavating, R.R.2, Box 190, Henderson Ky.....$3,600.00
Barnett Brothers Inc.....$6,999.00
Floyd I. Staub.....$4,785.00

County Attorney Swain said there was difference in the bids on the number of working days so the Surveyor's office will have to look them over to see which is the best bid. He said that the bids of Barnett Bros. and Floyd Staub are okay, also that he assumed the bid of Tapp Excavating to be the low bid and is okay if they have a countersigned resident Indiana agent on the bond.

Commissioner Willner moved that these bids be taken under advisement for a period of one week and referred to the County Surveyor's office for recommendation, at that time. Commissioner Schaad seconded the motion with Mr. Swain's suggestion carried out. So ordered.

The meeting adjourned at 11:35 a.m.

VANDERBURGH COUNTY DRAINAGE
AUGUST 19, 1974

A meeting of the Vanderburgh County Drainage Board was held this 19th day of August, 1974, at 11:25 a.m. with Vice President Schaad opening the meeting since President Ossenberg wasn't at last week's meeting.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them was dispensed with.

RE: CONTRACT AWARDED .....EAGLE SLOUGH PIER PROTECTION

The following bids were received last week for the Eagle Slough Pier Protection and were taken under advisement until today:

Tapp Excavating, R.R.2...Box 190, Henderson, Ky.....$3,600.00
Barnett Brothers Inc.....$6,999.00
Floyd I. Staub.....$4,785.00

Mr. Ludwick said the bids were all in order and that Tapp Excavating Co. had submitted the low bid and that Mr. Nussmeyer has recommended that their bid be approved.

Commissioner Schaad moved that the bid of Tapp Excavating Co. be approved. Commissioner Willner seconded the motion. So ordered.

The meeting adjourned at 11:28 a.m.

SEPTEMBER 9, 1974

A meeting of the Vanderburgh County Drainage Board was held this 9th. day of September, 1974, at 10:41 a.m. with President Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them was dispensed with.

RE: KOLB DITCH

Mr. Nussmeyer showed the Commissioner a chart on Kolb Ditch.

Mr. Martin said they need to take a bend out of the ditch and Mr. Kolb agreed. He said they need to cut a distance of about 200 feet.

He said Mr. Price of the City said they are pushing and the City will do their share. He said there is another ditch called Robertson Ditch which drains into Kolb Ditch, but Robertson Ditch is not a legal ditch so the County can not take care of it.

Mr. Nussmeyer said working on Kolb Ditch will relief Robertson Ditch.

Mr. Swain said he would study this problem and try to have an answer next week.

RE: CLAIMS

A claim for Attorney Fees and Drainage Board Fees in the amount of $500.00 each was submitted to the Drainage Board for approval.

Commissioner Willner moved they be approved, seconded by Commissioner Schaad. So ordered.

A Claim and Extra Work Agreement for Priest Hazelwood and Son in the amount of $3,857.16 was presented to the Drainage Board for approval.

Commissioner Schaad moved they be approved, seconded by President Ossenberg, so ordered.

The meeting recessed at 11:10 a.m.

SEPTEMBER 16, 1974

A meeting of the Vanderburgh County Drainage Board was held this 16th. day of September, 1974, at 10:31 a.m. with President Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them was dispensed with.

RE: MR. GILBERT MOSBY

Mr. Mosby of 7110 Old Boonville Highway said they have drainage problems on Telephone Road from the Warrick County line back west, he said these ditches need cleaned out and he has had promise after promise but no action.

Mr. Mosby said after water gets to the line in ~~Boocie~~ Kelley it stands on the Road. He said he was wondering if the surveyor would survey it and tell them how deep the ditch should be, then maybe he could get the farmers together and maybe get it done thereselves.

President Ossenberg asked Mr. Nussmeyer if he was familiar with this and he said yes.

Mr. Mosby said they have a good Black Top Road but if this water keeps standing on it, it won't be good very long.

President Ossenberg asked Mr. Nussmeyer when he goes out there to check ~~Boocie~~ Kelley Ditch if he will check Telephone Road also.

RE: KOLB DITCH

President Ossenberg said last week it came up about Kolb Ditch and the $30,000.00 they have in the Drainage Board Other Contractual Account. He asked Mr. Swain if he checked ito this and Mr. Swain said he was sorry and that he would report on it next week.

RE: CLAIMS

Mr. Nussmeyer presented a claim for Tapp Excavating Co. for the Eagle Slough Pier Protection in the amount of $3,229.20 to the Commissioners for approval.

Commissioner Schaad moved the claim be approved, seconded by Commissioner Willner, so ordered.

VANDERBURGH COUNTY DRAINAGE BOARD

VANDERBURGH COUNTY DRAINAGE
SEPTEMBER 23, 1974

A meeting of the Vanderburgh County Drainage Board was held this 23rd. day of September, 1974, at 11:15 a.m.

The amended minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them was dispensed with.

RE: KELLY DITCH

Mr. Ludwick said the Survey Crew and Mr. Martin went out and checked Kelly Ditch, he said Kelley Ditch runs into Nurrenbern and then into Crawfore-Brandise. He said if they do not do those two ditches then it is useless to do anything on Kelly. He said the whole East Side Drainage system needs to be re-done.

Mr. Martin said he agreed with Mr. Ludwick. He said last year they made a survey on Crawford-Brandise but nothing was ever done on it. He said Kelly Ditch between the Highway and the Railroad there is no way to get down in there to clean it.

Mr. Martin said there is no use going to the up end and cleaning if you can't get rid of it down below.

Mr. Ludwick said Mr. Biggerstaff turned in some applications to HUD for the total east side system in the neighborhood of $3,000.000.00 or more. He said all of the applications were denied by HUD.

Commissioner Ossenberg suggested they talk to Mr. Bowman for the possibility of an A95 review.

Mr. Ludwick said on Kolb ditch, he has not heard anything from Tom Swain.

Commissioner Ossenberg said Mr. McCoy had called him about water standing on his property and there could be a legal suit filed against the County. He said also that Mr. Shaw was getting water in his basement.

Mr. Martin said if they could make a 2 ft. cut for about 150ft. then all of this water could run down into Kolb Ditch. He said this is on City Property and City Property drains into the ditch.

Mr. Stephens said to try to get the City to do this.

Commissioner Ossenberg said he would call Mr. Price on the City Council and talk to him about it.

Mr. Martin said they should go down the west side of Fuquay Road and clean out the ditches, he said the county crew could do this.

Mr. Ludwick said what they want is if Kolb Ditch assessments last year go over 10% you have to go through the legal hearings, he said what they want to know from either Mr. Stephens or Mr. Swain is if it goes over the 10%, what can they do about getting it started before the first of the year.

Commissioner Ossenberg said they have asked for an answer from Mr. Swain for five weeks now and have not heard anything.

Mr. Stephens said he doesn't think they can but Mr. Swain is the one looking into it.

Meeting recessed at 11:50 a.m.

VANDERBURGH COUNTY CLERKS

VANDERBURGH COUNTY DRAINAGE
SEPTMEBER 30,1974

A meeting of the Vanderburgh County Drainage Board was held this 30th day of September, 1974 at 11:07 a.m.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: HAPRER DITCH

Mr. Jesse Dunville said that Harper Ditch came before the City Council Finance Committee and was approved for the section from Green River Road to Stockwell Road with one contingency, that they contact the Drainage Board to see about getting some kind of committment of doing the section that is in the county that runs from Division Street around to the east of the Woolco Store and turning back to the West-North of there tying into the new structure. He said this area needs to be dredged out and work to be done at both ends of this ditch that is in the City. He said they have flooding in the Harrison High School area and the only way to get that relieved and also to take care of other flooding out there is to bring this ditch down to grade two (2), the part that is in the County.

Mr. Nussmeyer said Mr.Greg Kemp would like to have it re-routed.

Commissioner Ossenberg asked Mr. Nussmeyer if Mr. Kemp said if the Commissioners would re-route the ditch on his property that he would pay for it.

Commissioner Ossenberg asked again about using the $30,000.00 that is contractual and Mr. Swain, the county attorney, said they could use it if they put it back.

Mr. Dunville said they would like to get word from the Commissioners so they can get started on it.

Commissioner Ossenberg said to let the record show that Mr. Dunville has a firm committment from the Drainage Board and that the county will cooperate and the county will work out their portion of the cost.
The estimated cost for this is as follows.....$550,000.00 for the City and $$8,000.00 for the County with Mr. Kemp agreeing to pay ½ for 3700 feet.

Commissioner Ossenberg said they would get a letter from Mr. Kemp on his participation, and upon receiving this letter they go into session for the possibility of abondoning Haprer Ditch east and south and at that time take it out of the Bridge Fund.

RE: KOLB DITCH

Commissioner Ossenberg said he wanted to talk to Mr. Dunville about Kolb Ditch. He said that Mr. McCoy has been calling him and he had Mr. Ed Martin out there several times, and somewh re along the line when the City took in the Fuquay Road area, the City must have put in a culvert or something out there. He asked Sam Biggerstaff if he was familiar with this and Sam said he didn't know.

Commissioner Ossenberg said since this has been done Mr. McCoy has lost five productive acres due to flooding, plus Mr. Shaw is getting a back-up of water in his basement. Mr. Shaw lives at Taylor and Fuquay.

Mr.Nussmeyer said what they propose is to take it down to Kolb Ditch.

Mr. Martin checked this ditch and he said if they cut the ditch 2 ft, for 150 ft.the water will flow down into Kolb Ditch.

Commissioner Ossenberg asked if they would have some cooperation from the City and Mr. Dunville said he would get with Mr. Martin on it.

Mr. Dunville asked if the City should do their part first or should the County.

Commissioner Ossenber said he just wants to avoid a law suit.

RE: CLAIMS

Mr. Nussmeyer presented the following claims for approval of payment.

LEO PAUL....Baehl Ditch....for cutting and burning.....$543.76

NORMAN E. MESSEL.....Cleaning of Keil and Sonntag-Stevens Ditches....$1,934.36

Commissioner Schaad moved the above claims be approved.....seconded by Commissioner Ossenberg.....so ordered.

Mike Ludwick said every year Mr. Harold Peters cleans that extra ditch out in Clover Lawn Subdivision. He said if the Commissioners will approve it again he will submit a claim on it next week.

Commissioner Ossenberg said for him to bring it in.

MEETING ADJOURNED AT 11:45 a.m.

VANDERBURGH COUNTY DRAINAGE
OCTOBER 7, 1974

A meeting of the Vanderburgh County Drainage Board was held this 7th. day of October, 1974, at 10:40 a.m.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them was dispensed with.

RE: CLAIM

Mr. Nussmeyer presented a claim from Mr. Leo Paul for the cleaning of Nurrenbern Ditch, 10,054 L.F. which was inspected and passed on October 3rd. 1974, in the amount of $703.78.

Commissioner Schaad moved that this claim be approved. Commissioner Willner seconded the motion. So ordered.

RE: HARPER DITCH

The matter of Harper Ditch was taken up last week at which time it was agreed to go structure to structure and to abandon this particular ditch.

Commissioner Schaad said that Mike Ludwick has a letter in his files from Gregory Kempf in a discussion with two gentlemen from the Gas Company, whereby Southern Indiana Gas & Electric Company has agreed to share the cost in doing this and since that time, discussion has come up to carry this all the way up to Oak Grove Road and bring it out Hirsch Ditch.

Mr. Eifler explained the procedure and said he thought there would be a savings of from $100,000.00 to $150,000.00.

Commissioner Ossenberg said he understands that they would have to get permission from the Gas Company to go all the way up to Oak Grove Road, also that the city will have to be contacted on it, and then they will have to find out what it is going to cost.

County Attorney Stephens said they are also going to have to worry about the maintenance in the future and if they want to maintain it as a legal drain, they are going to have to assess those property owners and there would have to be a new water shed.

After further discussion, Commissioner Schaad suggested that Mr. Eifler get with the city and the Gas Company and get the whole thing straightened out.

The meeting adjourned at 11:00 a.m.

VANDERBURGH COUNTY DRAINAGE
OCTOBER 15, 1974

A meeting of the Vanderburgh County Drainage Board was held this 15th. day of October, 1974 at 11:10 a.m.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: AIKEN AND AIKEN EXTENSION DITCHES

Mr. Nussmeyer said a few weeks ago they discussed the possibility of transferring $30,000.00 from their "Other Contractual Account" to do some work in different ditches and recover it over a five year period. When the County Council allowed this money for all legal drains there were no strings attached.
He said Mr. Karch is present and says if we would dredge this Aiken Extension instead of mowing it then it would only have to be done about every five years.

Mr. Karch said since we had this heavy rain the weeds are all layed down flat, so he would think instead of spending 10¢——12¢ per foot to have it mowed every year lets run a dragline down it every three to five years and forget it.

Mr. Nussmeyer said it would run approximately 60¢ to 70¢ per foot to have it dredged. We already have the contract for this year but we are talking about the future. He thinks we can take some of this $30,000.00 to do this job now and recover it over a five year period.

Mr. Stephens the County Attorney said he thinks it can be done.

Mr. Swain, County Attorney said we should get a contract this year so it can be encumbered, as this was not approved for the year 1975.

Mr. Karch asked Commissioner Willner if he thinks the rest of the farmers will go along with this and Bob said he thinks so, because in essence this is what Scott and Union Township Ditch Associations are doing now. We are paying them yearly and they aren't mowing, they are dredging. He thinks it can be done and if that is what the farmers want then we should do it, as it makes a better ditch He said however, he's not sure it could go for five years, but surely for three.

Commissioner Ossenberg asked Mr. Karch if he could get a signed petition from some of the major property owners of ten acres or more and submit it to the Drainage Board and Mr. Karch said since the property owners are still complaining about Eagle Slough he would rather not carry a petition.

Mr. Nussmeyer and Mike Ludwick are going to work with Mr. Karch in contacting these property owners.

RE: KOLB DITCH

Mr. Nussmeyer said they have this same problem in Kolb Ditch as in Aiken and Aiken Extension Ditches, so why not dredge it out of the $30,000.00 this year also. It would also have to be contracted before the first of the year so they can encumber the money. It would probably run about $6,000.00 for Kolb Ditch.

Commissioner Schaad said if there is other ditches to be done lets get them all under contract before the first of the year so we can encumber these funds.

Mr. Nussmeyer was instructed to get estimates for the dredging of Aiken, Kolb and any and all other ditches that need to be done and report them to the Drainage Board next week, if possible.

RE: CLAIMS

The following claims were presented to the Drainage Board for approval of payment.

PRIEST HAZELWOOD AND SON, INC.....Final Estimate.....Eagle Slough...$18,206.83.

Commissioner Schaad moved the above claim be approved.....seconded by Commissioner Ossenberg.....so ordered.

TAPP EXCAVATING....Eagle Slough Pier Protection...Final Estimate....$358.80.

Commissioner Schaad moved the above claim be approved...seconded by Commissioner Ossenberg.....so ordered.

RE: HARPER DITCH

Mr. Nussmeyer said they have discussed with Mr. Hurst at S.I.G & E. and we are going to have to deal with some property owners to obtain some easements if we want to put a ditch in because the Gas Co. has an easement for the utility line only. There are approximately four property owners involved. The old route will be abandoned and we'll have to re-route it and establish assessments based on this, as it will have to be maintained.

Mr. Stephens said if we are going to enclude new property owners and add new assessments it will have to be done through notices and hearings so that they might have an opportunity to object.

Mr. Nussmeyer said there will be new property owners involved.

Since nothing could be solved until we find out about the easements Mr. Nussmeyer was instructed to see if he can obtain some permanent easements.

Meeting adjourned at 11:45 a.m.

VANDERBURGH COUNTY DRAINAGE BOARD MEMBERS

SECRETARY: J. Decker

VANDERBURGH COUNTY DRAINAGE
OCTOBER 21, 1974

A meeting of the Vanderburgh County Drainage Board was held this 21st. day of October, 1974 at 10:25 a.m.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: BROWNING FERRIS INDUSTRIES OF INDIANA, INC.

President Ossenberg read the following letter:

Gentlemen:

You have granted Browning - Ferris Industries of Indiana, Inc. permission to install two (2) steel pipes in Eagle Slough and to cover them with compacted earth and stone in order to transport dirt from property located south of Eagle Slough across the Slough for use on the sanitary landfill site operated by Browning-Ferris Industries of Indiana, Inc. This permit, however, is to expire on November 1, 1974. It is deemed essential that dirt be moved across Eagle Slough onto the landfill site as long as possible. It is therefore respectfully requested that you extend the permit of Browning-Ferris Industries of Indiana, Inc. to continue its operation and to maintain the facilities for crossing Eagle Slough in place until such time as flood water, ~~or head water~~ from the Ohio River prevents further movement of dirt across Eagle Slough.

Very truly yours,
Gerald H. Evans

Mr. Evans said the Drainage Board members are familiar with the problem they are having with the existing land fill site and the need for dirt. The river has not risen yet as we haven't had the rain and we would like to request approval to continue hauling dirt from behind the Slough

Commissioner Willner moved that permission be granted.

Commissioner Schaad said should there be a deadline on it.

Mr. Evans said then why don't we change the expiration dtae to read until flood-water or head water prevents the hauling of dirt.

Commissioner Willner moved that his motion be amended to read as stated.

Commissioner Schaad seconded the motion.....so ordered.

RE: CRAWFORD-BRANDIS

Mr. Euler said he was up here to discuss a drainage problem on Burkhardt Road. It was customary some 40 years ago when all the farmers took care of the cleaning and digging out of the ditch that it be done in August and if it wasn't done in August they would get a second notice and if it still wasn't done the county would do it and this was all put on the tax bill. This year along side his house they didn't do anything until about the first of October and about a week after they cut the weeds then let them lay, there was a two inch rain and the water came down the ditch and under the culvert and was held up due to the fact they hadn't cleaned from there on down. It has made practically a dam there and he called the county garage and Mr. Harris came out and told him that it was on state right-of-way, but it really was caused because of the county's lateness in cutting it.
He said Saturday they came out and cut down partway on the ditch, the lower part near Boonville Highway is still not cut and there should be something done.
He said he has tried to talk to the state about this without any success, but he really feels it is a county problem.
He said another problem is there used to be the Nurrenbern Ditch running along Slaughter Avenue and that used to be cleaned out. It has been concreted and owned by the state for about 20 years now and it has never been cleaned out. There are places back from Burkhardt that the bottom of the ditch is almost level with the fields and our water can't get off. The water up around the Plaza Drive area rushes down and our fields stand in water.

Commissioner Ossenberg told Mr. Ludwick to contact the contractor and get the weeds out of there and and then call Mr. Lucas at the State Highway garage and let them get this problem solved immediately along Nurrenbern Ditch.

Mr. Euler said all of these years Plaza Drive owners have insisted on good drainage and have gotten cooperation and they don't pay anything like we do and we get the drainage and he just doesn't feel it is fair.

Commissioner Ossenberg said the city is billed and is paying just like property owners. They pay their portion through taxes in the Sewer Department.

RE: KOLB DITCH

Mr. Ludwick presented the water shed map of Kolb Ditch. He said the Kolb family owns all of the land in the water shed. He said he talked to Mr. Marion Kolb on the phone and he has agreed, because he doesn't want to waste his money in letting contracts for just the cutting of the weeds as they all want it dredged. He wanted Mr. Kolb to appear before the Drainage Board this Monday but he is sick with the flu and couldn't attend, but Mr. Ellikofer who is a brother - in - law to Mr. Kolb is present.
Mr. Ludwick said his theory is, and if they agree, they pay 35% of the assessment in the water shed, the city pays 41% and the city has said they would agree to anything we want to do. He is wondering though, will we have to go to the remaining 8% of the people and give them a notice. The Drainage Board, last week, was discussing a three to five year plan. He said he went to Mr. Kolb and discussed this with him and his total assessment would be $1,500.00 over a five year period, this being based on a $5,000.00 estimate for the project. Mr. Kolb has agreed to this if the bid goes for $7,000.00 or less.

Commissioner Willner asked Mike for a run down on the percentages paid and they are as follows:

Mr.Kolb.....30%
Mr. Ellikofer... 5%
City of Evansville.....41%
Vanderburgh County..... 4%
Department of Natural Resources.....5%
Other Land Owners.....7.5%

Mr. Ludwick said he figured on a $5,000.00 bid that the total yearly income on yearly assessments you would gain it all back in three to five years, whichever the Drainage Board preferres.

Mr. Ellikofer said he would be willing to pay this. He could take a plow and drain through his ground and be done with it but he wants to help out the rest of the family because its really getting to be a mess, as beans and corn are ruined every year.

Mr. Ludwick said some of these haven't been dredged in twenty years and cutting weeds just isn't going to solve the problem.

County attorney Bill Stephens said we really don't know how much money is involved and once we find this out and we realize we can't go beyond three years, maybe they will say its too much to pay in one year and then we'd have to go the route of giving notice to increase assessments.

Mr. Ludwick said other than Mr. Kolb and Mr. Ellikofer the only big ones are the Department of Natural Resources, City of Evansville and Vanderburgh County plus the 7.5% of the people in a Sub-Division.

Mr. Stephens said if this 7.5% of people object, are we prepared to assume that cost out of our own pocket.

Mr. Ludwick said since it would be only about $200.00 he wouldn't see why we couldn't and then we could forget about these people, if the Drainage Board members agreed to this.

Mr. Stephens said if we are going to go through with this, then the first thing to do is to see what the cost will be.

Commissioner Schaad moved that Mr. Ludwick be instructed to advertise for the dredging of Kolb Ditch.....seconded by Commissioner Willner....so ordered.

Mr. Euler said he feels the big problem is cleaning out in the sewer in Chickasaw Park, off of Pollack Ave, because it is too low and its filled up.

Mr. Ludwick said this was layed improperly in about 1965 and water stands in it all the time.

MEETING ADJOURNED AT 10:55 a.m.

VANDERBURGH COUNTY DRAINAGE
OCTOBER 28, 1974

A meeting of the Vanderburgh County Drainage Board was held on this 28th. day of October, 1974 at 10:20 a.m.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: CLAIM

The following claim was presented to the Drainage Board for payment:

DARRYL SCHMITT.....Cleaning a portion of Harper Ditch
Inspected and Passed on October 21, 1974.....$333.45

Commissioner Willner moved the above claim be approved.....seconded by Commissioner Schaad.....so ordered.

RE: NOTICE TO BIDDERS.....KOLB DITCH

Mr. Ludwick presented a legal ad to advertise for bids for the dredging of Kolb Ditch.

Commissioner Schaad moved it be approved for advertisement.

Commissioner Willner said are we going to use some of the $30,000.00 and replenish it.

County attorney Bill Stephens said the drainage code provides there can be established a general drain fund. It says the council shall add to that fund and we may use it as needed. He feels the statute is clear that we can go into it and award contracts out of it and let the fund build up again based on assessments on the area thats being improved. We don't have to pay it back in full and there is no time limit when to pay it back.

Commissioner Schaad said how ~~may~~ many years are we going to have the annual assessment and Mr. Stephens said we talked about it couldn't be done over five years and he looked it up and that only applies to reconstruction and not maintenance. However we will have to give notice if it raises their assessments 10% or more and Mr. Ludwick has told us that it will.

Commissioner Schaad said what if the ditch has to be cleaned again and Mr. Stephens said you can go back into the fund, because really this fund is in addition to the regular fund for each ditch.

Mr. Ludwick asked if the full $30,000.00 can be incumbered and Mr. Stephens said not unless it is contracted.

Mr. Ludwick said we have this $30,000.00 for 1974 but the county council didn't allow it for 1975.

Mr. Stephens said then what we need to do is go before the county council and get it re-instated for 1975.

Commissioner Schaad asked if there are any other projects we could do the Mr. Ludwick said the Kelly and Aiken and Aiken Ext and maybe some others could be improved. He said he would check it out.

Commissioner Willner seconded the motion to go ahead and advertise for the dredging of Kolb Ditch.....so ordered.

Mr. Ludwick showed Mr. Stephens a copy of a letter and asked if it should be sent to the property owners and Mr. Stephens said it is a good letter but we won't know the figures until the contract is let. He said he would re-write the notice and after we advertise for bids, receive them and take them under advisement we will then give notice to the owners on the date we set for a hearing and award the contract and if its under 10% we won't have to give notice. The first step however is to advertise for bids.

MEETING ADJOURNED AT 10:40 a.m.

VANDERBURGH COUNTY DRAINAGE
NOVEMBER 4,1974

A meeting of the Vanderburgh County Drainage Board was held on this 4th. day of November, 1974 at 10:45 a.m.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: CLAIMS:

The following claims were presented to the Drainage Board for approval of payment.

MR. GEORGE SEIB.....for cleaning of Henry, Aiken Extension and Kelly ditches.
Inspected and Passed October 2, 1974.....$1,842.30

Commissioner Willner moved the above claim be approved....seconded by Commissioner Schaad.....so ordered.

MR. LEO C. PAUL.....for cleaning Stockfleth Ditch and Barrs Creek
Inspected and Passed October 28, 1974....$3,127.56

Commissioner Willner moved the above claim be approved for payment....seconded by Commissioner Schaad.....so ordered.

RE: UNION TOWNSHIP DITCH ASSOCIATION:

Mr. Ludwick said he received a call this morning from the president of the Union Township Ditch Association and they are having trouble down there getting their ditches cleaned and they are requesting a one month extension of time. Mike siad he would recommend we give them this extra time.

Commissioner Schaad moved this extension of time be granted.....seconded by Commissioner Willner.....so ordered.

RE: BURKHARDT RD.....STORM SEWER

Mr. Nussmeyer said on the problem where Mr. Kissel is asking us to help him on the storm sewer. He said we are asking Mr. Kissel for additional right-of-way along Burkhardt Road and he is agreeable to this. He said he has talked to Mr. Ed Martin and he thinks we can work it out, so he will be in touch with Mr. Kissel and Ed Martin and report back on this at a later date.

MEETING ADJOURNED AT 10:50 a.m.

PRESENT:

DRAINAGE BOARD	COUNTY AUDITOR	COUNTY SURVEYOR	COUNTY ATTORNEY

VANDERBURGH COUNTY DRAINAGE BOARD MEMBERS

SECRETARY: J. Decker

VANDERBURGH COUNTY DRAINAGE
NOVEMBER 12, 1974

A meeting of the Vanderburgh County Drainage Board was held on this 12th. day of November, 1974, at 10:35 a.m. President Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

Commissioner Ossenberg explained to the visiting students who were present in honoring Youth Appreciation Week, that the Commissioners also serve as members of the Drainage Board and that it is important because the drainage situation in every county is a problem and is identified by ditches which are legal drains and these are the type ditches that may overflow and flood into the homes.

RE: REQUEST OF EXTENTION ON CONTRACTS

Mr. Ludwick said that during the past week, several people have called, asking for extensions on their contracts for the annual maintenance of the ditches this year and this includes the following:

Joe Seib on the Maidlow Ditch.....Russell Stratman on the Kneer Ditch
Leo Paul on the Crawford-Brandeis Ditch and the Wallenmeyer Ditch
Albert Schmitt on the Crawford-Brandeis Extension

Mr. Ludwick recommended that these people be given an extra month in which to complete the work as per their contract.

Commissioner Schaad moved that the extension of one month on their contracts be approved for the cleaning the above mentioned ditches. Commissioner Willner seconded the motion. So ordered.

Commissioner Ossenberg explained to the students that the Commissioners contract these drains to be cleaned by bid letting, such as they are going to do this morning and they have put a November 1st. deadline on the cleaning of these particular ditches and it appears that due to the bad weather, the contractors evidently have had trouble getting in to the ditches so they have asked for an extension of their contract to give them time to complete the work of cleaning these ditches, which was granted by this Board until December 1, 1974.

Commissioner Schaad said it might be interesting to the students, also, that when a legal drain has been declared, there must be hearings held for everyone that benefits from the legal drain in the watershed and they must all agree on what is to be done and if the majority doesn't agree, legal action must be taken, as those people are assessed on their taxes and billed by the Auditor to maintain or to build that particular ditch.

RE: OPENING BIDS FOR DREDGING KOLB DITCH

The following bids were received by the Commissioners for the dredging of Kolb Ditch.

Deig Brothers.....$15,631.00	Staub Excavating Co.....$7,829.00
Quentin Stahl.....$ 2,632.00	Tapp Excavating Co.....$5,495.50

Commissioner Schaad moved that these bids be referred to the Surveyors office for study and recommendation.

Mr. Ludwick said that we are getting into bad weather now so he put 60 calender days completion time in the specifications but the time may even have to be extended. He asked if he should wait a week to send out the letters or if he should send them now, as there are between 75 to 100 letters that will be sent to the people.

County Attorney Stephens recommended that the Commissioners take the bids under advisement and direct Mr. Ludwick to notify all the property owners whose maintenance rate will be affected and he can send out the letters and set a hearing date now. He asked Mr. Ludwick when he could send out the letters.

Mr. Ludwick said he could get them out tomorrow.

County Attorney Stephens said that the hearing can then be set for two weeks from today and at that time, he can then recommend the acceptance of the bid and set the rates at the same time.

Mr. Ludwick asked if they had to wait that long, if they couldn't go ahead and let the contract, because if they go with the low bidder, it would be less than 10%.

County Attorney Stephens said there will have to be a hearing if the amount of the annual assessment increases as much as 10% but that if he sees that by taking the low bid, that it won't exceed the 10%, then he will only have to come back and tell the Commissioners.

Mr. Ludwick said that he knows that 90% of the assessments are $3.00 assessments, that it doesn't make any difference what amount, as far as they are concerned, because there will still be a $3.00 minimum. He said they have the backing of Mr. Kolb and Mr. Elikofer, the other two that were involved so he was pretty sure it would be okay.

County Attorney Stephens said that Mr. Ludwick could figure it out to be sure and come in next week and tell the Commissioners and if this is found to be under 10%, he can award the contract but if it is over the 10%, he will have to send out the letters. He said authority could be given to Mr. Ludwick to send out the notices, if necessary.

Commissioner Schaad amended his motion, in that the bids be referred to Mr. Ludwick for one week, for study and recommendation and if it looks like it is going to be over the 10%, that he be authorized to send out the letters of notice and if not, to just come before the Commissioners for authorization to award the contract.

Mr. Ludwick said they hadn't decided on whether the Commissioners want this on a three year or a five year basis because there won't be any maintenance for the time designated.

Commissioner Schaad suggested this be delayed until next week, after Mr. Ludwick has studied the bids.
He then restated his motion by moving that this matter be referred to the Surveyors office and that Mr. Ludwick come back next week with a recommendation, at which time the necessary action will be taken by the Board. Commissioner Willner seconded the motion. So ordered.

The meeting adjourned at 10:50 a.m.

VANDERBURGH COUNTY DRAINAGE
NOVEMBER 18, 1974

A meeting of the Vanderburgh County Drainage Board was held on this 18th day of November, 1974, at 11:20 a.m. with President Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: AWARDING OF BIDS.....DREDGING OF KOLB DITCH

Mr. Nussmeyer recommended the contract for the dredging of Kolb Ditch be awarded to Quentin Stahl in the amount of $2,632.00. He said all of the bids were in order.

Commissioner Schaad moved the bid be awarded to Quentin Stahl.

Commissioner Willner asked if this increased their assessments 10% or more and Mr. Ludwick said no it won't if we go for three years and accept Mr. Stahl's bid.

Mr. Tom Pugh asked what the range of the bids were and Commissioner Ossenberg said from about $2600.00 to $15,000.00 with $5,000.00 and $7,000.00 in between.

Mr. Ludwick said in figuring this he took the amount the people are paying now. There are 79 people paying a $3.00 assessment, which they will remain the same and he ran five of the other ones just to check and if these five people didn't go over 10% then neither will any of the others. The Department of Natural Resources now pay $43.50 and they will then pay $47.85 yearily. The City of Evansville is now paying $344.80 yearly and they will increase to $363.90 yearly. He used the $2,632.00 bid to figure the above mentioned.

Mr. Pugh asked if they are replacing any bridges and Mike said not they are not. They are removing several pipe structures that will not be replaced because there will be no need for them. Mike said they will set this up on a three year basis.

Commissioner Willner seconded the motion to award the bid to Mr. Quentin Stahl. So ordered.

RE: CLAIMS

The following claims were presented to the Drainage Board for approval of payment.

LEO BITTNER...for the cleaning of Buente Upper Big Creek and Buente Upper Big Creed "A" Lateral. This was passed and accepted November 15, 1974 by the County Surveyor.....in the amount of $3,469.23

Commissioner Schaad moved it be approved....seconded by Commissioner Willner..... so ordered.

JOSEPH SCHMITT....for the cleaning of Aiken Ditch.....$507.78
Passed and inspected November 12, 1974.
Commissioner Schaad moved it be approved...seconded by Commissioner Willner.
So ordered.

Meeting adjourned at 11:30 a.m.

VANDERBURGH COUNTY DRAINAGE
NOVEMBER 25, 1974

A meeting of the Vanderburgh County Drainage Board was held on this 25th.day of November, 1974 at 10:43 a.m. with President Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: MAIDLOW DITCH:

Mike Ludwick said the contractor that holds the contract on Maidlow Ditch called last week and said there are about four (4) logs in the ditch that need to be removed and he went out there and checked and they are in there. He needs about $25.00 extra to take a chain saw in there and cut them up and remove them and burn them. He told him to go ahead and remove them as he felt they had to come out and this is a real cheap price.

Commissioner Willner said upon recommendation of Mr. Ludwick he would move they approve it....seconded by Commissioner Schaad and so ordered.

RE: KOLB DITCH

Commissioner Ossenberg asked when they are going to start on Kolb Ditch and Mike said he had fifteen (15) days from the awarding of the contract and he hasn't called the office yet. We are in the process of staking it off for the contractor.

Commissioner Willner asked is he going to use a dragline and Mike said yes, he will have to, as that is the only thing you can clean it with.

Meeting adjourned at 10:45 a.m.

RE: CLAIM:

The following claim was presented to the Drainage Board:

LEO PAUL.....FOR THE CLEANING OF CRAWFORD BRANDIS AND WALLENMEYER DITCHES

Crawford-Brandis....12,982 L.F.....		$1,168.38
Wallenmeyer..... 8,355 L.F.....		668.00
	TOTAL	$ 1,836.38

Passed and Inspected November 25, 1974

Commissioner Willner moved the above claim be approved....seconded by Commissioner Schaad.....so ordered.

Commissioner Willner asked are we still inspecting these ditches as they come in to see that they have been done and Dick said yes, we have a crew out now.

RE: HARPER DITCH

On the alignment of Harper Ditch, Mr. Nussmeyer said he submitted reports to the City engineer and Empire Steel and he wants to know if the Drainage Board wants him to proceed with this, as far as their participation in it and Commissioner Ossenberg said yes and to have a representative from Empire Steel to appear before the board next week, if possible.

RE: FUQUAY AND POLLACK AVE.

Mr. Ludwick said this was opened back up to the public last week. It is not finished yet, it has to be paved. They have signs up for road construction and travel at your own risk, but the public is driving on it.

Commissioner Schaad moved the above claim be approved....seconded by Commissioner Willner.....so ordered.

ANTHONEY SCHMITT....for maintenance on the following ditches.

Rusher Creek.....4,444 L.F.....$444.40
Lower Big.....7,501 L.F.....750.10

Inspected and passed on December 6,1974 TOTAL $1,194.50

Commissioner Schaad moved the above claim be approved.....seconded by Commissioner Willner.....so ordered.

RE: HARPER DITCH

Mr. Mike Ludwick said that Mr. Nussmeyer invited Mr. Graig Kemp and Mr. Earl Rehm to speak to the Drainage Board on the preliminary report on Harper Ditch that we have submitted to them. A report was also submitted to the city engineer's office. Mike said he talked to Mr. Eiffler this morning and what we really want from the City is a committment of money but as of today he hasn't heard from them.

Mr. Kemp spoke at this time stating that he talked with Mr. Nussmeyer and reviewed the drawings which showed two plans. One showed going from Division Street all the way through to Oak Grove Road, which follows a Southern Indiana Gas easement. He said he understands we may need a signature of the Hirsch property which might be difficult to get. The drainage ditch itself needs some work done on it. The grades have been set extremely high, to get such buildings as Sears and office buildings, etc., out of the flood plain. He thinks early in the spring this water will back up and cause some flooding problems.

Since the ditch goes through ground that he has title to, he feels it would be important to the future development of the ground to get this improvment and he would be willing to participate in this finanially. He said Mr. Nussmeyer gave him a figure of approximately $10,000.00 of which he would be willing to pay 30% or $3,000.00 to re-route this ditch along our east line and cut it through the end of the Baumgart property. So he just wants the Drainage Board to know he is interested in this project, and would be willing to pay his part,after he knows totally what's involved.

Commissioner Ossenberg asked if we've had any word from the City and Mike said nothing yet and he feels we shouldn't make a decision until we get some type of money committment from the City.

Mr. Kemp said the land he has happens to be in the path of the drainage ditch but there are several others that will benefit from this. The one he feels it will benefit most is a little church across Division St.

Mr. Ludwick said in figuring this they have did it two ways. Going north all the way from Division to Oak Grove Road and he believes this cost was estimated around $25,000.

Mr. Earl Rehm said the city has already planned some re-work on the box culvert at Green River Road which could be reduced ccnsiderably if the ditch went through north and went to Oak Grove Road, so lets consider this also.

County attorney Bill Stephens asked if they chose the shortest route would we have to purchase additional right-of-way and Mike said no.

Commissioner Ossenberg instructed Mr. Ludwick to contact Mr. Eiffler again and request his presence at next Monday's Drainage Board meeting.

MEETING ADJOURNED AT 10:40 a.m.

DECEMBER 16, 1974

A meeting of the Vanderburgh County Drainage Board was held on this 16th. day of December, 1974 at 11:40 a.m. to 11:45 a.m. with President Thomas Ossenberg presiding.

The minutes of the previous meeting were approved as engrossed by the Auditor and the reading of them dispensed with.

RE: CLAIMS

The following claims were presented to the Drainage Board for approval:

ALBERT E. SCHMITT....for the cleaning of Crawford Brandis Ext.
Inspected and passed Dec.12,1974.....$2,121.06

Commissioner Willner moved the above claim be approved upon recommendation of the Surveyor.....seconded by Commissioner Schaad.....so ordered.

EDWARD H. STEINKAMP....for the cleaning of Edmond Ditch
Inspected and passed Dec.13,1974.....$461.85

Commissioner Willner moved the above claim be approved, as recommended by the Surveyor.....seconded by Commissioner Schaad.....so ordered.

RE: UNION TOWNSHIP DITCH ASSOCIATION

Mr. Ludwick said the Union Township Ditch Association is having difficulty in getting the rest of their ditches cleaned and they are requesting a three (3) week time extension and he would recommend it be approved.

Commissioner Willner moved the extra time be approved....seconded by Commissioner Schaad.....so ordered.

RE. BUENTE UPPER BIG CREEK

Commissioner Willner said he has received some complaints about trees growing in the Buente Upper Big Creek and he would like for someone to look at it and report back. Mike said he would see that it is checked into.

RE: HARPER DITCH

Mr. Dick Eifler said he talked to Mr. Jesse Crooks about Harper Ditch and he suggested we hold off on it until we get more details and can discuss it more. He said Mike has talked to him about the City sharing the cost of it but he hasn't found the source yet. They are still looking into the legallity of being able to do it, as they do have the money.
He said the City is assessed on it now as they are in the water shed, but a portion in the city has been abondoned and they don't know how much of what is to be reconstructed will be in the City, if any.

Mr. Stephens said won't it relieve the water at the intersection of Boonville Highway and Green River Road.

Mr. Eifler said yes it will and they are highly interested in doing it.

Mr. Stephens said he thinks the city can do it, but it will be up to the city attorney John Cox to tell them so.

Inspected and passed Dec. 17, 1974.....$154.42.

Commissioner Willner moved the above claim be approved as recommended by the Surveyor. Commissioner Schaad seconded the motion. So ordered.

RE: BUENTE BIG CREEK

Mr. Ludwick reported that as requested by Commissioner Willner at the last meeting, he had contacted the contractor Leo Bittner. With Inspector John Singer from the Surveyor's office, the Contractor and he personally, walked the entire area and found the following situation. There are 5 or 6 farmers in the area that think they know more about how to take care of the ditches than the Engineers, thus their complaints. He said there were no trees in the flo-line and only a few willow trees on the banks, which were not impairing the flow at all. However he ordered all trees 6 inches or larger to be cut and removed and by Friday, they had removed four. They also, as is the normal procedure, sprayed the grass instead of cutting it, even though this did not meet with approval of some people, this is necessary to prevent erosion. He stated that if you start caring for these areas like front lawns you would be getting into something. The grass at present in the area is about 6 inches high. Then later, Mike Ludwick asked Commissioner Willner if he was satisfied with the action taken and if there was further action to be taken.
Commissioner Willner stated that he had not personally seen the ditch but that he had talked with some of the people and the Contractor and he felt there was some misunderstanding.
Mr. Ludwick said he thought that perhaps there may be some jealously involved because this ditch is not in the association and they had probably seen the association dredging other ditches, etc. that belong to the association. He suggested that it may be wise for them to look into and join the association thus they would get the same regular treatment as the otheres, also stated that about 80% in the association are well satisfied.
Commissioner Schaad asked how these people were related to what is and what isn't the correct procedure.
Mr. Ludwick said they would have to have the situation explained to them in detail and that everyone would have to share in the expense according to their assessment, also reaping the benefits thereof.
Commissioner Willner said to let it ride for now, that he, personally, would discuss the situation with persons involved and would follow through on it himself.

RE: KOLB DITCH

Mr. Ludwick reported the County had completed their work on this ditch from Pollack through Covert Avenue and now the City should or can do their part at this time. The County was on this work two weeks and did a fine job, even Mr. McCoy, who was going to file suit, was apparently very satisfied as he had told Commissioner Willner

Mr. Ossenberg requested that Mr. Ludwick contact whoever was responsible for the City and ask that someone appear at our next meeting that will be held on Tuesday, December 31st. at 9:30 a.m. and that he be prepared to give the Commissioners some information as to when the City would do their share.

Mr. Ossenberg wished everyone a Merry Christmas and a Happy New Year, also Good Luck for the coming year.

The meeting adjourned at 10:45 a.m.

VANDERBURG COUNTY DRAINAGE BOARD
DECEMBER 31,1974

A meeting of the Vanderburgh County Drainage Board was held on this day, December 31st 1974 at 10:15 a.m. with President Thomas Ossenberg presiding.

The minutes of the previous meeting were approved as corrected. Later they were ammended again in reference to an incorrect name. Motion for approval was made by Commissioner Willner and .....seconded by Commissioner Schaad.....so ordered.

RE:CLAIMS

The following claim was presented to the Drainage Board for approval:

QUENTIN STAHL..... for the dredging of Kolb Ditch.

Total.....	$2,624.42
Deductions...	787.32
Balance....	$1,837.10
Prev. Pmts...	0.00
Amt. Due...	$1,837.10

Commissioner Willner moved the above claim be approved as recommended by the Surveyor.....seconded by Commissioner Schaad.....so ordered.

RE KOLB DITCH:

Mr Ludwick announced as requested by Mr. Ossenberg at last meeting he had contacted Mr. Eiffler from the City and in his absence Mr. Sam Biggerstaff was here to speak for the City. Mr. Ossenberg again stated the County had completed their work and it was now ready for the City to complete theirs, Mr. Biggerstaff said the city would begin as soon as the weather permitted. He stated they would do Brentwood end first and then Fuquay road second.
Mr. Ossenberg asked if some sort of a written report could be made when they started and as to their progress, partly as this may help Mr. McCoy, who was happy now and this may keep him that way.
